ORDER APPROVING RESALE AGREEMENT

BY THE COMMISSION:

On September 16, 1997, GTE Florida Incorporated (GTEFL) and MET Communications, Inc. (MET) filed a request for approval of a resale agreement under the Telecommunications Act of 1996, 47 U.S.C. §252(e) of the Telecommunications Act of 1996 (the Act). The agreement is attached to this Order as Attachment A and incorporated by reference herein.

Both the Act and Chapter 364, Florida Statutes, encourage parties to enter into negotiated agreements to bring about local exchange competition as quickly as possible. Under the requirements of 47 U.S.C. § 252(e), negotiated agreements must be submitted to the state commission for approval. Section 252(e)(4) requires the state to reject or approve the agreement within 90 days after submission or it shall be deemed approved.

This agreement covers a two-year period and governs the relationship between the companies regarding the resale of tariffed telecommunication services. Under 47 U.S.C. § 252(a)(1), the agreement shall include a detailed schedule of itemized charges for interconnection and each service or network element included in the agreement. The agreement states that telecommunications services provided by GTEFL for resale will be available for purchase by MET at varied discount rates.

Such date (i.e., five Business Days after the Parties receive the written notice of approval) shall become the "effective date" of this Agreement for all purposes.
27. **Rule of Construction.** No rule of construction requiring interpretation against the drafting party hereof shall apply in the interpretation of this Agreement.
28. **Section References.** Except as otherwise specified, references within an Article of this Agreement to a Section refer to Sections within that same Article.
29. **Severability.** If any provision of this Agreement is held by a court or regulatory agency of competent jurisdiction to be unenforceable, the rest of the Agreement shall remain in full force and effect and shall not be affected unless removal of that provision results, in the opinion of either Party, in a material change to this Agreement. If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.

30. **Subcontractors.** Provider may enter into subcontracts with third parties or affiliates for the performance of any of Provider's duties or obligations under this Agreement.
31. **Subsequent Law.** The terms and conditions of this Agreement shall be subject to any and all applicable laws, rules, regulations or guidelines that subsequently may be prescribed by any federal, state or local governmental authority. To the extent required by any such subsequently prescribed law, rule, regulation or guideline, the parties agree to modify, in writing, the affected term(s) and condition(s) of this Agreement to bring them into compliance with such law, rule, regulation or guideline.
32. **Trademarks and Trade Names.** Except as specifically set out in this Agreement, nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other for any purpose whatsoever.
33. **Waiver.** The failure of either Party to insist upon the performance of any provision of this Agreement, or to exercise any right or privilege granted to it under this Agreement, shall not be construed as a waiver of such provision or any provisions of this Agreement, and the same shall continue in full force and effect.
34. **Amendment of Certain Rates, Terms and Conditions.** The Parties agree as follows with respect to modification of the rates, terms and conditions initially provided for herein:

The rates, terms and conditions in this Agreement that are specified in Appendix C (the "MCI Terms") were taken from the GTE/MCI Interconnection, Resale and Unbundling Agreement (the MCI Agreement) approved by the Commission in Docket No. 960980-TP. The rates, terms and conditions not included in this Agreement but referenced in Appendix D (the "GTE Terms") were excluded from the MCI Agreement by the Commission in Docket No. 960980-TP. GTE and MET agree that if the "MCI Terms" are deemed to be unlawful, or are stayed, enjoined or otherwise modified, in whole or in part, by a court or commission of competent jurisdiction, then this Agreement shall be deemed to have been amended accordingly, by modification of the "MCI Terms" or, as appropriate, the substitution of "GTE Terms" for all stayed or enjoined "MCI Terms", and such amendment shall be effective retroactive to the Effective Date of this Agreement.

GTE and MET further agree that the terms and conditions of this Agreement reflect certain requirements of the FCC's First Report and Order in CC Docket No. 96-98. The terms and conditions of this Agreement shall be subject to any and all actions by any court or other governmental authority that invalidate, stay, vacate or otherwise modify the FCC's First Report and Order, in whole or in part. To the extent required by any such subsequent action, the parties agree to modify, in writing, the affected terms and conditions of this Agreement to bring them into compliance with the subsequent action. MET acknowledges that GTE may seek to enforce such subsequent action before a commission or court of competent jurisdiction. GTE does not waive any position regarding the illegality or inappropriateness of the FCC's First Report and Order.

