Re: Environmental Cost Recovery Clause
FPSC Docket No. 000007-EI

Dear Ms. Bayo:

Enclosed for filing on behalf of Tampa Electric Company are the original and ten (10) copies of Prepared Direct Testimony and Exhibit (KOZ-1) identified as Environmental Cost Recovery Commission Forms for the period January 2000 through December 2000, containing Schedules 42-1E through 42-8E.

Please acknowledge receipt and filing of the above by stamping the duplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

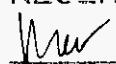

James D. Beasley

ATTORNEY

1 BEFORE THE PUBLIC SERVICE COMMISSION
2 PREPARED DIRECT TESTIMONY
3 OF
4 KAREN O. ZWOLAK

- 5
- 6 Q. Please state your name, address, occupation and employer.
- 7
- 8 A. My name is Karen O. Zwolak. My business address is 702
9 North Franklin Street, Tampa, Florida 33602. I am
10 employed by Tampa Electric Company ("Tampa Electric" or
11 "Company") in the position of Manager, Energy Issues in
12 the Regulatory Affairs Department.
- 13
- 14 Q. Please provide a brief outline of your educational
15 background and business experience.
- 16
- 17 A. I received a Bachelor of Arts Degree in Microbiology in
18 1977 and a Bachelor of Science degree in Chemical
19 Engineering in 1985 from the University of South Florida.
20 I began my engineering career in 1986 at the Florida
21 Department of Environmental Regulation and was employed
22 as a Permitting Engineer in the Industrial Wastewater
23 Program. In 1990, I joined Tampa Electric Company as an
24 engineer in the Environmental Planning Department and was
25 responsible for permitting and compliance issues relating

10159 AUG 18 8

1 to wastewater treatment and disposal. In 1995, I
2 transferred to Tampa Electric's Energy Supply Department
3 and assumed the duties of the plant chemical engineer at
4 the F. J. Gannon Station. In 1997, I was promoted to
5 Manager, Energy Issues in the Electric Regulatory Affairs
6 Department. My present responsibilities include the area
7 of environmental cost recovery filings, energy issues and
8 rate design.

9
10 Q. What is the purpose of your testimony in this proceeding?

11
12 A. The purpose of my testimony is to present, for Commission
13 review and approval, the calculation of the January 2000
14 through December 2000 true-up amount to be
15 refunded/(recovered) in the projection period January
16 2001 through December 2001. My testimony addresses the
17 recovery of capital and operating and maintenance ("O&M")
18 costs associated with environmental compliance activities
19 for the year 2000, based on seven months of actual data
20 and five months of estimated data. This information will
21 be used to determine the environmental cost recovery
22 factors for the year 2001.

23
24 Q. Have you prepared an exhibit that shows the determination

1 of the recoverable environmental costs for the period
2 January 1, 2000 through December 31, 2000?

3

4 A. Yes. Exhibit No. ____ (KOZ-1), containing one document,
5 was prepared under my direction and supervision. It
6 includes Forms 42-1E through 42-8E which show the current
7 period true-up amount to be used in calculating the cost
8 recovery factors for 2001.

9

10 Q. What has Tampa Electric calculated as the estimated true-
11 up for the current period to be applied in the January
12 2001 through December 2001 ECRC factors?

13

14 A. The estimated true-up applicable for the current period,
15 January 2000 through December 2000 is an under-recovery
16 of \$1,662,657. A detailed calculation supporting the
17 estimated true-up is shown on Forms 42-1E through 42-8E
18 of my exhibit.

19

20 Q. Is Tampa Electric including costs in this ECRC true-up
21 filing for any environmental projects that were not
22 anticipated and included in its 2000 factors?

23

24 A. Yes. Tampa Electric is seeking recovery for capital and
25 O&M costs associated with the Florida Department of

1 Environmental Protection Consent Final Judgement
2 ("CFJ") and the United States Environmental Protection
3 Agency ("EPA") Consent Decree ("Orders"). The Consent
4 Decree projects included in the re-projected true-up
5 amount for calendar year 2000 include the Big Bend Units
6 1, 2, and 3 Flue Gas Desulfurization (FGD) Optimization
7 and Utilization Program, the Big Bend Station Particulate
8 Matter ("PM") Minimization and Monitoring Program and the
9 Reduction of Nitrogen Oxide Emissions ("NO_x") Program.

10
11 On June 2, 2000 Tampa Electric filed a petition for
12 approval of cost recovery for the Big Bend Units 1, 2 and
13 3 FGD System Optimization and Utilization Program which
14 has been assigned Docket No. 000685-EI. The Florida
15 Public Service Commission ("Commission") staff
16 recommendation for this project is due on August 17,
17 2000, and consideration of this recommendation is
18 scheduled for the Commission's August 29, 2000 Agenda
19 Conference. The final order in this docket is scheduled
20 to be issued September 18, 2000. On August 18, 2000
21 Tampa Electric filed a petition for approval of cost
22 recovery for the Big Bend PM Minimization and Monitoring
23 Program and the Reduction of NO_x Emissions Program. This
24 petition has not yet been assigned to a docket.

25

1 Tampa Electric has included costs associated with these
2 projects in this re-projected true-up filing for calendar
3 year 2000. Capital and O&M expenditures for these
4 environmental compliance projects will continue through
5 2001. Recoverable O&M costs for 2000 resulting from
6 implementation of projects required to comply with the
7 Orders are shown on Form 42-5E. The capital costs for
8 these projects are summarized on Form 42-7E for 2000.

9
10 Q. How did the actual/estimated project expenditures for
11 January 2000 through December 2000 period compare with
12 the company's original projection?

13
14 A. As shown on Form 42-4E, total O&M activities were
15 \$350,180 or 7.1 percent higher than projected costs.
16 Total capital expenditures itemized on Form 42-6E, were
17 \$305,539 or 1.9 percent lower than originally projected.
18 Detailed explanations of material variances will be
19 provided in the projection filing for 2001 ECRC factors.

20
21 Q. Are any other capital project costs included in the re-
22 projected true-up amount for calendar year 2000?

23
24 A. Yes. In addition to the Big Bend Units 1, 2, and 3 Flue
25 Gas Desulfurization (FGD) Optimization and Utilization,

1 the Big Bend PM Minimization and Monitoring Program and
2 the Big Bend Reduction of NO_x Emissions Program, Tampa
3 Electric has included 15 previously approved capital
4 projects in the calculation of the true-up amount for
5 January 2000 through December 2000.

6
7 Q. Are any other O&M project costs included in the re-
8 projected true-up amount for calendar year 2000?

9
10 A. Yes. In addition to the Big Bend Units 1, 2, and 3 Flue
11 Gas Desulfurization (FGD) Optimization and Utilization
12 Program and the Big Bend PM Minimization and Monitoring
13 Program, Tampa Electric has included six previously
14 approved O&M projects in the calculation of the true-up
15 amount for January 2000 through December 2000.

16
17 Q. Does this conclude your testimony?

18
19 A. Yes, it does.
