ORDER APPROVING TARIFF FILING

BY THE COMMISSION:

On November 20, 1991, AT&T Communications of the Southern States, Inc. (ATT-C) filed a tariff which introduces a new rate schedule, Option B, under ATT-C's Plan K service. Plan K is a switched service which permits 800 number calling from stations located in the State of Florida to a station associated with a customer's local exchange telephone. The customer's access line for Plan K is the same line as his or her local exchange line. The customer may select the area code with the state from which calls will be accepted.

This filing provides an additional billing option for customers. The existing rate will be maintained and available to all customers who do not choose to subscribe to Option B. Current rates available to the customer for ATT-C's 800 Plan K are billed on increments of one tenth of an hour. This tariff introduces a second rate schedule. To subscribe to Option A, a customer must take interstate 800 Plan K service, which contains a \$6.00 monthly recurring charge for service. Customers selecting Option B will not be charged this \$6.00 monthly recurring charge for interstate service. Instead, they would pay \$12.00 for up to 30 minutes of inter- and intrastate usage and \$.3150 per minute thereafter for any intrastate call.

The proposed rates of Option B for Plan K exceed the cost of LEC access, including billing and collection. ATT-C asserts that this new option is not expected to alter the Company's estimated first year demand of 1000 new Plan K customers nor is it expected to have any revenue effect. Based on the foregoing, we find it appropriate to approve this tariff filing. At the conclusion of the protest period, if no protest is filed, this docket shall be closed.