The rates, terms and conditions (including rates which may be applicable under true-up) specified in both the "GTE Terms" and the "MCI Terms" are further subject to amendment, retroactive to the Effective Date of the Agreement, to provide for charges or rate adjustments resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

If the Commission (or any other commission or federal or state court) in reviewing this Agreement pursuant to applicable state or federal laws, including Section 252(e) of the Telecommunications Act of 1996, deletes or modifies in any way this Section 34, then the Parties agree that they will reopen negotiations within ten (10) days of receipt of the final decision making such deletion or modification to attempt to craft the new provision that will provide substantially the same protections to GTE as this Section 34. If the Parties cannot reach agreement on such a provision within twenty (20) calendar days thereafter, the Parties agree that this entire Agreement is void and will not become effective, and MET agrees to withdraw this Agreement from consideration by the Commission (or any other commission or federal or state court).

## ARTICLE IV RESALE OF SERVICES

### 1. General.

The purpose of this Article is to define the Exchange Services and related Vertical Features and other Services (collectively referred to for purposes of this Article IV as the "Services") that may be purchased from GTE and resold by MET and the terms and conditions applicable to such resold Services. Except as specifically provided otherwise in this Agreement, provisioning of Exchange Services for resale will be governed by the GTE Customer Guide for CLEC Establishment of Services - Resale and Unbundling (the "Guide"), which may be amended from time to time by GTE as needed. GTE shall provide reasonable advance notification to MET of any changes to the Guide.

### 2. Terms and Conditions.

2.1 Class of Service. MET will resell to its end user customers the same class of service as was or would be provided by GTE to that end user customer, in accordance with State requirements. For example, MET shall not resell GTE residential service to an end user customer for use as a business class of service.

2.2 Resale to Other Carriers. Services available for resale may not be used by MET to provide access to the local network as an alternative to tariffed switched and special access by other carriers, including, but not limited to; interexchange carriers, wireless carriers, competitive access providers, or other retail telecommunications providers.

### 3. Ordering and Billing.

3.1 Local Service Request. Orders for resale of Services will be placed utilizing a standard Local Service Request ("LSR") form. A complete and accurate LSR (containing the requisite end user information as described in the Guide) must be provided by MET before a request can be processed.

3.2 Certificate of Operating Authority. When ordering, MET must represent and warrant to GTE that it is a certified provider of local dial-tone service. MET will provide a copy of its Certificate of Operating Authority or other evidence of its status to GTE upon request.

3.3 Letter of Authorization. A Letter of Authorization ("LOA") will be required before resold Services will be provided if the subscriber currently receives Exchange Service from GTE or from a local service provider other than MET. Such LOA may be a blanket LOA or such other form as agreed upon between GTE and MET, provided, however, that MET complies with the requirements for a signed LOA from the end user as specified in Section 3.4 when requesting information from GTE end user customer accounts.

3.4 Services Ordered. MET shall identify each specific GTE Service ordered for each MET end user customer: i.e., GTE will not transfer Services "as is."

3.4.1 **Customer Service Records.** GTE will not release information to MET on GTE end user customer accounts unless MET first provides a written Letter of Authorization, signed by the end user customer, authorizing the release of such information to MET.

3.5 **Nonrecurring Charges.** MET shall be responsible for the payment of all nonrecurring charges ("NRCs") applicable to resold Services. Non-recurring charges for MET which are not included in Appendix A are as follows:

|                                               |        |
|-----------------------------------------------|--------|
| Customer Service Record Research, per request | \$5.25 |
| Transfer of Service Charge, per order         | 16.00  |
| Initial Service Order, per order              | 41.50  |
| Subsequent Service Order, per order           | 24.00  |
| Installation, per line                        | 26.25  |

Outside Facility Connection Charge, per order (This charge will apply when field work is required for establishment of a new resale service. The terms, conditions and rates that apply for this work are described in the Company's retail local service tariffs.)

