

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition by GTE Florida
Incorporated for approval of
resale and unbundling agreement
with BellSouth BSE, Inc.

DOCKET NO. 980710-TP
ORDER NO. PSC-98-1076-FOF-TP
ISSUED: August 10, 1998

The following Commissioners participated in the disposition of
this matter:

JULIA L. JOHNSON, Chairman
J. TERRY DEASON
SUSAN F. CLARK
JOE GARCIA
E. LEON JACOBS, JR.

ORDER APPROVING RESALE
AND UNBUNDLING AGREEMENT

BY THE COMMISSION:

On June 3, 1998, GTE Florida Incorporated (GTE) and BellSouth BSE, Inc. (BellSouth BSE) filed a request for approval of an resale and unbundling agreement under the Telecommunications Act of 1996, 47 U.S.C. §252(e) of the Telecommunications Act of 1996 (the Act). The agreement is attached to this Order as Attachment A and incorporated by reference herein.

Both the Act and Chapter 364, Florida Statutes, encourage parties to enter into negotiated agreements to bring about local exchange competition as quickly as possible. Under the requirements of 47 U.S.C. § 252(e), negotiated agreements must be submitted to the state commission for approval. Section 252(e)(4) requires the state to reject or approve the agreement within 90 days after submission or it shall be deemed approved.

This agreement covers a two-year period and governs the relationship between the companies regarding local interconnection and the exchange of traffic pursuant to 47 U.S.C. § 251. Under 47 U.S.C. § 252(a)(1), the agreement shall include a detailed schedule of itemized charges for interconnection and each service or network element included in the agreement. This agreement is effective 10

days after Commission approval, and thereafter, as described in the agreement.

Upon review of the proposed agreement, we find that it complies with the Telecommunications Act of 1996; thus, we hereby approve it. GTE and BellSouth BSE must file any supplements or modifications to their agreement with the Commission for review under the provisions of 47 U.S.C. § 252(e).

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the resale and unbundling agreement between GTE Florida Incorporated and BellSouth BSE, Inc. as set forth in Attachment A and incorporated by reference in this Order, is hereby approved. It is further

ORDERED that any supplements or modifications to this agreement must be filed with the Commission for review under the provisions of 47 U.S.C. § 252(e). It is further

ORDERED that this docket shall be closed.

By ORDER of the Florida Public Service Commission, this 10th day of August, 1998.

BLANCA S. BAYÓ, Director
Division of Records and Reporting

(S E A L)

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Director, Division of Records and Reporting, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review in Federal District Court pursuant to the Federal Telecommunications Act of 1996, 47 U.S.C. § 252(e)(6).

ATTACHMENT A

This Resale and Unbundling Agreement (the "Agreement"), is made effective as of _____, 1998, by and between GTE Florida Incorporated, with its address for purposes of this Agreement at 201 N. Franklin Street, Tampa, FL 33602 ("GTE"), and BellSouth BSE, Inc., in its capacity as a certified provider of local dial-tone service ("BSE"), with its address for this Agreement at 2727 Paces Ferry Road, Suite 1100, Atlanta, GA 30339 (GTE and BSE being referred to collectively as the "Parties" and individually as a "Party"). This Agreement covers services in the state of Florida only (the "State").

WHEREAS, Section 251 of the Telecommunications Act of 1996 (the "Act") imposes specific obligations on LECs with respect to the interconnection of their networks, resale of their telecommunications services and the offering of certain unbundled network elements and physical collocation of equipment in LEC premises;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, GTE and BSE hereby covenant and agree as follows:

ATTACHMENT A

**ARTICLE I
SCOPE AND INTENT OF AGREEMENT**

Pursuant to this Agreement, the Parties will extend certain arrangements to one another within each area in which they both operate within State. This Agreement governs the purchase by BSE of certain telecommunications services provided by GTE in its franchise areas for resale by BSE, the purchase by BSE of certain unbundled network elements from GTE, and the terms and conditions of the collocation of certain equipment of BSE in the premises of GTE. This Agreement is an integrated package that reflects a balancing of interests critical to the Parties. This Agreement will be submitted to the Florida Public Service Commission (the "Commission") for approval. The Parties agree that their entrance into this Agreement is without prejudice to and does not waive any positions they may have taken previously, or may take in the future, in any legislative, regulatory, judicial or other public forum addressing any matters, including matters related to the same types of arrangements and/or matters related to GTE's cost recovery covered in this Agreement. BSE agrees to negotiate reciprocal terms and conditions with GTE based on this Agreement. GTE's execution of this agreement is not a concession or waiver in any manner concerning its position that certain of the rates, terms and conditions contained herein are unlawful, illegal and improper.

Certain retail services and facilities to be provided to BSE by GTE in satisfaction of this Agreement may be provided pursuant to GTE retail tariffs and then current practices after application of the appropriate resale (i.e., avoided cost) discount to the retail price. Should such retail services and facilities be modified by tariff or by Order, including any modifications resulting from other Commission proceedings, federal court review or other judicial action, such modifications will be deemed to automatically supersede any rates, terms and conditions of this Agreement except that the new resale price paid by BSE to GTE for such services will be calculated in accordance with the discounts, terms and conditions in Section 46 of this Agreement. GTE will provide notification to BSE before such a tariff becomes effective, and BSE may provide input on such proposed tariff. The Parties shall cooperate with one another for the purpose of incorporating required modifications into this agreement.

ATTACHMENT A

**ARTICLE II
DEFINITIONS**

1. **General Definitions.** Except as otherwise specified herein, the following definitions shall apply to all Articles and Appendices contained in this Agreement. Additional definitions that are specific to the matters covered in a particular Article may appear in that Article. To the extent that there may be any conflict between a definition set forth in this Article II and any definition in a specific Article or Appendix, the definition set forth in the specific Article or Appendix shall control with respect to that Article or Appendix.
 - 1.1 **"Act"** means the Telecommunications Act of 1996, Public Law 104-104 of the 104th United States Congress effective February 8, 1996.
 - 1.2 **"Affiliate"** of a Party means a person, corporation or other legal entity that, directly or indirectly, owns or controls a Party, or is owned or controlled by, or is under common ownership or control with a Party.
 - 1.3 **"AMA"** means the Automated Message Accounting structure inherent in switch technology that initially records telecommunication message information. AMA format is contained in the Automated Message Accounting document, published by Bellcore as GR-1100-CORE which defines the industry standard for message recording.
 - 1.4 **"Applicable Law"** shall mean all laws, statutes, common law, regulations, ordinances, codes, rules, guidelines, orders, permits, and approvals of any Governmental Authority, which apply or relate to the subject matter of this Agreement.
 - 1.5 **"Automatic Location Identification/Data Management System (ALI/DMS)"** means the emergency services (E911/911) database containing customer location information (including name, address, telephone number, and sometimes special information from the local service provider) used to process subscriber access records into Automatic Location Identification (ALI) records. From this database, records are forwarded to GTE's ALI Gateway for downloading by local ALI database systems to be available for retrieval in response to ANI from a 9-1-1 call. Also, from this database, GTE will upload to its selective routers the selective router ALI (SR/ALI) which is used to determine to which Public Safety Answering Point ("PSAP") to route the call.
 - 1.6 **"Automatic Number Identification" or "ANI"** refers to the number transmitted through the network identifying the calling party.

ATTACHMENT A

- 1.7 **"Bellcore"** means an organization owned jointly by the Bell regional holding companies and that may in the future be owned partially or totally by other persons, that conducts research and development projects for its owners, including development of new telecommunications services. Bellcore also provides certain centralized technical and management services for the regional holding companies and also provides generic requirements for the telecommunications industry for products, services and technologies.
- 1.8 **"Bona Fide Request (BFR)"** process is intended to be used when requesting customized Service Orders for certain services, features, capabilities or functionality defined and agreed upon by the Parties as services to be ordered as Bona Fide Requests.
- 1.9 **"Business Day"** shall mean Monday through Friday, except for holidays on which the U.S. mail is not delivered.
- 1.10 **"Centralized Message Distribution System" (CMDs)** means the billing record and clearing house transport system that the Regional Bell Operating Companies ("RBOCs") and other incumbent LECs use to efficiently exchange out collects and in collects as well as Carrier Access Billing System ("CABS") records.
- 1.11 **"CLLI codes"** means Common Language Location Identifier Codes.
- 1.12 **"Commercial Mobile Radio Services" (CMRS)** means a radio communication service between mobile stations or receivers and land stations, or by mobile stations communicating among themselves that is provided for profit and that makes interconnected service available to the public or to such classes of eligible users as to be effectively available to a substantial portion of the public.
- 1.13 **"Commission"** means the Florida Public Service Commission.
- 1.14 **"Competitive Local Exchange Carrier" (CLEC)** means any company or person authorized to provide local exchange services in competition with an ILEC.
- 1.15 **"Compliance"** means environmental and safety laws and regulations are based upon a federal regulatory framework, with certain responsibilities delegated to the States. An environmental/safety compliance program may include review of applicable laws/regulations, development of written procedures, training of employees and auditing.
- 1.16 **"Customer"** may mean GTE or BSE depending on the context and which Party is receiving the service from the other Party.

ATTACHMENT A

- 1.17 **"Customer Usage Data"** means that the local telecommunications services usage data of a BSE customer, measured in minutes, sub-minute increments, message units, or otherwise, that is recorded and exchanged by the Parties.
- 1.18 **"DS-1"** is a digital signal rate of 1.544 Mbps.
- 1.19 **"DS-3"** is a digital signal rate of 44.736 Mbps.
- 1.20 **"Electronic File Transfer"** refers to a system or process which utilizes an electronic format and protocol to send/receive data files.
- 1.21 **"EMR"** means the Exchange Message Record which is an industry standard record used to exchange telecommunications message information among CLECs for billable, non-billable, sample, settlement and study data. EMR format is defined in BR-010-200-010 CRIS Exchange Message Record, published by Bellcore and which defines the industry standard for exchange message records.
- 1.22 **"E-911 Service"** is a method of routing 911 calls to a Public Service Answering Point that uses a customer location database to determine the location to which a call should be routed. E-9-1-1 service includes the forwarding of the caller's Automatic Number Identification (ANI) to the PSAP where the ANI is used to retrieve and display the Automatic Location Identification (ALI) on a terminal screen at the answering Attendant's position. It usually includes selective routing.
- 1.23 **"Exchange Service"** refers to all basic access line services, or any other services offered to end users which provide end users with a telephonic connection to, and a unique telephone number address on, the public switched telecommunications network ("PSTN"), and which enable such end users to place or receive calls to all other stations on the PSTN.
- 1.24 **"EIS" or "Expanded Interconnection Service"** means a service that provides interconnecting carriers with the capability to terminate basic fiber optic transmission facilities, including optical terminating equipment and multiplexers, at GTE's wire centers and access tandems and interconnect those facilities with the facilities of GTE. Microwave is available on a case-by-case basis where feasible.
- 1.25 **"Facility"** means all buildings, equipment, structures and other items located on a single site or contiguous or adjacent sites owned or operated by the same persons or person as used in Article III, Section 44.
- 1.26 **"FCC"** means the Federal Communications Commission.

ATTACHMENT A

- 1.27 **"Generator"** means under Resource Conservation Recovery Act (RCRA), the person whose act produces a hazardous waste (40 CFR 261) or whose act first causes a hazardous waste to become subject to regulation. The generator is legally responsible for the proper management and disposal of hazardous wastes in accordance with regulations.
- 1.28 **"Guide"** means the GTE Open Market Transition Order/Processing Guide/ALEC Customer Guide, which contains GTE's operating procedures for ordering, provisioning, trouble reporting and repair for resold services and unbundled elements. Except as specifically provided otherwise in this Agreement, service ordering, provisioning, billing and maintenance shall be governed by the "Guide" which may be amended from time to time by GTE as needed.
- 1.29 **"Hazardous Chemical"** means as defined in the U.S. Occupational Safety and Health (OSHA) hazard communication standard (29 CFR 1910.1200), any chemical which is a health hazard or physical hazard.
- 1.30 **"Hazardous Waste"** means as described in Resource Conservation and Recovery Act (RCRA), a solid waste(s) which may cause, or significantly contribute to an increase in mortality or illness or pose a substantial hazard to human health or the environment when improperly treated, stored, transported or disposed of or otherwise managed because of its quantity, concentration or physical or chemical characteristics.
- 1.31 **"Imminent Danger"** means as described in the Occupational Safety and Health Act and expanded for environmental matters, any conditions or practices at a facility which are such that a danger exists which could reasonably be expected to cause death or serious harm or significant damage to the environment or natural resources.
- 1.32 **"Incumbent Local Exchange Carrier" (ILEC)** means any local exchange carrier that was as of February 8, 1996, deemed to be a member of the Exchange Carrier Association as set forth in 47 C.F.R. §69.601(b) of the FCC's regulations.
- 1.33 **"IXC" or "Interexchange Carrier"** means a telecommunications service provider authorized by the FCC to provide interstate long distance communications services between LATAs and are authorized by the State to provide inter- and/or intraLATA long distance communications services within the State.
- 1.34 **"LATA"** means Local Access and Transport Area. A LATA denotes a geographic area for the provision and administration of communications service; i.e., intraLATA or interLATA.

ATTACHMENT A

- 1.35 **"Line Information Data Base (LIDB)"** means one or all, as the context may require, of the Line Information databases owned individually by GTE and other entities which provide, among other things, calling card validation functionality for telephone line number cards issued by GTE and other entities. A LIDB also contains validation data for collect and third number-billed calls; i.e., Billed Number Screening.
- 1.36 **"Line Side"** refers to an end office switch connection that has been programmed to treat the circuit as a local line connected to an ordinary telephone station set. Line side connections offer only those transmission and signaling features appropriate for a connection between an end office and an ordinary telephone set.
- 1.37 **"Local Exchange Carrier" or "LEC"** means any company certified by the Commission to provide local exchange telecommunications service. This includes the Parties to this Agreement.
- 1.38 **"Local Traffic"** means traffic that is originated by an end user of one Party and terminates to the end user of the other Party within GTE's then current local serving area, including mandatory local calling scope arrangements. A mandatory local calling scope arrangement is an arrangement that provides end users a local calling scope (e.g., Extended Area Service ("EAS"), Extended Calling Service (ECS), etc.) beyond their basic exchange serving area regardless of the method used for charging end users for such calling scope (i.e., flat rate or usage based). Local Traffic does not include optional local calling scopes (i.e., optional rate packages that permit the end user to choose a local calling scope beyond their basic exchange serving area for an additional fee), referred to hereafter as "optional EAS." Local Traffic excludes Information Service Providers ("ISP") traffic (e.g., Internet, paging, 900-976, etc.).
- 1.39 **"MDF" or "Main Distribution Frame"** means the distribution frame used to interconnect cable pairs and line trunk equipment terminating on a switching system.
- 1.40 **"MECAB"** refers to the *Multiple Exchange Carrier Access Billing* ("MECAB") document prepared by the Billing Committee of the Ordering and Billing Forum ("OBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECAB document, published by Bellcore as Special Report SR-BDS-000983, contains the recommended guidelines for the billing of an access service provided by two or more LECs, or by one LEC in two or more states within a single LATA.

ATTACHMENT A

- 1.41 **"MECOD"** refers to the *Multiple Exchange Carriers Ordering and Design ("MECOD") Guidelines for Access Services - Industry Support Interface*, a document developed by the Ordering/Provisioning Committee under the auspices of the Ordering and Billing Forum ("OBF"), which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECOD document, published by Bellcore as Special Report SR-STS-002643, establish methods for processing orders for access service which is to be provided by two or more LECs.
- 1.42 **"NANP"** means the "North American Numbering Plan", the system of telephone numbering employed in the United States, Canada, and the Caribbean countries that employ N.A. 809.
- 1.43 **"Network Element"** means a facility or equipment used in the provision of a telecommunications service. Network Element includes features, functions, and capabilities that are provided by means of such facility or equipment, including subscriber numbers, databases, signaling systems, and information sufficient for billing and collection or used in the transmission, routing, or other provision of a telecommunications service.
- 1.44 **"NID" or "Network Interface Device"** means the point of demarcation between the end user's inside wiring and GTE's facilities.
- 1.45 **"Numbering Plan Area" or "N.A."** is also sometimes referred to as an area code. This is the three digit indicator which is defined by the "A", "B", and "C" digits of each 10-digit telephone number within the NANP. Each N.A. contains 800 possible NXX Codes. There are two general categories of N.A., "Geographic NPAs" and "Non-Geographic NPAs". A Geographic N.A. is associated with a defined geographic area, and all telephone numbers bearing such N.A. are associated with services provided within that geographic area. A Non-Geographic N.A., also known as a "Service Access Code" or "SAC Code" is typically associated with a specialized telecommunications service which may be provided across multiple geographic N.A. areas. 800, 900, 700, and 888 are examples of Non-Geographic NPAs.
- 1.46 **"NXX", "NXX Code", "Central Office Code" or "CO Code"** is the three digit switch entity indicator which is defined by the "D", "E", and "F" digits of a 10-digit telephone number within the NANP. Each NXX Code contains 10,000 station numbers.
- 1.47 **"911 Service"** means a universal telephone number which gives the public direct access to the PSAP. Basic 911 service collects 911 calls from one or more local exchange switches that serve a geographic area. The calls are then sent to the correct authority designated to receive such calls.

ATTACHMENT A

- 1.48 **"Owner and Operator"** means as used in OSHA regulations, owner is the legal entity, including a lessee, which exercises control over management and record keeping functions relating to a building or facility. As used in the Resource Conservation and Recovery Act (RCRA), operator means the person responsible for the overall (or part of the) operations of a facility.
- 1.49 **"Provider"** may mean GTE or BSE depending on the context and which Party is providing the service to the other Party.
- 1.50 **"Public Safety Answering Point" or "PSAP"** means an answering location for 9-1-1 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; Secondary PSAPs receive calls on a transfer basis only, and generally serve as a centralized answering location for a particular type of emergency call. PSAPs are staffed by employees of Emergency Response Agencies ("ERAs") such as police, fire or emergency medical agencies or by employees of a common bureau serving a group of such entities.
- 1.51 **"Rate Center"** means the specific geographic point and corresponding geographic area that are associated with one or more particular NPA-NXX Codes that have been assigned to a LEC for its provision of Exchange Services. The geographic point is identified by a specific Vertical and Horizontal (V&H) coordinate that is used to calculate distance-sensitive end user traffic to/from the particular NPA-NXXs associated with the specific Rate Center.
- 1.52 **"Routing Point"** denotes a location that a LEC has designated on its network as the homing (routing) point for traffic that terminates to Exchange Services provided by the LEC that bear a certain NPA-NXX designation. The Routing Point is used to calculate airline mileage for the distance-sensitive transport element charges of Switched Access Services. Pursuant to Bellcore Practice BR795-100-100, the Routing Point may be an end office location, or a "LEC Consortium Point of Interconnection." The Routing Point must be in the same LATA as the associated NPA-NXX.
- 1.53 **"Service Control Point" or "SCP"** is the node in the signaling network to which informational requests for service handling, such as routing, are directed and processed. The SCP is a real time database system that, based on a query from the SSP, performs subscriber or application-specific service logic, and then sends instructions back to the SSP on how to continue call processing.

ATTACHMENT A

- 1.54 **"Service Switching Point" or "SSP"** means a Signaling Point that can launch queries to databases and receive/interpret responses used to provide specific customer services.
- 1.55 **"Signaling Point" or "SP"** means a node in the CCS network that originates and/or receives signaling messages, or transfers signaling messages from one signaling link to another, or both.
- 1.56 **"Signaling System 7" or "SS7"** means the signaling protocol, Version 7, of the CCS network, based upon American National Standards Institute ("ANSI") standards.
- 1.57 **"Signal Transfer Point" or "STP"** means a packet switch in the CCS network that is used to route signaling messages among SSPs, SCPs and other STPs in order to set up calls and to query databases for advanced services. GTE's network includes mated pairs of local and regional STPs. STPs are provided in pairs for redundancy. GTE STPs conform to ANSI T1.111-8 standards.
- 1.58 **"Subsidiary"** of a Party means a corporation or other legal entity that is majority owned by such Party.
- 1.59 **"Synchronous Optical Network" or "SONET"** means synchronous electrical ("STS") or optical channel ("OC") connections between LECs.
- 1.60 **"Switched Access Service"** means the offering of facilities for the purpose of the origination or termination of traffic to or from Exchange Service customers in a given area pursuant to a switched access tariff. Switched Access Services include: Feature Group A, Feature Group B, Feature Group C, Feature Group D, 800 access and 900 access services.
- 1.61 **"Telecommunications Services"** means the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.
- 1.62 **"Third Party Contamination"** means environmental pollution that is not generated by the LEC or BSE but results from off-site activities impacting a facility.
- 1.63 **"Trunk Side"** refers to a central office switch connection that is capable of, and has been programmed to treat the circuit as, connecting to another switching entity, for example, to another central office switch. Trunk side connections offer those transmission and signaling features appropriate for the connection of switching entities and cannot be used for the direct connection of ordinary telephone station sets.

