A Florida Progress Company

FPSC-RECORDS/REPORTING

The following are Florida Power Corporation's post-workshop comments regarding proposed changes to Rule 25-6.049.

1. The Company agrees with the proposed changes for timeshares and marinas, with the understanding that the Company is compensated for any distribution lines and/or facilities that remain on the customer's side of the master meter required to continue service to the submetered accounts.
2. If non-utility submetering is allowed, the Company believes the following conditions should be met:
  - A. Development and implementation of a residential rate designed for multiple unit residential service.
  - B. The same rules for testing, accuracy, and standards apply to submetering that apply to utility metering.
  - C. The existing customer service rules are continued and the Commission maintains its authority to protect the ultimate customer's rights and services.
  - D. The Company is compensated for any distribution lines and/or facilities that remain on the customer's side of the master meter required to continue service to the submetered accounts.