3.6 **Transfers Between MET and Another Reseller of GTE Services.** When MET has obtained an end user customer from another reseller of GTE services, MET will inform GTE of the transfer by submitting a standard LSR to GTE.

3.7 **Responsibility for Payment.** All charges for Services provided for resale under this agreement will be billed to MET, including all applicable taxes and surcharges, as well as the End User Common Line ("EUCL") Charge from GTE's Tariff FCC No. 1. MET is responsible for payment of charges billed, regardless of any billing arrangement or situation between MET and its end user customer. Notwithstanding, MET is not responsible for payment for any service ordered by its customers directly from GTE.

3.8 **Fraud.** MET assumes responsibility for all fraud associated with its end user customers and accounts. GTE takes no responsibility, will not investigate and will make no adjustments to MET's account in cases of fraud.

3.9 **Local Calling Detail.** Except for those Services and in those areas where measured rate local service is available to end users, monthly billing to MET does not include local calling detail.

3.10 **Customer Contact and Referral.** The Parties will provide each other with a number for referral of inquiries from customers. GTE will refer to MET all inquiries or other calls from MET's end users. MET will refer all inquiries or other calls from GTE's customers to GTE.

3.11 **Procedures.** An overview of the procedures for preordering, ordering, provisioning and billing for resold services are outlined in Appendix B, attached hereto and made a part hereof.

4. **Maintenance.**

4.1 **Maintenance, Testing and Repair.** GTE will provide repair and maintenance services to MET and its end user customers for resold Services in accordance with the same standards used for such services provided to GTE end user customers. GTE will not initiate a maintenance call or take action in response to a trouble report until such time as trouble is reported to GTE by MET. MET must provide to GTE all end user information necessary for the installation, repair and servicing of any facilities used for resold Services according to the procedures described in the Guide.

4.2 **Specifics and Procedures for Maintenance.** An overview of the procedures for maintenance of resold services and additional matters agreed to by the Parties concerning maintenance are set forth in Appendix B.

5. **Services Available for Resale.**

5.1 **Description of Local Exchange Services Available for Resale.** Resold basic Exchange Service includes, but is not limited to, the following elements;

- (a) Voice Grade Local Exchange Access Line - includes a telephone number and dial tone.
- (b) Local Calling - at local usage measured rates if applicable to the end user customer.
- (c) Access to long distance carriers
- (d) Access to GTE Operator Services
- (e) Access to GTE Directory Assistance
- (f) E-911 Emergency Dialing
- (g) Access to Special Access Codes - e.g., 800, 888, 900
- (h) Listing of telephone number in appropriate "white pages" directory; and
- (i) Copy of "White Pages" and "Yellow Pages" directories for the appropriate GTE service area

5.2 **List of Services Available for Resale.** The Services available for resale by MET are indicated on Appendix A attached hereto and made a part of this Agreement. Additional regulations, terms and conditions relating to the Services listed can be found in the appropriate intrastate local, toll and access tariffs.

Terms, conditions and other matters concerning rate applications, technical parameters, provisioning capability, definitions and feature interactions contained in such tariffs are applicable to the Services offered under this Agreement and are incorporated herein by reference. Notwithstanding the foregoing, to the extent that there is a direct conflict between the terms, conditions and other matters in such tariffs and any specific provision of this Agreement, the terms and conditions in this Agreement shall control.

- 5.3 **Rates.** The wholesale rate for all Services available for resale is listed in Appendix A.
- 5.4 **Non-Recurring Charges.** Charges associated with the installation of new services or features or changes to existing services or features are identified in Appendix A. No discount applies to nonrecurring charges.
- 5.5 **Grandfathered Services.** Services identified in GTE Tariffs as grandfathered in any manner are available for resale only to end user customers that already have such grandfathered service. An existing end user customer may not move a grandfathered service to a new service location.
- 5.6 **ICB Services.** Services provided by GTE to its end users established as an ICB (Individual Case Basis) service are available for resale. However, no discount applies to ICB Services.
- 5.7 **Access.** GTE retains all revenue due from other carriers for access to GTE facilities, including both switched and special access charges.
- 5.8 **Operator Services.** Access to GTE Operator Services for local and toll assistance (for example, call completion, busy line verification and emergency interruption) is included as an element of Exchange Services offered for resale. MET will be billed in accordance with rates included in GTE's Operator Services tariffs. No discount applies to operator services.
- 5.9 **Directory Assistance.** Access to GTE Directory Assistance is included as an element of Exchange Services offered for resale. MET will be billed in accordance with rates included in GTE's Directory Assistance tariffs. No discount applies to directory assistance.

