Good Morning,

We will be placing your comments below in consumer correspondence in Docket No. 20220000-OT and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission

Subject: Ten Year Site Plan Comments to be Filed in Docket No. 20220000

Dear Clerk Of PSC,

I was alarmed to learn that Florida Power and Light's (FPL) preferred 10-year site plan proposes a new, expensive and unnecessary gas plant. The unsubstantiated justification given regarding winter weather forecast is extremely unlikely. FPL's projections will increase bills before even being relevant to meet our state's energy needs. The fact that FPL can pass the full cost of their projects, plus more profit for new infrastructure, onto customers offers a perverse incentive for FPL to build more than what we actually need.

New commitments to fossil fuels, including natural gas, will take Florida in the wrong direction. Floridians want more programs that help customers with the real weather risks we are facing, like extreme heat during the summer months. We want to invest in a renewable energy future and not be tied to forever profits for fossil fuels that are destroying our planet.

I am requesting that the Commission reject FPL's proposed site plan and urge them to invest in efficiency programs that save money, save energy, and help us meet our needs when the weather is most unbearable.

Sincerely,

Sincerely,
Ms. Caryle Cammisa
