Dear Public Service Commission PSC,,

As a Floridian age 50+, we are coping with skyrocketing healthcare and housing prices with minimal increases in Social Security. An increase on our monthly power bill adds up for people, like myself, who are on a limited or fixed income.

Increasing our rates will only damage Florida communities by making it harder for people to afford daily living necessities.

Gulf power already charges customers a base fee each month for maintenance and such, they also charge higher rates than other companies across the country for energy kWh. Adding an additional charge only adds to the company's bottom line and not to the welfare of their customer base.

Sincerely,

Mrs. Jacqueline Huldt
