ORDER DENYING REQUEST FOR ORAL ARGUMENT

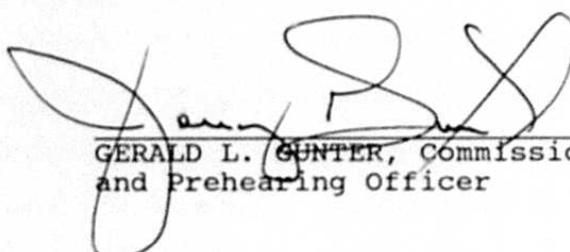

In Order No. 23792 issued in this docket, we found that a cogeneration contract within the 500 MW subscription limit must be evaluated against individual utility need at a need determination proceeding. Nassau Power Corporation filed a Motion for Reconsideration of several aspects of the order, and requested oral argument on the motion.

In this case, oral argument would not necessarily aid the Commission in comprehending and evaluating the issues raised by Nassau in its Motion for Reconsideration. Accordingly, the request for oral argument is denied.

Accordingly, it is

ORDERED by Commissioner Gerald L. Gunter, Prehearing Officer, that the above-referenced request for oral argument made by Nassau Power Corporation is hereby denied.

By ORDER of Commissioner Gerald L. Gunter, Prehearing Officer, this 27th day of MARCH, 1991.
