RE : DOCKET NO. ~~920260~~-TL: COMPREHENSIVE REVIEW OF REVENUE
REQUIREMENTS AND RATE STABILIZATION PLAN OF SOUTHERN BELL
TELEPHONE AND TELEGRAPH COMPANY (T-94-240 FILED MAY 2,
1994)

AGENDA: JUNE 21, 1994 - REGULAR AGENDA - TARIFF FILING -
INTERESTED PERSONS MAY PARTICIPATE

CRITICAL DATES: 60-DAY SUSPENSION DATE: JULY 1, 1994

SPECIAL INSTRUCTIONS: I:\PSC\CMU\WP\920260A.RCM

CASE BACKGROUND

This docket was initiated pursuant to Order No. 25552 to conduct a full revenue requirements analysis and to evaluate the Rate Stabilization Plan under which Southern Bell (SBT or the Company) had been operating since 1988. Hearings were rescheduled several times in an effort to address all the concerns and issues that arose with the five consolidated proceedings over the ensuing two and a half years.

On January 5, 1994, a Stipulation and Agreement Between OPC and Southern Bell was submitted. On January 12, 1994, Southern Bell filed an Implementation Agreement for Portions of the Unspecified Rate Reductions in Stipulation and Agreement Between OPC and Southern Bell. Other parties filed motions in support of the Stipulation and Implementation Agreement. The Commission voted to approve the terms of the settlement at the January 18, 1994 agenda conference (Order No. PSC-94-0172-FOF-TL). The terms require, among other things, that rate reductions be made to certain of Southern Bell's services. Some of the reductions have already been implemented. Other reductions are scheduled to occur according to the following time table:

DOCUMENT NUMBER-DATE

05685 JUN-94

FPSC-RECORDS/REPORTING

DOCKET NO. 920260-TL
JUNE 9, 1994

7/1/94	• Switched access reductions - \$50 million
10/1/95	* Switched access reductions - \$55 million * Unspecified rate reductions - \$25 million
10/1/96	* Switched access reductions - \$35 million * Unspecified rate reductions - \$48 million

This recommendation addresses Southern Bell's filing to reduce its switched access charges by \$50 million, scheduled to become effective July 1, 1994.

DISCUSSION OF ISSUES

ISSUE 1: Should Southern Bell's filing to reduce its switched access charges by \$50 million, be approved as filed?

RECOMMENDATION: Yes, Southern Bell's filing to reduce its switched access charges by \$50 million, should be approved as filed effective July 1, 1994.

STAFF ANALYSIS: Southern Bell has proposed to reduce its switched access rates in three phases as shown below:

-- Figures are expressed in cents per access minute --

Rate Elements	Current	7/1/94 (\$50M)	10/1/95 (\$55M)	10/1/96 (\$36M)	Interstate 12/29/93
CARRIER COMMON LINE	2.600	2.600	1.061	1.000	1.000
Originating	2.927	2.927	2.927	1.853	1.853
Terminating					
LOCAL TRANSPORT	1.540	.706 ¹	.706 ¹	.706 ¹	Varies ²
LOCAL SWITCHING	1.300	1.160	.876 ³	.876 ³	.839
INFORMATION SURCHARGE	0	0	0	0	.037
COMPOSITE RATE					
Originating	5.440	4.466	2.643	2.582	2.582
Terminating	5.767	4.793	4.509	3.435	3.435
TOTAL	11.207	9.259	7.152	6.017	6.017

As can be seen in the chart above, the Company has proposed or will propose reductions to all of the switched access rate elements. In this 1994 filing, SBT has proposed no reduction to the Carrier Common Line, but plans a two-step phase down beginning in 1995. SBT has proposed to reduce the Local Transport rate element to the interstate level in this filing, with no phase down. For Local Switching, the Company plans a three-step phase down beginning with this filing.

¹ Since Florida Local Transport rates are not distance sensitive, proposed rate is a weighted average of the interstate rates.

² Rates vary by distance.

³ Includes information surcharge.

DOCKET NO. 920260-TL
JUNE 9, 1994

In response to staff data requests, Southern Bell stated that it believes that competitive alternatives are developing at both the state and federal levels to such a degree that the Company wishes to reduce its Local Transport rates to a more competitive level immediately. With this action, the Company hopes to keep switched access customers with Southern Bell, and not lose them to competition.

