Re: Docket No. 921098-WS
Turkey Creek Utilities

Dear Edie:

We want to put in for a rate increase for our fire hydrant service fee, and therefore, would appreciate your advising by return mail the procedure we must follow to do this.

As you know, the utility only charged \$19.98 per per hydrant per year in the past because the Owners Association operated each year with a deficit, and since Turkey Creek, Inc. was responsible for said deficit, there was no need to increase this amount to an appropriate charge because Turkey Creek, Inc., would only have to pay it. However, since Turkey Creek, Inc. no longer has control of the Association and is no longer responsible for any deficit, we feel the Association should pay an appropriate charge for this service to the utility.

Please respond in writing on or before **April 12, 1993.**

Yours very truly,

TURKEY CREEK UTILITIES

Norwood W. Hope
