To whom it may concern,

I would like to object to the application to transfer the water certificate #303-W and wastewater certificate #252-S, Docket #20220064-WS until such time that we have had the satisfactory completion of repairs to our roads and driveways that were torn up when the utility company pipes broke. Requests have been sent to the Tymber Creek Utilities via email, but the remedies have been insufficient. Curbing was destroyed and a railroad tie was used in lieu of curbing so any fill added to the area washed out. In another case a pipe broke and the homeowner's driveway was dug up and the repair was unsatisfactory. These need to be corrected prior to the transfer of the utility.

I requested to be added to Parties & Interested Persons, which was done on May 19, 2022, document 03026-2022 so I would get notices anytime there was something posted. I have not received 1 notification since that time and there have been 9 postings.

Best regards,

386-302-8014
