Office of Commissioner La Rosa; Office of Commissioner Passidomo
Subject: Please Reject Electric Rate Increases

Docket No. 20220001-EI

I am writing as a concerned Florida resident and an electricity customer. I received notification that Tampa Electric (TECO) intends to increase power rates 10% in 2023 for customers like me. I am urging you to reject these proposals and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who like myself are living on a fixed income and others struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these rate increases at this time.

How many rate increases is the Commission going to approve? When is enough enough for our retired folks? When will the commissioners stand up for the mission of setting fair rates?

Thank you for listening,

Martin and Janine Erlenbaugh