**ARTICLE V**  
**ADDITIONAL SERVICES AND COORDINATED SERVICE ARRANGEMENTS**

1. **Transfer of Service Announcements.** For services other than GTE resold services, when an end user customer transfers service from GTE to MET, or from MET to GTE, and does not retain its original telephone number, the Party formerly providing service to the end user will provide, upon request and if such service is provided to its own customers, a referral announcement on the original telephone number. This announcement will provide the new number of the customer and will remain in effect for the same time period this service is provided to GTE's own end users. For GTE resold services, GTE shall provide an intercept referral on behalf of MET.
2. **Coordinated Repair Calls.** The Parties will employ the following procedures for handling misdirected repair calls:
  - 2.1 The Parties will educate their respective customers as to the correct telephone numbers to call to access their respective repair or customer care centers.
  - 2.2 To the extent that the correct provider of service to the customer is identifiable, the Parties will refer customers that make misdirected repair calls to the other Party to the telephone number provided by the provider of service to that customer. Such referrals will be made in a courteous manner and at no charge to the other Party. Communications with end users of the other Party during such misdirected calls other than referral to the correct number are prohibited.
  - 2.3 The Parties will provide their respective repair/customer care contact numbers to one another on a reciprocal basis.
3. **Directory Listings and Directory Distribution.** CLEC will be required to negotiate a separate agreement for directory listings and directory distribution, except as set forth below, with GTE's directory publication company.
  - 3.1 **Listings.** CLEC agrees to supply GTE on a regularly scheduled basis, at no charge, and in a mutually agreed upon format (e.g. Ordering and Billing Forum developed), all listing information for CLEC's subscribers who wish to be listed in any GTE published directory for the relevant operating area. Listing information will consist of names, addresses (including city, state and zip code) and telephone numbers. Nothing in this Agreement shall require GTE to publish a directory where it would not otherwise do so.

Listing inclusion in a given directory will be in accordance with GTE's solely determined directory configuration, scope, and schedules, and listings will be treated in the same manner as GTE's listings.
  - 3.2 **Distribution.** Upon directory publication, GTE will arrange for the initial distribution of the directory to service subscribers in the directory coverage area at no charge.

**CLEC will supply GTE in a timely manner with all required subscriber mailing information including non-listed and non-published subscriber mailing information, to enable GTE to perform its distribution responsibilities.**

**ARTICLE VI  
GENERAL RULES GOVERNING RESOLD SERVICES**

1. **General.** General regulations, terms and conditions governing rate applications, technical parameters, service availability, definitions and feature interactions, as described in the appropriate GTE intrastate local, toll and access tariffs apply to retail services made available by GTE to MET for resale items, when appropriate, unless otherwise specified in this Agreement. As applied to services or network elements offered under this Agreement, the term "Customer" contained in the GTE Retail Tariff shall be deemed to mean "MET" as defined in this Agreement.
2. **Liability of GTE.**
  - 2.1 **Inapplicability of Tariff Liability.** GTE's general liability, as described in the GTE Retail Tariff, does not extend to MET's customers or any other third party. Liability of GTE to MET resulting from any and all causes arising out of services or any other items relating to this Agreement shall be governed by the liability provisions contained in this Agreement and no other liability whatsoever shall attach to GTE. GTE shall be liable for the individual services, facilities or elements that it separately provides to MET and shall not be liable for the integration of components combined by MET.
  - 2.2 **MET Tariffs or Contracts.** MET shall, in its tariffs or other contracts for services provided to its end users using services obtained from GTE, provide that in no case shall GTE be liable to MET's end users or any third parties for any indirect, special or consequential damages, including, but not limited to, economic loss or lost business or profits, whether foreseeable or not, and regardless of notification by MET of the possibility of such damages and MET shall indemnify and hold GTE harmless from any and all claims, demands, causes of action and liabilities based on any reason whatsoever from its customers as provided in this Agreement. Nothing in this Agreement shall be deemed to create a third party beneficiary relationship with MET's end users.
  - 2.3 **No Liability for Errors.** GTE is not liable for mistakes that appear in GTE's listings, 911 and other information databases, or for incorrect referrals of end users to MET for any ongoing MET service, sales or repair inquiries, and with respect to such mistakes or incorrect referrals, MET shall indemnify and hold GTE harmless from any and all claims, demands, causes of action and liabilities whatsoever, including costs, expenses and reasonable attorney's fees incurred on account thereof, by third parties, including MET's end users or employees. For purposes of this Section 2.3, mistakes and incorrect referrals shall not include matters arising out of the willful misconduct of GTE or its employees or agents.
3. **Unauthorized Changes.**
  - 3.1 **Procedures.** If MET submits an order for resold services under this Agreement in order to provide service to an end user that at the time the order is submitted is obtaining its local

