Hello Everyone,

I would like for all of you to deny the PSC EU's application for wastewater service on Little Gasparilla Island.

I have owned my property on LGI since 1978 and do not see a need for this service. Due to uncertain cost associated with the project, lack of technical expertise and unrealistic monthly fees for a service that is not necessary.

I feel this is unfair for people that have spent in the neighborhood of \$15-20K on new septic tanks and drain fields that would be removed - regardless of age.

Thank you so much for your support on this critical matter.

Bennie Boutwell
