BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Joint Petition of Tri-County Electric Cooperative and Duke Energy Florida, LLC for Approval of a Territorial Agreement in Jefferson, Madison and Taylor Counties.

Submitted for filing:

Docket No. _____

September 16, 2020

JOINT PETITION TO APPROVE TERRITORIAL AGREEMENT

Tri-County Electric Cooperative (“TCEC”) and Duke Energy Florida, LLC (“DEF”) (collectively, the “Joint Petitioners”), pursuant to Section 366.04(2)(d), Fla. Stat., and Rules 25-6.0440, & 28-106.201, F.A.C., jointly petition the Florida Public Service Commission (“the Commission”) for approval of a territorial agreement (the “Agreement”) in Jefferson, Madison and Taylor counties.

In support hereof, the Joint Petitioners represent as follows:

1. The Joint Petitioners are electric utilities organized under the laws of Florida and are subject to the regulatory jurisdiction of the Commission pursuant to Section 366.04(2), Florida Statutes.
2. TCEC’s principal offices are located in Madison, Florida. DEF’s principal offices are located in St. Petersburg, Florida.

3. For purposes of this Joint Petition, the contact information of the Joint Petitioners shall be that of their respective undersigned attorneys, and all pleadings, notices, and other communications in this matter should be served on the Joint Petitioners' undersigned attorneys.

4. To best avoid duplication of services and wasteful expenditures, as well as to best protect the public health and safety from potentially hazardous conditions, the Joint Petitioners have negotiated the Agreement delineating their respective service boundaries in Jefferson, Madison and Taylor counties. The Agreement is attached hereto as Attachment 1 along with accompanying maps and written descriptions delineating the territorial boundaries to which the Joint Petitioners have agreed. The territorial boundaries have been modified in each county that is a part of this proposed Agreement. The modified territorial boundaries are depicted in the Territorial Boundary maps attached in Exhibit A and a written description of the territorial boundaries is included in Exhibit D as required by Rule 25-6.0440(1)(a), F.A.C. This proposed Agreement has been negotiated for a term of thirty (30) years (the "initial term") and shall remain in effect thereafter unless either Party provides written notice of termination at least twelve (12) months prior to the expiration of the initial term or twelve (12) months prior to termination if after the initial term.

5. The Joint Petitioners intend to complete all transfers of Extra-Territorial Customers within thirty-six (36) months of the Effective Date of the Agreement.

6. In this Agreement, 193 customers are being transferred from TCEC to DEF (12 commercial and 181 residential) and 225 customers are being transferred from DEF to TCEC (37 commercial and 188 residential). In accordance with Rule 25-6.0440(1)(d), F.A.C.,

the affected customers subject to transfer were sent written notification of this proposed Agreement prior to the filing of this Joint Petition. Sample copies of the letters providing such notification are attached as Exhibit E. As of the time of filing, no negative responses to the notification letters have been received. A summary of the responses ultimately received, if any, will be provided to the Commission by a supplemental filing.

7. The Commission has long recognized that properly constructed territorial agreements between adjacent utilities are in the public interest. The Agreement will avoid duplication of services and wasteful expenditures, as well as protect the public health and safety from potentially hazardous conditions. For these reasons, the Joint Petitioners believe and, therefore, represent that the Commission's approval of the Agreement is in the public interest.

8. The Joint Petitioners are unaware of any disputed issues of material facts pertaining to this Petition.

WHEREFORE, TCEC and DEF respectfully request that the Commission grant this Joint Petition and approve the Agreement.

Respectfully submitted,

/s/ Matthew R. Bernier

ATTACHMENT 1

Territorial Agreement

Tri-County Electric Cooperative

and

Duke Energy Florida, LLC

Jefferson, Madison & Taylor counties

TERRITORIAL AGREEMENT

Section 0.1: Tri-County Electric Cooperative (“TCEC”), and Duke Energy Florida, LLC d/b/a Duke Energy (“DEF”) (collectively, the “Parties” and individually, a “Party”) enter into this Territorial Agreement (the “Agreement”) on this 15th day of September, 2020.