services from GTE or another LEC using GTE resold services or unbundled elements, and the end user notifies GTE that the end user did not authorize MET to provide local exchange services to the end user, MET must provide GTE with written documentation of authorization from that end user within three (3) business days of notification by GTE. If MET cannot provide written documentation of authorization within such time frame, MET must within three (3) business days thereafter:

- (a) notify GTE to change the end user back to the LEC providing service to the end user before the change to MET was made; and
- (b) provide any end user information and billing records MET has obtained relating to the end user to the LEC previously serving the end user; and
- (c) notify the end user and GTE that the change back to the previous LEC has been made; and
- (d) pay GTE fifty dollars (\$50.00) per affected line to compensate GTE for switching the end user back to the original LEC.

3.2 Option to Restrict Changes Without Evidence of Authorization. MET's or GTE's end users may request GTE to permit changes of their provider of local exchange services only upon end user password-based notification to GTE that the end user wishes to change the end user's provider of local exchange services. In such a situation, GTE will not change an end user's provider of local exchange services without such password-based notification.

4. Impact of Payment of Charges on Service. MET is solely responsible for the payment of all charges for all services furnished under this Agreement, including, but not limited to, calls originated or accepted at its or its end users' service locations. If MET fails to pay when due any and all charges billed to MET under this Agreement, including any late payment charges (collectively, "Unpaid Charges"), and any or all such charges remain unpaid more than forty-five (45) days after the due date of such Unpaid Charges, GTE shall notify MET in writing that it must pay all Unpaid Charges to GTE within seven (7) business days. Except that MET is not responsible for payment for any service ordered by its customers directly from GTE which GTE provides to the customer; or, for any service used by MET customers which are not MET purchased services for which GTE is the billing and collection agent. If MET disputes the billed charges, it shall, within said seven (7) day period, inform GTE in writing of which portion of the Unpaid Charges it disputes, including the specific details and reasons for the dispute, immediately pay to GTE all undisputed charges, and shall pay disputed charges into an interest bearing escrow account. If MET and GTE are unable, within thirty (30) days thereafter, to resolve issues related to the disputed charges, then either MET or GTE may file a complaint with the Commission to resolve those issues. The Commission may direct the release of any or all funds (including any accrued interest) in the escrow account, plus applicable late fees, to be paid to GTE and/or MET. If MET fails to pay any undisputed Unpaid Charges, MET shall, at its sole expense, within five (5) business days notify its end users that their service may be disconnected for MET's failure to pay Unpaid Charges, and that its end users must select a new provider of

... of Messages. With respect to measured rate local service or other usage sensitive services provided under this Agreement, chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. ... applicable

local exchange services. If MET fails to provide such notification or any of MET's end users fail to select a new provider of services within the applicable time period, GTE will provide local exchange services to MET's end users under GTE's applicable end user tariff at the then current charges for the services being provided. In this circumstance, otherwise applicable service establishment charges will not apply to MET's end user, but will be assessed to MET. GTE may discontinue service to MET upon failure to pay undisputed charges as provided in this Section 4, and shall have no liability to MET or MET's end users in the event of such disconnection.