Staff believes that the Commission's general intent, although not its explicit policy, has traditionally been to reduce other non-traffic sensitive switched access rate elements after elimination of the BHMOC, before reducing traffic sensitive ones (Local Switching and Local Transport). Southern Bell perceives a major competitive threat to its Local Transport revenues, although switched access competition has not yet been authorized in Florida. It apparently does not perceive such a threat to its CCL revenues.

Staff sought the reactions of the four major IXCs in Florida as well as FIXCA, and none had any problems with the proposed schedule of SBT's switched access reductions. Given that the final rates will be the same no matter what schedule of reductions SBT chooses to adopt, staff believes SBT's proposal is reasonable, and recommends its approval. We would note that the Commission has recently approved reductions to the Local Transport rate for United Telephone Company for reasons similar to those which Southern Bell has argued here.

The Stipulation called for a reduction of \$50 million to become effective July 1, 1994. This filing produces a reduction to Local Transport revenues of \$42.9 million (54.1%) and to Local Switching of \$7.1 million (10.8%), for an annualized 1994 revenue reduction of \$50.0 million.

ISSUE 2: Should this docket remain open?

RECOMMENDATION: Yes, this docket should remain open after the protest period on this filing, in order to allow the remaining activities to be completed. If a timely protest is filed, this tariff should remain in effect with any revenues held subject to refund pending the resolution of the protest.

STAFF ANALYSIS: Whether or not the Commission approves the recommendation in Issue 1, this docket should remain open.

Tallahassee, Florida 32301

Dear Mr. D'Haeseleer:

Pursuant to Florida Statute 364.05, we are filing herewith revisions to our Access Service Tariff. Following are the pages being filed:

Access Service Tariff

- Section E4 - Twentieth Revised Page 2
- Section E6 - Seventh Revised Page 54
- Eighth Revised Page 55
- Section E16 - Thirteenth Revised Page 3
- Original Page 4

This tariff filing is being made in compliance with the Commission's Order No. PSC-94-0172-FOF-TL, dated February 11, 1994, approving the Stipulation and Implementation Agreement. This filing is to implement the Phase I switched access reduction. Additionally, for Independent Telephone Companies concurring in Southern Bell's Access Service Tariff, this filing includes their rate changes that are as a result of Southern Bell's switched access reduction.

Attachment A provides additional supporting and explanatory information for the proposed tariff revisions. This attachment constitutes a comprehensive package which fulfills the basic requirements for supporting data specified in Rule 25-9.05.

Attachment A - Executive Summary

T-94-240

-2-

Acknowledgment, date of receipt, and authority number of this filing are requested. A duplicate letter of transmittal is attached for this purpose.

Your consideration and approval will be appreciated.

Yours very truly,

EXECUTIVE SUMMARY

In compliance with the Commission's Order No. PSC-94-0172-FOF-TL, dated February 11, 1994, approving the Stipulation and Implementation Agreement, Southern Bell is reducing switched access rates to interstate levels over a three year period. Below is a summary of the scheduled reductions and effective dates.

	<u>Amount of Reduction</u>	<u>Effective Date</u>
Phase I	\$50 million	July 1, 1994
Phase II	\$55 million	October 1, 1995
Phase III	\$36 million	October 1, 1996*

*effective October 1, 1996, switched access rates will mirror the December 29, 1993 effective interstate rates.

This tariff filing is being made to implement the Phase I switched access reductions. The Phase I switched access rates have been reduced to yield a revenue reduction of \$50 million. This reduction was accomplished by reducing the Local Transport rate from \$0.01540 to \$0.00706 and Local Switching rates from \$0.01300 to \$0.01160. Additionally, for Independent Telephone Companies concurring in Southern Bell's Access Service Tariff, this filing includes their rate changes that are as a result of Southern Bell's switched access reduction.

Sheet 2 of Attachment A shows Southern Bell's switched access reductions to the December 29, 1993 effective interstate levels over the three year period. Sheet 3 of Attachment A is a comparison of the current and proposed Switched Access (FGD) rates. Sheet 4 of Attachment A is a summary of Southern Bell's priceout reducing Switched Access Services by \$50 million.
