COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company
Details:

Florida Senate Bill 1024, filed by Sen. Jennifer Bradley, will destroy Florida's rooftop solar industry by making rooftop solar uneconomical. "Rooftop solar installations declined 85% in other states that passed similar bills."

According to the Miami Herald (Dec. 20), "Documents show FPL wrote bill to slow rooftop solar's growth by hampering net metering,"

Like my dad, I was born and raised in Florida. I was always lead to believe Florida Power & Light was a "public utility" regulated by the Florida Public Utilities Commission. It now appears the FPL is a "political" utility regulated by Florida politics.

Florida Senate Bill 1024 need to be tossed and "net metering" let in place!

You are suppose to look out for the people of Florida and not the Florida politicians.
