Mr. Adam Teitzman
Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Re: Docket No. 20220002-EG – Energy Conservation Cost Recovery Clause

Dear Mr. Teitzman:

Attached for electronic filing on behalf of Florida Public Utilities Company, please find Preliminary Statement of Issues and Positions.

Should you have any questions whatsoever, please do not hesitate to contact me. Thank you for your assistance in this matter.

Sincerely,

Beth Keating

ISSUE 3: What are the appropriate total conservation adjustment true-up amounts to be collected/refunded from January 2023 through December 2023?

FPUC: The total conservation true-up amount to be refunded during the period January 2023 to December 2023 is an over-recovery of \$107,979.

ISSUE 4: What are the total conservation cost recovery amounts to be collected during the period January 2023 through December 2023?

FPUC: FPUC seeks to recover \$754,171, which includes the projected incremental conservation costs.

ISSUE 5: What are the conservation cost recovery factors for the period January 2023 through December 2023?

FPUC: The Company asks for approval of a consolidated levelized conservation cost recovery factor for this period of \$.00113 per KWH.

ISSUE 6: What should be the effective date of the new conservation cost recovery factors for billing purposes?

FPUC: The factor should be effective beginning with the specified conservation cost recovery cycle and thereafter for the period January 2023 through December 2023. Billing cycles may start before January 1, 2023 and the last cycle may be read after December 31, 2023, so that each customer is billed for twelve months regardless of when the adjustment factor became effective.

ISSUE 7: Should the Commission approve revised tariffs reflecting the energy conservation cost recovery amounts and energy conservation cost recovery factors determined to be appropriate in this proceeding?

FPUC: Yes. The Commission should approve revised tariffs reflecting the energy conservation cost recovery amounts and establishing energy conservation cost recovery factors determined to be appropriate in this proceeding. The Commission should direct staff to verify that the revised tariffs are consistent with the Commission's decision.

ISSUE 8: Should this docket be closed?

POSITION: This is an ongoing proceeding; however, upon the conclusion of this year's proceeding, this docket should be closed, and a new docket should be opened to address cost recovery for 2023.

RESPECTFULLY SUBMITTED this 26th day of August, 2022.
