COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company
Details:
Hi

I would like to add my voice of complaint to the many in regards to the \$25 minimum base charge introduced by FPL and approved by your commission. The basis of the complaint is that it is unjust to lower income families but also counter productive to enabling Florida to become a far less carbon emitting state (and thus the USA as a country). It penalises new and existing solar panel real estate footprint and investment - by increasing the need for solar farms instead of using existing homes and real estate which would save money. It also disincentivises saving power - in fact the opposite is achieved - making home owners not care as to how much power they consume as they have to pay for it anyway. It would be far fairer to increase unit cost per kWh to try and reign in use and thus save on emissions.

Yours sincerely
Andrew

Subject: FPL

We retired to Florida and on a fixed income. Not only did home owners insurance almost doubled but y'all allowed the FPL almost double! You are not thinking of the citizens! There are many ways they could have updated equipment without punishing NE Florida. Why are they allowed to have a monopoly! Follow the money. Someone's pockets were lined.

Shameful. When I was a former Mayor, I would not be able to sleep if I had allowed this to happen to so many elderly.