5. **Unlawful Use of Service.** Services provided by GTE pursuant to this Agreement shall not be used by MET or its end users for any purpose in violation of law. MET, and not GTE, shall be responsible to ensure that MET and its end users use of services provided hereunder comply at all times with all applicable laws. GTE may refuse to furnish service to MET or disconnect particular services provided under this Agreement to MET or, as appropriate, MET's end user when (i) an order is issued by a court of competent jurisdiction finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law or (ii) GTE is notified in writing by a law enforcement agency acting within its jurisdiction that any facility furnished by GTE is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law. Termination of service shall take place after reasonable notice is provided to MET, or as ordered by the court. If facilities have been physically disconnected by law enforcement officials at the premises where located, and if there is not presented to GTE the written finding of a court, then upon request of MET and agreement to pay restoral of service charges and other applicable service charges, GTE shall promptly restore such service.

6. **Timing of Messages.** With respect to measured rate local service or other usage sensitive services provided under this Agreement, chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network.

**APPENDIX A  
SERVICES AVAILABLE FOR RESALE**

**GTE TERMS**

**General.** The rates contained in this Appendix A are based upon a wholesale discount from GTE's retail rates of 12.41% and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

## APPENDIX B OPERATIONS SUPPORT SYSTEM FUNCTIONS

1. Service Ordering, Service Provisioning, and Billing Systems Generally. The following describes the operations support systems that GTE will use and the related functions that are available in the short term to MET for ordering, provisioning and billing for resold services.

1.1 Operations Support Systems for Resold Services.

- 1.1.1 MET will also be able to order services for resale directly from GTE through an electronic interface. To initiate an order for these services, MET will submit a Local Service Request ("LSR") from its data center to GTE's Data Center using the same electronic NDM interface used for trunk-side interconnection. If MET chooses not to use the electronic NDM, GTE will accommodate submission of LSR orders by facsimile, E-mail, internet or a dial NDM arrangement. An LSR is very similar to an ASR, except that it will be used exclusively for line-side interconnection requests. GTE will transfer LSRs to GTE's NOMC centralized service order processing center electronically. If MET decides not to use an electronic interface to reach GTE's data center, or does not have data centers similar to MET's, GTE will accept requests for service through other forms or media directly to the NOMC.
- 1.1.2 Most LSRs will be used either to transfer an existing GTE customer to MET or to request service for a new customer who is not an existing GTE customer. Depending on the situation, different information will be required on the LSR. LSRs for a conversion of a GTE local customer to MET must include information relating to all existing, new and disconnected services for that customer, including the customer's name, type of service desired, location of service and features or options the customer desires. For service to a new customer who is not an existing GTE customer, the LSR must contain the customer's name, service address, service type, services, options, features and ALEC data. If known, the LSR should include the telephone number and due date/desired due date.
- 1.1.3 While MET would have its own customer information and the SAG/GTE products on tape from GTE, MET would not have the due date or new telephone number for new customers since that information is contained in GTE's systems. Therefore, a process is required to provide this information to MET. GTE itself does not have uniform access to this information electronically. Until there is agreement on electronic interfaces, MET has agreed that an 800 number is the method that will be used. The 800 telephone number will connect MET directly to GTE's NOMC service representatives. When MET receives a request for service from a new local service customer, MET will call GTE's NOMC through the 800 number, and, while the new customer is on hold, GTE will provide the due date for service and the new telephone number for that customer. At the same time, MET will give GTE the new customer's name, service address and type of

requested service (e.g., R1, B1, etc.). GTE will enter that information into its SORCES or SOLAR service ordering systems to be held in suspense until MET sends the confirming LSR. MET will then return to its customer holding on the line and provide the due date and new telephone number.

