Dear Commissioners,

Attached I have included a series of pictures to give a little clarification to the Little Gasparilla Island portion of the proposed service area of Environmental Utilities (EU).

Picture one shows the only official barge landing on LGI. It is at the end of Bay St. Please note the heavy rock that was placed to fill in the washed out section of the road. Please also note the close proximity to the homeowner dock next to the two golf carts. The homeowner dock is for use of the residents on Bay St and their only access to & from the island.
