RE: Rule 25-6.065 (10) F.A.C., Interconnection and Net Metering Report

Ms. Marr/Ms.Roberts:

The City of Blountstown currently does not have any net metered customers. We are working with Florida Municipal Electric Association to develop a net metering policy and standardized interconnection agreement for small customer-owned renewable generation. We expect to adopt this policy in the near future.

Please contact me if you have any questions.

Sincerely,

Traci S. Hall
