My elec bill up 185% we are all getting screwed by ins and utility cabals. FLP is a monopoly that is for profit and profits are in the billions. Company CEO and share holders make more money and pay less taxes now their rate was lowered under last admin. So we know they will pay employees more (right)?? And improve their benefits. Nope just make more money they pay less taxes on. Yes they are out of control and will use lan as the reason to charge more.

RE: FPSC Inquiry 1415408C

Dear Eloryia:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

We appreciate you sharing your views and will add your correspondence to the following dockets:

* Docket No 20230017 regarding FPL's petition for limited proceeding for recovery of incremental storm restoration costs related to Hurricanes Ian and Nicole, by Florida.

* Docket 20230001 regarding FPL's middle course correction for fuel and purchased power cost recovery clause with generating performance incentive factor.

You may review all the information filed for Commission consideration in the above dockets by accessing the FPSC website at <http://www.floridapsc.com>. Under the Clerk's Office tab at the top of the page, click on Dockets. Type in each docket number. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by each utility and other parties in the docket.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

FPL rate increase due to hurricane & natural gas price
- Message**
Governor DeSantis: It appears FPL has filed a proposal with the Florida Public Service Commission (PSC) to adjust customer rates beginning in April to recover costs associated with the 2 hurricanes and the volatility of natural gas prices during 2022. If approved, it could mean a 4-9% increase in cost to the consumer. I have been cutting back as much as possible and inflation which has affected everything from food to gas to my medical as well as home insurance. As a former US Marine I am doing my best to sacrifice where I can but if we are told by President Biden that EVERYTHING should be electric then why does FPL use fossil fuels to run its fleet and because the fuel costs were significantly higher than projected when FPL set its rates for 2022 I now have to PAY for the difference. THIS is UNBELIVABLE and should be reviewed.
Thanks for your attention to this matter.

I have spent thousands of dollars trying to lower my powerbill new ac system new hot water heater more insulation. Since FPL took over my bill goes up nearly every month and now they are looking to get another rate increase to offset repairs to the infrastructure after the hurricane. I get that they had to fork out to rebuild. That's the cost of doing business. So their P and L takes a hit and maybe some of the execs get a couple million less in bonus this year. I get that fuel cost has increased but the rate increases are disproportionate to the fuel price increase. Please look out for us. It is rapidly becoming pay your power bill or put food on the table.

Mr. Governor,

My electric bill is high and I hardly use electricity and not you are allowing FPL to increase prices. Please find a way to stop this. We are not in need of EV facilities. You are putting the middle class in poverty with all these extra price increases.

I live in Pensacola, since the merger of Gulf Power and Florida Power and Light, there have been several rate increases. This is absolutely ridiculous that Gulf Power customers are being charged higher costs for electricity because FPL has taken over. The current rate increase needs to be rejected. FPL needs to absorb the cost and figure out how to stay in budget, like it's customers are figuring out.

Good afternoon Mr. DeSantis,
I have been a Florida native my entire life. We are living in a strange time right now with the current administration. I am the sole provider for my household. We have one child with a disability, causing one of us to stay at home as his caretaker/school teacher. This FPL increase would put an additional strain on our household along with the current inflation on all goods/services/rent we are all experiencing in this state we call home. My family implores you to block at a minimum this large increase in power cost. With the massive inflation, I may suggest a 2% increase over many more months would be an easier pill to swallow. Just an average guy's input. Thank you for your consideration. We appreciate all the other hard work you're doing for the state!!!
