Commissioner Andrew Fay,

Re: 20220067-GU

I am writing as a concerned Florida resident and a natural gas customer. I received notification that my natural gas supplier intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reconsider this rate increase at this time.

Commissioner Andrew Fay,

Re: 20220067-GU

Two things are very wrong with this proposal. #1 if these four separate entities are merging into one their operating cost(s) should go down not up. #2 what is a "fair return on investment" for a "public" utility? What is your current return on investment, and how much will your return increase with these changes?

I urge you to reconsider this rate increase at this time.
