Subject: Docket Number 160021-E1

Ms. Stauffer:

I believe that the rate increase requested by FPL is wholly unnecessary and unsubstantiated.

The bulk of the requested increase will not be directed toward service enhancements, disaster preparedness, or energy innovation but at the pockets of FPL investors. Moreover, their profit forecasts for the coming fiscal year are more than considerable. And if approved, the increase would raise residential rates by 23% placing undue burden on all ratepayers including senior citizens on fixed incomes.

Bottom line, there is no justification for an increase and the request should be flatly denied.
