ORDER SUSPENDING TARIFF

BY THE COMMISSION:

On February 8, 1991, GTE Florida Incorporated (GTE or the Company) filed a tariff revision proposing to introduce Switched Data Service (SDS). SDS is a proposed data or data-plus-voice offering which would provide end-to-end digital connectivity via the public switched telephone network.

On March 8, 1991, our Staff sent data requests to GTE regarding the costs, rates and revenues of the service. Although the Company responded to these requests, additional clarification was needed. To date, GTE has not been forthcoming with the required information. Therefore, we hereby suspend the tariff until GTE provides us with the necessary information.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that GTE Florida Incorporated's tariff filing to introduce Switched Data Services which would provide customers with end-to-end digital connectivity via the public switched network is hereby suspended pending the receipt of additional requested information concerning the service's costs, rates, and revenues. It is further

ORDERED that this docket remain open.
