Re: Docket No. 970432-TL

Dear Ms. Bayo:

It is our understanding that the confidentiality of pay phone owners and locations will be considered during the above referenced docket.

In previous years the Public Service Commission, thru the Department of Revenue, has provided us with the owners and locations of pay phones in our county. This information has helped us discover property that the property owner otherwise would not have reported to us as directed by law. This information is confidential and is only used by this office.

The list of pay phones and owners as provided by the PSC is a useful aid in identifying property in our county. We would appreciate it if we can continue to receive this information.

Sincerely,
