Good Afternoon, Michael McCully.

We will be placing the comments below in consumer correspondence in Docket No. 20200226, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket #20200226-SU

County Commissioner/Clerk,

My name is Michael McCully and I am a current home owner at 61 Kettle Harbor Dr, Placida FL, 33946 on Don Pedro Island.

It's been brought to my attention that county is in process of approving privatization of a centralized sewer system on Don Pedro Island.

I object to the current plans of the proposal and the unnecessary financial burden being placed on the homeowners to solve a problem which has not been researched, documented or shared with the homeowners. What exact issue is the sewer trying to solve? What is the new solution going to provide that is better than what exists today? What are all the options/alternatives? Why is it required? Why is the cost be pushed down to the homeowners?

I'm also confused how the County can forcibly create an unregulated monopoly on the homeowners of Don Pedro Island. My understanding of government control, laws and regulations is to protect its citizens from exact situations like these, not to create them. What protection mechanisms are provided to the homeowners?

I request that the proposal is denied.

Thank you for your time and consideration.

Mic McCully
