## **ELECTRONIC FILING**

Mr. Adam J. Teitzman, Commission Clerk  
Office of Commission Clerk  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

Re: Docket 20210034-EI, Petition for Rate Increase by Tampa Electric Company

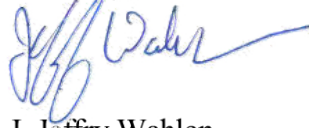

Dear Mr. Teitzman:

Attached for filing on behalf of Tampa Electric Company in the above-referenced docket is the Direct Testimony and Exhibit of Jeffrey S. Chronister.

Thank you for your assistance in connection with this matter.

(Document 22 of 34)

Sincerely,

J. Jeffry Wahlen

BEFORE THE  
FLORIDA PUBLIC SERVICE COMMISSION

DOCKET NO. 20210034-EI  
IN RE: PETITION FOR RATE INCREASE  
BY TAMPA ELECTRIC COMPANY

DIRECT TESTIMONY AND EXHIBIT  
OF  
JEFFREY S. CHRONISTER

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

PREPARED DIRECT TESTIMONY

OF

JEFFREY S. CHRONISTER

**Q.** Please state your name, address, occupation, and employer.

**A.** My name is Jeffrey S. Chronister. My business address is 702 North Franklin Street, Tampa, Florida 33602. I am employed by Tampa Electric Company ("Tampa Electric" or "company") as Vice President Finance and Controller, Tampa Electric.

**Q.** Please describe your duties and responsibilities in that position.

**A.** I am responsible for maintaining the financial books and records of the company and for the determination and implementation of accounting policies and practices for Tampa Electric. I am also responsible for budgeting activities within the company, which includes business planning and financial planning & analysis, as well as general accounting, regulatory accounting, plant accounting, regulatory tax accounting, and financial reporting.

1     **Q.**   Please provide a brief outline of your educational  
2           background and business experience.

3  
4     **A.**   I graduated from Stetson University in 1982 with a Bachelor  
5           of Business Administration degree in Accounting. Upon  
6           graduation I joined Coopers & Lybrand, an independent  
7           public accounting firm, where I worked for four years  
8           before joining the company in 1986. I started in Tampa  
9           Electric's Accounting department, moved to TECO Energy's  
10          Internal Audit department in 1987, and returned to the  
11          Accounting department in 1991. I am a Certified Public  
12          Accountant in the State of Florida and I am a member of  
13          both the American Institute of Certified Public Accountants  
14          ("AICPA") and the Florida Institute of Certified Public  
15          Accountants ("FICPA"). I have served as Controller of Tampa  
16          Electric since July 2009, and in my current position since  
17          July 2018.

18  
19    **Q.**   Have you previously testified before the Florida Public  
20          Service Commission ("FPSC" or "Commission")?

21  
22    **A.**   Yes, I have testified or filed testimony before this  
23          Commission in several dockets. I testified for Tampa  
24          Electric in Docket No. 20130040-EI, which was Tampa  
25          Electric's last base rate proceeding. I filed testimony in

1 Docket No. 20080317-EI, Tampa Electric Company's Petition  
2 for An Increase in Base Rates and Miscellaneous Service  
3 Charges, Docket No. 19960007-EI, Tampa Electric's  
4 Environmental Cost Recovery Clause, and Docket No.  
5 19960688-EI, Tampa Electric's environmental compliance  
6 activities for purposes of cost recovery. I filed testimony  
7 in Docket No. 20170271-EI, Petition for recovery of costs  
8 associated with named tropical systems during the 2015,  
9 2016, and 2017 hurricane seasons and replenishment of storm  
10 reserve subject to final true-up, Tampa Electric Company  
11 and in Docket No. 20200144-EI, Petition for Limited  
12 Proceeding to True-Up First and Second SoBRAs by Tampa  
13 Electric Company. I also served on a panel of witnesses  
14 during the final hearing in Docket No. 20200065-EI, which  
15 addressed the company's amortization reserve for intangible  
16 software assets.

17  
18 **Q.** What are the purposes of your direct testimony?  
19

20 **A.** The purposes of my direct testimony are to: (1) describe  
21 the company's previous and current regulatory settlement  
22 agreements, (2) discuss changes in the company's financial  
23 profile from its last rate case through the test year 2022,  
24 (3) discuss affiliate transactions, (4) discuss income tax  
25 calculations and the company's capital structure, and (5)

1 discuss the company's projected financial condition in 2023  
2 and 2024 and present regulatory options for those years,  
3 including the company's request for generation base rate  
4 adjustments ("GBRA").

5  
6 **Q.** Have you prepared an exhibit to support your direct  
7 testimony?

8  
9 **A.** Yes. Exhibit No. JSC-1 entitled, "Exhibit of Jeffrey S.  
10 Chronister" was prepared under my direction and  
11 supervision. The contents of my exhibit were derived from  
12 the business records of the company and are true and  
13 correct to the best of my information and belief. It  
14 consists of 11 documents, as follows:

15  
16 Document No. 1 List of Minimum Filing Requirement  
17 Schedules Sponsored or Co-Sponsored by  
18 Jeffrey S. Chronister  
19 Document No. 2 2013 Stipulation and Settlement  
20 Agreement  
21 Document No. 3 2017 Amended and Restated Stipulation  
22 and Settlement Agreement  
23 Document No. 4 2020 Stipulation and Settlement  
24 Agreement  
25 Document No. 5 Key Financial Information: 2013-2022

|    |                 |                                      |

| 10 | Document No. 11 | Proposed Tax Reform Mechanism        |

11

12 **Q.** Are you sponsoring any of Tampa Electric's Minimum Filing  
13 Requirement ("MFR") Schedules?

14

15 **A.** Yes. I am sponsoring or co-sponsoring the MFR Schedules  
16 listed in Document No. 1 of my exhibit. The contents of  
17 these MFR Schedules were derived from the business records  
18 of the company and are true and correct to the best of my  
19 information and belief.

20

21 **KEY REGULATORY AGREEMENTS**

22 **Q.** When did the company last file a petition seeking an  
23 increase in its general base rates and charges?

24

25 **A.** Tampa Electric last filed a petition to increase its

1 general base rates and charges on February 4, 2013. Its  
2 petition was assigned Docket No. 20130040-EI. The issues  
3 in that case were resolved by a Stipulation and Settlement  
4 Agreement ("2013 Stipulation") by and between Tampa  
5 Electric and a group of consumer parties consisting of the  
6 Office of Public Counsel ("OPC"), the Florida Industrial  
7 Power Users Group ("FIPUG"), the Florida Retail Federation  
8 ("FRF"), the West Central Florida Hospital Utility Alliance  
9 ("HUA") and the Federal Executive Agencies ("FEA")  
10 (collectively, "Consumer Parties"). The Commission  
11 approved the 2013 Stipulation by Order No. PSC-2013-0443-  
12 FOF-EI, issued on September 30, 2013. A copy of the 2013  
13 Stipulation is included in Document No. 2 of my Exhibit  
14 No. JSC-1.