ATTACHMENT A

- 1.64 **"Undefined Terms"** means the Parties acknowledge that terms may appear in this Agreement which are not defined and agree that any such terms shall be construed in accordance with their customary usage in the telecommunications industry as of the effective date of this Agreement.
- 1.65 **"Vertical Features" (Including "CLASS Features")** means vertical services and switch functionalities provided by GTE, including but not limited to: Automatic Call Back; Automatic Recall; Call Forwarding Busy Line/Don't Answer; Call Forwarding Don't Answer; Call Forwarding Variable; Call Forwarding - Busy Line; Call Trace; Call Waiting; Call Number Delivery Blocking Per Call; Calling Number Blocking Per Line; Cancel Call Waiting; Distinctive Ringing/Call Waiting; Incoming Call Line Identification Delivery; Selective Call Forward; Selective Call Rejection; Speed Calling; and Three Way Calling/Call Transfer.
- 1.66 **"Wire Center"** means a building or space within a building that serves as an aggregation point on a LEC's network, where transmission facilities and circuits are connected or switched. "Wire center" can also denote a building in which one or more Central Offices, used for the provision of exchange services and access services, are located.

ATTACHMENT A

ARTICLE III
GENERAL PROVISIONS

1. Scope of General Provisions. Except as may otherwise be set forth in a particular Article or Appendix of this Agreement, in which case the provisions of such Article or Appendix shall control, these General Provisions apply to all Articles and Appendices of this Agreement.
2. Term and Termination.
 - 2.1 Term. Subject to the termination provisions contained in this Agreement and any rights under Section 252(l) of the Act, the term of this Agreement shall be two (2) years from the effective date referenced in the first paragraph of this Agreement. This Agreement shall continue in effect for consecutive one (1) year terms thereafter, until either Party gives the other Party at least ninety (90) calendar days written notice of termination, which termination shall be effective at the end of the then-current term. In the event notice is given less than 90 calendar days prior to the end of the current term, this Agreement shall remain in effect for 90 calendar days after such notice is received, provided, that in no case shall the term be extended beyond 90 calendar days after the end of the current term.
 - 2.2 Post-Termination Arrangements. Except in the case of termination as a result of either Party's default or a termination upon sale, for service arrangements made available under this Agreement and existing at the time of termination, those arrangements may continue without interruption (a) under a new agreement voluntarily executed by the Parties; (b) standard terms and conditions approved and made generally effective by the Commission, if any; (c) tariff terms and conditions made generally available to all CLECs; or (d) any rights under Section 252(l) of the Act.
 - 2.3 Termination Upon Default. Either Party may terminate this Agreement in whole or in part in the event of a default by the other Party; *provided however*, that the non-defaulting Party notifies the defaulting party in writing of the alleged default and that the defaulting Party does not cure the alleged default within sixty (60) calendar days of receipt of written notice thereof. Default is defined to include:
 - (a) A Party's insolvency or the initiation of bankruptcy or receivership proceedings by or against the Party; or
 - (b) A Party's refusal or failure in any material respect properly to perform its obligations under this Agreement, or the violation any of the material terms or conditions of this Agreement.

ATTACHMENT A

- 2.4 Termination Upon Sale. Notwithstanding anything to the contrary contained herein, a Party may terminate this Agreement as to a specific operating area or portion thereof of such Party if such Party sells or otherwise transfers the area or portion thereof. The Party shall provide the other Party with at least ninety (90) calendar days' prior written notice of such termination, which shall be effective on the date specified in the notice. Notwithstanding termination of this Agreement as to a specific operating area, this Agreement shall remain in full force and effect in the remaining operating areas.
- 2.5 Liability upon Termination. Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in this Agreement to survive termination.
3. Amendments. Any amendment, modification, or supplement to this Agreement must be in writing and signed by an authorized representative of each Party. The term "this Agreement" shall include future amendments, modifications, and supplements.
4. Assignment. Any assignment by either Party of any right, obligation, or duty, in whole or in part, or of any interest, without the written consent of the other Party shall be void, except that either Party may assign all of its rights, and delegate its obligations, liabilities and duties under this Agreement, either in whole or in part, to any entity that is, or that was immediately preceding such assignment, a Subsidiary or Affiliate of that Party without consent, but with written notification. The effectiveness of an assignment shall be conditioned upon the assignee's written assumption of the rights, obligations, and duties of the assigning Party.
5. Authority. Each person whose signature appears on this Agreement represents and warrants that he or she has authority to bind the Party on whose behalf he or she has executed this Agreement.
6. Responsibility for Payment. Except as noted in other sections of this Agreement, all charges for Services provided under this Agreement will be billed to BSE, including all applicable taxes and surcharges. In addition, the End User Common Line (EUCL) Charge from GTOC Tariff FCC No. 1 is applicable to Resold Services. BSE is responsible for payment of charges billed regardless of any billing arrangements or situation between BSE and its end user customer.
7. Billing and Payment. Except as provided elsewhere in this Agreement and where applicable, in conformance with MECAB and MECOD guidelines, BSE

ATTACHMENT A

and GTE agree to exchange all information to accurately, reliably, and properly bill for features, functions and services rendered under this Agreement.

- 7.1 Dispute. If one Party disputes a billing statement issued by the other Party, the billed Party shall notify Provider in writing regarding the nature and the basis of the dispute within six (6) months of the statement date or the dispute shall be waived. The Parties shall diligently work toward resolution of all billing issues.
- 7.2 Late Payment Charge. If any undisputed amount due on the billing statement is not received by Provider on the payment due date, Provider may charge, and Customer agrees to pay, at Provider's option, interest on the past due balance at a rate equal to the lesser of the interest rates set forth in the applicable GTE/Contel state access tariffs or the GTOC/GSTC FCC No. 1 tariff, one and one-half percent (1½%) per month or the maximum nonusurious rate of interest under applicable law. Late payment charges shall be included on the next statement.
- 7.3 Due Date. Payment is due 30 calendar days from the bill date.
- 7.4 Audits. Either Party may conduct an audit of the other Party's books and records pertaining to the Services provided under this Agreement, no more frequently than once per twelve (12) month period, to evaluate the other Party's accuracy of billing, data and invoicing in accordance with this Agreement. Any audit shall be performed as follows: (i) following at least thirty (30) Business Days' prior written notice to the audited Party; (ii) subject to the reasonable scheduling requirements and limitations of the audited Party; (iii) at the auditing Party's sole cost and expense; (iv) of a reasonable scope and duration; (v) in a manner so as not to interfere with the audited Party's business operations; and (vi) in compliance with the audited Party's security rules.
8. Binding Effect. This Agreement shall be binding on and inure to the benefit of the respective successors and permitted assigns of the Parties.
9. Capacity Planning and Forecasting. Within thirty (30) days from the Effective Date of this Agreement, the Parties agree to have met and developed joint planning and forecasting responsibilities which are applicable to Local Services, including Features, Network Elements and Collocation. Such responsibilities shall include but are not limited to the following:
- (a) The Parties will establish periodic reviews of network and technology plans and will notify one another no later than six (6) months in advance of changes that would impact either Party's provision of services.
 - (b) BSE will furnish to GTE state-wide annual forecasts of order activity, in-service quantities, and facility/demand for services, trunking facilities and

ATTACHMENT A

Unbundled Network Elements required by BSE within GTE's serving local service territory.

- (c) BSE shall notify GTE promptly of changes to current forecasts (increase or decrease) that generate a shift in the demand curve by more than 10% for the following forecasting period.

10. Compliance with Laws and Regulations. Each Party shall comply with all federal, state, and local statutes, regulations, rules, ordinances, judicial decisions, and administrative rulings applicable to its performance under this Agreement.
11. Confidential Information.
- 11.1 Identification. Either Party may disclose to the other proprietary or confidential customer, technical, or business information in written, graphic, oral or other tangible or intangible forms ("Confidential Information"). In order for information to be considered Confidential Information under this Agreement, it must be marked "Confidential" or "Proprietary," or bear a marking of similar import. Orally or visually disclosed information shall be deemed Confidential Information only if contemporaneously identified as such and reduced to writing and delivered to the other Party with a statement or marking of confidentiality within thirty (30) calendar days after oral or visual disclosure.

Notwithstanding the foregoing, preorders and all orders for Services or network elements placed by BSE pursuant to this Agreement, and information that would constitute customer proprietary network information of BSE end user customers pursuant to the Act and the rules and regulations of the FCC, as well as recorded usage information with respect to BSE end users, whether disclosed by BSE to GTE or otherwise acquired by GTE in the course of its performance under this Agreement, and where GTE is the NANP Number Plan Administrator, BSE information submitted to GTE in connection with such responsibilities shall be deemed Confidential Information of BSE for all purposes under this Agreement whether or not specifically marked or designated as confidential or proprietary.

- 11.2 Handling. In order to protect such Confidential Information from improper disclosure, each Party agrees:
- (a) That all Confidential Information shall be and shall remain the exclusive property of the source;
- (b) To limit access to such Confidential Information to authorized employees who have a need to know the Confidential Information for performance of this Agreement;

ATTACHMENT A

- (c) To keep such Confidential Information confidential and to use the same level of care to prevent disclosure or unauthorized use of the received Confidential Information as it exercises in protecting its own Confidential Information of a similar nature;
 - (d) Not to copy, publish, or disclose such Confidential Information to others or authorize anyone else to copy, publish, or disclose such Confidential Information to others without the prior written approval of the source;
 - (e) To return promptly any copies of such Confidential Information to the source at its request; and
 - (f) To use such Confidential Information only for purposes of fulfilling work or services performed hereunder and for other purposes only upon such terms as may be agreed upon between the Parties in writing.
- 11.3 Exceptions. These obligations shall not apply to any Confidential Information that was legally in the recipient's possession prior to receipt from the source, was received in good faith from a third party not subject to a confidential obligation to the source, now is or later becomes publicly known through no breach of confidential obligation by the recipient, was developed by the recipient without the developing persons having access to any of the Confidential Information received in confidence from the source, or that is required to be disclosed pursuant to subpoena or other process issued by a court or administrative agency having appropriate jurisdiction, provided, however, that the recipient shall give prior notice to the source and shall reasonably cooperate if the source deems it necessary to seek protective arrangements.
- 11.4 Survival. The obligation of confidentiality and use with respect to Confidential Information disclosed by one Party to the other shall survive any termination of this Agreement for a period of three (3) years from the date of the initial disclosure of the Confidential Information.
12. Consent. Where consent, approval, or mutual agreement is required of a Party, it shall not be unreasonably withheld or delayed.
13. Cooperation on Fraud Minimization. BSE assumes responsibility for all fraud associated with its end user customers and accounts. The Parties agree that they shall cooperate with one another to resolve cases of fraud. The Parties' fraud minimization procedures are to be cost effective and implemented so as not to unduly burden or harm one Party as compared to the other.
14. Dispute Resolution.

ATTACHMENT A

- 14.1 Alternative to Litigation. Except as provided under Section 252 of the Act with respect to the approval of this Agreement by the Commission, the Parties desire to resolve disputes arising out of or relating to this Agreement without litigation. Accordingly, except for action seeking a temporary restraining order or an injunction related to the purposes of this Agreement, or suit to compel compliance with this dispute resolution process, the Parties agree to use the following alternative dispute resolution procedures as their sole remedy with respect to any controversy or claim arising out of or relating to this Agreement or its breach.
- 14.2 Negotiations. At the written request of a Party, each Party will appoint a knowledgeable, responsible representative to meet and negotiate in good faith to resolve any dispute arising out of or relating to this Agreement. The Parties intend that these negotiations be conducted by non-lawyer, business representatives. The location, format, frequency, duration, and conclusion of these discussions shall be left to the discretion of the representatives. Upon agreement, the representatives may utilize other alternative dispute resolution procedures such as mediation to assist in the negotiations. Discussions and correspondence among the representatives for purposes of these negotiations shall be treated as confidential information developed for purposes of settlement, exempt from discovery, and shall not be admissible in the arbitration described below or in any lawsuit without the concurrence of all Parties. Documents identified in or provided with such communications, which are not prepared for purposes of the negotiations, are not so exempted and may, if otherwise discoverable, be discovered or otherwise admissible, be admitted in evidence, in the arbitration or lawsuit.
- 14.3 Arbitration. If the negotiations do not resolve the dispute within sixty (60) Business Days of the initial written request, the dispute shall be submitted to binding arbitration by a single arbitrator pursuant to the Commercial Arbitration Rules of the American Arbitration Association except that the Parties may select an arbitrator outside American Arbitration Association rules upon mutual agreement. A Party may demand such arbitration in accordance with the procedures set out in those rules. Discovery shall be controlled by the arbitrator and shall be permitted to the extent set out in this section. Each Party may submit in writing to a Party, and that Party shall so respond to, a maximum of any combination of thirty-five (35) (none of which may have subparts) of the following: interrogatories, demands to produce documents, or requests for admission. Each Party is also entitled to take the oral deposition of one individual of another Party. Additional discovery may be permitted upon mutual agreement of the Parties. The arbitration hearing shall be commenced within sixty (60) Business Days of the demand for arbitration. The arbitration shall be held in a mutually agreeable city. The arbitrator shall control the scheduling so as to process the matter expeditiously. The Parties may submit written briefs. The arbitrator shall rule on the dispute by issuing a written

ATTACHMENT A

opinion within thirty (30) Business Days after the close of hearings. The times specified in this section may be extended upon mutual agreement of the Parties or by the arbitrator upon a showing of good cause. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction.

- 14.4 **Expedited Arbitration Procedures.** If the issue to be resolved through the negotiations referenced in Section 14.2 directly and materially affects service to either Party's end user customers, then the period of resolution of the dispute through negotiations before the dispute is to be submitted to binding arbitration shall be five (5) Business Days. Once such a service affecting dispute is submitted to arbitration, the arbitration shall be conducted pursuant to the expedited procedures rules of the Commercial Arbitration Rules of the American Arbitration Association (i.e., rules 53 through 57).
- 14.5 **Costs.** Each Party shall bear its own costs of these procedures. A Party seeking discovery shall reimburse the responding Party the costs of production of documents (including search time and reproduction costs). The Parties shall equally split the fees of the arbitration and the arbitrator.
- 14.6 **Continuous Service.** The Parties shall continue providing services to each other during the pendency of any dispute resolution procedure, and the Parties shall continue to perform their obligations (including making payments in accordance with Article IV, Section 4) in accordance with this Agreement.
15. **Entire Agreement.** This Agreement constitutes the entire agreement of the Parties pertaining to the subject matter of this Agreement and supersedes all prior agreements, negotiations, proposals, and representations, whether written or oral, and all contemporaneous oral agreements, negotiations, proposals, and representations concerning such subject matter. No representations, understandings, agreements, or warranties, expressed or implied, have been made or relied upon in the making of this Agreement other than those specifically set forth herein.
16. **Expenses.** Except as specifically set out in this Agreement, each Party shall be solely responsible for its own expenses involved in all activities related to the subject of this Agreement.
17. **Force Majeure.** In the event performance of this Agreement, or any obligation hereunder, is either directly or indirectly prevented, restricted, or interfered with by reason of fire, flood, earthquake or like acts of God, wars, revolution, civil commotion, explosion, acts of public enemy, embargo, acts of the government in its sovereign capacity, labor difficulties, including without limitation, strikes, slowdowns, picketing, or boycotts, unavailability of equipment from vendor, changes requested by Customer, or any other circumstances beyond the

ATTACHMENT A

reasonable control and without the fault or negligence of the Party affected, the Party affected, upon giving prompt notice to the other party, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference (and the other Party shall likewise be excused from performance of its obligations on a day-to-day basis until the delay, restriction or interference has ceased); *provided however*, that the Party so affected shall use diligent efforts to avoid or remove such causes of nonperformance and both Parties shall proceed whenever such causes are removed or cease.

18. Good Faith Performance. In the performance of their obligations under this Agreement, the Parties shall act in good faith. In situations in which notice, consent, approval or similar action by a Party is permitted or required by any provision of this Agreement, such action shall not be unreasonably delayed, withheld or conditioned.
19. Governing Law. This Agreement shall be governed by and construed in accordance with the domestic laws of the state where the Services are provided or the facilities reside and shall be subject to the exclusive jurisdiction of the courts therein.
20. Standard Practices. The Parties acknowledge that GTE shall be adopting some industry standard approaches and/or establishing its own standard approaches to various requirements hereunder applicable to CLEC industry which may be added in the Guide. BSE agrees that GTE may implement such approaches to satisfy any GTE obligations under this Agreement. A copy has been provided to BSE and is incorporated by reference into this Agreement.
21. Headings. The headings in this Agreement are inserted for convenience and identification only and shall not be considered in the interpretation of this Agreement.
22. Independent Contractor Relationship. The persons provided by each Party shall be solely that Party's employees and shall be under the sole and exclusive direction and control of that Party. They shall not be considered employees of the other Party for any purpose. Each Party shall remain an independent contractor with respect to the other and shall be responsible for compliance with all laws, rules and regulations involving, but not limited to, employment of labor, hours of labor, health and safety, working conditions and payment of wages. Each Party shall also be responsible for payment of taxes, including federal, state and municipal taxes, chargeable or assessed with respect to its employees, such as Social Security, unemployment, workers' compensation, disability insurance, and federal and state withholding. Each Party shall indemnify the other for any loss, damage, liability, claim, demand, or penalty that may be sustained by reason of its failure to comply with this provision.

ATTACHMENT A

23. Law Enforcement Interface.

23.1 Except to the extent not available in connection with GTE's operation of its own business, GTE shall provide seven day a week/twenty-four hour a day assistance to law enforcement persons for emergency traps, assistance involving emergency traces and emergency information and retrieval on customer invoked CLASS services.

23.2 GTE agrees to work jointly with BSE in security matters to support law enforcement agency requirements for taps, traces, court orders, etc. Charges for providing such services for BSE Customers will be billed to BSE.

23.3 GTE will, in non emergency situations, inform the requesting law enforcement agencies that the end-user to be wire tapped, traced, etc. is a BSE Customer and shall refer them to BSE.

24. Liability and Indemnity.

24.1 Indemnification. Subject to the limitations set forth in Section 24.4 of this Article III, each Party agrees to release, indemnify, defend, and hold harmless the other Party from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, whether suffered, made, instituted, or asserted by any other party or person, for invasion of privacy, personal injury to or death of any person or persons, or for losses, damages, or destruction of property, whether or not owned by others, proximately caused by the indemnifying Party's negligence or willful misconduct, regardless of form of action. The indemnified Party agrees to notify the other Party promptly, in writing, of any written claims, lawsuits, or demands for which it is claimed that the indemnifying Party is responsible under this Section and to cooperate in every reasonable way to facilitate defense or settlement of claims. The indemnifying Party shall have complete control over defense of the case and over the terms of any proposed settlement or compromise thereof. The indemnifying Party shall not be liable under this Section for settlement by the indemnified Party or any claim, lawsuit, or demand, if the indemnifying Party has not approved the settlement in advance, unless the indemnifying Party has had the defense of the claim, lawsuit, or demand tendered to it in writing and has failed to assume such defense. In the event of such failure to assume defense, the indemnifying Party shall be liable for any reasonable settlement made by the indemnified Party without approval of the indemnifying Party.

