**Subject:** Docket No. 20220001-EI: No new electric rate hikes!

Commissioner Art Graham,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

**Sent:** Sunday, October 2, 2022 7:58 AM  
**To:** Office of Commissioner Graham  
**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Commissioner Art Graham,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

TECO just received a recent increase and are building hundreds/thousands of solar panels on acreage here in South Hillsborough County supposedly to lower the costs of electricity to their customers! They charge us exorbitant rate increases and they donate thousands of \$\$ and receive huge tax breaks. The majority of residents in this area are on fixed incomes and will soon be homeless and/or on welfare. Please do NOT all these rate increases.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases.