15  
16 **Q.** Please describe the 2013 Stipulation.

17  
18 **A.** As part of the 2013 Stipulation, Tampa Electric agreed that  
19 the general base rates provided for therein would remain in  
20 effect through December 31, 2017, and thereafter, until the  
21 company's next general base rate case. The 2013 Stipulation  
22 also specified that Tampa Electric would forego seeking  
23 future general base rate increases with an effective date  
24 prior to January 1, 2018, except in limited circumstances.

1 The 2013 Stipulation set the company's midpoint return on  
2 equity at 10.25 percent, prescribed a 54 percent equity  
3 ratio for regulatory purposes, created a customer surcharge  
4 mechanism to recover certain storm-related restoration  
5 costs, authorized a \$110 million GBRA for the Polk 2 through  
6 5 Waste Heat Recovery Conversion Project, froze the  
7 company's then existing depreciation rates, established a  
8 15-year amortization period for computer software, and  
9 specified certain cost of service and rate design  
10 principles for use during the term of the stipulation.

11  
12 In late 2016, recognizing that the period in which Tampa  
13 Electric agreed to refrain from seeking general base rate  
14 increases would expire at the end of 2017, Tampa Electric  
15 and the Consumer Parties to the 2013 Stipulation began  
16 discussing whether the company would be willing and able to  
17 (a) refrain from seeking a general base rate increase beyond  
18 December 31, 2017 and (b) extend the terms of the 2013  
19 Stipulation for an additional period. The Parties also  
20 discussed the company's desire to build 600 MW of cost-  
21 effective solar photovoltaic generation with cost recovery  
22 via a solar base rate adjustment mechanism ("SoBRA").

23  
24 As a result of these discussions, Tampa Electric and the  
25 Consumer Parties entered into the 2017 Amended and Restated

1 Stipulation and Settlement Agreement ("2017 Agreement").  
2 The Commission approved the 2017 Agreement by Order No.  
3 PSC-2017-0456-S-EI, on November 27, 2017. A copy of the  
4 2017 Agreement is included as Document No. 3 of my Exhibit  
5 No. JSC-1.  
6

7 **Q.** Please describe the 2017 Agreement.  
8

9 **A.** The 2017 Agreement amended and restated the 2013  
10 Stipulation by extending the general base rate freeze  
11 included in the 2013 Stipulation and replacing the Polk  
12 GBRA mechanism with a SoBRA mechanism that authorized the  
13 company to recover the costs of up to 600 MW of qualifying  
14 solar generating projects, subject to a strict cost-  
15 effectiveness test and a cost cap to protect customers. It  
16 also included an asset optimization plan, a tax reform  
17 provision, and a storm cost recovery mechanism that have  
18 delivered real benefits to our customers. The agreement  
19 required the company to continue using its 2013  
20 depreciation rates and preserved the company's authorized  
21 return on equity and equity ratio.  
22

23 Tampa Electric witness Edsel L. Carlson, Jr. discusses the  
24 storm cost provisions in the 2013 Stipulation and 2017  
25 Agreement in his testimony.

1     **Q.**     Does the company believe that the 2013 Stipulation and 2017  
2             Agreement served the public interest?

3  
4     **A.**     Yes. Both agreements promoted regulatory certainty and  
5             efficiency and have proven to be in the public interest.  
6             Pursuant to the 2017 Agreement, the Commission approved two  
7             general base rate decreases for Tampa Electric totaling  
8             approximately \$107 million to promptly give customers the  
9             benefit of federal and state corporate income tax reform.  
10            The Commission also approved storm cost recovery for Tampa  
11            Electric of over \$90 million for five named storms without  
12            imposing a general base rate increase or storm surcharge on  
13            customers.

14  
15            The 2013 Stipulation allowed the company to harness the  
16            energy associated with waste heat at its Polk Power Station  
17            by converting Polk Units 2 through 5 into highly efficient  
18            combined cycle generating units. Under the 2017 Agreement,  
19            the company built and recovered the cost of its investments  
20            in 600 MW of cost-effective photovoltaic solar generating  
21            capacity and, during its term, began important  
22            transformational projects such as implementation of  
23            Advanced Metering Infrastructure ("AMI") and construction  
24            of the Big Bend Modernization Project.

1     **Q.**     What impact did the SoBRA provision in the 2017 Agreement  
2             have on Tampa Electric and how did the SoBRA provision  
3             benefit customers?

4  
5     **A.**     The Commission approved four SoBRAs for Tampa Electric  
6             totaling 600 MW of solar capacity during the term of the  
7             2017 Agreement, by orders issued on June 5, 2018, December  
8             7, 2018, November 12, 2019, and November 20, 2020,  
9             respectively. The four SoBRAs increased the company's  
10            annual base revenues by approximately \$100 million. They  
11            also increased the amount of energy we generated from solar  
12            to six percent of our 2020 total generation. SoBRA  
13            facilities have generated fuel savings of \$77 million since  
14            the 2017 Agreement became effective. The company expects  
15            the fuel savings from this 600 MW of solar to exceed \$700  
16            million over the life of these solar assets.

17  
18    **Q.**     Did the 2013 Stipulation and 2017 Agreement address the  
19             company's depreciation and amortization rates?

20  
21    **A.**     Yes. Both agreements required Tampa Electric to continue  
22             using the depreciation and amortization rates approved by  
23             the Commission in 2012, relieved the company of the need to  
24             file depreciation and dismantlement studies every four  
25             years, and directed the company to file a depreciation study

1 no more than one year nor less than 90 days before the  
2 filing of its next general rate proceeding, such that the  
3 proposed depreciation rates can be considered  
4 contemporaneously with the company's next general rate  
5 proceeding. Tampa Electric filed a depreciation and  
6 dismantlement study with the Commission on December 30,  
7 2020. Tampa Electric witnesses Davicel Avellan, Jeffrey T.  
8 Kopp, and Charles R. Beitel provide additional detail  
9 regarding depreciation and dismantlement in their  
10 testimony.

11  
12 **Q.** Did the tax reform and storm cost provisions in the 2017  
13 Agreement work together to benefit customers?

14  
15 **A.** Yes. In December 2017, Tampa Electric filed a petition for  
16 storm cost recovery as contemplated in the 2017 Agreement.  
17 The company originally proposed a \$4.00/1,000 kWh surcharge  
18 to recover \$87.4 million of costs associated with named  
19 storms in 2015, 2016, and 2017 and to replenish its storm  
20 reserve. The company later amended its petition to increase  
21 its requested storm cost recovery amount to \$102.5 million  
22 and to increase its proposed surcharge amount, and then  
23 requested approval of an Implementation Stipulation that  
24 allowed the company to use the projected income tax expense  
25 savings from the Tax Cut and Jobs Act of 2017 ("TCJA") to

1 offset its request for storm cost recovery. The Commission  
2 approved the Implementation Agreement by Order No. PSC-  
3 2018-0125-PCO-EI on March 7, 2018, and later approved a  
4 Storm Cost Settlement Agreement, by Order No. PSC- 2019-  
5 0234-AS-EI, dated June 14, 2019, in Docket No. 20170271-  
6 EI.

