Good Morning, Melissa Stead.

We will be placing your comments below in consumer correspondence in Docket No. 20200226, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Doc#20200226-su

To whom it may concern,

I am writing an opposition of environmental utilities LLC and their request for sewer on little Gasparilla island, Don Pedro Island and Knights Island. There is no need as we have a septic system. My family has a home at 8890 Gulf St. Little Gasparilla island we do not want to incurred the cost of something that is not necessary. Let alone disturbed the environment when there's a lack of need for it. In researching a land use expert Ellen Hargrove said central sewer systems were not allowed on bridgeless barrier islands. From my understanding raw sewage would be backing up into our home during a power outage. Why would I want that? I am opposed for the proposal from an inexperienced, private, for profit sewer utility when what I have is not broken.

Respectfully,
Melissa Stead