24.2 End User and Content-Related Claims. Each Party agrees to release, indemnify, defend, and hold harmless the other Party, its affiliates, and any third-party provider or operator of facilities involved in the provision of Services, Unbundled Network Elements or Facilities under this Agreement (collectively,

ATTACHMENT A

the "Indemnified Party") from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by either Party's end users against an Indemnified Party arising from Services, Unbundled Network Elements or Facilities. Each Party further agrees to release, indemnify, defend, and hold harmless the Indemnified Party from all losses, claims, demands, damages, expenses, suits, or other actions, or any liability whatsoever, including, but not limited to, costs and attorney's fees, suffered, made, instituted, or asserted by any third party against an Indemnified Party arising from or in any way related to actual or alleged defamation, libel, slander, interference with or misappropriation of proprietary or creative right, or any other injury to any person or property arising out of content transmitted by the Indemnified Party or such Party's end users, or any other act or omission of the Indemnified Party or such Party's end users.

- 24.3 **DISCLAIMER.** EXCEPT AS SPECIFICALLY PROVIDED TO THE CONTRARY IN THIS AGREEMENT, PROVIDER MAKES NO REPRESENTATIONS OR WARRANTIES TO CUSTOMER CONCERNING THE SPECIFIC QUALITY OF ANY SERVICES, UNBUNDLED NETWORK ELEMENTS OR FACILITIES PROVIDED UNDER THIS AGREEMENT. PROVIDER DISCLAIMS, WITHOUT LIMITATION, ANY WARRANTY OR GUARANTEE OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARISING FROM COURSE OF PERFORMANCE, COURSE OF DEALING, OR FROM USAGES OF TRADE.
- 24.4 **Limitation of Liability.** Each Party's liability, whether in contract, tort or otherwise, shall be limited to direct damages, which shall not exceed the monthly charges for the Services, Unbundled Network Elements or facilities for the month during which the claim of liability arose. Under no circumstance shall either Party be responsible or liable for indirect, incidental, or consequential damages, including, but not limited to, economic loss or lost business or profits, damages arising from the use or performance of equipment or software, or the loss of use of software or equipment, or any accessories attached thereto, delay, error, or loss of data. Should either Party provide advice, make recommendations, or supply other analysis related to the Services, unbundled network elements or facilities described in this Agreement, this limitation of liability shall apply to provision of such advice, recommendations, and analysis.
- 24.5 **Intellectual Property.** Neither Party shall have any obligation to defend, indemnify or hold harmless, or acquire any license or right for the benefit of, or owe any other obligation or have any liability to, the other based on or arising from any claim, demand, or proceeding by any third party alleging or asserting that the use of any circuit, apparatus, or system, or the use of any software, or the performance of any service or method, or the provision or use of any

ATTACHMENT A

facilities by either Party under this Agreement constitutes direct or contributory infringement, or misuse or misappropriation of any patent, copyright, trademark, trade secret, or any other proprietary or intellectual property right of any third party.

25. Multiple Counterparts. This Agreement may be executed in multiple counterparts, each of which shall be deemed an original, but all of which shall together constitute but one and the same document.
26. No Offer. This Agreement will be effective only upon execution and delivery by both Parties and approval by the Commission in accordance with Section 252 of the Act.
27. No Third Party Beneficiaries. Except as may be specifically set forth in this Agreement, this Agreement does not provide and shall not be construed to provide third parties with any remedy, claim, liability, reimbursement, cause of action, or other right or privilege.
28. Notices. Any notice to a Party required or permitted under this Agreement shall be in writing and shall be deemed to have been received on the date of service if served personally, on the date receipt is acknowledged in writing by the recipient if delivered by regular U.S. mail, or on the date stated on the receipt if delivered by certified or registered mail or by a courier service that obtains a written receipt. Upon prior immediate oral agreement of the parties' designated recipients identified below, notice may also be provided by facsimile, internet or electronic messaging system, which shall be effective if sent before 5:00 p.m. on that day, or if sent after 5:00 p.m. it will be effective on the next Business Day following the date sent. Any notice shall be delivered using one of the alternatives mentioned in this section and shall be directed to the applicable address indicated below or such address as the Party to be notified has designated by giving notice in compliance with this section:

29. Protection.

29.1 Impairment of Service. The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring carriers involved in its services, cause damage to their plant, violate any applicable law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities or create hazards to the employees of either Party or to the public (each hereinafter referred to as an "Impairment of Service").

29.2 Resolution. If either Party causes an Impairment in Service, the Party whose network or service is being impaired (the "Impaired Party") shall promptly notify the Party causing the Impairment of Service (the "Impairing Party") of the nature and location of the problem and that, unless promptly rectified, a temporary discontinuance of the use of any circuit, facility or equipment may be required. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve the Impairment of Service. If the Impairing Party is unable to promptly remedy the Impairment of Service, then the Impaired Party may at its option temporarily discontinue the use of the affected circuit, facility or equipment.

30. Publicity. Any news release, public announcement, advertising, or any form of publicity pertaining to this Agreement, provision of Services, Unbundled Network Elements or Facilities pursuant to it, or association of the Parties with respect to provision of the services described in this Agreement shall be subject to prior written approval of both GTE and BSE.

31. Regulatory Agency Control. This Agreement shall at all times be subject to changes, modifications, orders, and rulings by the Federal Communications Commission and/or the applicable state utility regulatory commission to the extent the substance of this Agreement is or becomes subject to the jurisdiction of such agency.

32. Changes in Legal Requirements. GTE and BSE further agree that the terms and conditions of this Agreement were composed in order to effectuate the legal requirements in effect at the time the Agreement was produced. Any

ATTACHMENT A

modifications to those requirements will be deemed to automatically supersede any terms and conditions of this Agreement.

33. Effective Date. If this Agreement or changes or modifications thereto are subject to approval of a regulatory agency, the "effective date" of this Agreement for such purposes will be ten (10) Business Days after such approval or in the event this Agreement is developed in whole or in part through arbitration, sixty (60) Business Days after such approval. Such date (i.e., ten (10) or, if arbitrated, sixty (60) Business Days after the approval) shall become the "effective date" of this Agreement for all purposes.
34. Regulatory Matters. Each Party shall be responsible for obtaining and keeping in effect all their own FCC, state regulatory commission, franchise authority and other regulatory approvals that may be required in connection with the performance of its obligations under this Agreement.
35. Rule of Construction. No rule of construction requiring interpretation against the drafting party hereof shall apply in the interpretation of this Agreement.
36. Section References. Except as otherwise specified, references within an Article of this Agreement to a Section refer to Sections within that same Article.
37. Service Standards.
- 37.1 The Parties shall meet applicable quality of local service standards imposed by the Commission and will provide a level of services to each other under this Agreement in compliance with the nondiscrimination requirements of the Act. The parties further agree to the Measures of Quality (MOQ), terms and conditions set forth in Appendix F of this Agreement.
- 37.2 The Parties will alert each other to any network events that can result or have resulted in service interruption, blocked calls, and/or changes in network performance.
38. Severability. If any provision of this Agreement is held by a court or regulatory agency of competent jurisdiction to be unenforceable, the rest of the Agreement shall remain in full force and effect and shall not be affected unless removal of that provision results, in the opinion of either Party, in a material change to this Agreement. If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.

ATTACHMENT A

39. Subcontractors. Provider may enter into subcontracts with third parties or affiliates for the performance of any of Provider's duties or obligations under this Agreement.
40. Subsequent Law. The terms and conditions of this Agreement shall be subject to any and all applicable laws, rules, or regulations that subsequently may be prescribed by any federal, state or local governmental authority. To the extent required by any such subsequently prescribed law, rule, or regulation, the Parties agree to modify, in writing, the affected term(s) and condition(s) of this Agreement to bring them into compliance with such law, rule, or regulation.
41. Taxes. Any state or local excise, sales, or use taxes (excluding any taxes levied on income) resulting from the performance of this Agreement shall be borne by the Party upon which the obligation for payment is imposed under applicable law, even if the obligation to collect and remit such taxes is placed upon the other Party. The collecting Party shall charge and collect from the obligated Party, and the obligated Party agrees to pay to the collecting Party, all applicable taxes, except to the extent that the obligated Party notifies the collecting Party and provides to the collecting Party appropriate documentation as GTE requires that qualifies the obligated Party for a full or partial exemption. Any such taxes shall be shown as separate items on applicable billing documents between the Parties. The obligated Party may contest the same in good faith, at its own expense, and shall be entitled to the benefit of any refund or recovery, provided that such Party shall not permit any lien to exist on any asset of the other Party by reason of the contest. The collecting Party shall cooperate in any such contest by the other Party. The other Party will indemnify the collecting Party from any sales or use taxes that may be subsequently levied on payments by the other Party by the collecting Party.
- 41.1 Tax - A charge which is statutorily imposed by the state or local jurisdiction and is either (a) imposed on the seller with the seller having the right or responsibility to pass the charge(s) on to the purchaser and the seller is responsible for remitting the charge(s) to the state or local jurisdiction or (b) imposed on the purchaser with the seller having an obligation to collect the charge(s) from the purchaser and remit the charge(s) to the state or local jurisdiction.

Taxes shall include but not be limited to: federal excise tax, state/local sales and use tax, state/local utility user tax, state/local telecommunication excise tax, state/local gross receipts tax, and local school taxes. Taxes shall not include income, income-like, gross receipts on the revenue of a provider, or property taxes. Taxes shall not include payroll withholding taxes unless specifically required by statute or ordinance.

ATTACHMENT A

- 41.2 **Fees/Regulatory Surcharges** - A charge imposed by a regulatory authority, other agency, or resulting from a contractual obligation, in which the seller is responsible or required to collect the fee/surcharge from the purchaser and the seller is responsible for remitting the charge to the regulatory authority, other agency, or contracting party.

Fees/Regulatory Surcharges shall include but not be limited to E911/911, E311/311, franchise fees, Lifeline, hearing impaired, and Commission surcharges.

42. **Trademarks and Trade Names**. Except as specifically set out in this Agreement, nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other for any purpose whatsoever.
43. **Waiver**. The failure of either Party to insist upon the performance of any provision of this Agreement, or to exercise any right or privilege granted to it under this Agreement, shall not be construed as a waiver of such provision or any provisions of this Agreement, and the same shall continue in full force and effect.
44. **Environmental Responsibility**.
- 44.1 GTE and BSE agree to comply with applicable federal, state and local environmental and safety laws and regulations including U.S. Environmental Protection Agency (EPA) regulations issued under the Clean Air Act, Clean Water Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation and Liability Act, Superfund Amendments and Reauthorization Act and the Toxic Substances Control Act and OSHA regulations issued under the Occupational Safety and Health Act of 1970. Each Party has the responsibility to notify the other if Compliance inspections occur and/or citations are issued that impact any aspect of this Agreement such as occurring on a LEC Facility or involving BSE potential employee exposure.
- 44.2 GTE and BSE shall provide notice of known and recognized physical hazards or hazardous chemicals that must include providing Material Safety Data Sheets (MSDSs) for materials existing on site or brought on site to the Facility. Each Party is required to provide specific notice for potential imminent danger conditions which could include, but is not limited to, a defective utility pole or significant petroleum contamination in a manhole.
- 44.3 GTE will make available additional environmental control or safety procedures for BSE to review and follow when working at a GTE Facility. Providing these procedures, beyond government regulatory Compliance requirements, is the

ATTACHMENT A

decision of GTE. These practices/procedures will represent the regular work practices required to be followed by the employees and contractors of GTE for safety and environmental protection.

- 44.4 Any materials brought, used or remaining at the Facility by BSE are owned by BSE. BSE will indemnify GTE for these materials. No substantial new safety or environmental hazards can be created or new hazardous materials can be used at a GTE Facility. BSE must demonstrate adequate emergency response capabilities for its materials used or remaining at the GTE Facility.
- 44.5 When Third Party contamination is discovered at a GTE Facility, the Party uncovering the condition must notify the proper safety or environmental authority, if required under applicable laws or regulations. BSE must also notify GTE of Third Party contamination it discovers at GTE facilities. The cost causer (requiring access) will become the generator, as owner or operator, of any waste materials such as petroleum contaminated water, sewage or manhole sediment. Notwithstanding Sections 24 and 44.9 hereunder, the cost causer (requiring access) shall indemnify the other Party hereunder.
- 44.6 BSE should obtain and use its own environmental permits, if necessary. If GTE's permit or EPA identification number must be used, BSE must comply with all of GTE's environmental processes including environmental "best management practices (BMP)" and/or selection of disposition vendors and disposal sites.
- 44.7 BSE visitors must comply with GTE security, fire safety, safety, environmental and building practices/codes including equivalent employee training when working in GTE facilities.
- 44.8 GTE and BSE shall coordinate plans or information required to be submitted to government agencies, such as emergency response plans and community reporting. If fees are associated with filing, GTE and BSE must develop a cost sharing procedure.
- 44.9 Notwithstanding Section 23, with respect to environmental responsibility under this Section 44, GTE and BSE shall indemnify, defend and hold harmless the other party from and against any claims (including, without limitation, Third Party claims for personal injury or real or personal property damage), judgments, damages (including direct and indirect damage, and punitive damages), penalties, fines, forfeitures, cost, liabilities, interest and losses proximately caused by the indemnifying Party's negligent or willful misconduct regardless of form, or in connection with the violation or alleged violation of any applicable requirement with respect to the presence or alleged presence of contamination arising out of the indemnifying party's acts or omissions concerning its operations at the Facility.

ATTACHMENT A

- 44.10 Activities impacting safety or the environment of a Right of Way must be harmonized with the specific agreement and the relationship between GTE and the private land owner. This could include limitations on equipment access due to environmental conditions (e.g., wetland area with equipment restrictions).
45. TBD Prices. Numerous provisions in this Agreement and its Attachments refer to pricing principles. If a provision references prices in an Attachment and there are no corresponding prices in such Attachment, such price shall be considered "To Be Determined" (TBD). With respect to all TBD prices, prior to BSE ordering any such TBD item, the Parties shall meet and confer to establish a price. If the Parties are unable to reach agreement on a price for such item, an interim price shall be set for such item that is equal to the price for the nearest analogous item for which a price has been established (for example, if there is not an established price for a non recurring charge (NRC) for a specific network element, the Parties would use the NRC for the most analogous retail service for which there is an established price). Any interim prices so set shall be subject to modification by any subsequent decision of the Commission. If an interim price is different from the rate subsequently established by the Commission, any underpayment shall be paid by BSE to GTE, and any overpayment shall be refunded by GTE to BSE, within 45 Business Days after the establishment of the price by the Commission.
46. Amendment of Certain Rates, Terms and Conditions. The rates, terms and conditions in this Agreement that are specified in Paragraph 46.1 (the "BSE Terms") were taken from the GTE/AT&T Interconnection, Resale and Unbundling Agreement approved by the Commission. The rates, terms and conditions not included in this Agreement but referenced in Paragraph 46.2 (the "GTE Terms") were excluded from the AT&T Agreement by the Commission. GTE and BSE agree that if the "BSE Terms" are deemed to be unlawful, or are stayed, enjoined or otherwise modified, in whole or in part, by a court or commission of competent jurisdiction, then this Agreement shall be deemed to have been amended accordingly.

The Parties may agree to amend the Agreement by modifying the "BSE Terms" or, alternatively, the Parties may agree to substitute the "GTE Terms" for all stayed and enjoined "BSE Terms". Unless the court or commission of competent jurisdiction orders them effective retroactive to the Effective Date of this Agreement, such amended terms shall be effective prospectively from the date of the execution of such amendments.

If the Parties cannot agree to modify the "BSE Terms" or to substitute the "GTE Terms" or if the Parties cannot agree to the language ordered by the court or commission of competent jurisdiction, then the Parties will resolve such disagreements in accordance with the "Dispute Resolution Process" outlined in

ATTACHMENT A

Section 14 of this Agreement or by a court or commission of competent jurisdiction.

GTE and BSE further agree that the terms and conditions of this Agreement reflect certain requirements of the FCC's First Report and Order in CC Docket No. 96-98. The terms and conditions of this Agreement shall be subject to any and all actions by any court or other governmental authority that invalidate, stay, vacate or otherwise modify the FCC's First Report and Order, in whole or in part ("actions"). To the extent warranted by any such action, the parties agree that this Agreement shall be deemed to have been modified accordingly as in the first paragraph of this Section 46. The parties agree to immediately apply any affected terms and conditions, including any in other sections and articles of this Agreement, consistent with such action, and within a reasonable time incorporate such modified terms and conditions in writing into the Agreement. If the BSE Terms are affected by such action and GTE determines they cannot be consistently applied therewith, the GTE Terms shall apply on an interim basis, subject to true up, until such time as the parties renegotiate such terms and conditions in accordance with Section 44. BSE acknowledges that GTE may seek to enforce such action before a commission or court of competent jurisdiction. GTE does not waive any position regarding the illegality or inappropriateness of the FCC's First Report and Order.

The rates, terms and conditions (including rates which may be applicable under true-up) specified in both the "GTE Terms" and the "BSE Terms" are further subject to amendment, to provide for charges or rate adjustments resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

If the Commission (or any other commission or federal or state court) in reviewing this Agreement pursuant to applicable state and federal laws, including Section 252(e) of the Telecommunications Act of 1996, deletes or modifies in any way this Section 46, BSE agrees that this entire Agreement is void and will not become effective, and BSE agrees to withdraw this Agreement from consideration by the Commission (or any other commission or federal or state court).

46.1 **BSE Terms**

From § 25 of the Main AT&T/GTE Arbitrated Agreement:

25. **General Terms and Conditions for Resale**

ATTACHMENT A

25.1 Ordering

- 25.1.1 Orders for resale of Local Services will be placed utilizing a standard Local Service Request ("LSR") form. A complete and accurate LSR must be provided by AT&T before a request can be processed; provided, however, that immaterial deviations or omissions in the LSR will not prevent an order from being processed. Each Party shall transfer the customer's service features and functionalities "as is" to the other Party when requested by a customer. For purposes of this Section 25, an "as is transfer" is the transfer of all the telecommunications services and features available for resale that are currently being provided for the specified account without the requirement of a specific enumeration of the services and features on the LSR.
- 25.1.2 A Letter of Authorization ("LOA") will be required before Local Services will be provided for resale to a subscriber that currently receives local exchange service from GTE or from a local service provider other than AT&T. Such LOA may be a blanket letter of authorization (Blanket LOA) or such other form as agreed upon by AT&T and GTE. When a Blanket LOA has been provided by AT&T, GTE shall not require an additional disconnect order, LOA or other writing from a customer, or another LEC, in order to process an order for Local Service. Each Party will provide the capability for customers to retain their current phone number in the event that they change local service providers to the extent technically feasible, allowing them to retain all existing features and functionalities.

25.3 Restrictions on Resale

To the extent consistent with the applicable rules and regulations of the FCC and the Commission, AT&T may resell all GTE Local Services as defined in GTE's tariffs. The following restrictions shall apply to the resale of Local Services, as described in Section 24 of this Agreement by AT&T: (i) AT&T shall not resell residential services non-residential end users; (ii) AT&T shall not resell Lifeline/Linkup services or any other means-tested service offering to nonqualifying customers; and (iii) AT&T shall resell grandfathered services only to customers qualified to receive such services from GTE.

ATTACHMENT A

**The following rates are from Attachment 14 of the AT&T/GTE
Arbitrated Agreement:**

Page 1

1. Local Service Resale

The prices charged to AT&T for Local Service shall be calculated using the avoided cost discount applicable in the State determined on the basis of the retail rate charged to subscribers for the telecommunications service requested, excluding the portion thereof attributable to any marketing, billing, collection, and other costs that will be avoided by GTE, as further specified in Appendix 1.

The prices shall be GTE's retail rates applicable on the Effective Date, less the applicable discount. If GTE reduces or increases its retail rates after AT&T executes this Agreement, the applicable discount shall be applied to the reduced or increased retail rates.

2. Unbundled Network Elements

The prices charged to AT&T for Network Elements shall be as further specified in Appendix 2.

ATTACHMENT A

Attachment 14 (Page 3)
of
AT&T/GTE Pricing Agreement

(Appendix 1 - Local Service Resale)

Beginning with the Effective Date of this Agreement, Resale Services will be priced in accordance with the standards and prices described below.