7  
8 The 2017 Amended and Restated Agreement allowed the company  
9 to recover \$91.3 million of incremental storm recovery  
10 costs by netting those costs for a nine-month period in  
11 2018 against TCJA tax expense savings without imposing a  
12 surcharge on customer bills. The company also made an \$11.5  
13 million, one-time refund of tax expense savings to  
14 customers in January 2020.

15  
16 **Q.** Did the Commission take other actions pursuant to the tax  
17 reform provision in the 2017 Agreement?

18  
19 **A.** Yes. By Order No. PSC 2018-0457-FOF-EI, issued September  
20 10, 2018 ("Federal Tax Reform Order"), the Commission  
21 approved a base rate reduction in the amount of  
22 approximately \$102 million effective January 1, 2019 to  
23 reflect the impact of TCJA. It also approved a \$5.0 million  
24 base rate reduction effective January 1, 2020 to reflect a  
25 temporary reduction in the State of Florida corporate

1 income tax rate by Order No. PSC-2019-0524-PAA-EI, issued  
2 December 17, 2019 ("State Tax Reform Order"). Thus, the  
3 company reduced its base rates pursuant to the 2017  
4 Agreement by about \$107 million to return tax expense  
5 savings to customers.  
6

7 **Q.** Did Tampa Electric enter into an additional Commission-  
8 approved settlement agreement in 2020?  
9

10 **A.** Yes. Tampa Electric filed its Storm Protection Plan for  
11 2020 to 2029 ("SPP") on April 10, 2020. After submitting  
12 its SPP, the company entered into a settlement agreement  
13 with the OPC and other consumer parties to simplify issues  
14 associated with SPP cost recovery and resolve other pending  
15 issues.  
16

17 The centerpiece of the 2020 Agreement was a proposal under  
18 which Tampa Electric reduced its base rates by  
19 approximately \$15 million and agreed to recover all the  
20 costs (with limited exceptions) determined prudent by the  
21 Commission associated with activities in its SPP  
22 (operations and maintenance ("O&M") expenses and capital  
23 projects) through the Storm Protection Plan Cost Recovery  
24 Clause ("SPPCRC"). This agreement streamlined the issues to  
25 be litigated in the 2020 SPPCRC docket and promoted

1 regulatory certainty for the company and its customers.

2  
3 The 2020 Agreement also completely resolved Docket No.  
4 2020065-EI (Software Amortization Petition), and an item  
5 associated with the company's Fourth SoBRA (Docket No.  
6 20200064-EI). This agreement benefited customers by  
7 promoting transparency and simplifying implementation of  
8 the new SPPCRC, and the Commission voted to approve it on  
9 June 9, 2020.

10  
11 **Q.** Did the company enter into a second settlement agreement  
12 in 2020?

13  
14 **A.** Yes. On August 3, 2020, the company executed and filed a  
15 Stipulation and Settlement Agreement ("2020 SPP Settlement  
16 Agreement") in the company's SPP and SPP Cost Recovery  
17 Clause dockets. The 2020 SPP Agreement resolved the  
18 remaining issues in those two dockets by approving: (1)  
19 the company's proposed 2020 SPP as filed; (2) its proposed  
20 SPP cost recovery amounts and factors to be effective  
21 January 1, 2021; and (3) the tariffs implementing the \$15  
22 million base rate reduction specified in the 2020  
23 Agreement. The Commission approved the 2020 SPP Agreement  
24 by Order No. PSC-2020-0293-AS-EI, issued on August 28,  
25 2020, in Docket Nos. 20200067-EI and 20200092-EI.

1     **FINANCIAL PROFILE CHANGES FROM 2013 TO 2022**

2     **Q.**    Has the company's financial profile changed since its last  
3            rate case in 2013?

4  
5     **A.**    Yes. Tampa Electric witnesses Archibald D. Collins, David  
6            A. Pickles, Regan B. Haines, Melissa L. Cosby and Karen M.  
7            Mincey each explain how we have transformed the company and  
8            its operations, and how those operational changes benefit  
9            our customers. Showing how our financial profile has  
10           changed tells an important part of the story, so I have  
11           prepared an analysis showing how the company's expense  
12           profile has changed from the twelve-months ended December  
13           31, 2013 and how our balance sheet has grown since December  
14           31, 2013. Document No. 5 of my Exhibit No. JSC-1 contains  
15           a schedule summarizing key financial information about the  
16           company from 2013 to 2022.

17  
18    **Q.**    How did you choose these beginning points for your analysis?

19  
20    **A.**    We filed our 2013 rate case using a projected 2014 test  
21           year, but the 2013 Stipulation authorized the company to  
22           increase its base rates effective with the first billing  
23           cycle in November 2013. Beginning my analysis with expenses  
24           for 2013 and the balance sheet as of December 31, 2013  
25           anchored the analysis in the period of time when the first

1        general base rate increase authorized by the 2013  
2        Stipulation went into effect. I will refer to these time  
3        frames in my testimony as "since 2013" or "since our last  
4        rate case." In some instances, my analysis will reflect  
5        the seven years of actual results from 2013 to 2020, and in  
6        other instances I will make comparisons from 2013 to our  
7        projected 2022 test year, which will reflect nine years of  
8        change.

9  
10    **Q.** In general, how has the company's financial profile changed  
11        since its last rate case?

12  
13    **A.** The company has invested to serve a growing customer base  
14        and transform our infrastructure to respond to customers'  
15        needs and expectations, which has caused our rate base to  
16        grow. Even though our rate base grew, the company combined  
17        higher revenue - from customer growth and regulatory  
18        agreements - with cost controls to earn within its  
19        authorized range of returns on equity during the last seven  
20        years. However, we project our earned rate of return on  
21        equity to decline in 2021 and 2022 as we add new and  
22        important assets to our rate base. We project our earned  
23        return on equity for 2022 to be below five percent without  
24        the rate increase we are requesting in this case.

1     **Q.**     How has the company's rate base grown since 2013?

2  
3     **A.**     Our System Per Books 13-month average rate base for 2020  
4             was 67 percent higher than in 2013. The company's FPSC  
5             Adjusted 13-month average rate base for 2020 was 69 percent  
6             higher than in 2013. Our System Per Books 13-month average  
7             rate base for 2022 will be 98 percent higher than in 2013.  
8             Our FPSC Adjusted 13-month average rate base for 2022 will  
9             be 100 percent higher than in 2013.

