Subject: FLP Rate Changes

To whomever this may concern,

I am writing this email to oppose the increased hike by the FPL that is to be introduced in April of 2023. This has been a historic time for Floridians with dramatic cost increases - we do not need an additional increase in price from our electric provider that the state relies on.

FPL reported record earnings of \$763 million in the fourth-quarter of 2022, a \$143 million increase from the fourth-quarter in 2021. Throughout the year of 2022, FPL reported \$3.701 BILLIONS in profit, more than in 2021.

I urge you to think of the everyday people of Florida in making this decision.

Thank you.

Sincerely,

Alexandra Zetlaoui