1. The wholesale rates for Local Service Resale will be calculated based upon the discounts described in Annex 1. Such discounts will be applied against the Retail Rates for each GTE Retail Offering.
- 1.1 "Retail Rates" are the effective rates a GTE retail customer would have paid GTE under the Retail Offering selected by AT&T, taking into consideration all applicable discounts, including, but not limited to, volume, term and time of day.
- 1.2 A "Retail Offering" is an individual contract or retail service rate element, or package of rate elements, which GTE offers to its retail customers, including, but not limited to, Grandfathered Services.
2. Nonrecurring "change" or "record" charges, rather than service establishment charges, shall apply for the conversion of existing Customers of GTE services, received either directly from GTE or through another reseller, to AT&T local service.

Attachment 14 (Page 6)
of
AT&T/GTE Pricing Agreement

(Appendix 1 - Annex 2 - Summary of Wholesale Charges)

This Annex refers to contract or retail service charges

Local Services-Residence and Business.

Line Charges: These services should include but not be limited to the exchange line charges, by rate area within the jurisdiction. The price structure should encompass flat rates, measured rate service, one and/or two-party lines and any other subcategory that pertains to that jurisdiction. Line prices that reflect usage for such services as call-packs, extended area service, community calling would be included in this category.

Usage Charges: Includes all usage not captured in the line charge, such as messages or minutes in excess of any limited calling-plan.

Features: Custom calling features and advanced custom calling features as designed to be compatible with single and multi-line residence and business customer exchange lines. Custom calling features would include month and pay per attempt charges. Associated feature discounts for quantity or other marketing bundles would also be included. (Central office features that support CENTRANET and private line services would be included with each specific service category.).

Listings: All forms of directory listings for both local and toll services. Prices for customer listing options such as bold type, dual name, business name and custom advertising for the white and yellow pages are included.

Non-recurring charges: Charges associated with the installation, addition, changing or moving of service and equipment for local service.

ATTACHMENT A

Attachment 14 (Page 7)
of
AT&T/GTE Pricing Agreement

Toll Services: Charges for any service that has been ordered by the Commission to be open to intraLATA presubscription whether charged on a per minute of use or other basis. This includes the non-recurring and listing charges associated with installation or record affecting work for toll service or toll usage plans and for listings, advertising and associated services in the 800 service directory.

Operator Services: Charges associated with, but not limited to, obtaining operator assistance for call placement, busy-line verification and interruption, time and weather and, if priced as such, DA call completion.

Directory Assistance Services: Charges associated with the use of directory assistance operators in obtaining local telephone numbers.

Business Trunks and Service Arrangements: Charges associated with PBX trunk arrangements for single and multi-line customers. Included are line and usage charges, features and service arrangements for direct inward (and/or outward) dialing.

ISDN Services: Charges associated with Integrated Services Digital Network Service for residence and business customers for the transmission of voice, data and packet switched signals.

CENTRANET Services: Charges associated with the provision and use of central office based private branch exchange services using equipment located on the premises owned or leased or controlled by GTE and connected by local loops to the premises of the customer or an authorized user.

Private Line Services: Charges associated with the provision and use of dedicated facilities between two or more customer locations.

Inbound/Outbound Services: Charges associated with the provision and use of WATS 800 (inbound) and Wide Area Telephone service (outbound) and other like services.

End User Access Services: Charges associated with the provision and use of common and dedicated facilities to provide access service to end user customers.

ATTACHMENT A

Attachment 14 (Page 9)
of
AT&T/GTE Pricing Agreement

(Appendix 2 - Prices for Unbundled Network Elements)

Beginning with the Effective Date of this Agreement, Network Elements and Combinations will be priced in accordance with the standards and prices described in this Appendix 2.

Other than the prices identified as interim, the prices listed in this Appendix 2 will remain in effect for three (3) years (Initial Contract Period) unless amended pursuant to pricing orders applicable to Network Elements and Combinations provided by GTE to AT&T in the State. The prices identified as interim are subject to further order of the Commission pending submission of cost studies by GTE. At the end of the Initial Contract Period, the agreement will automatically renew for an additional one year term, unless one party gives 90 days written notice of a wish to terminate. Upon the giving of such written notice by a Party, the Parties agree to renegotiate any or all of the prices, subject to the then applicable pricing standards established by the FCC and/or the state regulatory commission. If the Parties are unable to agree upon revised prices within sixty (60) days of the request to terminate, a Party may invoke the Dispute resolution procedures of Attachment 1. Until such time as the revised prices are agreed to, or established by the decision of the Arbitrator in the dispute resolution procedure, the prices described in this Appendix 2 will continue to remain in effect.

Nonrecurring charges for Dedicated Transport, Database and Signaling Systems, and Channelization System to be provided following review of GTE cost data.

46.2 GTE Terms

Pursuant to Section 46 of Article III of this Agreement, the following terms shall be applied in the event the "AT&T/GTE" Terms are deemed to be unlawful, or are stayed or enjoined by a court or commission of competent jurisdiction.

- The Services Available for Resale in Appendix A will apply instead of Section 46.1 of this Article III.
- The Resale Discount in Appendix A will apply instead of Section 46.1 of this Article III.
- The rates for Unbundled Network Elements in Appendix B will apply instead of Section 46.1 of this Article III.
- In addition, the list of services and terms and conditions available for resale in Article VI will supersede Section 46.1 of this Article III.

ATTACHMENT A

ARTICLE IV
GENERAL RULES GOVERNING RESOLD SERVICES
AND UNBUNDLED ELEMENTS

1. General. General regulations, terms and conditions governing rate applications, technical parameters, service availability, definitions and feature interactions, as described in the appropriate GTE intrastate local, toll and access tariffs, apply to retail services made available by GTE to BSE for resale and unbundled network elements provided by GTE to BSE, when appropriate, unless otherwise specified in this Agreement. As applied to services or network elements offered under this Agreement, the term "Customer" contained in the GTE Retail Tariff shall be deemed to mean "BSE" as defined in this Agreement.
2. Liability of GTE.
 - 2.1 Inapplicability of Tariff Liability. GTE's general liability, as described in the GTE Retail Tariff, does not extend to BSE's customers or any other third party. Liability of GTE to BSE resulting from any and all causes arising out of services, facilities, network elements or any other items relating to this Agreement shall be governed by the liability provisions contained in this Agreement and no other liability whatsoever shall attach to GTE. GTE shall be liable for the individual services, facilities or elements that it separately provides to BSE and shall not be liable for the integration of components combined by BSE.
 - 2.2 BSE Tariffs or Contracts. BSE shall, in its tariffs or other contracts for services provided to its end users using services, facilities or network elements obtained from GTE, provide that in no case shall GTE be liable to BSE's end users or any third parties for any indirect, special or consequential damages, including, but not limited to, economic loss or lost business or profits, whether foreseeable or not, and regardless of notification by BSE of the possibility of such damages and BSE shall indemnify and hold GTE harmless from any and all claims, demands, causes of action and liabilities based on any reason whatsoever from its customers as provided in this Agreement. Nothing in this Agreement shall be deemed to create a third party beneficiary relationship with BSE's end users.
 - 2.3 No Liability for Errors. GTE is not liable for mistakes that appear in GTE's listings, 911 and other information databases, or for incorrect referrals of end users to BSE for any ongoing BSE service, sales or repair inquiries, and with respect to such mistakes or incorrect referrals, BSE shall indemnify and hold

ATTACHMENT A

GTE harmless from any and all claims, demands, causes of action and liabilities whatsoever, including costs, expenses and reasonable attorney's fees incurred on account thereof, by third parties, including BSE's end users or employees. For purposes of this Section 2.3, mistakes and incorrect referrals shall not include matters arising out of the willful misconduct of GTE or its employees or agents.

3. Unauthorized Changes.

3.1 Procedures. If a CLEC submits an order to GTE for resold services or unbundled elements under this Agreement in order to provide service to an end user that at the time the order is submitted is obtaining its local services from the CLEC or another LEC using GTE resold services or unbundled elements, and the end user notifies their service provider that the end user did not authorize the CLEC submitting the order to provide local exchange services to the end user, the CLEC submitting the order must providewritten documentation of authorization from that end user within thirty (30) Business Days of notification by the service provider. If the CLECsubmitting the change request order cannot provide written documentation of authorization within such time frame, the CLEC must within three (3) Business Days thereafter:

- (a) notify GTE to change the end user back to the LEC providing service to the end user before the change was made; and
- (b) provide any end user information and billing records obtained relating to the end user to the LEC previously serving the end user; and
- (c) notify the end user, the affected CLEC and GTE that the change back to the previous LEC has been made.

Furthermore, GTE will bill the CLEC fifty dollars (\$50.00) for the unauthorized change per affected line to compensate GTE for switching the end user back to the original LEC. However, in the case of unauthorized changes of BSE customers to GTE, GTE shall have the same duties described in this paragraph and will pay BSE \$50 for the unauthorized change.

ATTACHMENT A

4. **Impact of Payment of Charges on Service.** Each Party to this Agreement is solely responsible for the payment of all charges for all services, facilities and elements furnished by the other Party under this Agreement, including, but not limited to, calls originated or accepted at its or its end users' service locations. If either Party fails to pay when due any and all charges billed under this Agreement, including any late payment charges (collectively, "Unpaid Charges"), and any or all such charges remain unpaid more than forty-five (45) Business Days after the due date of such Unpaid Charges excepting previously disputed charges for which payment may be withheld, the billing Party shall notify the other Party in writing that it must pay all Unpaid Charges within seven (7) Business Days. If the billed charges are disputed, it shall, within said seven (7) day period, inform the billing Party in writing of which portion of the Unpaid Charges it disputes, including the specific details and reasons for the dispute, unless such reasons have been previously provided, and shall immediately pay to the billing Party all undisputed charges. If BSE and GTE are unable, within thirty (30) Business Days thereafter, to resolve issues related to the disputed charges, then either BSE or GTE may file a request for arbitration under Article III of this Agreement to resolve those issues. Upon resolution of any dispute hereunder, if BSE or GTE owes payment it shall make such payment with any late payment charge under Article III, Section 7.2, from the original payment due date. If no payment is owed, but such disputed payment was previously paid, then such payment including any late payment charges shall be credited. If BSE fails to pay any undisputed Unpaid Charges, BSE shall, at its sole expense, within five (5) Business Days notify its end users that their service may be disconnected for BSE's failure to pay Unpaid Charges, and that its end users must select a new provider of local exchange services. If BSE fails to provide such notification or any of BSE's end users fail to select a new provider of services within the applicable time period, GTE will provide local exchange services to BSE's end users under GTE's applicable end user tariff at the then current charges for the services being provided. In this circumstance, otherwise applicable service establishment charges will not apply to BSE's end user, but will be assessed to BSE. GTE may discontinue service to BSE upon failure to pay undisputed charges as provided in this Section 4, and shall have no liability to BSE or BSE's end users in the event of such disconnection.
5. **Unlawful Use of Service.** Services, facilities or unbundled elements provided by GTE pursuant to this Agreement shall not be used by BSE or its end users for any purpose in violation of law. BSE, and not GTE, shall be responsible to ensure that BSE and its end users use of services, facilities or unbundled elements provided hereunder comply at all times with all applicable laws. GTE may refuse to furnish service to BSE or disconnect particular services, facilities or unbundled elements provided under this Agreement to BSE or, as appropriate, BSE's end user when (1) an order is issued by a court of competent jurisdiction finding that probable cause exists to believe that the use made or to

ORDER NO. PSC-98-1076-FOF-TP
DOCKET 980710-TP
PAGE 61

ATTACHMENT A

personnel acting on behalf of BSE pursuant to this Agreement provide information to BSE end users about GTE products or services.

ATTACHMENT A

be made of the service, facilities or unbundled elements is prohibited by law or (ii) GTE is notified in writing by a law enforcement agency acting within its jurisdiction that any facility furnished by GTE is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law. Termination of service shall take place after reasonable notice is provided to BSE, or as ordered by the court. If facilities have been physically disconnected by law enforcement officials at the premises where located, and if there is not presented to GTE the written finding of a court, then upon request of BSE and agreement to pay restoral of service charges and other applicable service charges, GTE shall promptly restore such service.

6. Timing of Messages. With respect to GTE resold measured rate local service(s), and resold long distance service (i.e., Message Telephone Service), chargeable time begins when a connection is established between the calling station and the called station (i.e., when the called station "goes off-hook"). Chargeable time ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Timing of messages applicable to GTE's Port and Local Switching element (usage sensitive services) will be recorded based on originating and terminating access.
7. Procedures For Preordering, Ordering, Provisioning, Etc. Certain procedures for preordering, ordering, provisioning, maintenance and billing and electronic interfaces for many of these functions are described in Appendix D. All costs and expenses for any new or modified electronic interfaces BSE requires that GTE determines are technically feasible and GTE agrees to develop will be paid by BSE pursuant to Appendix D. The schedule for implementation of any new or modified electronic interfaces will be developed by GTE according to industry standards and will be based upon the amount of work needed to design, test and implement the new or modified interface.
8. Customer Contacts. Except as otherwise provided in this Agreement or as agreed to in a separate writing by BSE, BSE shall provide the exclusive interface with BSE's end user customers in connection with the marketing or offering of BSE services. Except as otherwise provided in this Agreement, in those instances in which GTE personnel are required pursuant to this Agreement to interface directly with BSE's end users, such personnel shall not identify themselves as representing GTE. All forms, business cards or other business materials furnished by GTE to BSE end users shall bear no corporate name, logo, trademark or trade name other than BSE's. In no event shall GTE

ATTACHMENT A

**ARTICLE VI
RESALE OF SERVICES**

1. General. The purpose of this Article VI is to define the Exchange Services and related Vertical Features and other Services (collectively referred to for purposes of this Article VI as the "Services") that may be purchased from GTE and resold by BSE and the terms and conditions applicable to such resold Services. Except as specifically provided otherwise in this Agreement, provisioning of Exchange Services for resale will be governed by the GTE Guide. GTE will make available to BSE for resale any Telecommunications Service that GTE currently offers, or may offer hereafter, on a retail basis to subscribers that are not telecommunications carriers, except as qualified by Section 2.2 below.
2. Terms and Conditions. The following will apply pursuant to Article III, Section 46.
 - 2.1 Quality and Performance. GTE shall provide Services to BSE that are equal in quality and performance standards to the same Services provided by GTE to its own end user customers.
 - 2.2 Restrictions on Resale. The following restrictions shall apply to the resale of retail services by BSE.
 - 2.2.1 BSE shall not resell Basic Exchange Residential Service (Superseded pursuant to Article III, Section 46).
 - 2.2.2 BSE shall not resell to one class of customers a service that is offered by GTE only to another class of customers in accordance with State requirements (e.g., R-1 to B-1, disabled services or Lifeline services to non-qualifying customers).
 - 2.2.3 BSE shall not resell public pay telephone lines (Superseded pursuant to Article III, Section 46).
 - 2.2.4 BSE shall not resell semi-public pay telephone lines (Superseded pursuant to Article III, Section 46).

ATTACHMENT A

- 2.3 Restrictions on Discount of Retail Services. The discount specified in Appendix A shall apply to all retail services except for the following (Superseded pursuant to Article III, Section 46):
- 2.3.1 BSE shall resell services that are provided at a volume discount in accordance with terms and conditions of applicable tariff. BSE shall not aggregate end user traffic in order to qualify for volume discount.
 - 2.3.2 BSE shall resell ICB/Contract services without a discount and only to end user customers that already have such services (Superseded pursuant to Article III, Section 46).
 - 2.3.3 BSE shall resell COCOT coin or coinless line but no discount applies (Superseded pursuant to Article III, Section 46).
 - 2.3.4 BSE shall resell special access but no discount applies.
 - 2.3.5 BSE shall resell Operator Services and Directory Assistance as specified in Section 5.6 herein however no discount applies (Superseded pursuant to Article III, Section 46).
- 2.4 Resale to Other Carriers. Services available for resale may not be used by BSE to provide access to the local network as an alternative to tariffed switched and special access by other carriers, including, but not limited to; interexchange carriers, wireless carriers, competitive access providers, or other retail telecommunications providers.
3. Ordering and Billing. The following will apply pursuant to Article III, Section 46.
- 3.1 Local Service Request. Orders for resale of Services will be placed utilizing a standard Local Service Request ("LSR") form. GTE will continue to participate in industry forums for developing service order/disconnect order formats and will incorporate appropriate industry standards. A complete and accurate LSR (containing the requisite end user information as described in the Guide) must be provided by BSE before a request can be processed.

ATTACHMENT A

- 3.2 Certificate of Operating Authority. When ordering, BSE must represent and warrant to GTE that it is a certified provider of local dial-tone service. BSE will provide a copy of its Certificate of Operating Authority or other evidence of its status to GTE upon request.
- 3.3 Letter of Authorization. A Letter of Authorization ("LOA") will be required before resold Services will be provided in cases in which the subscriber currently receives Exchange Service from GTE or from a local service provider other than BSE. Such LOA may be a blanket LOA or such other form as agreed upon between GTE and BSE. GTE will not release information to BSE on GTE end user customer accounts, e.g., Customer Proprietary Information (CPNI), unless BSE first provides to GTE a written LOA, signed by the end user customer, authorizing the release of such information to BSE or if state or federal law provides otherwise, in accordance with such law (Superseded pursuant to Article III, Section 46).
- 3.4 Directory Assistance Listings. GTE shall include a BSE customer listing in its Directory Assistance database as part of the Local Service Request ("LSR") process. GTE will honor BSE Customer's preferences for listing status, including non-published and unlisted, as noted on the LSR and will enter the listing in the GTE database which is used to perform Directory Assistance functions as it appears on the LSR.
- 3.5 Nonrecurring Charges. BSE shall be responsible for the payment of all nonrecurring charges ("NRCs") applicable to resold Services (e.g., installation, changes, ordering charges) in accordance with the appropriate tariff. No discount applies to nonrecurring charges (Superseded pursuant to Article III, Section 46).
- 3.6 Transfers Between BSE and Another Reseller of GTE Services. When BSE has obtained an end user customer from another reseller of GTE services, BSE will inform GTE of the transfer by submitting a standard LSR to GTE.
- 3.7 Local Calling Detail. Except for those Services and in those areas where measured rate local service or a usage based pricing plan is available to end users, monthly billing to BSE does not include local calling detail. However, BSE may request and GTE shall consider developing the capabilities to provide local calling detail in those areas where measured local service is not available for a mutually agreeable charge.

ATTACHMENT A

- 3.8 Procedures. An overview of the procedures for preordering, ordering, provisioning and billing for resold services are outlined in Appendix D, attached hereto and made a part hereof.
- 3.9 LIDB. For resale services, GTE's service order will generate updates to the LIDB for validation of calling card, collect, and third number billed calls.
- 3.10 "OLN". Upon request, GTE will update the database to provide Originating Line Number ("OLN") Screening which indicates to an operator the acceptable billing methods for calls originating from the calling number (e.g., penal institutions, COCOTS).
4. Maintenance.
- 4.1 Maintenance, Testing and Repair. GTE will provide repair and maintenance services to BSE and its end user customers for resold Services in accordance with the same standards and charges used for such services provided to GTE end user customers. GTE will not initiate a maintenance call or take action in response to a trouble report from a BSE end user until such time as trouble is reported to GTE by BSE. BSE must provide to GTE all end user information necessary for the installation, repair and servicing of any facilities used for resold Services according to the procedures described in the Guide.
- 4.2 Specifics and Procedures for Maintenance. An overview of the procedures for maintenance of resold services and additional matters agreed to by the Parties concerning maintenance are set forth in Appendix D.
5. Services Available for Resale.
- 5.1 Description of Local Exchange Services Available for Resale. Resold basic Exchange Service includes, but is not limited to, the following elements:
- (a) Voice Grade Local Exchange Access Line - includes a telephone number and dial tone.
 - (b) Local Calling - at local usage measured rates if applicable to the end user customer.