10  
11            The predominant driver of our rate base growth is the  
12            increase in our Net Utility Plant. The company's FPSC  
13            Adjusted Net Utility Plant has increased due to increases  
14            in both Net Plant in Service and the portion of Construction  
15            Work in Progress ("CWIP") that does not earn Allowance for  
16            Funds Used During Construction ("AFUDC"). Our system Per  
17            Books Net Utility Plant has increased due to those two items  
18            plus cost recovery clause Net Plant in Service, cost  
19            recovery clause CWIP, and the portion of CWIP that earns  
20            AFUDC.

21  
22            Our FPSC Adjusted 13-month average Net Utility Plant in  
23            2020 exceeded the 2013 amount by \$2.7 billion, while the  
24            amount in 2022 is projected to exceed the 2013 amount by  
25            \$3.9 billion. The company's FPSC Adjusted 13-month average

1 Net Utility Plant in 2020 was 68 percent higher than in  
2 2013, and we project in 2022 that it will be 98 percent  
3 higher than in 2013.  
4

5 **Q.** What caused the growth in Net Utility Plant?  
6

7 **A.** The company's Net Utility Plant has grown because the  
8 company invested to meet the expectations of our customers,  
9 to provide safe and reliable service to our current and new  
10 customers, and to make our generating fleet units cleaner  
11 and greener. Our FPSC Adjusted 13-month average CWIP  
12 balance in 2020 was 146 percent higher than in 2013, and we  
13 project in 2022 that it will be 43 percent higher than in  
14 2013. Our FPSC Adjusted 13-month average Net Plant in  
15 Service balance in 2020 was 65 percent higher than in 2013,  
16 and we expect in 2022 that it will be 100 percent higher  
17 than in 2013.  
18

19 The company's FPSC Adjusted 13-month average Net Plant in  
20 Service balance in 2020 exceeded the 2013 amount by \$2.5  
21 billion, while the amount in 2022 is projected to exceed  
22 the 2013 balance by \$3.8 billion.  
23

24 **Q.** What major projects make up these plant increases?  
25

1     **A.**     The Plant in Service amounts for the key projects  
2             contributing to these increases are:

3  
4             (1) The Polk 2 through 5 conversion approved in the 2013  
5             Stipulation (2020 13-month average \$648,778,851 and 2022  
6             13-month average \$648,778,851);

7  
8             (2) 600 MW of solar generation assets recovered through the  
9             SoBRA mechanism in the 2017 Agreement (2020 13-month  
10            average \$800,385,694 and 2022 13-month average  
11            \$942,076,934); and

12  
13            (3) The three major projects for which we seek cost recovery  
14            in this proceeding: Big Bend Modernization as described by  
15            Mr. Pickles and Mr. Caldwell (2022 13-month average  
16            \$418,264,726), 600 MW of Future Solar explained by Tampa  
17            Electric witnesses Jose A. Aponte and C. David Sweat (2022  
18            13-month average \$341,547,139), and our AMI project  
19            described by Mr. Haines and Ms. Cosby (2022 13-month average  
20            \$242,335,988).

21  
22            The original or projected in-service amounts for these  
23            assets, including AFUDC, are shown below:

|   |                        | In-Service Amount    |
|---|------------------------|----------------------|
|   | <u>In-Service Date</u> | <u>(in millions)</u> |
| 1 |                        |                      |
| 2 |                        |                      |
| 3 | Polk 2-5               | 2017 \$649           |
| 4 | 600 MW SoBRA           | 2018-2021 \$942      |
| 5 | Big Bend Modernization | 2021-2022 \$868      |
| 6 | Solar Wave 2           | 2021-2023 \$814      |
| 7 | AMI                    | 2021 \$242           |
| 8 |                        |                      |

9 **Q.** What was the annual average growth rate for Plant in Service  
10 since 2013?

11  
12 **A.** The company's cumulative average growth rate ("CAGR") for  
13 13-month average FPSC Adjusted Plant in Service from 2013  
14 to 2020 was 6.0 percent, and for the nine years from 2013  
15 to 2022 is expected to be 5.9 percent. Of this 2013 to 2022  
16 CAGR percentage, 3.3 percent is attributable to the assets  
17 shown above, while 2.6 percent is attributable to all other  
18 asset additions such as infrastructure projects and  
19 sustaining capital.

20  
21 **Q.** How have the company's base revenues grown since 2013?

22  
23 **A.** Tampa Electric's base revenues in 2022, without the rate  
24 increase requested in this case, will be 28 percent higher  
25 than in 2013. Our 2022 base revenues, without rate relief,

1 are projected to exceed the 2013 amount by approximately  
2 \$258 million.

3  
4 This base revenue growth is attributable to customer growth  
5 and rate increases authorized as part of the 2013  
6 Stipulation and 2017 Agreements.

7  
8 The estimated base revenue increase from customer growth  
9 from 2013 to 2022 is projected to be approximately \$140  
10 million.

11  
12 The revenue increases from regulatory agreements from 2013  
13 to 2022 is projected to be approximately \$240 million.

14  
15 These base rate increases were offset by base rate  
16 reductions of approximately \$122 million associated with  
17 tax reform (\$107 million) and removing SPP cost recovery  
18 from base rates to the SPPCRC (\$15 million).

19  
20 **Q.** Please explain the cost control efforts the company  
21 employed from 2013 to 2022.

22  
23 **A.** As I mentioned earlier, Tampa Electric has focused on cost  
24 control in all areas of our operations. Through these  
25 efforts, we have realized significant savings in O&M

1 expenses, taxes other than income, income taxes, and  
2 interest expense. Our cost control results came from  
3 implementing specific cost control strategies; the addition  
4 of key assets; our focus on cost discipline, efficiency,  
5 and innovation; and our reliance on the size and financial  
6 integrity of the company.

7  
8 **Q.** Please describe how the company's cost control efforts have  
9 reduced the company's level of O&M expenses.

10  
11 **A.** Tampa Electric's total O&M expenses (clause and non-clause)  
12 are substantially lower than in 2013. We have greatly  
13 reduced the O&M expenses that we recover through clauses  
14 and the O&M expenses we recover through base rates are only  
15 slightly higher than in 2013.

16  
17 Total O&M expenses, as reflected in System Per Books O&M,  
18 were \$1.17 billion in 2013. As shown on MFR Schedule C-1,  
19 by 2022, the company projects System Per Books O&M to be  
20 \$956 million, reflecting a decrease of over \$200 million.

21  
22 The O&M expense used to calculate the revenue requirement  
23 is FPSC Adjusted O&M, which reflects jurisdictional  
24 separation, removal of clause expenses and other Commission  
25 adjustments. FPSC Adjusted O&M was \$335.9 million in 2013.