WITNESSETH:

Section 0.2: WHEREAS, TCEC by virtue of Chapter 425, Florida Statutes, and the Charter issued to it thereunder, is authorized and empowered to furnish retail electric service to its members, governmental agencies and political subdivisions, customers, and to other persons as defined by the laws of Florida, and pursuant to such authority, presently furnishes electric service to members and customers in areas of Jefferson, Madison and Taylor counties; and

Section 0.3: WHEREAS, DEF is authorized by Chapter 366, Florida Statutes, to furnish retail electric service to customers throughout the State of Florida, and pursuant to such authority, presently furnishes electric service to customers in areas of Jefferson, Madison and Taylor counties; and

Section 0.4: WHEREAS, TCEC and DEF were parties to a territorial agreement delineating their respective service territories in Jefferson, Madison and Taylor counties, which was approved by the Florida Public Service Commission (the “Commission”) in Order No. PSC 92-1214-FOR-EU, issued October 27, 1992 in Docket No. 920538-EU (the “Expired Agreement”). The Expired Agreement had a twenty (20) year term through October 27, 2012; and

Section 0.5: WHEREAS, the Parties desire to enter into a new Agreement to better serve their interests and the interests of their customers in realizing the planning, operational, and customer service benefits provided to their respective electric systems by a properly constructed, approved, and supervised territorial agreement; and

Section 0.6: WHEREAS, the respective retail service areas of the Parties are contiguous, with the result that, absent the establishment of a territorial agreement defining the Party's respective service territories, duplication of service facilities would be likely to occur; and

Section 0.7: WHEREAS, the Commission has previously recognized that duplication of service facilities results in needless and wasteful expenditures and may create hazardous situations, both being detrimental to the public interest; and

Section 0.8: WHEREAS, the Parties hereto desire to continue to avoid and eliminate circumstances which may create wasteful expenditures and hazardous situations by consolidating the territorial boundary lines between their respective retail service territories in Jefferson, Madison and Taylor counties; and

Section 0.9: WHEREAS, the Commission is empowered by the Florida legislature, pursuant to Section 366.04(2)(d), Florida Statutes, to approve territorial agreements and the Commission, as a matter of long-standing regulatory policy, has encouraged retail territorial agreements between electric utilities subject to its jurisdiction based on its findings that such agreements, when properly established and administered by the Parties and actively supervised by the Commission, avoid uneconomic duplication of facilities, promote safe and efficient operations by utilities in rendering electric service provided to their customers, and therefore serve the public interest.

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, which shall be construed as being interdependent, the Parties hereby agree as follows:

ARTICLE I

DEFINITIONS

Section 1.1: Territorial Boundary Line(s). As used herein, the term "Territorial Boundary Line(s)" shall mean the boundary line(s) depicted on the maps attached hereto as Exhibit A which delineate and differentiate the Parties' respective Territorial Areas in Jefferson, Madison and Taylor counties. The portions of the counties which are not subject to this agreement are marked on the maps as "Not Part of This Agreement." Additionally, as required pursuant to Rule 25-6.0440(1)(a), F.A.C., a written description of the territorial areas served is attached as Exhibit D. If there are any discrepancies between Exhibit A and Exhibit D, then the territorial boundary maps in Exhibit A shall prevail.

Section 1.2: TCEC Territorial Area. As used herein, the term "TCEC Territorial Area" shall mean the geographic areas in Jefferson, Madison and Taylor counties allocated to TCEC as its retail service territory and labeled as "Tri-County Electric Coop" on the maps contained in Exhibit A.

Section 1.3: DEF Territorial Area. As used herein, the term "DEF Territorial Area" shall mean the geographic area in Jefferson, Madison and Taylor counties allocated to DEF as its retail service territory and labeled as "Duke Energy" on the maps contained in Exhibit A.

Section 1.4: Point of Use. As used herein, the term “Point of Use” shall mean the location within the Territorial Area of a Party where a customer’s end-use facilities consume electricity, wherein such Party shall be entitled to provide retail electric service under this Agreement, irrespective of where the customer’s point of delivery or metering is located.

Section 1.5: New Customer. As used herein, the term “New Customer” shall mean all customers applying for retail electric service to either Party after the Effective Date of this Agreement at a Point of Use in the Territorial Area of either Party.

Section 1.6: Existing Customer. As used herein, the term “Existing Customer” shall mean any person receiving retail electric service from either Party as of the Effective Date of this Agreement.

Section 1.7: Extra-Territorial Customers. As used herein, the term “Extra-Territorial Customers” shall mean those customers served by either Party on the Effective Date of the Agreement who are located within the Territorial Area of the other Party established by such Agreement.

Section 1.8: Temporary Service Customers. As used herein, the term “Temporary Service Customers” shall mean customers who are being served under the temporary service provisions provided in Section 2.3 of this Agreement.

Section 1.9: Commission. As used herein, the term “Commission” shall mean the Florida Public Service Commission.

Section 2.0: Effective Date. As used herein, the term “Effective Date” shall mean the date on which the final Order of the Commission granting approval of this Agreement in its entirety becomes no longer subject to judicial review.

