To whom it may concern,

As a homeowner on Palm Island/Don Pedro Island. I Object to the proposal and ask the PSC to deny the Application for Original Certificate of Authorization. To be straightforward I'm a common sense person and I do not understand all of the reasons why this particular company would like to take on this project but it seems to me that it is not in the best interest of me personally. There are a lot of red flags that gives me caution. In my personal life when there are red flags I take a step back and research more until I'm comfortable with the decision. I sincerely request that you deny EU's request of their application.

I appreciate your service to our community no matter your decision!

Thank you,

**Matthew Weston**