- 1.1.4 After concluding the telephone call with the new customer, MET will complete a confirming LSR for the new service and send it electronically to GTE's data center for processing. Upon receipt, GTE will match the LSR with the service order suspended in GTE's system, and if there is a match, GTE will process the LSR. After the LSR is processed, GTE will transmit confirmation electronically to MET through the NDM that the LSR has been processed, providing a record of the telephone number and due date. Of course, GTE cannot hold the LSR in suspension forever. Thus, MET will be required to submit the confirming LSR by 12:00 p.m. each day local time, as defined by the location of the service address. If MET fails to submit the LSR in a timely manner, the suspended LSR will be considered in jeopardy, at which time GTE will assign a new due date upon receipt of the delayed LSR for such customer requests and notify MET of the change.
- 1.1.5 Number assignments and due date schedules for services other than single line service will be assigned using the standard Firm Order Confirmation ("FOC") report sent electronically to MET over the NDM, thereby providing a record of the newly established due date. An exception would be a multi-line hunt group, for which the pilot number will be provided by the 800 number. The other numbers then will be provided through the normal electronic confirmation process.
- 1.1.6 The processing of specifically requested telephone numbers (called "vanity numbers") is as follows. GTE will work with MET on a real time interface to process vanity numbers while MET's customer is still on the line. If a number solution can be established expeditiously, it will be done while the customer is still on the line. If extensive time will be required to find a solution, GTE service representatives will work with MET representatives off line as GTE would for its own customers. For all of this, the basic tariff guidelines for providing telephone numbers will be followed.
- 1.1.7 Once the order for line-side interconnection service is established, it is moved for provisioning to the next system level. Here, GTE will validate and process the LSR to establish an account for MET and, if GTE continues to provide some residual services to the customer, GTE will maintain a GTE account. In GTE's system, GTE's account is called the Residual Account and MET's account is referred to as the ALEC Account. If any engineering for the service is necessary, the account would be distributed to the SSCC. Otherwise, it will be distributed for facility assignment.
- 1.1.8 With the account established and any engineering and facility assignment complete, GTE then will transmit electronically a record to GTE's CZT field

personnel if physical interconnection or similar activity is required. The CZTs will provision the service and then electronically confirm such provision in the SOLAR/SORCES system when completed. The accounts then will be transmitted to GTE's Customer Billing Services System ("CBSS"). Call records for actual service provided to MET's customers on GTE facilities will be transmitted from GTE's switches through some usage rating systems (BIP, UMS), screened and eventually delivered to CBSS for the generation of bills.

1.1.9 CBSS is a different system than CABS, and it is the one that GTE will utilize to produce the required bills for resold services. CBSS will create a bill to MET for resold services along with a summary bill master. Daily unrated records on MET's accounts also will be generated and transmitted electronically to MET. CBSS is the same system that generates GTE's own end user bill for GTE local and residual services.

1.1.10 In addition to the LSR delivery process, MET will distribute directory assistance and directory listing information (together sometimes referred to hereafter as "DA/DL information") to GTE's Data Center over the NDM. GTE will sort the data containing this information and process it to GTE's directory publication company and its directory assistance bureaus.

## 2. Maintenance Systems.

### 2.1 General Overview.

2.1.1 The maintenance operations support systems which GTE will use for MET are essentially the same as those GTE uses to provide its own local repair service. If MET requires maintenance for its local service customers, MET will initiate a request for repair (sometimes referred to as a "trouble report") by calling GTE's Customer Care Repair Center. During this call, GTE service representatives will verify that the end-user is an MET customer and will then obtain the necessary information from MET to process the trouble report. While the MET representatives are still on the line, GTE personnel will perform an initial analysis of the problem and remote line testing for resale services. If engineered services are involved, the call will be made to the GTE SSCC for handling. If no engineering is required and the line testing reveals that the trouble can be repaired remotely, GTE personnel will correct the problem and close the trouble report while MET representatives are still on the line. If on-line resolution is not possible, GTE personnel will provide MET representatives a commitment time for repair and a trouble ticket number, and the GTE personnel then will enter the trouble ticket into the GTE service dispatch queue. MET's repair service commitment times will be within the same intervals as GTE provides to its own end users.

2.1.2 Repair calls to the SSCC for engineered services will be processed in essentially the same manner as those by the GTE Customer Care Center. GTE personnel will

analyze the problem, provide the MET representative with a commitment time while they are still on the line, and then place the trouble ticket in the dispatch queue.