ARTICLE II

RETAIL ELECTRIC SERVICE

Section 2.1: In General. Except as otherwise specifically provided herein, under the terms of this Agreement, TCEC shall have the exclusive authority to furnish retail electric service within the TCEC Territorial Area and DEF shall have the exclusive authority to furnish retail electric service in the DEF Territorial Area. The Territorial Boundary Line shall not be altered or affected by any change that may occur in the corporate limits of any municipality or county through annexation or otherwise unless such change is agreed to in writing by the Parties and approved by the Commission.

Section 2.2: Service to New Customers. The Parties agree that neither of them will knowingly serve or attempt to serve any New Customer whose Point of Use is located within the Territorial Area of the other Party, except as specifically provided in Section 2.3 below.

Section 2.3: Temporary Service. The Parties recognize that in exceptional circumstances, economic constraints or good engineering practices may indicate that a New Customer's Point of Use either cannot or should not be immediately served by the Party in whose Territorial Area such Point of Use is located. In such instances, upon written request by the Party in whose Territorial Area the New Customer's Point of Use is located, the other Party

may, in its sole discretion, agree in writing, to temporarily provide service to such New Customer. Prior to the commencement of temporary service, the Party providing such service shall inform the New Customer of the temporary nature of its service and that the other Party will ultimately serve the New Customer. Such temporary service shall be discontinued upon written notice from the requesting Party of its intent and ability to provide service, which the Parties shall coordinate to minimize any inconvenience to the customer. In conjunction with such discontinuance, the Party providing temporary service hereunder shall be compensated by the requesting Party in accordance with Section 3.4 for its distribution facilities used exclusively to provide such service, which the requesting Party may elect to acquire. The requesting Party shall not be entitled to compensation for any loss of revenues for the period during which such temporary service is provided.

Section 2.4: Referral of Service Request. In the event that a prospective New Customer requests or applies for service from either Party to be provided to a Point of Use located in the Territorial Area of the other Party, the Party receiving the request or application shall advise the prospective New Customer that such service is not permitted under this Agreement and shall refer the prospective New Customer to the other Party.

Section 2.5: Correction of Inadvertent Service Errors. If any situation is discovered during the term of this Agreement in which either Party is inadvertently providing retail electric service to a customer's Point of Use located within the Territorial Area of the other Party, service to such customer by the other Party will be established at the earliest practical time, but in any event within twelve (12) months of the date the inadvertent service error was

discovered. Until service by the other Party can be reasonably established, the inadvertent service will be deemed to be temporary service provided and governed in accordance with Section 2.3 above.

ARTICLE III

TRANSFER OF CUSTOMERS AND FACILITIES

Section 3.1: In General. It is the intent of the Parties that all customers of either Party shall be served by the Party in whose Territorial Area they are located at the earliest practicable time. Accordingly, the Parties intend to complete all transfers of the Extra-Territorial Customers within thirty-six (36) months of the Effective Date of the Agreement, and will notify the Commission in writing if circumstances require additional time.

In accordance with Rule 25-6.0440(1)(d), F.A.C., the affected customers subject to transfer have been sent written notification of this Agreement and the transfer provisions described above. Sample copies of the letters providing such notification are attached as Exhibit E.

In the event that circumstances arise during the term of this Agreement in which the Parties agree that, based on sound economic considerations or good engineering practices, an area located in the Territorial Area of one Party would be better served if reallocated to the service territory of the other Party, the Parties shall jointly petition the Commission for approval of a modification of the Territorial Boundary line that places the area in question (the "Reallocated Area") within the Territorial Area of the other Party and transfer of the customers located in the Reallocated Area to the other Party.

Section 3.2: Transfer of Extra-Territorial Customers. The Extra-Territorial Customers currently served by DEF and subject to transfer to TCEC pursuant to this Agreement are listed by the service address and/or other identifying factor in Exhibit B, attached hereto. The Extra-Territorial Customers currently served by TCEC and subject to transfer to DEF pursuant to this Agreement are listed by the service address and/or other identifying factor in Exhibit C, attached hereto.

Section 3.3: Transfer of Related Service Facilities. In conjunction with the transfer of Extra-Territorial Customers pursuant to Sections 3.1 and 3.2 above, the receiving Party may elect to purchase the electric distribution facilities of the transferring Party used exclusively for providing electric service to the transferred customers for an amount to be determined in accordance with Section 3.4 below.