1 In 2020, that total was \$350.9 million. As shown on MFR  
2 Schedule C-1, by 2022, the company projects FPSC Adjusted  
3 O&M to be \$354.8 million. This reflects an average annual  
4 growth rate of only 0.6 percent per year.

5  
6 In addition to the customer benefit of controlling the O&M  
7 that impacts base rates to sixth tenths of one percent per  
8 year, the company has also delivered, in real time, the  
9 benefit of lower bills to customers by reducing the expenses  
10 that are recovered through the Fuel Adjustment Clause. Fuel  
11 clause expenses in 2013 were \$682.8 million. By 2022, the  
12 company projects fuel clause expenses to be \$544.6 million,  
13 reflecting a decrease of almost \$140 million.

14  
15 **Q.** How has the company reduced its annual fuel expenses since  
16 2013?

17  
18 **A.** Although the amount of energy we sell each year has gone up  
19 since 2013, we have reduced our annual fuel expenses by  
20 more than 40 percent. Part of the decline can be  
21 attributable to lower natural gas prices, but we delivered  
22 the value of lower natural gas prices to our customers  
23 through prudent expansion of dual-fuel capability at our  
24 power plants, continued investments in efficient natural  
25 gas fired combined cycle technology, and careful

1        dispatching of our generating units. In addition, our  
2        construction of cost-effective solar generation lowered  
3        fuel costs by adding zero fuel cost assets. Mr. Pickles  
4        discusses these efforts in his testimony.

5  
6        **Q.**    Is the 0.6 percent increase in O&M noted above the result  
7        of O&M increases in each functional area since 2013?

8  
9        **A.**    No. While the level of FPSC Adjusted O&M in 2022 is higher  
10       than 2013, our expense levels in most functional areas are  
11       lower than in 2013. What we pay for employee health benefits  
12       is higher than in 2013 and we have increased our O&M  
13       spending in the customer experience area, but we have  
14       dramatically reduced our energy production O&M expense  
15       levels. We reduced our energy production O&M expenses by  
16       applying cost discipline to internal resources and vendor  
17       spending, and by changing our fuel generation mix away from  
18       coal to natural gas and solar. Mr. Pickles explains this  
19       change and its impact on our operations in his testimony.  
20       Tampa Electric witnesses Marian C. Cacciatore and Ms. Cosby  
21       discuss our spending for employee health benefits and  
22       customer experience, respectively, in their testimony.

23  
24       **Q.**    Are the company's cost control efforts reflected in the  
25       company's performance against the Commission's O&M

1 Benchmark test?

2  
3 **A.** Yes. The Commission's O&M Benchmark test measures a  
4 company's projected test year O&M expense levels against  
5 the O&M expense levels in a benchmark year (2012 in this  
6 case) escalated annually by a multiplier reflecting  
7 inflation and customer growth. The company's results  
8 against the O&M Benchmark are shown on MFR Schedule C-37.

9  
10 Overall, our results are excellent. Our projected 2022  
11 total O&M expense amount is \$43.9 million lower than the  
12 Commission benchmark amount. This is important evidence  
13 that the company's cost control efforts have worked, and  
14 that our projected 2022 O&M expense levels are reasonable.

15  
16 **Q.** What is the performance against the O&M benchmark for 2022  
17 in each of the company's functional expense areas?

18  
19 **A.** As shown in MFR Schedule C-37, Tampa Electric is well below  
20 the benchmark in all functional areas with the exception of  
21 the customer experience area. The functional areas where  
22 our projected 2022 level of O&M expense are under the  
23 benchmark, and the amounts by which they are under, are:

1  
2  
3  
4  
5  
6  
7  
8  
9  
10

|                          |                      |
|--------------------------|----------------------|
| O&M Expenses             |                      |
| Under Benchmark          |                      |
| <u>Functional Area</u>   | <u>(in millions)</u> |
| Production               | \$28.6               |
| Transmission             | \$6.1                |
| Distribution             | \$2.9                |
| Sales Expenses           | \$1.5                |
| Administrative & General | \$11.2               |

**Q.** Please explain the company’s O&M Benchmark results for 2022 in the Customer Experience area.

**A.** Our projected 2022 O&M expense levels in the Customer Experience area, collectively, are \$6.4 million above the benchmark. This result reflects the significant resources we have dedicated to improving the experiences our customers receive from us, and our efforts to enable our customers to do business with the company when and where they want. Ms. Cosby demonstrates in her testimony how our increased spending in this area has made big improvements in our contact center service levels and in our J.D. Power customer satisfaction rankings.

**Q.** Does the company plan to incur economic development expenses in the 2022 test year?

1     **A.**     Yes. The company has included \$367,000 of economic  
2             development expenses in its calculation of the 2022 test  
3             year net operating income. This amount is well within the  
4             guidelines in Rule 25-6.0426, Florida Administrative Code.  
5             However, as I explain in the last section of my testimony,  
6             the company proposes to increase the amount of economic  
7             development expenses allowed for 2023 and 2024 surveillance  
8             reporting purposes.

9  
10    **Q.**     Has the company taken steps to control its Taxes Other Than  
11             Income expense?

12  
13    **A.**     Yes. Taxes Other Than Income expense reflects ad valorem  
14             property taxes, payroll taxes and tax-like charges that are  
15             "passed through" to customers such as franchise fees. Our  
16             cost control efforts in these areas are important because  
17             property tax and payroll tax expenses impact our revenue  
18             requirement.

19  
20             Total non-pass-through expense, which mostly includes  
21             property and payroll taxes, was \$61.7 million in 2013 and  
22             \$75.3 million in 2020, an increase of only \$13.6 million.  
23             As shown in MFR Schedule C-20, the projected amount in 2022  
24             is \$90.4 million and exceeds the 2013 amount by \$28.8  
25             million. The CAGR for Taxes Other Than Income from 2013 to

1           2020 was 2.88 percent, and for the nine years from 2013 to  
2           2022 is expected to be 4.34 percent. Most of these increases  
3           are a function of the incremental property taxes on the  
4           value of the assets we have placed in service through 2020  
5           and expect to place in service by 2022.

6  
7       **Q.**    Are the property tax increases since 2013 reasonable?

8  
9       **A.**    Yes. Our property tax expense in 2013 was \$49.2 million,  
10       and was \$62.8 million in 2020, an increase of only \$13.6  
11       million. We project our property tax expense level in 2022  
12       to be \$73.4 million, which would exceed the 2013 amount by  
13       \$24.2 million. The CAGR for property tax expense from 2013  
14       to 2020 was 3.55 percent, and for the nine years from 2013  
15       to 2022 is expected to be 4.55 percent.

16  
17       As shown above, the company's CAGR for 13-month average  
18       Plant in Service from 2013 to 2020 was 6.0 percent, and for  
19       the nine years from 2013 to 2022 is expected to be 5.9  
20       percent. The fact that our property tax expenses have grown  
21       slower than the increase in our plant balances is the result  
22       of year-round work with the taxing authorities in the Tampa  
23       Electric service area and shows that our projected property  
24       tax expense for 2022 is reasonable.