ATTACHMENT A

- (c) Access to long distance carriers
- (d) E-911 Emergency Dialing
- (e) Access to Service Access Codes - e.g., 800, 888, 900
- (f) Use of AIN Services (those currently available to end users)
- (g) End User Private Line Services
- (h) Listing of telephone number in appropriate "white pages" directory; and
- (i) Copy of "White Pages" and "Yellow Pages" directories for the appropriate GTE service area

5.2 List of Services Available for Resale. Pursuant to Article III, Section 46 the type of Services listed on Appendix A, attached hereto and made a part of this Agreement, are available for resale by BSE. Subject to the limitations on resale enumerated in this Article, any new services that GTE offers in the future at retail to customers who are not telecommunications carriers shall also be available to BSE for resale under the same terms and conditions contained in this Agreement. Additional regulations, terms and conditions relating to the type of Services listed on Appendix A can be found in the appropriate intrastate local, toll and access tariffs. Terms, conditions and other matters concerning rate applications, technical parameters, provisioning capability, definitions and feature interactions contained in such tariffs are applicable to the type of Services offered under this Agreement and are incorporated herein by reference. Modifications to Services listed on Appendix A shall be provided to BSE in accordance with GTE's practices and procedures.

5.3 Rates. The prices charged to BSE for Local Services shall be calculated as follows (Superseded pursuant to Article III, Section 46):

- (1) An Avoided Cost Discount shall apply to all retail services except those services listed in Section 2.2 and Section 2.3 herein.

ATTACHMENT A

- (2) The discount dollar amount calculated under Step 1 above will be deducted from the retail rate.
- (3) The resulting rate is the Wholesale Rate.
- (4) This discount dollar amount in Step 2 above shall not change during the Term of this Agreement, even though GTE may change its retail rates.

- 5.4 Grandfathered Services. Services identified in GTE Tariffs as grandfathered in any manner are available for resale only to end user customers that already have such grandfathered service. An existing end user customer may not move a grandfathered service to a new service location.
- 5.5 Access. GTE retains all revenue due from other carriers for access to GTE facilities, including both switched and special access charges.
- 5.6 Operator Services (OS) and Directory Assistance (DA). Where GTE provides access to GTE Operator Services for local and toll assistance (for example, call completion, busy line verification and emergency interruption) and Directory Assistance (e.g., 411 calls routed to GTE's DA operator centers) as an element of Exchange Services offered for resale, BSE will be billed in accordance with GTE appropriate end user tariff. GTE will provide its existing OS and DA to BSE at the same quality and in a nondiscriminatory manner as the service GTE's end users receive.
- 5.6.1 Where Customized Routing is available (pursuant to Article VII, Section 10), GTE will offer unbranded OS and DA or rebranded OS and DA. GTE will provide such unbranding or rebranding on a switch-by-switch basis, subject to capability and capacity limitations. Upon receipt of an order for unbranding or rebranding, GTE will implement within 90 Business Days when technically capable.
- 5.6.2 BSE will be billed for unbranding or rebranding and Customized Routing. Upon written request from BSE, GTE will provide BSE with terms and conditions for providing Customized Routing and branding, plus the applicable charges. In addition, a port and dedicated trunk facilities are required as specified in Article VII, Section 11.4.

ATTACHMENT A

- 5.6.3 For those offices that BSE has requested GTE to rebrand and/or unbrand OS and DA, GTE will provide it where GTE performs its own OS and DA service. If GTE uses a third party contractor to provide OS or DA, GTE will not provide branding nor will GTE negotiate the issue with the third party on behalf of BSE. BSE may negotiate with the third party to rebrand or unbrand BSE's traffic.

If the third party agrees to unbrand and/or rebrand, BSE must request customized routing from GTE to differentiate BSE's traffic going to the third party OD/DA provider from GTE's traffic.

For those offices where BSE requests rebranded/unbranded OS/DA and a third party provides these services, GTE will provide BSE with the name, address, contact name and telephone number of the third party contractor.

- 5.6.4 GTE shall provide OSS functions to BSE for ordering and billing that are generally available as described in Appendix D attached to this Agreement. BSE shall pay GTE for access to GTE's OSS functions consistent with processes defined in Appendix D.

ATTACHMENT A

ARTICLE VII
UNBUNDLED NETWORK ELEMENTS

1. General. The purpose of this Article VII is to define the unbundled network elements that may be leased by BSE from GTE. Unless otherwise specified in this Agreement, provisioning of unbundled network arrangements will be governed with the GTE Customer Guide for CLEC Establishment of Services - Resale and Unbundling (the "Guide"). Additional procedures for preordering, ordering, provisioning and billing of unbundled network elements are outlined in Appendix D.
2. Unbundled Network Elements. Pursuant to Article III, Section 46, the following will apply.
 - 2.1 Categories. There are several separate categories of Network Components that shall be provided as unbundled network elements by GTE:
 - (a) Network Interface Device or NID
 - (b) Loop Elements
 - (c) Port and Local Switching Elements
 - (d) Transport Elements
 - (e) Signaling Elements
 - (f) Operator Services/Directory Assistance (OS/DA)
 - (g) Operation Support Systems (OSS).
 - 2.2 Prices. Individual unbundled network elements and prices are identified on Appendix B attached to this Agreement and made a part hereof, or under the

ATTACHMENT A

appropriate GTE tariff as referenced in this Article. Nonrecurring charges relating to unbundled elements are also listed on Appendix B.

2.2.1 Reciprocal Compensation Arrangements for Call Termination. Reciprocal compensation arrangements for call termination using unbundled elements shall be as provided in Appendix E attached hereto.

2.3 Interconnection to Unbundled Elements. BSE may lease and interconnect to whichever of these unbundled network elements BSE chooses, and subject to technical feasibility, may combine these unbundled elements with any facilities or services that BSE may itself provide subject to the following:

2.3.1 Interconnection shall be achieved via expanded interconnection/ collocation arrangements BSE shall maintain at the wire center at which the unbundled services are resident.

2.3.2 Each loop or port element shall be delivered to the BSE collocation arrangement over a loop/port connector applicable to the unbundled services as listed on Appendix B.

2.3.3 BSE shall combine unbundled network elements with its own facilities. GTE has no obligation to combine any network elements for BSE. BSE may not combine such network elements to provide solely interexchange service or solely access service to an interexchange carrier.

2.4 Service Quality. To the degree reasonably possible, all service attributes, grades-of-service and installation, maintenance and repair intervals which apply to the bundled service will apply to unbundled network elements. Notwithstanding the foregoing, GTE shall not be responsible for impacts on service attributes, grades of service, etc., resulting from BSE's specific use of or modification to any unbundled network element.

3. Network Interface Device.

3.1 Direct Connection. BSE shall be permitted to connect its own Loop directly to GTE's Network Interface Device or NID in cases in which BSE uses its own facilities to provide local service to an end user formerly served by GTE, as long as such direct connection does not adversely affect GTE's network. In order to

ATTACHMENT A

minimize any such adverse effects, BSE shall follow the procedures in Sections 3.1.1 and 3.1.2 below.

- 3.1.1 When connecting its own loop facility directly to GTE's NID for a residence or business customer, BSE must make a clean cut on the GTE drop wire at the NID so that no bare wire is exposed. BSE shall not remove or disconnect GTE's drop wire from the NID or take any other action that might cause GTE's drop wire to be left lying on the ground.
- 3.1.2 At multi-tenant customer locations, BSE must remove the jumper wire from the distribution block (i.e. the NID) to the GTE cable termination block. If BSE cannot gain access to the cable termination block, BSE must make a clean cut at the closest point to the cable termination block. At BSE's request and discretion, GTE will determine the cable pair to be removed at the NID in multi-tenant locations. BSE will compensate GTE for the trip charge necessary to identify the cable pair to be removed.
- 3.1.3 GTE agrees to offer NIDs for lease to BSE but not for sale. BSE may remove GTE identification from any NID which it connects to a BSE loop, but BSE may not place its own identification on such NID.
- 3.1.4 GTE Loop elements leased by BSE will be required to terminate only on a GTE NID. If BSE is leasing a GTE loop and wants a BSE NID, they will also be required to lease a GTE NID for the direct loop termination and effect a NID to NID connection.
- 3.2 NID to NID Connection. Rather than connecting its loop directly to GTE's NID, BSE may also elect to install its own NID and effect a NID to NID connection to gain access to the end user's inside wiring.
 - 3.2.1 The CLEC that provides its own loop facilities may elect to move all inside wire terminated on a GTE NID to one provided by the CLEC. In this instance, a NID to NID connection will not be required. The CLEC, or the end user premise owner, can elect to leave the GTE disconnected NID in place, or to remove the GTE NID from the premise and dispose of it entirely.
- 3.3 Removal of Cable Pairs. Removal of existing cable pairs required for BSE to terminate service is the responsibility of BSE.

ATTACHMENT A

- 3.4 Maintenance. When BSE provides its own loop and connects directly to GTE's NID, GTE does not have the capability to perform remote maintenance. BSE can perform routine maintenance via its loop and inform GTE once the trouble has been isolated to the NID and GTE will repair (or replace) the NID, or, at BSE's option, it can make a NID to NID connection, using the GTE NID only to gain access to the inside wire at the customer location.
4. Loop Elements.
- 4.1 Service Description. A "Loop" is an unbundled component of Exchange Service. In general, it is the transmission facility (or channel or group of channels on such facility) which extends from a Main Distribution Frame ("MDF") or functionally comparable piece of equipment in a GTE end office or wire center to and including a demarcation or connector block in/at a subscriber's premises. Traditionally, Loops were provisioned as 2-wire or 4-wire copper pairs running from the end office MDF to the customer premises. However, a loop may be provided via other media, including radio frequencies, as a channel on a high capacity feeder/distribution facility which may, in turn, be distributed from a node location to the subscriber premises via a copper or coaxial drop facility, etc.
- 4.2 Categories of Loops. There are six general categories of loops:
- 4.2.1 "2-wire analog voice grade" loops will support analog transmission of 300-3000 Hz, repeat loop start or ground start seizure and disconnect in one direction (toward the end office switch), and repeat ringing in the other direction (toward the end user). This loop is commonly used for local dial tone service;
- 4.2.2 "4-wire analog voice grade" loops conform to the characteristics of a 2-wire voice grade loop and, in addition, can support the simultaneous independent transmission of information in both directions;
- 4.2.3 "2-wire digital" loops will support industry standard specifications for digital transmission. Special provisioning (removal of bridge taps and/or load coils) will be required to conform to these industry standards. The price for 2-wire digital loops shall be the price for the basic 2-wire loop plus the loop facility NRC to recover the cost of the special provisioning.

ATTACHMENT A

- 4.2.4 "4-wire digital" loops will support industry standard specifications for digital transmission. Special provisioning (removal of bridge taps and/or load coils) will be required to conform to these industry standards. The price for 4-wire digital loops shall be the price for the basic 4-wire loop plus the loop facility NRC to recover the cost of the special provisioning.
- 4.2.5 "DS-1" loops will support a digital transmission rate of 1.544 Mbps. The DS-1 loop will have no bridge taps or load coils and will employ special line treatment. DS-1 loops will include span line repeaters where required, office terminating repeaters, and DSX cross connects. Prices for DS-1 grade loops are the prices set forth in the appropriate GTE intrastate special access tariff.
- 4.2.6 "DS-3" loops will support the transmission of isochronous bipolar serial data at a rate of 44.736 Mbps. This DS-3 type of loop provides the equivalent of 28 DS-1 channels and shall include the electronics at either end.
- 4.3 Conditioned Loops. BSE may also require that the loops ordered above be conditioned in order for them to provide the end-user service. Examples of this type of conditioning are: Type C, Type DA, Improved C, Clear Channel, etc. The price for such conditioned loops shall be the applicable charge as provided in the appropriate GTE intrastate special access tariff.
- 4.4 Features, Functions, Attributes.
- 4.4.1 GTE will not perform routine testing of the unbundled loop for maintenance purposes. BSE will be required to provision a loop testing device either in its central office (switch location), Network Control Center or in its collocation arrangement to test the unbundled loop. GTE will perform repair and maintenance once trouble is identified by BSE.
- 4.4.2 All Loop facilities furnished by GTE on the premises of BSE's end users and up to the network interface or functional equivalent are the property of GTE. GTE must have access to all such facilities for network management purposes. GTE employees and agents may enter said premises at any reasonable hour to test and inspect such facilities in connection with such purposes or, upon termination or cancellation of the Loop facility, to remove such facility.

ATTACHMENT A

- 4.4.3 GTE will provide loop transmission characteristics to BSE end users which are equal to those provided to GTE end users.
- 4.4.4 If BSE leases loops which are conditioned to transmit digital signals, as a part of that conditioning, GTE will test the loop and provide recorded test results to BSE. In maintenance and repair cases, if loop tests are taken, GTE will provide any recorded readings to BSE at time the trouble ticket is closed in the same manner as GTE provides to itself and its end users.
- 4.5 Digital Loop Carrier. Where GTE utilizes integrated digital loop carrier ("IDLC")¹ technology to provision the Loop element, GTE will take the necessary affirmative steps to provide unbundled Loops. The basic Loop provided will support voice grade services. Loop capabilities beyond voice grade (i.e., ISDN) will be provided under the terms and conditions, and at the prices indicated in Section 4.3, or if applicable, pursuant to the BFR process.
- 4.5.1 GTE will permit BSE to collocate digital loop carriers and associated equipment in conjunction with collocation arrangements BSE maintains at a GTE wire center for the purpose of interconnecting to unbundled Loop elements.
- 4.6 Unbundled Loop Facility Certification.
- 4.6.1 Before deploying any service enhancing copper cable technology (e.g., ISDN, etc.) over unbundled 2-wire analog voice grade loops leased from GTE, BSE shall notify GTE of such intentions to enable GTE to assess the loop transport facilities to determine whether there are any existing copper cable loop transport technologies (e.g., analog carrier, etc.) deployed within the same cable sheath that would be interfered with if BSE deployed the proposed service enhancing copper cable technology. If there are existing copper cable loop transport technologies already deployed within the same cable sheath, or if GTE already has existing near term (within 18 months of the date of facility certification) plans to deploy copper cable loop transport technologies that would be interfered with as described above, GTE will so inform BSE and BSE shall not be permitted to deploy such service enhancing copper cable technologies.

¹ See Bellcore TR-TSY-000008, Digital Interface Between the SLC-96 Digital Loop Carrier System and Local Digital Switch and TR-TSY-000303, Integrated Digital Loop Carrier (IDLC) Requirements, Objectives and Interface.

ATTACHMENT A

GTE will charge BSE the applicable engineering time and labor costs to perform the certification.

- 4.6.2 If BSE fails to notify GTE of its plans to deploy service enhancing copper cable technology and obtain prior certification from GTE of the facilities, if BSE's deployment of such technology is determined to have caused interference with existing or planned copper cable loop transport technologies deployed by GTE in the same cable sheath, BSE will immediately remove such service enhancing copper cable technology and shall reimburse GTE for all incurred expense related to this interference.

4.7 Unbundled Loop Facility Notification.

- 4.7.1 GTE reserves the right to deploy within its network at its sole discretion any and all copper cable loop transport technologies. If GTE plans to deploy copper cable loop transport technology within a cable sheath in which such technology was not previously deployed, GTE will provide notice to BSE of such planned deployment, indicating all service enhancing copper cable technologies that would cause interference with the technology to be deployed, or that would be interfered with by the deployment of such technology. Such notice will be provided at least ninety (90) Business Days in advance of the planned deployment. If BSE has deployed any technologies within the same cable sheath that would interfere with, or be interfered with, by the technology GTE plans to deploy, the parties will work together to resolve the situation.

4.8 Subloops.

- 4.8.1 GTE will provide as separate items the loop distribution, loop concentrator and loop feeder on a case-by-case basis pursuant to a Bona Fide Request ("BFR").
- 4.8.2 GTE will design and construct loop access facilities (including loop feeders and loop concentration/multiplexing systems) in accordance with standard industry practices as reflected in applicable tariffs and/or as agreed to by GTE and BSE.
- 4.8.3 Transport for loop concentrators/multiplexers services not supported by embedded technologies will be provided pursuant to applicable tariffs or

ATTACHMENT A

as individually agreed upon by GTE and BSE. The Parties understand that embedded loop concentrators/multiplexers are not necessarily capable of providing advanced and/or digital services.

- 4.8.4 GTE will provide loop transmission characteristics as specified in Section 4.4.3 herein.

5. Port and Local Switching Elements.

- 5.1 Port. Port is an unbundled component of Exchange Service that provides for the interconnection of individual loops or trunks to the switching components of GTE's network. In general, it is a line card or trunk card and associated peripheral equipment on GTE end office switch that serves as the hardware termination for the end user's Exchange Service on that switch and generates dial tone and provides the end user access to the public switched telecommunications network. The port does not include such features and functions which are provided as part of Local Switching. Each line-side port is typically associated with one (or more) telephone number(s), which serve as the end user's network address.

- 5.2 Ports Available as Unbundled Network Elements. There are four types of Ports available as unbundled network elements;

- 5.2.1 "2-wire analog line" Port is a line side switch connection employed to provide basic residential and business type Exchange Service.
- 5.2.2 "2-wire ISDN digital line" Port is a Basic Rate Interface (BRI) line side switch connection employed to provide ISDN Exchange Services.
- 5.2.3 "DS-1 digital trunk" Port is a direct inward dialing (DID) trunk side switch connection employed to provide the equivalent of 24 analog incoming trunk type Exchange Services.
- 5.2.4 "4-wire ISDN digital DS-1 trunk" Port is a Primary Rate Interface (PRI) trunk side switch connection employed to provide the ISDN Exchange Services

ATTACHMENT A

- 5.3 Port Prices. Prices for 2-wire analog and DS-1 Ports are listed in Appendix B. 2-wire ISDN line side Ports and 4-wire ISDN trunk side Ports shall be provided at a price agreed to by the Parties.
- 5.4 Local Switching. Local switching provides the basic switching functions to originate, route and terminate traffic and any signaling deployed in the switch. Local switching includes connectivity to common transport facilities to terminate a call to a distant end office. Vertical features are optional services provided through software programming in the switch which can be added on a per-feature basis with applicable rate. GTE will offer only those features and functions currently available to the particular platform used (e.g., DMS, 5ESS, GTD5). Any feature or function which is not available, but the switch is capable of providing, may be requested via the BFR process. BSE will be responsible for bearing any costs incurred by GTE in making such feature/function available, including Right-to-Use (RTU) fees. The rates for Local Switching and Vertical Features are listed in Attachment 1 to Appendix B.
- 5.4.1 BSE must purchase Local Switching with the line-side Port or trunk-side Port.
- 5.5 Compliance with Section 2.3. BSE shall only order unbundled elements in accordance with Section 2.3 herein and it will be the responsibility of BSE to make arrangements for the delivery of interexchange traffic and routing of traffic over interoffice transmission facilities, if applicable.
6. Transport Facility.
- 6.1 Service Description. Transport is an unbundled component of Exchange Service. In general, it is the transmission facility (or channel or group of channels on such facility) which extends from a Main Distribution Frame (MDF) or functionally comparable piece of equipment in a GTE end office or access tandem to either (i) another MDF or functionally comparable piece of equipment in a GTE end office or access tandem, or (ii) a meet point with transport facilities of BSE or another carrier. Transport may be provided over a variety of media, including, but not limited to, copper cables, radio frequencies or channels on a high capacity facility.
- 6.1.1 Tandem Switching Capability. GTE will provide tandem switching capability at GTE access tandems for traffic between BSE and GTE end

ATTACHMENT A

offices subtending the GTE access tandem and for traffic between BSE and non-GTE end offices subtending GTE access tandems. GTE will provide the features and functions that are centralized in tandem switches including but not limited to call recording, the routing of calls to operator services when technically feasible, and signaling conversion features.

- 6.2 Categories/Types. Unbundled transport is provided under rates, terms and conditions of the applicable GTE access tariff or local private line tariff.
7. SS7 Transport and Signaling. SS7 signaling and transport services in support of BSE's local exchange services shall be provided in accordance with the terms and conditions of GTE's appropriate SS7 tariffs.
8. LIDB Services. Access to GTE's LIDB shall be provided in accordance with the rates, terms and conditions of GTE's switched access tariff, GTOC Tariff FCC No. 1, Section 8. For Unbundled Local Switching, GTE's service order will generate updates to the LIDB for validation of calling card, collect, and third-number billed calls.
9. Database 800-Type Services. Access to GTE's 800-Type database (i.e., 888, 877) shall be provided in accordance with the rates, terms and conditions of GTE's switched access tariff, GTOC Tariff FCC No. 1, Section 8.
10. Operator Services (OS) and Directory Assistance (DA). GTE will provide OS and DA to BSE in accordance with the terms set forth as follows:
- 10.1 When Directory Assistance and/or Operator Service is to be provided for calls that originate from BSEs own switch, GTE will provide branded or unbranded Directory Assistance and/or Operator Service pursuant to separate contracts to be negotiated in good faith between the parties. (Refer to Article VIII for further details.)
- 10.2 When Directory Assistance and/or Operator Service is to be provided for calls that originate from an unbundled Port with Local Switching, as provided herein, and neither branding nor unbranding is requested, BSEs calls will access GTE's Directory Assistance and/or Operator Service platform and will be processed in the same manner as GTE calls but will be rated at the resale rate.

