

April 30, 2024

Ms. Judy Harlow, Director  
Division of Economics  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

Dear Ms. Harlow:

Pursuant to Rule 25-6.0436(6), F.A.C., the company submits this annual depreciation status report for Electric Plant in Service and related Accumulated Provision for Depreciation for each functional category of plant for which a depreciation rate has been approved for the year ending December 31, 2023 with supporting schedules, including the prescribed components of booked plant and reserve activity.

Tampa Electric normally reviews changes in plans or utility experience that may require a revision of rates, amortization, or capital recovery schedules once every four years in compliance with Rule 25-6.0436. Florida Public Service Commission ("FPSC") Order No. PSC-2021-0423-S-EI dated November 10, 2021 reflects the latest approved revision of rates, amortization, recovery schedules and dismantlement accruals as of January 1, 2022.

Pursuant to Rule 25-6.0142(3), F.A.C., an updated listing of retirement units for Tampa Electric is attached with the 2023 year-end annual depreciation status report. The updated retirement unit listing, by functional category, entirely supersedes the retirement unit list that was filed on April 28, 2023 with the 2022 year-end annual depreciation status report.

Sincerely,

DocuSigned by:

*Richard Latta*

AFE7514A16FC4D5...

Richard Latta  
Utility Controller

SCHEDULE B-7

PLANT BALANCES BY ACCOUNT AND SUB-ACCOUNT

FLORIDA PUBLIC SERVICE COMMISSION

EXPLANATION: Provide the depreciation rate and plant balances for each account or sub-account to which a separate depreciation rate is prescribed. (Include Amortization/Recovery schedule amounts).