1     **Q.**     Has the company taken steps to control its Income Tax  
2             expense?

3  
4     **A.**     Yes. Income tax expense is the third largest operating  
5             expense affecting our revenue requirement, so we are always  
6             working to control income tax expenses. We cannot control  
7             the income tax rates imposed by state and federal taxing  
8             authorities, or changes to tax credits and deductibility of  
9             certain costs, but we do seek to optimize our federal and  
10            state income tax expenses by understanding, analyzing, and  
11            acting on federal and state legislative changes, new  
12            regulations, and guidance from taxing authorities and our  
13            advisors. We reduced our income tax expense levels since  
14            2013 by promptly implementing federal and state tax reforms  
15            and through the prudent use of investment tax credits,  
16            research and development credits, bonus depreciation and  
17            tax repairs.

18  
19    **Q.**     What specific actions has the company taken since 2013 to  
20             reduce its income tax expense levels?

21  
22    **A.**     First, as mentioned above, the company promptly implemented  
23             the federal TCJA and the 2019 to 2021 temporary Florida  
24             state income tax rate reduction. These tax reforms  
25             generated annual savings to customers of \$102 million and

1       \$5 million, respectively, for a total of \$107 million. The  
2       company promptly followed the tax reform provisions in the  
3       2017 Agreement, used a portion of the savings to offset  
4       storm restoration costs, and made the credits and base rate  
5       reductions as specified in the agreement.

6  
7       Second, the company generated approximately \$380 million of  
8       solar investment tax credits through our solar investments.  
9       We amortized these credits to reduce income tax expense in  
10      accordance with tax normalization principles each year  
11      beginning in 2018 as follows:

|    |      |                            |
|----|------|----------------------------|
| 12 |      |                            |
| 13 | 2018 | \$1.4 million              |
| 14 | 2019 | \$5.4 million              |
| 15 | 2020 | \$7.2 million              |
| 16 | 2021 | \$8.9 million (projected)  |
| 17 | 2022 | \$11.2 million (projected) |
| 18 |      |                            |

19      Third, the company claimed research and development credits  
20      averaging \$500,000 to \$1.5 million annually from 2009 to  
21      2020. These credits are available to Tampa Electric because  
22      we continue to invest in innovative energy storage,  
23      renewable energy and Energy Delivery technologies that will  
24      improve reliability and provide new functions, features and  
25      services for the company and its customers.

1 Finally, although they do not directly reduce income tax  
2 expense, the company has worked diligently to optimize the  
3 creation of accumulated deferred income taxes ("ADIT"),  
4 which are a source of zero-cost capital in our regulated  
5 capital structure. I discuss these efforts further below in  
6 the Income Tax and Capital Structure section of my  
7 testimony.

8  
9 **Q.** Has the company taken steps to reduce its annual interest  
10 expense since 2013?

11  
12 **A.** Yes. Our total interest expense has increased since 2013,  
13 because we are borrowing more to support the company's  
14 growing rate base. However, we have reduced our weighted  
15 average cost of debt since 2013, which has reduced our  
16 overall required rate of return relative to our last rate  
17 case.

18  
19 We lowered our weighted average cost of debt from 2.03  
20 percent in 2013 to 1.58 percent in 2020 and project a  
21 weighted average cost of debt for 2022 of 1.49 percent. A  
22 schedule showing how short and long-term interest rates and  
23 our weighted average cost of debt has changed since 2013 is  
24 included in Document No. 6 of my Exhibit JSC-1.

1 We accomplished these reductions by relying on the size and  
2 financial integrity of the company and by proactively  
3 pursuing low-cost financing options. We expanded our short-  
4 term borrowing capabilities, replaced maturing long-term  
5 debt with lower interest instruments, and issued new debt  
6 at lower interest rates. We have aggressively pursued lower  
7 interest rates for the benefit of our customers.

8  
9 **Q.** What is the impact of the decrease in the company's weighted  
10 average cost of debt on the company's revenue requirement?

11  
12 **A.** Multiplying the 0.54 percent decrease in the weighted  
13 average cost of debt from 2013 to 2022, noted above (2.03  
14 percent minus 1.49 percent), by the amount of rate base  
15 projected for 2022 as shown on MFR schedule A-1 yields Net  
16 Operating Income impact \$43,006,015. As reflected in  
17 Document No. 6 of my Exhibit JSC-1, this equates to a lower  
18 revenue requirement amount for 2022 of \$57,763,459.

19  
20 **Q.** Please discuss depreciation expense since 2013.

21  
22 **A.** As noted above, the 2013 Stipulation and 2017 Agreements  
23 both required Tampa Electric to continue using the  
24 depreciation and amortization rates approved by the  
25 Commission in 2012 and relieved the company of the need to

1 file depreciation and dismantlement studies every four  
2 years. Although our depreciation expenses have grown as our  
3 rate base has grown, our agreement to use the 2012  
4 depreciation rates has prevented depreciation expense  
5 increases attributable to depreciation rate increases.  
6 Depreciation expense during 2022 will be approximately \$493  
7 million, of which \$46 million will be attributable to the  
8 higher depreciation rates in the study. Although the  
9 depreciation study filing moratorium in the 2013  
10 Stipulation and 2017 Agreement reduced cost pressures  
11 during the term of the agreements by deferring rate-driven  
12 depreciation expense increases, delaying depreciation and  
13 dismantlement studies had the predictable effect of pushing  
14 a material depreciation expense increase into the 2022 test  
15 year.

16  
17 **Q.** How have customers benefitted from all the cost control  
18 efforts you described above?

19  
20 **A.** Our customers have benefitted from these cost control  
21 measures because they have allowed us to operate within  
22 the parameters outlined in the 2013 Stipulation and 2017  
23 Agreement, which has allowed us to make it to the end of  
24 the term of the 2017 Agreement without seeking general base  
25 rate relief.

1     **Q.**     Please explain further.

2  
3     **A.**     Since 2013, we have been operating under the 2013  
4             Stipulation and 2017 Agreement, both of which prohibited  
5             us from seeking general base rate relief before the end of  
6             their terms unless our earning rate of return on equity  
7             fell below 9.25 percent on a monthly earnings surveillance  
8             report stated on an actual Commission thirteen-month  
9             average adjusted basis. The cost control efforts described  
10            above were a vital part of how the company refrained from  
11            seeking general base rate relief to be effective before  
12            January 1, 2022, while at the same time making important  
13            investments to make the company cleaner and greener,  
14            improve system reliability and generating efficiency,  
15            enhance the experience we provide to our customers, and  
16            improve customer satisfaction levels. Our efforts,  
17            together with thoughtful decisions by the Commission and  
18            collaboration with the Consumer Parties, have allowed us  
19            to fulfil our obligations under the 2013 Stipulation and  
20            2017 Agreement.