- 2.1.3 GTE then will process all MET trouble reports in the dispatch queue along with GTE trouble reports in the order they were filed (first in, first out), with priority given to out-of-service conditions. If, at any time, GTE would determine that a commitment time given to MET becomes in jeopardy, GTE service representatives will contact MET by telephone to advise of the jeopardy condition and provide a new commitment time.
- 2.1.4 Trouble reports in the dispatch queue will be transmitted electronically to GTE CZT service technicians who will repair the service problems and clear the trouble reports. For cleared MET trouble reports, GTE service technicians will make a telephone call to MET directly to clear the trouble ticket. GTE service technicians will make the confirmation call to the telephone number provided by MET. If MET is unable to process the call or places the GTE technician on hold, the call will be terminated. To avoid disconnect, MET may develop an answering system, such as voice mail, to handle the confirmation calls expeditiously.
- 2.1.5 GTE will not provide "on-line" access to GTE's maintenance support systems to "status" trouble tickets and close them except by special request on a per event basis.
- 2.1.6 GTE will resolve repair requests by or for MET local service customers using GTE's existing repair system in parity with repair requests by GTE end users. GTE will respond to service requests for MET using the same time parameters and procedures that GTE uses. MET then would call GTE's Customer Care Center or SSCC while the customers were on hold.

**APPENDIX C**  
**TERMS ADOPTED FROM THE MCI ARBITRATION AGREEMENT**  
**OF MCImetro/GTE AGREEMENT**

**Article V, § 1**

**1 Telecommunications Services Provided for Resale**

1.1 At the request of MCI<sub>m</sub>, and pursuant to the requirements of the Act, Commission Rules, Regulations and Orders, and FCC Rules and Regulations, GTE shall make available to MCI<sub>m</sub> for unrestricted resale all Telecommunications Services that GTE currently provides or may offer hereafter to subscribers who are not Telecommunications Carriers. Resale shall be unrestricted except as provided herein. GTE shall also provide service functions, as set forth in Section 3.3 of this Article. The Telecommunications Services and service functions provided by GTE to MCI<sub>m</sub> pursuant to this Article are collectively referred to as "Local Resale".

1.6 For purposes of MCI<sub>m</sub> initiating its services, GTE shall release information to MCI<sub>m</sub> regarding the subscriber's service, without requiring MCI<sub>m</sub> to produce a written LOA, based on MCI<sub>m</sub>'s blanket representation that the customer has authorized MCI<sub>m</sub> to obtain such CPNI. MCI<sub>m</sub> and GTE agree to comply with the CPNI requirements of the Act and related FCC orders.

1.7 GTE shall allow MCI to initiate "as is transfers" of local exchange Telecommunications Services. For purposes of this Section 1.7, an "as is transfer" is the transfer of all the Telecommunication Services and features available for resale that are currently being provided for the specified account without the requirement of a specific enumeration of the services and features on the LSR without interruption of service.

**Article V, § 2**

**2 No Restrictions on Resale.** GTE will not prohibit, nor impose unreasonable or discriminatory conditions or limitations on the resale of its Telecommunications Service. To the extent that there is a conflict between the terms and conditions and other matters in GTE's tariffs and any specific provision of this Agreement, the terms and conditions of this Agreement shall control.

**2.1 Restrictions on Resale**

2.1.1 MCI<sub>m</sub> agrees not to resell Residential Access Lines to non-residential subscribers.

2.1.2 MCI<sub>m</sub> agrees not to resell Lifeline or Link-Up Service to non-qualifying residential customers. GTE shall retain any subsidy associated with resold Lifeline or Link-Up Services.

|    |    |         |      | The Outside Facility Connection Charge will apply when field work is required for establishment of a new resale service. The terms, conditions and rates that apply for this work are described in the Company's retail local service tariffs.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                 |                    |                      |                |                 |                |
|    |    |         |      | Footnote: (5) Prices contained in this price list have been calculated according to the formula: (1) retail price, less (2) avoided retail costs. However, for all basic exchange access services, e.g., residential line (R1), business line (B1), PBX trunk, ContraNet Line, or ISDN line, a further adjustment to service costs will be required to recognize the foregone contribution associated with complementary intraLATA toll service. Therefore, prices for these services must be recalculated according to the formula: (1) retail price, less (2) avoided retail costs, plus (3) toll opportunity loss (toll contribution), less (4) access opportunity gain from lost toll (access contribution). |                 |                    |                      |                |                 |                |
