Subject: Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke, FPUC, and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.

FPL has already increased prices last year with little to no warnings. In northern FL, some

people couldn't even afford heating. We should be trying to make FPL stop taking advantage of their solar power customers and make it easier to use clean energy instead of continuing to make them rich so they can continue to discourage the use of solar energy. Let's start making FPL pay, not the customers who cannot handle any more of this price gouging. Stop passing laws that don't effect people with the most income!