21  
22    **Q.**     How will customers benefit from these cost control efforts  
23             in the future?

24  
25    **A.**     As the term of the 2017 Agreement expires and we move

1 forward, the cost control efforts described above have  
2 moderated the company's rate increase request in this  
3 proceeding.  
4

5 **AFFILIATE TRANSACTIONS**

6 **Q.** Please describe the projected affiliate transactions  
7 included in the company's 2022 test year.  
8

9 **A.** The company forecasted transactions with affiliates that  
10 reflect the normal products and services exchanged with  
11 companies related to Tampa Electric. These items include  
12 products and services provided to affiliated companies,  
13 as well as products and services provided from affiliated  
14 companies to Tampa Electric. Tampa Electric provides  
15 services to affiliates and shares the costs with them,  
16 referring to them as "shared services". Shared services  
17 are provided to many affiliates, but primarily to Peoples  
18 Gas System and New Mexico Gas Company. Tampa Electric  
19 receives services from other affiliates, primarily Emera,  
20 Inc.  
21

22 **Q.** Can you provide additional detail regarding affiliate  
23 transactions?  
24

25 **A.** Yes. Related party transactions are reflected on MFR

1 Schedule C-30, Transactions with Affiliated Companies, and  
2 MFR Schedule C-31, Affiliated Company Relationships -  
3 which reflects the diversification pages that will be  
4 contained in the 2020 Form 1 submission to the Commission  
5 and the diversification pages that were contained in the  
6 2019 Form 1 submission to the Commission. In addition to  
7 the shared services discussed above, Tampa Electric  
8 engages in natural gas purchases and sales with Peoples  
9 Gas System and Emera Energy Services U.S., Inc. Tampa  
10 Electric Company also has an Asset Management Agreement  
11 ("AMA") with Emera Energy Services U.S., Inc. for a portion  
12 of its natural gas storage capacity. These transactions  
13 are discussed further in the direct testimony of Tampa  
14 Electric witness John C. Heisey.

15  
16 **Q.** Please describe the changes in affiliate relationships  
17 that have occurred since the company's last rate case in  
18 2013.

19  
20 **A.** The company is a wholly owned subsidiary of TECO Energy,  
21 Inc., which was publicly traded on the New York Stock  
22 Exchange until December 2016. Tampa Electric's largest  
23 sister company is Peoples Gas System. In 2014, TECO Energy  
24 acquired New Mexico Gas Company. At that time, TECO Energy  
25 formed TECO Services, Inc. ("TSI") and moved all parent

1 company employees and selected Tampa Electric shared  
2 services employees into TSI. In 2016, TECO Energy was  
3 acquired by Emera Inc., a Canadian utility holding company  
4 headquartered in Halifax, Nova Scotia. Emera stock is  
5 publicly traded on the Toronto Stock Exchange. On January  
6 1, 2020, TSI's shared service function and almost all TSI  
7 employees were transferred to Tampa Electric Company. The  
8 shared service functions have continued to operate  
9 consistently, and costs have been charged in the same  
10 manner, through this period of time.

11  
12 **Q.** How does Tampa Electric determine the costs that it charges  
13 affiliated companies?  
14

15 **A.** The costs for Tampa Electric shared services are charged  
16 to affiliate companies in one of three ways: [1] direct  
17 charges, [2] assessed charges and [3] allocated charges.  
18 Direct charges are made when an affiliate is solely  
19 receiving the product or service rendered by Tampa  
20 Electric. When multiple affiliates receive the same  
21 services, the company charges costs either through  
22 assessments or an allocation. Assessments are determined  
23 and distributed using cost-causative calculations based  
24 on certain metrics, such as head count or square footage.  
25 Shared costs that cannot be directly charged or assessed

1 are allocated based on a Modified Massachusetts Method,  
2 which is a method that utilizes a combination of total  
3 operating revenues, total operating assets and net income  
4 as the basis of allocation. This method has been evaluated  
5 and deemed reasonable by the Commission in prior company  
6 proceedings.

7  
8 **Q.** How do affiliated companies determine the costs that are  
9 charged to Tampa Electric?

10  
11 **A.** The costs for products or services provided to Tampa  
12 Electric from affiliated companies are charged using  
13 similar methods to the ones described above. The company  
14 receives direct, assessed and allocated charges. The cost  
15 distribution is based on the nature of the service  
16 provided. Examples of these services include risk  
17 management, insurance and treasury. There are also Emera,  
18 Inc. functions that partner with Tampa Electric and charge  
19 for their involvement. Examples of these services include  
20 safety, legal, information technology and human resources.

21  
22 **Q.** Are the projected affiliate transactions reflected in the  
23 2022 test year reasonable?

24  
25 **A.** Yes. The affiliated transactions reflected in the test

1 year are reasonable. The services provided to affiliates  
2 and from affiliates are documented in agreements between  
3 the companies. Cost distributions for services exchanged  
4 between affiliates are based on agreed-upon methodologies.  
5 Both incoming and outgoing charges are subject to the  
6 internal control system for each company. The services  
7 provided by affiliates are appropriate and prudently  
8 incurred to achieve the most efficient and effective  
9 operation of functions that are vital to delivering  
10 utility service at a reasonable cost. The charging of  
11 costs to affiliates is reasonable and allows Tampa  
12 Electric to ensure a streamlined cost profile for  
13 functions required to prudently operate the business.

#### 14 15 **INCOME TAXES AND CAPITAL STRUCTURE**

16 **Q.** How did the company calculate income tax expense for the  
17 2022 test year?

18  
19 **A.** We calculated income tax expense for the 2022 test year the  
20 same way we have for ratemaking purposes over the last four  
21 decades. Consistent with the company's last three rate  
22 proceedings and long-standing Commission precedent, the  
23 company computed its test year income tax expense on a  
24 stand-alone basis. Our projected total income tax expense  
25 was based on our projected taxable income and the federal

1 and state income tax laws, regulations, and rules expected  
2 to be in place during the 2022 test year.

3  
4 As shown in MFR Schedule C-22, we calculated income tax  
5 expense using the federal and state rates expected to be in  
6 effect for the 2022 test year of 21 percent and 5.5 percent,  
7 respectively. We computed all net operating income and  
8 capital structure amounts using our reasonable budget  
9 projections, consistent regulatory treatments, and in  
10 compliance with the normalization requirements of the  
11 Internal Revenue Code.

12  
13 We computed deferred taxes and the related accumulated  
14 deferred income tax based on the projected book/tax  
15 temporary differences for the 2022 forecasted period. We  
16 also included the forecasted flow back of excess deferred  
17 taxes in our tax expense calculation and calculated the  
18 flow-back in accordance with the Federal Tax Reform Order  
19 and the State Tax Reform Order described above.