Section 3.4: Compensation for Transferred Facilities. The receiving Party shall compensate the transferring Party for the electric distribution facilities used exclusively for providing electric service to the transferred customers in an amount based upon the replacement cost (new), less depreciation calculated on a straight-line basis over the life of the asset (facility) as determined from the transferring Party's books and records. The replacement cost shall be determined by applying a cost calculator such as the Handy Whitman index or a common engineering cost estimation methodology to the original cost, as long as both Parties apply the same estimation method.

Section 3.5: Transfer Segment Closings. The Parties shall mutually agree on a closing date for each transfer segment, allowing sufficient time for the Parties to identify the customers and facilities to be transferred; to determine the compensation for transferred customers and facilities; and to prepare the appropriate closing statements, assignments, and other instruments to transfer and convey the transferring Party's interest in the electric distribution facilities to the receiving Party pursuant to Section 3.3 above. At the closing, the receiving Party shall pay the transferring Party the compensation due it, and the transferring Party shall execute and deliver to the receiving Party the assignments and other instruments referred to above.

ARTICLE IV

OPERATION AND MAINTENANCE

Section 4.1: Facilities to Remain. Other than as expressly provided for herein, no generating plant, transmission line, substation, distribution line, or related equipment shall be subject to transfer or removal hereunder; provided, however, that each Party shall operate and maintain its lines and facilities in a manner that minimizes any interference with the operations of the other Party. To facilitate this objective, in the event either Party intends to construct, locate, or relocate its distribution facilities in or directly adjacent to the Territorial Area of the other Party, such Party shall notify the other Party in writing at least thirty (30) days prior to commencement of such intended action.

Section 4.2: TCEC Facilities to be Served. Nothing herein shall be construed to prevent or in any way inhibit the right and authority of TCEC to serve any TCEC facility

located in the DEF Territorial Area which is used exclusively in connection with TCEC's business as an electric utility; provided, however, that TCEC shall construct, operate, and maintain said lines and facilities in such manner as to minimize any interference with DEF's operation in the DEF Territorial Area, including notice to DEF pursuant to Section 4.1.

Section 4.3: DEF Facilities to be Served. Nothing herein shall be construed to prevent or in any way inhibit the right and authority of DEF to serve any DEF facility located in the TCEC Territorial Area which is used exclusively in connection with DEF's business as an electric utility; provided, however, that DEF shall construct, operate, and maintain said lines and facilities in such manner as to minimize any interference with TCEC's operation in the TCEC Territorial Area, including notice to TCEC pursuant to Section 4.1.

ARTICLE V

Section 5.1: Commission Approval. The Parties and the provisions and performance of this Agreement are subject to the regulatory authority of the Commission, and appropriate approval by the Commission of the provisions of this Agreement shall be a condition precedent to the validity, enforceability, and applicability hereof. This Agreement shall have no effect whatsoever until Commission approval has been obtained. Any proposed modification to this Agreement, whether proposed jointly or by either Party, shall be submitted to the Commission for consideration and approval prior to becoming effective. In addition, either Party may petition the Commission to resolve any dispute concerning the provisions of this Agreement or the Partys' performance hereunder.

Section 5.2: Liability in the Event of Disapproval. In the event the Commission's approval is not obtained as required by Section 5.1, neither Party will have any claim against the other arising under this Agreement.

Section 5.3: Supersedes Prior Agreements. Upon approval by the Commission, this Agreement shall be deemed to specifically supersede any and all prior agreements between the Parties regarding their respective retail service areas in Jefferson, Madison and Taylor counties.

ARTICLE VI

DURATION

Section 6.1: Term. This Agreement shall continue and remain in effect for a period of thirty (30) years from the Effective Date. After expiration of the twenty (20) year term provided herein, this Agreement shall remain in effect thereafter unless either Party provides written notice of Termination at least 12 months prior to the termination of the agreement as contemplated by Section 8.3.

ARTICLE VII

CONSTRUCTION OF AGREEMENT

Section 7.1: Other Electric Utilities. Nothing in this Agreement shall restrict or affect in any manner the right of either Party to establish its retail service area with respect to any other electric utility. The Parties understand that TCEC or DEF may, from time to time and subject to Commission approval, enter into territorial agreements with other electric utilities that have adjacent or overlapping service areas and that, in such event, nothing herein shall be construed to prevent TCEC or DEF from designating any portion

of its Territorial Area under this Agreement as the service area of such other electric utility.

Section 7.2: Bulk Power for Resale. Nothing herein shall be construed to prevent either Party from providing a bulk power supply for resale purposes, as defined in the Final Judgement dated August 19, 1971 in United States of America v. Florida Power Corporation and Tampa Electric Company, Case No. 68-297-Civ-T regardless of where the purchaser for resale may be located. Further, no other section or provision of this Agreement shall be construed as applying to a bulk power supply for resale purposes.