ATTACHMENT A

- 10.3 When Directory Assistance and/or Operator Service is to be provided for calls that originate from an unbundled Port with Local Switching, as provided herein, and either branding or unbranding is requested, GTE will provide such unbranding or rebranding on a switch-by-switch basis, subject to capability and capacity limitations where Customized Routing is currently available. Upon receipt of an order for unbranding or rebranding, GTE will implement within 90 Business Days when technically capable.
- 10.4 BSE will be billed an element charge for OS and DA and a charge for unbranding or rebranding and Customized Routing as set forth in Section 11.2. In addition, charges specified in Section 11.4 will apply.
- 10.5 For those offices that BSE has requested GTE to rebrand and/or unbrand OS and DA, GTE will provide it using live operators where GTE performs its own OS and DA service and/or are handled by automated systems. If GTE uses a third party contractor to provide OS or DA, GTE will not provide branding nor will GTE negotiate it with a third party on behalf of BSE. BSE must negotiate with the third party. In these instances, BSE will need to purchase customized routing to differentiate OS/DA traffic between GTE's and a third party.

For those offices where BSE requests rebranded/unbranded OS/DA and a third party provides these services, GTE will provide BSE with the name, address, contact name and telephone number of the third party contractor.

11. Customized Routing. Where currently available and upon receipt of written request from BSE, GTE agrees to provide customized routing for the following types of calls:

0-
0+Local
0+411
1+411

0+HNPA-555-1212 (intraLATA, only when intraLATA
presubscription is not available)

1+HNPA-555-1212 (intraLATA, only when intraLATA
presubscription is not available)

ATTACHMENT A

- 11.1 GTE will provide BSE a list of switches that can provide customized routing using line class codes or similar method (regardless of current capacity limitations). BSE will return a list of these switches ranked in priority order. GTE will return to BSE a schedule for customized routing in the switches with existing capabilities and capacity.
- 11.2 Upon written request from BSE, GTE will provide BSE with applicable charges, and terms and conditions, for providing OS and DA, branding, and Customized Routing.
- 11.3 Subject to the above provisions, GTE will choose the method of implementing customized routing of OS and DA calls.
- 11.4 The use of customized routing will require the purchase of a trunk side port and dedicated facilities between the GTE end office and the designated OS/DA platform. The rates for these elements will be billed in accordance with GTE's appropriate state access tariff.
12. Advanced Intelligent Network Access (AIN). GTE will provide BSE access to GTE AIN functionality from GTE's AIN SCP via GTE's local switch or BSE's local switch.
13. Nondiscrimination Provision and Support. GTE agrees to provide unbundled network elements in a timely manner considering the need and volume of requests. GTE will provide unbundled network elements in a non-discriminatory manner and shall provide power to such elements on the same basis as GTE provides to itself.
14. Provisioning Intervals. GTE agrees to provide unbundled network elements in a timely manner considering the need and volume of requests, pursuant to agreed upon service provisioning intervals.
15. Directory Assistance Listing. When BSE orders an unbundled port, BSE has the option to submit a Directory Service Request (DSR) to have the listing included in GTE's Directory Assistance database. The applicable ordering charge will be applied for processing the DSR.

ATTACHMENT A

ARTICLE VIII
ADDITIONAL SERVICES AND COORDINATED SERVICE ARRANGEMENTS

1. Bona Fide Request Process.

1.1 Intent. The Bona Fide Request process is intended to be used when BSE requests customized Service Orders for certain services, features, capabilities or functionality defined and agreed upon by the Parties as services to be ordered as Bona Fide Requests.

1.2 Process.

1.2.1 A Bona Fide Request shall be submitted in writing by BSE and shall specifically identify the need to include technical requirements, space requirements and/or other such specifications that clearly define the request such that GTE has sufficient information to analyze and prepare a response.

1.2.2 Although not expected to do so, BSE may cancel a Bona Fide Request in writing at any time prior to BSE and GTE agreeing to price and availability. GTE will then cease analysis of the request.

1.2.3 Within two (2) Business Days of its receipt, GTE shall acknowledge in writing the receipt of the Bona Fide Request and identify a single point of contact and any additional information needed to process the request.

1.2.4 Except under extraordinary circumstances, within ten (10) Business Days of its receipt of a Bona Fide Request, GTE shall provide a proposed price and availability date, or it will provide an explanation as to why GTE elects not to meet BSE's request. If extraordinary circumstances prevail, GTE will inform BSE as soon as it realizes that it cannot meet the ten (10) Business Day response due date. BSE and GTE will then determine a mutually agreeable date for receipt of the request.

1.2.5 Unless BSE agrees otherwise, all proposed prices shall be consistent with the pricing principles of the Act, FCC and/or the Commission. Payments

ATTACHMENT A

for services purchased under a Bona Fide Request will be made upon delivery, unless otherwise agreed to by BSE, in accordance with the applicable provisions of the Agreement.

- 1.2.6 Upon affirmative response from GTE, BSE will submit in writing its acceptance or rejection of GTE's proposal. If at any time an agreement cannot be reached as to the terms and conditions or price of the request GTE agrees to meet, the Dispute resolution procedures described in Article III hereunder may be used by a Party to reach a resolution.
2. Transfer of Service Announcements. GTE shall provide an intercept referral on behalf of BSE.
3. Misdirected Calls. The Parties will employ the following procedures for handling any misdirected calls (e.g., Business office, repair bureau, etc.).
 - 3.1 To the extent the correct provider can be determined, each Party will refer misdirected calls to the proper provider of local exchange service. When referring such calls, both Parties agree to do so in a courteous manner, at no charge.
 - 3.2 For misdirected repair calls, the Parties will provide their respective repair bureau contact number to each other on a reciprocal basis and provide the end user the correct contact number.
 - 3.3 In responding to misdirected calls, neither Party shall make disparaging remarks about each other, nor shall they use these calls as a basis for internal referrals or to solicit end users or to market services.
4. 911/E911 Arrangements. Where GTE is the 911 service provider, GTE shall provide 911 Service as an element of local exchange services available for resale or an element of unbundled local switching.
 - 4.1 Cooperation and Level of Performance. Where BSE purchases Unbundled Network Elements from GTE, the Parties agree to provide access to 911 /E911 in a manner that is transparent to the end user. The Parties will work together to facilitate the prompt, reliable and efficient interconnection of BSE's systems to the 911/E911 platforms, with a level of performance that will provide the same

ATTACHMENT A

grade of service as that which GTE provides to its own end users as described in 4.2-4.5. To this end, GTE will provide documentation to BSE showing the correlation of its rate centers to its E911 tandems at rates set forth in Appendix C.

4.2 Basic 911 and E911 General Requirements:

- 4.2.1 Basic 911 and E911 provides a caller access to the appropriate emergency service bureau by dialing a 3-digit universal telephone number (911).
- 4.2.2 Where GTE has a 911 selective router installed in the network serving the 911 district, GTE shall use subscriber data derived from the Automatic Location Identification/Database Management System (ALI/DMS) to selectively route the 911 call to the Public Safety Answering Point (PSAP) responsible for the caller's location.
- 4.2.3 Basic 911 and E911 functions provided to BSE shall be at least at parity with the support and services that GTE provides to its subscribers for such similar functionality.
- 4.2.4 GTE and BSE shall conform to all state regulations concerning emergency services.
- 4.2.5 For E911, both BSE and GTE shall use their respective service order processes to update access line subscriber data for transmission to the database management systems. Validation will be done via MSAG comparison listed in Section 4.2.3.
- 4.2.6 If legally required by the appropriate jurisdiction, GTE shall provide or overflow 911 traffic to be routed to GTE Operator Services or, at BSE's discretion, directly to BSE Operator Services.
- 4.2.7 Basic 911 and E911 access from the BSE local switch shall be provided from GTE to BSE in accordance with the following:

ATTACHMENT A

- 4.2.7.1 In government jurisdictions where GTE has obligations under existing Agreements as the primary provider of the 911 System to the county (i.e., "lead telco"), BSE shall participate in the provision of the 911 System.
- 4.2.7.2 In a resale situation or when BSE purchases unbundled local switching where it may be appropriate for GTE to update the ALI database, GTE shall update such database with BSE data in an interval no less than is experienced by GTE subscribers, or than for other carriers, whichever is faster, at no additional cost.
- 4.2.8 The following are Basic 911 and E911 Database Requirements:
 - 4.2.8.1 The ALI database shall be managed by GTE, but is the property of GTE and any participating LEC or BSE which provides their records to GTE.
 - 4.2.8.2 Copies of the MSAG shall be provided within five (5) business days after the date the request is received and provided on diskette or paper copy at the rates set forth in Appendix E.
 - 4.2.8.3 BSE shall be solely responsible for providing BSE database records to GTE for inclusion in GTE's ALI database on a timely basis.
 - 4.2.8.4 GTE and BSE shall arrange for the automated input and periodic updating of the E911 database information related to BSE end users. GTE shall work cooperatively with BSE to ensure the accuracy of the data transfer by verifying it against the Master Street Address Guide ("MSAG"). GTE shall accept electronically transmitted files or magnetic tape that conform to National Emergency Number Association ("NENA") Version #2 format.
 - 4.2.8.5 BSE shall assign an E911 database coordinator charged with the responsibility of forwarding BSE end user ALI record information to GTE or via a third-party entity, charged with the responsibility of ALI record transfer. BSE assumes all

ATTACHMENT A

responsibility for the accuracy of the data that BSE provides to GTE.

- 4.2.8.6 GTE shall update the database within one (1) business day of receiving the data from BSE. If GTE detects an error in the BSE provided data, the data shall be returned to BSE within one day from when it was provided to GTE. BSE shall respond to requests from GTE to make corrections to database record errors by uploading corrected records within one day. Manual entry shall be allowed only in the event that the system is not functioning properly.
- 4.2.8.7 GTE agrees to treat all data on BSE subscribers provided under this Agreement as strictly confidential and to use data on BSE subscribers only for the purpose of providing E911 services.
- 4.2.8.8 GTE shall adopt use of a Carrier Code (NENA standard five-character field) on all ALI records received from BSE. The Carrier Code will be used to identify the carrier of record in NP configurations. The NENA Carrier Code for BSE is "CLEC"; the NENA Carrier Code for GTE is "GTE."

4.3 911 Maintenance

- 4.3.1 GTE shall notify BSE forty-eight (48) hours in advance of any scheduled testing or maintenance affecting BSE 911 service. GTE shall provide notification as soon as possible of any unscheduled outage affecting BSE 911 service.

4.3.2 Basic 911 and E911 Additional Requirements

- 4.3.2.1 BSE and GTE shall be responsible for reporting all errors, defects and malfunctions to one another. GTE and BSE shall provide each other with a point of contact for reporting errors, defects, and malfunctions in the service and shall also provide escalation contacts.

ATTACHMENT A

- 4.3.2.2 BSE may enter into subcontracts with third parties, including BSE Affiliates, for the performance of any of BSE's duties and obligations stated herein.
- 4.3.2.3 Where GTE is the lead telco, GTE shall provide BSE with notification of any pending selective router moves within at least ninety (90) days in advance.
- 4.3.2.4 Where GTE is the lead telco, GTE shall establish a process for the management of N.A. splits by populating the ALI database with the appropriate new N.A. codes.
- 4.3.3 Basic 911 and E911 Information Exchanges and interfaces. Where GTE is the lead telco:
 - 4.3.3.1 GTE shall provide BSE access to the ALI Gateway which interfaces to the ALI/DMS database. GTE shall provide error reports from the ALI/DMS database to BSE within one (1) day after BSE inputs information into the ALI/DMS database. Alternately, BSE may utilize GTE or a third party entity to enter subscriber information into the database on a demand basis, and validate subscriber information on a demand basis. The rates are set forth in Appendix E.
 - 4.3.3.2 GTE and BSE shall arrange for the automated input and periodic updating of the E911 database information related to BSE end users. GTE shall work cooperatively with BSE to ensure the accuracy of the data transfer by verifying it against the Master Street Address Guide ("MSAG"). GTE shall accept electronically transmitted files or magnetic tape that conform to National Emergency Number Association ("NENA") Version #2 format.
 - 4.3.3.3 Updates to MSAG. Upon receipt of an error recording a BSE subscriber's address from GTE, and where GTE is the lead telco, it shall be the responsibility of BSE to ensure that the address of each of its end

ATTACHMENT A

users is included in the Master Street Address Guide ("MSAG") via information provided on BSE's Local Service Request ("LSR") or via a separate feed established by BSE pursuant to Section 4.2.3 of this Article.

4.3.3.4 The ALI database shall be managed by GTE, but is the property of GTE and all participating telephone companies. The interface between the E911 Switch or Tandem and the ALI/DMS database for BSE subscriber shall meet industry standards.

4.4 Compensation. In situations in which GTE is responsible for maintenance of the 911 /E911 database and can be compensated for maintaining BSE's information by the municipality, GTE will seek such compensation from the municipality. GTE will seek compensation from BSE only if and to the extent that GTE is unable to obtain such compensation from the municipality.

4.5 End User Service Charge. BSE is responsible for remitting to the 911 district the end user 911 service charge.

5. Information Services Traffic.

5.1 Billing and Collection and Information Service Provider (ISP) Remuneration.

5.1.1 In the event GTE performs switching of ISP traffic associated with resale or unbundled network elements for BSE, GTE shall provide to BSE GTE's standard call detail records so as to allow BSE to bill its end users. GTE shall not be responsible or liable to BSE or ISP for Billing and Collection and/or any receivables of Information Service Providers.

5.1.2 Notwithstanding and in addition to Article III, Section 24, GTE shall be indemnified and held harmless by BSE from and against any and all suits, actions, losses, damages, claims, or liability of any character, type, or description, including all expenses of litigation and court cost which may arise as a result of the provisions contained in Section 5.1.1 supra. The indemnity contained in this section shall survive the termination of this Agreement, for whatever reason.

ATTACHMENT A

- 5.1.3 It is understood and agreed that the indemnity provided for in this Section 5 is to be interpreted and enforced so as to provide indemnification of liability to GTE to the fullest extent now or hereafter permitted by law.
- 5.2 900-976 Call Blocking. GTE shall not unilaterally block 900-976 traffic in which GTE performs switching associated with resale or unbundled network elements. GTE will block 900-976 traffic when requested to do so, in writing, by BSE. BSE shall be responsible for all cost associated with the 900-976 call blocking request. GTE reserves the right to block any and all calls which may harm or damage its network.
- 5.3 Miscellaneous. GTE reserves the right to provide to any Information Service Provider a list of any and all Telecommunications Providers doing business with GTE.
6. Telephone Relay Service. Local and intraLATA Telephone Relay Service ("TRS") enables deaf, hearing-impaired, or speech-impaired TRS users to reach other telephone users. With respect to resold services, BSE's end users will have access to the state authorized TRS provider to the extent required by the Commission, including any applicable compensation surcharges.
7. Directory Assistance Listings Information. GTE will include listings in its directory assistance database for BSE end users in the same geographic area as GTE provides directory assistance for GTE end users as specified in Article VI, Section 3.4.
- 7.1 GTE will make available to BSE, at BSE's request, GTE end user and authorized BSE directory assistance listing information stored in GTE's DA database for the purpose of BSE providing directory assistance service to its local customers.
- 7.2 Directory Assistance Listing Information is the listed names, addresses and telephone numbers of GTE and authorized BSE subscribers. Excluded are listings for restricted BSE lines. GTE directory assistance listing information includes 800/888 listings, non-listed numbers and foreign listings within the GTE franchise. GTE will also provide non-published listings subject to the following limitations:
- (a) GTE will provide the name and address for non-published listings along with a nonpublished indicator. GTE may also provide the full ten (10) digit

ATTACHMENT A

telephone number on an interim basis only, until GTE, in its sole discretion, modifies its systems to preclude the delivery of the non-published telephone number. Following such modification, BSE understands that the non-published telephone numbers will no longer be available.

- (b) BSE agrees to defend, hold harmless and indemnify GTE against any claims, damages or liabilities arising out of any complaint, suit or other action brought by third parties relating to the release by BSE of any nonpublished customer names, addresses or numbers.

7.3 GTE shall provide to BSE, at BSE's request, directory assistance listing information within sixty (60) Business Days after an order is received for that specific state. The DA listing information will be provided in GTE format via magnetic tape or National Data Mover (NDM) as specified by BSE. Updates to the DA listing information shall be provided on a daily basis through the same means used to transmit the list load. DA listing information provided shall indicate whether the customer is a residence or business customer. The rates to be paid by BSE to GTE for the initial load and daily updates will be provided to BSE upon request.

- (a) Such listings shall be Confidential Information under this Agreement and BSE will use the listings only for local directory assistance services to BSE end users in the same local area as GTE.
- (b) If BSE uses a third-party directory assistance service to its end users, BSE will ensure that such third party likewise treats the listings as Confidential Information under this Agreement, and uses them only for local directory assistance to BSE end users in the same local area as GTE.

7.4 The Parties will not release DA Listing Information that includes the other Party's end user information to third parties without the other Party's written approval. The other Party will inform the Releasing Party if it desires to have the Releasing Party provide the other Party's DA Listing Information to the third party, in which case, the Releasing Party shall provide the other Party's DA Listing Information at the same time as the Releasing Party provides the Releasing Party's DA Listing Information to the third party. The rate to be paid by the Releasing Party to the other Party shall be no more than the direct costs of compiling such information. The other Party shall be responsible for billing the third party.

ATTACHMENT A

- 7.5 The Parties will work together to identify and develop procedures for database error corrections.
8. Directory Listings and Directory Distribution. BSE will be required to negotiate a separate agreement for directory listings and directory distribution, except as set forth below, with GTE's directory publication company.

Listings. BSE agrees to supply GTE on a regularly scheduled basis, at no charge, and in a mutually agreed upon format (e.g. Ordering and Billing Forum developed), all listing information for BSE's subscribers who wish to be listed in any GTE published directory for the relevant operating area. Listing information will consist of names, addresses (including city, state and zip code) and telephone numbers. Nothing in this Agreement shall require GTE to publish a directory where it would not otherwise do so.

Listing inclusion in a given directory will be in accordance with GTE's solely determined directory configuration, scope, and schedules, and listings will be treated in the same manner as GTE's listings.

Distribution. Upon directory publication, GTE will arrange for the initial distribution of the directory to service subscribers in the directory coverage area at no charge.

BSE will supply GTE in a timely manner with all required subscriber mailing information including non-listed and non-published subscriber mailing information, to enable GTE to perform its distribution responsibilities.

9. SAG. GTE will provide to BSE upon request the Street Address Guide at a reasonable charge. Two companion files will be provided with the SAG which lists all services and features at all LSOs, and lists services and features that are available in a specific LSO.
10. Dialing Format Changes. GTE will provide reasonable notification to BSE of changes to local dialing format, i.e., 7 to 10 digit, by end office.

