**Subject:** FPL Minimum base billing charge

We installed solar panels on our home rooftop 5 years ago. We made a big investment, but we have been happy with it as it is good for the environment and good for our monthly bills. Now we see you have approved a \$25 minimum base bill charge that we are sure is aimed at punishing solar panel customers. Your decision again puts Florida behind on what our country and our world is coming to realize and act upon - climate change and the environmental disasters that are coming if we don't wake up and act! You are punishing the wrong entities! if you want to punish someone, punish those who want to keep using carbon-emitting fuel instead of solar and wind.