Section 7.3: Intent and Interpretation. It is hereby declared to be the purpose and intent of the Parties that this Agreement shall be interpreted and construed, among other things, to further this State's policy of actively regulating and supervising the service territories of electric utilities; supervising the planning, development, and maintenance of a coordinated electric power grid throughout Florida; avoiding uneconomic duplication of generation, transmission, and distribution facilities; and encouraging the installation and maintenance of facilities necessary to fulfill the Parties' respective obligations to serve.

ARTICLE VIII

RE: Duke Energy Account No. ██████████ 0100402126

Dear Customer:

To ensure that electric utilities in Florida, such as Duke Energy Florida (DEF), are able to provide reliable and economical electric service to their customers, utilities enter into agreements with one another establishing the geographical areas in which each utility is the exclusive provider of electric service. Utilities enter into these territorial agreements in an effort to avoid the unnecessary and uneconomic construction of duplicate electrical distribution lines and other facilities to serve their customers.

In an effort to efficiently serve the customers in your area, we will soon enter into a territorial agreement with Tri-County Electric Cooperative that will revise some of the service area boundaries between the utilities and enable each utility to serve its customers more reliably and economically. The new agreement must be approved by the Florida Public Service Commission (FPSC) before it can become effective and you will have the opportunity prior to that approval to provide your comments to the Commission. If you wish, we will provide the pertinent contact information for the FPSC when the territorial agreement has been filed and docketed.

If approved by the FPSC, the terms of the amended territorial agreement call on Tri-County Electric Cooperative to provide electric service in your area and your account would be transferred to Tri-County Electric Cooperative. You will not need to do anything to initiate this transfer as DEF and Tri-County Electric Cooperative will handle all of the arrangements on your behalf. If you have a deposit with DEF, your deposit will be applied to your last electric bill and any surplus will be refunded directly to you. You should not experience any disruption of service during the transfer and you will be notified in the unlikely event that a minimal interruption of service is required.

To provide you a rate comparison, in February 2020, the residential rate of Duke for 1,000 Kilowatt Hours (KWH) was \$123.99. For the same month, the residential rate of Tri-County Electric Cooperative for 1,000 KWH was \$131.28.

The rates of both utilities are subject to periodic change and may be raised or lowered in the future.

While we regret losing the opportunity to serve you in the future, the Tri-County Electric Cooperative is an excellent utility and I am confident you will find their service to be satisfactory.

Please contact me if you have any questions or concerns about the proposed transfer of your service to the Tri-county Electric Cooperative, or if you would like information about contacting the FPSC. You can reach me by phone at 727-820-5846.

Sincerely,

RE: Tri-County Electric Cooperative, Inc. Account No. XXXXXXXX

Dear Member:

To ensure that electric utilities in Florida, such as Tri-County Electric Cooperative Inc. (TCEC), are able to provide safe, reliable and economical electric service to their customers, electric utilities maintain territory boundary agreements that establishes the geographical areas in which each utility becomes the exclusive provider of electric service. Utilities enter into these territorial agreements in an effort to minimize duplication of electric distribution lines and other facilities to serve their customers.

In an effort to efficiently serve the customers in your area, we will soon enter into an updated territorial agreement with Duke Energy Florida (DEF) that will revise some of the service area boundaries between the utilities. The new agreement must be approved by the Florida Public Service Commission (FPSC) before it can become effective, and you will have the opportunity prior to that approval to provide your comments to the Commission. If you wish, we will provide the pertinent contact information for the FPSC when the territorial agreement has been filed and docketed.

If approved by the FPSC, the terms of the amended territorial agreement require DEF to provide electric service in your area, and your account would be transferred to DEF. You will not need to do anything to initiate this transfer as DEF and TCEC will handle all of the arrangements on your behalf. If you have a deposit with TCEC, your deposit will be applied to your last electric bill and any surplus will be refunded directly to you. You will experience a brief disruption of service while the power lines are reconfigured to meet the new changes. You will be contacted prior to the transfer of service.

While we regret losing the opportunity to serve you in the near future, Duke Energy Florida is an excellent utility, and we are confident you will find their service to be satisfactory. Please contact us if you have any questions or concerns about the proposed transfer of your service to Duke Energy Florida, or if you would like information about contacting the FPSC, you can reach one of our member service representatives by calling 850-973-2285 or 800-999-2285.

Sincerely,