ATTACHMENT A

**ARTICLE IX
COLLOCATION**

1. Physical Collocation. GTE shall provide to BSE physical collocation of equipment pursuant to 47 CFR § 51.323 necessary for interconnection or for access to unbundled network elements, provided that GTE may provide virtual collocation in place of physical collocation, or in some cases deny a particular collocation request entirely, if GTE demonstrates that physical collocation, or perhaps even virtual collocation, is not practical because of technical reasons or space limitations, as provided in Section 251(c)(6) of the Act. GTE will work with BSE to install collocation arrangements within 120 calendar days absent extenuating circumstances, GTE will provide such collocation for purposes of interconnection or access to unbundled network elements pursuant to the terms and conditions in the applicable federal and state EIS tariffs.
- 1.1 Space Planning. In addition to such provisions for space planning and reservation as may be set forth in the applicable GTE federal and state EIS tariffs, the parties agree to the following terms and conditions.
 - 1.1.1 GTE has the right to reserve space within its central offices for its own use based on a 5-year planning horizon.
 - 1.1.2 GTE will notify BSE if it plans to build an addition to a central office where BSE has collocated facilities, if such addition would result in a material increase of space available for collocation.
 - 1.1.3 Should BSE submit to GTE a two-year forecast for space planning for collocated facilities in a central office, GTE will, in good faith, consider and discuss such forecast with BSE when considering space planning or utilization decisions for such central office; provided, however that any final space planning or utilization decision shall be made by GTE in its sole discretion in light of GTE requirements.
 - 1.1.4 Subject to technical feasibility and space limitations, GTE will make available at applicable federal and state EIS tariffs such intraoffice facilities as may be necessary to accommodate projected volumes of BSE traffic.

ATTACHMENT A

- 1.2 Connection to Customer Loops and Ports. Facilities for cross-connection to unbundled loops and ports shall be provided under the applicable GTE federal tariff for Special Access Cross Connect, until such time as a local tariff applicable to the facilities used for such cross-connection is filed.
- 1.3 Connection to Other Collocated Carriers. Subject to technical feasibility and space limitations, BSE may interconnect with other carriers collocated at a GTE central office at which BSE has collocated facilities; provided, however, that BSE and such other carriers must be collocated at the GTE central office for the primary purpose of interconnecting with GTE or accessing GTE's unbundled network elements. If BSE wants to interconnect with other carriers collocated at a GTE central office, BSE must provide GTE with thirty Business Days' prior written notice, during which time GTE may elect to provide the facilities necessary to accomplish such interconnection. BSE and the other collocated carriers may provide the necessary interconnection facilities only if GTE elects not to provide such facilities or fails to so elect within the thirty day notice period. If GTE elects to provide interconnection facilities under this section, GTE will provide this cross connection under the GTE federal tariff for Special Access Cross Connect, until such time as a local tariff applicable to the facilities used for such interconnection facilities is filed.
- 1.4 Choice of Vendor. BSE may use the vendor of its choice to install, maintain and repair equipment within BSE's collocated space. Access by the employees, agents or contractors of such vendor shall be subject to the same restrictions on access by employees, agents or contractors of BSE imposed under the applicable GTE federal and state EIS tariffs, including but not limited to certification and approval by GTE.
- 1.5 Monitoring. Subject to technical feasibility and space limitations, BSE may extend its own facilities for remote monitoring of its collocated equipment to its collocated space. BSE may request that GTE provide the facilities necessary for such remote monitoring, at which time GTE and BSE will negotiate in good faith the price, terms and conditions of remote monitoring by GTE.
- 1.6 Phone Service. Upon ordering collocated space, BSE may order that its collocation cage be provided with plain old telephone service (POTS) commencing at such time as GTE has completed construction of the collocated space. BSE shall pay separately for any ordered POTS service.

ATTACHMENT A

- 1.7 Intraoffice Diversity. At BSE's request, GTE will provide diversity for ingress/egress fiber and power cables where such diversity is available and subject to technical feasibility and space limitations.
- 1.8 BSE Proprietary Information. GTE will protect all BSE proprietary information to the extent required under non-disclosure agreements existing as of the date GTE completes construction of a physical collocation space at BSE's request.
- 1.9 Notification of Modifications. GTE will notify BSE of modifications to collocation space in accord with the terms of applicable GTE state and federal EIS tariffs. Additionally, GTE shall notify BSE when major upgrades are made to the power plants supporting BSE's collocation space. The following shall constitute such major upgrades:
- (a) replacement of a rectifier;
 - (b) addition or replacement of a new fusing module;
 - (c) addition or replacement of a power distribution unit frame; or
 - (d) addition or replacement of modular rectifiers.
- 1.10 Drawings. When BSE orders collocated space, GTE and BSE will hold a GTE/Customer meeting in accord with applicable GTE state and federal EIS tariffs. At such meeting, GTE will provide such drawings of GTE's central office facility as may be necessary to adequately depict BSE's proposed collocation space.
- 1.11 Construction of Space. GTE will construct BSE's collocation space in accord with the terms and conditions set forth in the applicable GTE state and federal EIS tariff. Additionally, GTE agrees to the following terms and conditions regarding construction of collocated space:
- 1.11.1 Space will be constructed in 100 square foot increments, and shall be designed so as to prevent unauthorized access.

ATTACHMENT A

1.11.2 A standard 100 square foot cage shall have the following standard features:

- (a) eight-foot high, nine gauge chain link panels;
- (b) three of the panels listed at (a) above shall measure eight by ten feet, the fourth panel shall measure eight by seven feet;
- (c) the door to the cage shall measure eight by three feet and shall also consist of nine gauge chain link;
- (d) the cage shall be provided with one padlock set, with GTE retaining one master key;
- (e) one ac electrical outlet;
- (f) one charger circuit system;
- (g) one electrical sub-panel;
- (h) such additional lighting as may be necessary;
- (i) one fire detection requirement evaluation;
- (j) grounding for the cage consistent with COEI.

1.11.3 Modifications to the standard configuration set forth in Section 1.11.2 can be made on an individual case basis. If modifications are agreed upon and made by the Parties, GTE will work with BSE to implement such additional modifications as may be necessary to ensure that BSE's collocated space is protected from unauthorized access.

ATTACHMENT A

- 1.11.4 At such time as construction of BSE's collocation space is approximately 50 percent completed, GTE will give BSE notification, and such notification shall include scheduled completion and turnover dates.
- 1.11.5 Upon completion of construction of collocated space, GTE will conduct a walk through of the collocated space with BSE. Should BSE note any deviations from the plan agreed upon by GTE and BSE at the customer meeting, and if such deviations were not requested by BSE or not required by law, GTE shall correct such deviations at its own expense within 5 Business Days.
- 1.12 Connection Equipment. BSE may provision equipment for the connection of BSE termination equipment to GTE equipment using either of the following methods:
- 1.12.1 BSE may extend an electrical or optical cable from the terminal within BSE's collocation cage and terminate that cable at GTE's network.
- 1.12.2 BSE may install a patch panel within its collocation cage and then hand the cabling to GTE to extend to and have GTE terminate that cable at GTE's network.
- 1.13 Access to BSE Collocation Space. The terms and conditions of access to BSE's collocation space shall be as set forth in applicable GTE state and federal EIS tariffs. Additionally, GTE agrees that the following terms and conditions shall apply to access:
- 1.13.1 GTE shall implement adequate measures to control access to collocation cages.
- 1.13.2 Collocation space shall comply with all applicable fire and safety codes.
- 1.13.3 Doors with removable hinges or inadequate strength shall be monitored by an alarm connected to a manned site. All other alarms monitoring BSE collocation space provided by GTE shall also be connected to a manned site. BSE may, at its option, provide its own intrusion alarms for its collocated space.

ATTACHMENT A

- 1.13.4 GTE shall control janitorial access to collocation cages, and restrict such access to approved and certified employees, agents or contractors.
- 1.13.5 GTE shall establish procedures for access to collocation cages by GTE and non-GTE emergency personnel, and shall not allow access by security guards unless such access comports with this section and is otherwise allowed under applicable GTE state and federal EIS tariffs.
- 1.13.6 GTE shall retain a master key to BSE's collocation space for use only in event of emergency as detailed in applicable GTE state and federal tariffs. At BSE's option, the Parties shall review key control procedures no more frequently than once in any twelve month period. At any time, BSE may elect to change keys if it suspects key control has been lost, provided, however, that GTE will be provided with a master key in accord with this section.
- 1.13.7 Not more frequently than once a year, BSE may audit the security and access procedures and equipment applicable to its collocated space and the central office housing the collocation space. Access by personnel necessary to conduct such an audit shall be limited as set forth in applicable GTE state and federal EIS tariffs. Should BSE identify deficiencies in security and access procedures and equipment as a result of such audit, the cost, terms and conditions of the correction of such deficiencies shall be negotiated in good faith between the parties.
2. Virtual Collocation. Subject to Section 1 of this Article, GTE will provide virtual collocation for purposes of interconnection or access to unbundled network elements pursuant to the terms and conditions in the applicable GTE federal and state EIS tariffs. In addition, GTE agrees that the terms and conditions set forth in this Section 2 shall apply to virtual collocation provided to BSE.
- 2.1 Existing Virtual Collocation. If, on the effective date of this Agreement, BSE is virtually collocated in a GTE premise, BSE may (i) elect to retain its virtual collocation arrangement in that premise or (ii) unless it is not practical for technical reasons or because of space limitations, convert its virtual collocation arrangement at that premise to physical collocation. If BSE elects the latter option, BSE's request shall be treated as a new physical collocation request and BSE shall pay GTE at the applicable tariff rates for construction and rearrangement of BSE's equipment as well as all applicable tariffed physical collocation recurring charges.

ATTACHMENT A

- 2.2 Conversion from Physical to Virtual. Unless it is not practical for technical reasons or because of space limitations, BSE may convert a physical collocation arrangement to a virtual collocation arrangement. BSE's request to do so shall be treated as a new virtual collocation request and BSE shall pay GTE at the applicable tariff rates for construction and rearrangement of BSE's equipment as well as all applicable tariffed virtual collocation recurring charges. If BSE elects to change to a virtual collocation arrangement pursuant to this section, GTE will not refund previous payments for physical collocation received from BSE.
- 2.3 Vendors. Choice of vendors for equipment used for virtual collocation shall be under the terms and conditions set forth in the applicable GTE federal and state EIS tariff. Upon request by BSE, GTE shall provide a list of locally qualified vendors approved for the type of equipment to be collocated.
- 2.4 Inspection. Upon provision of virtual collocation by GTE, the Parties shall agree on a mutually acceptable schedule whereby BSE may inspect the equipment in its virtual collocation space.

**APPENDIX A
SERVICES AVAILABLE FOR RESALE
FLORIDA**

General . The following will apply pursuant to Article III, Section 46. The rates contained in this Appendix A are based upon an avoided cost discount from GTE's retail rates as provided in Article VI, Section 5.3 of the Agreement to which this Appendix A is attached and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation. In addition, GTE shall assess BSE a charge for lost contribution associated with intraLATA toll service from a resold business line if GTE does not provide the intraLATA toll associated with the line.

The avoided cost discount is 12.41%

Non-Recurring Charges for Resale Services

Initial Service Order, per order	\$41.50
Subsequent Service Order, per order	\$24.00
Installation, per line	\$23.75
Outside Facility Connection Charge, per order *	\$Tariffed

*This charge will apply when field work is required for establishment of new resale service. The terms, conditions and rates that apply for this work are described in GTE's retail local service tariffs.

The attached matrix is a list all services from the GTE Retail Tariff.

APPENDIX B
PRICES FOR UNBUNDLED ELEMENTS
FLORIDA

General . The following will apply pursuant to Article III, Section 46. The rates contained in this Appendix B are the rates as defined in Article VII and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

Non-Recurring Charges for Unbundled Services

Service Ordering (loop or port)

Initial Service Order, per order	\$ 47.25
Transfer of Service Charges, per order	\$ 16.00
Subsequent Service Order, per order	\$ 24.00
Customer Service Record Research, per request	\$ 5.25

Installation

Unbundled Loop, per loop	\$ 10.50
Unbundled Port, per port	\$ 10.50

Loop Facility Charge, per order \$ 62.50
This charge will apply when field work is required for establishment of new unbundled loop service.

Network Interface Device

Basic NID	\$ 1.50
-----------	---------

Unbundled Loop

2 - Wire Basic Loop	\$ 33.08
4 - Wire Loop	\$ 52.93

(Excl. Electronics)

Unbundled Port

2 - Wire Basic Port	\$ 6.60
DS1 Port	\$101.10

RATES AND CHARGES FOR 911/E911 ARRANGEMENTS

The following services are offered by GTE for purchase by BSE for Unbundled Network Elements.

	<u>NRC</u>	<u>MRC</u>
1. 9-1-1 Selective Router Map Provided is a color map showing a selective router's location and the GTE central offices that send their 9-1-1 call to it. The selective router and central office information will include CLLI codes and N.A./NXXs served. The map will include boundaries of each central office and show major streets and the county boundary. Permission to reproduce within BSE for its internal use is granted without further fee. Non-tariffed price.	\$125.00	n/a
2. 9-1-1 Selective Router Pro-Rata Fee/trunk This fee covers the cost of selective routing switch capacity per trunk to cover investment to handle the additional capacity without going to the 9-1-1 districts for additional funding.	\$0	\$100.77
3. PS ALI Software A personal computer software program running on Windows 3.1™ for formatting subscriber records into NENA Version #2 format to create files for uploading to GTE's ALI Gateway. Fee includes software, warranty and 1 800 872-3356 support at no additional cost.	\$790.80	
4. ALI Gateway Service Interface for delivery of ALI records to GTE's Data Base Management System. This provides a computer access port for BSE to transmit daily subscriber record updates to GTE for loading into ALI databases. It includes support at 1 800 872-3356 at no additional cost.	\$135.00	\$36.12

ATTACHMENT A

	<u>NRC</u> Tariff	<u>MRC</u> Tariff
5. 9-1-1 Interoffice Trunk		
This is a tariffed offering, to be found in each state's Emergency Number Service Tariff.		
6. ALI Database	Tariff	Tariff
This is a tariffed offering, to be found in each state's Emergency Number Service Tariff.		
7. Selective Router Database per Record Charge	Tariff	Tariff
Fee for each ALI record used in a GTE selective router. This is a tariffed offering, to be found in each state's Emergency Number Service Tariff.		
8. MSAG Copy		
Production of one copy of a 9-1-1 Customer's Master Street Address Guide, postage paid.		
a. Copy provided in paper format	\$238.50	\$54.00
b. Copy provided in flat ASCII file on a 3½" diskette	\$276.00	\$36.00

The following services are available from GTE for Resold Services unless an individual item is not superseded by a tariff offering.

	<u>NRC</u>	<u>MRC</u>

APPENDIX D

SERVICE ORDERING, BILLING AND MAINTENANCE

1. Service Ordering and Billing Systems Generally. The following describes generally the operations support systems that GTE will use and the related functions that are available for ordering, provisioning and billing for resold services and unbundled network elements. Except as specifically provided otherwise in this Agreement, service ordering, provisioning, billing and maintenance shall be governed by the GTE Guide. Before orders can be taken, BSE will provide GTE with its Operating Company Number ("OCN") and Company Code ("CC") as follows:
 - (a) BSE must provide their OCN (four-digit alpha-numeric assigned by Bellcore or number administrator) on the ALEC Profile. The GTE Guide provides the necessary information for BSE to contact Bellcore to obtain the OCN. There are no optional fields on the Profile.
 - (b) Before the Local Service Request ("LSR") and Directory Service Request ("DSR") order forms can be processed BSE must provide the OCN and Customer Carrier Name Abbreviation ("CCNA").

1.1 Operations Support Systems for Resold Services and Unbundled Elements

1.1.1

BSE will also be able to order services for resale and unbundled network elements, as well as interim number portability, directly from GTE through an electronic interface. To initiate an order for these services or elements, BSE will submit a Local Service Request ("LSR") from its data center to GTE's Data Center using the same electronic NDM interface used for trunk-side interconnection. If no NDM interface exists or if BSE chooses to establish a separate NDM interface, the BSE must request an NDM facility. For new entrants that elect not to interface electronically, GTE will accommodate submission of LSR orders by facsimile, E-mail, Internet or a dial NDM arrangement. An LSR is very similar to an ASR, except that it will be used exclusively for line-side interconnection requests. GTE will transfer LSRs to GTE's NOMC centralized service order processing center electronically.

ATTACHMENT A

1.1.2

Most LSRs will be used either to transfer an existing GTE customer to BSE or to request service for a new customer who is not an existing GTE customer. Depending on the situation, different information will be required on the LSR. LSRs for a conversion of a GTE local customer to BSE must include information relating to all existing, new and disconnected services for that customer, including the customer's name, type of service desired, location of service and features or options the customer desires. BSE will be able to obtain this customer information after GTE has received the customer's written consent as specified in Article VI.3.3. For service to a new customer who is not an existing GTE customer, the LSR must contain the customer's name, service address, service type, services, options, features and ALEC data. If known, the LSR should include the telephone number and due date/desired due date.

1.1.3

While BSE would have its own customer information and may have the SAG/GTE products on tape from GTE, BSE would not have the due date or new telephone number for new customers since that information is contained in GTE's systems. Therefore, a process is required to provide this information to BSE. GTE itself does not have uniform access to this information electronically. Until GTE and BSE have agreed and established electronic interfaces, BSE agrees that an 800 number is the method that will be used. The 800 telephone number will connect BSE directly to GTE's NOMC service representatives. When BSE receives a request for basic services from a new local service customer, BSE will call GTE's NOMC through the 800 number, and, while the new customer is on hold, GTE will provide the due date for service and the new telephone number for that customer. At the same time, BSE will give GTE the new customer's name, service address and type of requested service (i.e., R1, B1). GTE will enter that information into its SORCES or SOLAR service ordering systems to be held in suspense until BSE sends the confirming LSR. BSE will then return to its customer holding on the line and provide the due date and new telephone number.

1.1.4

After concluding the telephone call with the new customer, BSE will complete a confirming LSR for the new service and send it electronically to GTE's data center for processing. Upon receipt, GTE will match the LSR with the service order suspended in GTE's system, and if there is a match, GTE will process the LSR. After the LSR is processed, GTE will transmit confirmation electronically

ATTACHMENT A

to BSE through the NDM that the LSR has been processed, providing a record of the telephone number and due date. BSE will be required to submit the confirming LSR by 12:00 p.m. each day local time, as defined by the location of the service address. If BSE fails to submit the LSR in a timely manner, the suspended LSR will be considered in jeopardy, at which time GTE will assign a new due date upon receipt of the delayed LSR for such customer requests and notify BSE of the change.

- 1.1.5 Number assignments and due date schedules for services other than single line service and hunt groups up to 12 lines will be assigned within approximately twenty-four (24) hours after GTE's receipt of the LSR using the standard Local Service Confirmation ("LSC") report sent electronically to BSE over the NDM, thereby providing a record of the newly established due date. An exception would be a multi-line hunt group for 12 lines or fewer. The other numbers then will be provided through the normal electronic confirmation process.
- 1.1.6 The processing of specifically requested telephone numbers (called "vanity numbers") is as follows. GTE will work with BSE on a real time interface to process vanity numbers while BSE's customer is still on the line. If a number solution can be established expeditiously, it will be done while the customer is still on the line. If extensive time will be required to find a solution, GTE service representatives will work with BSE representatives off line as GTE would for its own customers. For all of this, the basic tariff guidelines for providing telephone numbers will be followed.
- 1.1.7 Once the order for line-side interconnection service is established, it is moved for provisioning to the next system level. Here, GTE will validate and process the LSR to establish an account for BSE and, if GTE continues to provide some residual services to the customer, GTE will maintain a GTE account. In GTE's system, GTE's account is called the Residual Account and BSE's account is referred to as the BSE Account. If any engineering for the service is necessary, the account would be distributed to the SSCC. Otherwise, it will be distributed for facility assignment.
- 1.1.8 With the account established and any engineering and facility assignment complete, GTE then will transmit electronically a record

ATTACHMENT A

to GTE's CZT field personnel if physical interconnection or similar activity is required. The CZTs will provision the service and then electronically confirm such provision in the SOLAR/SORCES system when completed. The accounts then will be transmitted to GTE's Customer Billing Services System ("CBSS"). GTE shall provide to BSE a service completion report. Call records for actual service provided to BSE's customers on GTE facilities will be transmitted from GTE's switches through some usage rating systems (BIP, UMS), screened and eventually delivered to CBSS for the generation of bills.

