ORDER APPROVING TARIFF FILING TO
DELETE AUXILIARY LINE SERVICE

BY THE COMMISSION:

St. Joseph Telephone and Telegraph Company (the Company) has filed a tariff to delete its auxiliary line service. Auxiliary line service is available to subscribers receiving two-way flat rate individual line business service. Such subscribers may contract to obtain one or more auxiliary lines on the same premises they already receive two-way individual line business service. These auxiliary lines allow only one-way inward service to the customer. Auxiliary line services have phone numbers which are consecutive with those of the two-way individual business access line located on the premises. The rate for auxiliary line service is set as one-half the individual line business rate in that particular exchange.

The Company asserts that there would be no affected customers or revenue impact if this tariff deleting the service is approved because no customers currently subscribe to the service. The Company states in its filing that according to its records it "...has not had an occasion to provide this service for a minimum of ten years."

Upon review, we find that deletion of this service is appropriate.

Therefore, based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the tariff filing by St. Joseph Telephone and Telegraph Company to
