I cannot agree to this extreme increase you are requesting. I would be more comfortable with half that amount though it to me would still be much too high. I wish I could increase my S.S. by this 20% which we both know that will never happen.

When water is put on a boil notice who pays for the cost to do this? I do. Then there isn't even a, "I'm sorry from the utility commission" or even a reduction in the monthly utility cost to cover my loss for this. Then there is the inconvenience to put up with. Sometimes we aren't even notified that the water will be shut off prior to so that we can prepare for it.

So I say NO to this ridiculous extreme increase.

P.S. My Account Nbr. G10

Also when will the fire hydrants be installed that were promised to us? So far no signs of this has come around?