- 1.1.9 CBSS is a different system than CABS, and it is the one that GTE will utilize to produce the required bills for resold services, unbundled elements and local number portability. CBSS will create a bill to BSE for resold services and unbundled elements along with a summary bill master. Daily unrated records for intraLATA toll usage and local usage (incollect usage data will be provided on rated basis) on BSE's accounts will be generated and transmitted electronically to BSE.
- 1.1.10 On resold accounts, GTE will provide usage in EMR format per existing file exchange schedules. The usage billing will be in agreed upon level of detail for BSE to issue a bill to its end users.
- 1.1.11 GTE will provide BSE with detailed monthly billing information in a paper format until an agreed upon Electronic Data Interchange 811 electronic bill format is operational.
- 1.1.12 State or sub-state level billing will include up to ten (10) summary bill accounts.
- 1.1.13 GTE accepts BSE's control reports and agrees to utilize industry standard return codes for unbillable messages. Transmission will occur via the NDM. Tape data will conform to Attachment "A" of the LRDTR. Data will be delivered Monday through Friday except for Holidays as agreed. Data packages will be tracked by invoice sequencing criteria. GTE contacts will be provided for sending/receiving usage files.

ATTACHMENT A

- 1.1.14 GTE will retain data backup for 45 Business Days. To the extent this retention is exclusively for BSE, BSE shall reimburse GTE for all expenses related to this retention.
- 1.1.15 In addition to the LSR delivery process, BSE will distribute directory assistance and directory listing information (together sometimes referred to hereafter as "DA/DL information") to GTE via the LSR ordering process over the NDM. GTE will provide listings service via its "listing continuity" offering.
- 1.1.16 Charges and credits for PIC changes ordered via an LSR will appear on the wholesale bill. As BSE places a request for a PIC change via LSR, the billing will be made on BSE account associated with each individual end user. GTE will process all PIC changes from IXCs that are received for BSE end users by rejecting back to the IXC with the BSE OCN. Detail is provided so that BSE can identify the specific charges for rebilling to their end user.
- 1.1.17 CMDS. The parties will provide for the distribution of intraLATA CMDS incollect messages and/or selected local measured service messages as follows:
- 1.1.17.1 Messages to be Screened. GTE receives CMDS I transmissions containing intraLATA incollect messages from the state RBOC CMDS host each business day. Per BSE's request, GTE will screen the incollects by N.A. and line number and accumulate the Collect, Third Number Billed and Credit Card (collectively called incollects) messages in a data file. The screening will be for end users who have chosen BSE as their local service provider through a Resale or Unbundled Network arrangement. The screened incollect messages and any Local Measured Service (LMS) usage will be accumulated and forwarded to BSE. The Parties will mutually agree on the frequency of the data exchange and the method of transmission (i.e., magnetic tape or direct electronic transmission). GTE will forward the screened messages in the industry standard EMR format. GTE intraLATA toll messages

ATTACHMENT A

that are recorded by GTE and dialed on a one plus or zero plus basis are not part of this section and will not be screened.

1.1.17.2 Compensation. GTE will bill BSE monthly for all services related to the screening, accumulating, processing and transmitting of incollect messages and LMS usage, if applicable, at a reasonable and mutually agreeable charge. In addition, any message processing fee associated with BSE's incollect messages that are charged to GTE by the CMDS Host will be passed on to BSE on the monthly statement. All revenue, surcharges, taxes and any other amounts due to the CMDS Host for BSE's incollect messages will be billed on the monthly statement. It is BSE's responsibility to bill and collect all incollect and LMS amounts due from its end users. The incollect and LMS revenue amounts that are listed on the monthly invoice are payable to GTE in total. The Parties agree that the arrangement for invoicing the incollect and LMS revenue amounts due GTE is not a settlement process with BSE.

1.1.17.3 Administration. The Parties agree to develop a process whereby BSE's end user information is available in a timely manner to allow GTE to build tables to screen the CMDS incollect files and LMS files on behalf of BSE.

1.1.18 Backbilling. GTE shall bill BSE on a timely basis. In no case shall GTE bill BSE for previously unbilled charges that are for more than one year prior to the current bill date.

1.2 Order Processing.

1.2.1 Order Expectations. BSE agrees to warrant to GTE that it is a certified provider of telecommunications service. BSE will document its Certificate of Operating Authority on the BSE Profile and agrees to update this BSE Profile as required to reflect its current certification. The Parties agree to exchange and to update

ATTACHMENT A

end user contact and referral numbers for order inquiry, trouble reporting, billing inquiries, and information required to comply with law enforcement and other security agencies of the government. The Parties also agree to exchange and to update internal order, repair and billing point of contacts. Prior to submitting an order under this Agreement, BSE shall obtain such documentation as may be required by state and federal laws and regulations.

- 1.2.2 GTE shall provide BSE with a specified customer contact center for purposes of placing service orders and coordinating the installation of services. These activities shall be accomplished by telephone call or facsimile until electronic interface capability has been established. The Parties adopt the OBF LSR and DSR forms for the ordering, confirmation and billing of resale and unbundled services. The Parties adopt the OBF ASR forms for the ordering, confirmation and billing of trunk-side interconnection.
- 1.2.3 GTE will process such service orders during normal operating hours, at a minimum on each Business Day between the hours of 8 a.m. to 8 p.m. Eastern Time and shall implement service orders within the same time intervals used to implement service orders for similar services for its own users.
- 1.2.4 GTE will provide current GTE customer proprietary network information (name, address, telephone number and description of services provided by GTE including PIC and white page directory listing information) as provided in Article VI, Section 3. The return of customer information will be via facsimile or via electronic transmission.
- 1.2.5 Transfer Between Local Service Providers - GTE will provide a displacement/out service report to a Local Service Provider (LSP) whenever an end user leaves that LSP and procures service from another LSP. When a BSE end user changes to another LSP, GTE will notify BSE when such activity occurs the day after completion or within 48 hours of such disconnect.

ATTACHMENT A

2. Maintenance Systems.

2.1 General Overview

2.1.1

If BSE requires maintenance for its local service customers, BSE will initiate a request for repair (sometimes referred to as a "trouble report") by calling GTE's Customer Care Repair Center. During this call, GTE service representatives will verify that the end-user is a BSE customer and will then obtain the necessary information from BSE to process the trouble report. While the BSE representatives are still on the line, GTE personnel will perform an initial analysis of the problem and remote line testing for resale services. If engineered services are involved, the call will be made to the GTE SSCC for handling. If no engineering is required and the line testing reveals that the trouble can be repaired remotely, GTE personnel will correct the problem and close the trouble report while BSE representatives are still on the line. If on-line resolution is not possible, GTE personnel will provide BSE representatives a commitment time for repair, and the GTE personnel then will enter the trouble ticket into the GTE service dispatch queue. BSE's repair service commitment times will be within the same intervals as GTE provides to its own end users. Maintenance and repair of GTE facilities is the responsibility of GTE and will be performed at no incremental charge to BSE. If, as a result of a BSE-initiated trouble report, trouble is found to be the responsibility of BSE (e.g., non-network cause) GTE will charge the BSE for trouble isolation. BSE will have the ability to report trouble for its end users to appropriate trouble reporting centers 24 hours a day, 7 days a week. BSE will be assigned a customer contact center when initial service agreements are made.

2.1.2

Repair calls to the SSCC for engineered services will be processed in essentially the same manner as those by the GTE Customer Care Center. GTE personnel will analyze the problem, provide the BSE representative with a commitment time while they are still on the line, and then place the trouble ticket in the dispatch queue.

2.1.3

GTE then will process all BSE trouble reports in the dispatch queue along with GTE trouble reports in the order they were filed (first in, first out), with priority given to out-of-service conditions. If, at any time, GTE would determine that a commitment time given to BSE

ATTACHMENT A

becomes in jeopardy, GTE service representatives will contact BSE by telephone to advise of the jeopardy condition and provide a new commitment time.

- 2.1.4 Trouble reports in the dispatch queue will be transmitted electronically to GTE CZT service technicians who will repair the service problems and clear the trouble reports. For cleared BSE trouble reports, GTE service technicians will make a telephone call to BSE directly to clear the trouble ticket. GTE service technicians will make the confirmation call to the telephone number provided by BSE. If BSE is unable to process the call or places the GTE technician on hold, the call will be terminated. To avoid disconnect, BSE may develop an answering system, such as voice mail, to handle the confirmation calls expeditiously.
- 2.1.5 GTE will provide electronic interface access to operation support systems functions which provide the capability to initiate, status and close a repair trouble ticket. GTE will not provide to BSE real time testing capability on BSE end user services. GTE will not provide to BSE an interface for network surveillance (performance monitoring).
- 2.1.6 GTE will resolve repair requests by or for BSE local service customers using GTE's existing repair system in parity with repair requests by GTE end users. GTE will respond to service requests for BSE using the same time parameters and procedures that GTE uses. BSE then would call GTE's Customer Care Center or SSCC while the customers were on hold.
3. Electronic Interface. The Parties shall work cooperatively in the implementation of electronic gateway access to GTE operational support systems functions in the long-term in accordance with established industry standards. BSE shall compensate GTE for the full costs including but not limited to design, development, testing, implementation and deployment, for access to GTE's Operational Support System functions. Where subsequent parties request use of GTE's operation support systems, cost recovery for such electronic interface systems shall be allocated among all requesting users.

ATTACHMENT A

- 3.1 BSE shall have access to the following OSS electronic interfaces that will provide functionality to enable BSE to service customers in an equal and non-discriminatory manner:
- 3.1.1 Pre-Order functions, e.g., TN Assignment, DD Reservation, Address Validation, Product Availability, that are available on a dial-up or dedicated basis using the Secure Integrated Gateway System (SIGS).
 - 3.1.2 Order functions that are available on a dial-up or dedicated basis using CONNECT: Mail file transfer.
 - 3.1.3 Repair functions, e.g., trouble report repair functions, to allow BSE to determine status and close trouble reports.
 - 3.1.4 Electronic transfer of the BSE bill in electronic data 811 format.
- 3.2 BSE may migrate to fully interactive system to system interconnectivity. GTE, with input from BSE and other carriers, shall provide general interface specifications for electronic access to this functionality. These specifications will be provided to enable BSE to design system interface capabilities. Development will be in accordance with applicable national standards committee guidelines. Such interfaces will be available as expeditiously as possible.
- 3.3 All costs and expenses for any new or modified electronic interfaces exclusively to meet BSE requirements that GTE determines are technically feasible and GTE agrees to develop will be paid by BSE. Costs for development of systems intended for common use by competing carriers will be assessed based on a mutually agreed method of cost recovery.
- 3.4 BSE shall be responsible for modifying and connecting any of its pre-ordering and ordering systems with GTE provided interfaces as described in this Appendix.
4. GTE Initiated Electronic System Redesigns. GTE will not charge BSE when GTE initiates its own electronic system redesigns/reconfigurations.

ATTACHMENT A

APPENDIX E

**RECIPROCAL COMPENSATION FOR CALL TERMINATION
(UNBUNDLED NETWORK ELEMENTS)**

1. This document describes the reciprocal compensation arrangements between BSE and GTE for Local Tariff, Toll and Switched Access Services. The Parties shall compensate each other for transport and termination of such traffic at the rates provided in Appendix B and/or the appropriate Parties' Switched Access Tariff.

2. Compensation for Call Termination

A. Reciprocal compensation does not apply in a resale environment.

B. The following compensation terms shall apply in all cases where BSE purchases GTE's unbundled Local Switching:

1. For local intra-switch calls between lines connected to GTE's switch where BSE has purchased GTE's unbundled Local Switching, the Parties agree to impose no call termination charges on each other. GTE's Local Switching charge will apply as described below where the call is:

(a) Originated by BSE's customer and completed to a GTE customer:

(1) (For use of the local switch): Local Switching charge at the originating office will apply to BSE.

(b) Originated by BSE's customer and completed to the customer of a third party LEC (not affiliated with BSE) using GTE's unbundled Local Switching:

(1) (For use of the local switch): Local Switching charge at the originating office will apply to BSE.

ATTACHMENT A

- (c) Originated by BSE's customer and completed to another BSE's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office will apply to BSE.
 - (d) Originated by a GTE customer and terminated to BSE's customer using GTE's unbundled Local Switching.
 - (1) No Local Switching charge will apply.
 - (e) Originated by the customer of a third party LEC (not affiliated with BSE) using GTE's unbundled Local Switching and terminated to BSE's customers using GTE's unbundled Local Switching.
 - (1) No Local Switching charge will apply to BSE.
2. For Local inter-switch calls where BSE has purchased GTE's unbundled Local Switching.

GTE's charges will apply to BSE described below where the call is:

- (a) Originated from BSE's end-user customer using GTE's unbundled Local Switching and completed to a GTE customer.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BSE uses GTE's transport.
 - (3) (For call termination): Charges for local interconnection/call termination, when applicable.

ATTACHMENT A

- (b) Originated from BSE's customer using GTE's unbundled Local Switching and completed to a third party LEC (not affiliated with BSE) customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BSE uses GTE's transport.
- (c) Originated from BSE's customer using GTE's unbundled Local Switching and completed to the interconnected network of a third party LEC (not affiliated with BSE).
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BSE uses GTE's transport, and mileage shall be measured between the originating office and the POI of the third party's network.
- (d) Originated from BSE's customer using GTE's unbundled Local Switching and completed to BSE's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the originating office.
 - (2) A mileage-based transport charge will apply when BSE uses GTE's transport.
 - (3) (For use of the local switch): Local Switching charge at the terminating office.
- (e) Originated by a GTE customer and terminated to BSE's customer using GTE's unbundled Local Switching.

ATTACHMENT A

- (1) (For use at local switch): Local Switching Charge at the terminating office.
 - (2) (For call termination): BSE shall charge GTE for local interconnection/call termination, when applicable.
 - (f) Originated by a customer of a third-party LEC (not affiliated with BSE) using GTE's unbundled Local Switching and terminated to BSE's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
 - (g) Originated by a customer of the interconnected network of a third-party LEC (not affiliated with BSE) and terminated to BSE's customer using GTE's unbundled Local Switching.
 - (1) (For use of the local switch): Local Switching charge at the terminating office.
3. For intra-LATA toll calls where BSE has purchased GTE's unbundled Local Switching, charges per Unbundled Network Element pricing shall apply as follows:
- A. Originated by BSE's customer and completed to a GTE customer.
 - 1. (For use of the local switch): Local Switching charge plus RIC and CCLC (Residual Interconnection Charge) at the originating office.
 - 2. Shared transport charge between the two offices will apply when BSE uses GTE's transport.
 - 3. (For call termination): End Office Switching charge at the terminating office (Switched Access Rate).
 - 4. RIC and CCLC at the terminating office.

ATTACHMENT A

- B. Originated by BSE's customer and completed to the customer of a third-party LEC (not affiliated with BSE) using GTE's unbundled Local Switching in a distant end office.
1. (For use of the local switch): Local Switching charge plus RIC and CCLC at the originating office.
 2. Shared transport charge between the two offices will apply when BSE uses GTE's transport.
- C. Originated by BSE customer and completed to the network of a third-party LEC (not affiliated with BSE) interconnected with GTE's network.
1. (For use of the local switch): Local Switching charge, plus RIC and CCLC, at the originating office.
 2. Common transport charge will apply when BSE uses GTE's transport, and mileage shall be measured between the originating office and the POI of the third party's network.
 3. Tandem Switching, where applicable.
- D. Originated by BSE's customer and completed by another of BSE's customers being served through GTE's unbundled Local Switching in a distant office.
1. (For use of the local switch): Local Switching charge plus RIC and CCLC at the originating office.
 2. Shared transport charge between the two offices will apply when BSE uses GTE's transport.
 3. (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.

ATTACHMENT A

E. Originated by a GTE customer and terminated to BSE's customer using GTE's unbundled Local Switching.

1. (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.
2. (For call termination): BSE will charge GTE Local Switching at the terminating office (Switched Access Rate).
3. (For call termination): BSE will charge GTE NIC and CCLC at the terminating office.

F. Originated by the customer of a third-party LEC (not affiliated with BSE) using GTE's unbundled Local Switching in a distant end office and terminated to BSE's customer using GTE's unbundled Local Switching.

1. (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.

G. Originated by a customer of the network of a third-party LEC (not affiliated with BSE) interconnected with GTE's network and terminated to BSE's customer using GTE's unbundled Local Switching.

1. (For use of the local switch): Local Switching charge plus RIC and CCLC at the terminating office.

4. For intrastate Switched Access calls where BSE's is using GTE's unbundled Local Switching for calls originated from or terminated to an IXC for completion:

A. For calls originated from BSE's customer to BSE's own IXC switch (or that of an affiliate) for completion.

1. (For use of the local switch): Local Switching charge at the terminating office.

ATTACHMENT A

2. Originating RIC and CCLC.
 3. GTE will charge BSE's IXC affiliate the following Switched Access elements on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.
 4. BSE will charge BSE's IXC affiliate the following Switched Access elements on a meet-point basis:
 - (a) Originating RIC and CCLC;
 - (b) Local Switching.
- B. For calls originating from BSE's customer to an IXC's switch not affiliated with BSE.
1. (For use of the local switch): BSE's customer to an IXC's switch not affiliated with BSE.
 2. Originating RIC and CCLC.
 3. GTE shall charge the non-affiliated IXC for the following originating Switched Access on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.
 4. BSE will charge the non-affiliated IXC for the following Switched Access elements on a meet-point basis:

ATTACHMENT A

(a) Originating RIC and CCLC;

(b) Local Switching.

C. For calls terminating to BSE's end-user customer from BSE's own IXC switch (or that of an affiliate) for completion.

1. (For use of the local switch): Local Switching charge at the terminating office.
2. Terminating RIC and CCLC.
3. GTE will charge BSE's IXC (affiliate) the following Switched Access elements on a meet-point basis:

(a) Local Transport;

(b) Tandem Switching.

4. BSE will charge BSE's IXC (affiliate) for the following Switched Access elements on a meet-point basis:

(a) Terminating RIC and CCLC.

(b) Local Switching.

D. For calls terminating to BSE's customer from an IXC switch not affiliated with BSE.

1. (For use of the local switch): Local Switching charge at the terminating office.
2. Terminating RIC and CCLC.

ATTACHMENT A

3. GTE shall charge the IXC for the following terminating Switched Access on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.
4. BSE will charge IXC for the following Switched Access elements on a meet-point basis:
 - (a) Terminating RIC and CCLC;
 - (b) Local Switching.
5. For interstate Switched Access calls where BSE is using GTE's unbundled Local Switching for calls originated from or terminated to an IXC for completion:
 - A. For calls originated from BSE's customer to BSE's own IXC switch (or that of an affiliate) for completion.
 1. (For use of the local switch): Local Switching charge at the originating office.
 2. Originating Residual Interconnection Charge (RIC) and CCL.
 3. GTE shall charge BSE's IXC affiliate for the following originating Switched Access on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.

ATTACHMENT A

4. BSE will charge BSE's IXC affiliate the following Switched Access elements on a meet-point basis:
 - (a) Originating RIC;
 - (b) Originating CCLC;
 - (c) Local Switching.
- B. For calls originated from BSE's customer to an IXC's switch not affiliated to BSE.
 1. (For use of the local switch): Local Switching charge at the terminating office.
 2. Originating RIC and CCLC.
 3. GTE shall charge the IXC for the following originating Switched Access on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.
 4. BSE will charge IXC the following Switched Access elements on a meet-point basis:
 - (a) Originating RIC;
 - (b) Originating CCLC;
 - (c) Local Switching.

ATTACHMENT A

C. For calls terminating to BSE's customer for BSE's own IXC switch (or that of an affiliate) for completion.

1. (For use of the local switch): Local Switching charge at the terminating office.
2. Terminating RIC and CCL.
3. GTE will charge BSE's IXC (affiliate) the following Switched Access elements on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.
4. BSE will charge BSE's IXC affiliate the following Switched Access elements on a meet-point basis:
 - (a) Terminating RIC;
 - (b) Terminating CCLC;
 - (c) Local Switching.

D. For calls terminating to BSE's customer from an IXC switch not affiliated with BSE.

1. (For use of the local switch): Local Switching charge at the terminating office.
2. Terminating RIC and CCL.

ATTACHMENT A

3. GTE will charge the non-affiliated IXC for the following terminating Switched Access on a meet-point basis:
 - (a) Local Transport;
 - (b) Tandem Switching.

4. BSE will charge IXC the following Switched Access elements on a meet-point basis:
 - (a) Terminating RIC;
 - (b) Terminating CCLC;
 - (c) Local Switching.
