Subject: Docket #20200226-SU

Hello we are Roger and Michelle Zakrajshek property owners at 430 Kettle Harbor Drive Placida Fl on Don Pedro Island.

I am emailing you to object to EU's proposal for central sewer on Don Pedro Island and request you deny the application for wastewater.

There is no need for new service. What we have on the island is working and there have been no studies done stating that the current septic systems are harming the environment. Most people on the island do not want more development which would come with more people and more pollution problems as well. Existing habitat will be destroyed which as well brings up a huge environmental concerns on an island with already fragile ecosystems.

We do not believe the applicant has the financial ability to perform the work. Nor do they have the technical ability to perform the work.

Also the rates that were proposed were not fair and equitable. Also there are hidden costs that have not been discussed.

Thanks,

Roger and Michelle Zakrajshek
