**Subject:** Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from FPL, Duke and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years, and yet each time they go crying to you, you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida?

Another electricity rate increase is the last thing we need, especially for vulnerable folks, like me, a widow with one fixed income and struggling to recover financially from the pandemic and expenses from Ian. We are all inundated with price increases on everything. I've just

been told that I should check with Medicaid because my diabetes medication is too expensive for me to buy. I can't have another added expense to my monthly income. At age 73, I already have had to get a part-time job.

I urge you to reject these rate increases.

Cheryl Haley
