ORDER MODIFYING REPORTING REQUIREMENT

BY THE COMMISSION:

By Order No. 25450, issued December 9, 1991, we directed BellSouth Telecommunications, Inc. d/b/a Southern Bell Telephone and Telegraph Company (Southern Bell) and United Telephone Company of Florida (United) to implement the \$.25 message rate plan on the Kissimmee/Orlando, St. Cloud/Orlando, and West Kissimmee/Orlando routes. The plan was subsequently implemented on these routes on June 1, 1992. Our Order further required both companies to file detailed quarterly reports for a period of three years following implementation of the \$.25 plan on these routes.

On May 11, 1993, United filed a request that the three-year reporting requirement be reduced to one year. United contends that these reporting requirements are burdensome, and that reducing the reporting period to one year would be consistent with the time periods imposed on it in other dockets. United notes that there are four routes on which it is only required to submit reports for six months, and that Order No. 25450 is the only order requiring such reports for more than one year.

Upon consideration, we find it appropriate to grant United's request. These routes were some of the first \$.25 plan routes to be implemented. The purpose of the report is to monitor the results of the plan and three years was originally believed to be reasonable. However, we now routinely require these reports to be filed quarterly for a period of one year. In addition, this modification shall also apply to Southern Bell, to keep the filing requirements for both companies consistent.