20  
21 Finally, we reduced our income tax expense by amortizing  
22 the benefit of investment tax credits generated by the  
23 company's investments in qualified solar facilities on a  
24 normalized basis in accordance IRS normalization rules.

1     **Q.**     Does Tampa Electric file a consolidated United States  
2             income tax return with other Emera companies?

3  
4     **A.**     Yes. Tampa Electric Company is a wholly owned subsidiary  
5             of TECO Energy, Inc., which is a wholly owned subsidiary  
6             of Emera United States Holdings, Inc. ("EUSHI"), which is  
7             a wholly owned subsidiary of Emera, Inc. Tampa Electric  
8             and the other TECO Energy companies file United States  
9             income tax returns on a consolidated basis with EUSHI. As  
10            shown on MFR Schedule C-27, Tampa Electric does not expect  
11            being included in a consolidated tax return will cause  
12            any significant benefit or detriment to Tampa Electric or  
13            its customers in the 2022 test year.

14  
15    **Q.**     Did the company make a parent debt adjustment when  
16             calculating its 2022 revenue requirement as contemplated in  
17             Rule 25-14.004, Florida Administrative Code?

18  
19    **A.**     Yes. Tampa Electric calculated a parent debt adjustment of  
20             \$9.7 million using the capital structure of Emera Inc. We  
21             calculated this adjustment consistent with the methodology  
22             used by our affiliate, Peoples Gas System ("PGS"), and as  
23             specified in the Stipulation and Settlement Agreement in  
24             its last rate case that was approved by the Commission in  
25             Docket No. 20200051-GU on December 10, 2020. This

1 adjustment decreased the company's 2022 revenue  
2 requirement.

3  
4 **Q.** Has Tampa Electric been making a parent debt adjustment in  
5 its annual and monthly earnings surveillance reports since  
6 2013? If not, why?

7  
8 **A.** No. In the company's last base rate proceeding, we used the  
9 capital structure of then-parent company TECO Energy to  
10 calculate a parent debt adjustment. Tampa Electric's parent  
11 TECO Energy has not had any debt on its balance sheet for  
12 many years and, as a result, Tampa Electric did not include  
13 a parent debt adjustment for surveillance reporting  
14 purposes during those periods. This is the company's first  
15 general rate proceeding since TECO Energy was acquired by  
16 Emera, so we are making a parent debt adjustment in this  
17 case.

18  
19 **Q.** Is the capital structure that supports your revenue  
20 requirement calculation reasonable?

21  
22 **A.** Yes. MFR Schedule D-1a, Cost of Capital - 13 Month  
23 Average, shows the company's proposed capital structure  
24 and overall weighted cost of capital (overall rate of  
25 return) for the 2022 test year. Our proposed overall rate

1 of return for the 2022 test year is 6.67 percent.

2  
3 Our proposed 2022 capital structure reflects a 55 percent  
4 equity ratio (investor sources) as proposed by Tampa  
5 Electric witness Kenneth D. McOnie, and the 10.75 percent  
6 midpoint return on equity supported by the testimony of  
7 Tampa Electric witness Dylan W. D'Ascendis.

8  
9 The 55 percent equity target discussed in Mr. McOnie's  
10 testimony culminated in a 54.93 percent year-end financial  
11 equity ratio in the 2022 budgeted balance sheet. The equity  
12 balances in the budget resulted in a 2022 13-month average  
13 System Per Books financial equity ratio of 54.53 percent,  
14 as reflected on MFR Schedule D-1a. Also, as reflected on  
15 MFR Schedule D-1a, the 2022 13-month average FPSC Adjusted  
16 financial equity ratio was 54.56 percent. The 54.56 percent  
17 equity ratio was the one used to calculate the 6.67 percent  
18 rate of return used to determine the 2022 revenue  
19 requirement.

20  
21 The forecasted amounts for items such as zero cost  
22 deferred taxes were prepared using the budgeting process  
23 discussed by Ms. Lewis in her direct testimony. Customer  
24 deposit projections reflect both forecasted balances and  
25 the low-cost rates implemented recently by the

1 Commission.

2  
3 Finally, forecasted short and long-term debt balances and  
4 rates reflect cash flow projections and cost rates that  
5 are documented in the company's transaction detail and  
6 reflected in the company's 2022 budget.

7  
8 **Q.** Please describe the specific debt components and their  
9 cost rates in the company's proposed 2022 capital  
10 structure.

11  
12 **A.** The specific debt components and cost rates are reflected  
13 in Document No. 6 of my Exhibit No. JSC-1. As noted above,  
14 the company has worked diligently to reduce its borrowing  
15 costs since 2013, and the results of these efforts are  
16 shown in my exhibit. The amount of short- and long-term  
17 debt in our projected 2022 capital structure and related  
18 weighted average interest rates are also reflected in  
19 Documents No. 8 and No. 9 of my Exhibit No. JSC-1.

20  
21 **Q.** Please explain how the company reflected ADIT in the  
22 company's proposed 2022 capital structure.

23  
24 **A.** The Commission has always viewed deferred taxes as a  
25 component of capital structure that supports rate base.

1 We included ADIT in our proposed 2022 capital structure  
2 as a zero-cost source of capital, which has the effect of  
3 lowering the overall weighted cost of capital, thus  
4 lowering the overall rate of return used to calculate the  
5 company's revenue requirement. This approach conforms to  
6 the Commission's long-standing practice. Also, consistent  
7 with previous rate case proceedings and tax normalization  
8 rules, we made an adjustment to decrease the projected  
9 2022 accumulated deferred income tax amount by  
10 \$12,891,677. The calculation of this adjustment is shown  
11 on Document No. 11 in my Exhibit No. JSC-1.

12  
13 **Q.** Has the company optimized the ADIT in its capital  
14 structure?

15  
16 **A.** Yes. The company has optimized the amount of ADIT in its  
17 capital structure in three ways: bonus depreciation  
18 deductions, accelerated tax depreciation on solar assets,  
19 and tax repairs deductions.

20  
21 First, the company took full advantage of available bonus  
22 depreciation deductions on its federal income tax  
23 returns. Tampa Electric claimed more than \$950 million in  
24 bonus depreciation from 2014 to 2020 but does not expect  
25 to claim additional bonus depreciation deductions beyond

1       2020. The TCJA generally eliminated bonus depreciation as  
2       an option for utilities effective January 1, 2018, but  
3       the bonus deduction was available for assets placed in  
4       service after January 1, 2018, if a binding contract was  
5       entered into before September 27, 2017. As a result, the  
6       company was able to claim close to \$120 million of bonus  
7       depreciation from 2018 to 2020.

8  
9       Second, our investments in solar generating facilities  
10      have generated more deferred taxes relative to other forms  
11      of generation. This is the result of the fact that we can  
12      deduct the cost of solar generating facilities over five  
13      years for federal income tax purposes but use a 30-year  
14      life for book depreciation. So, the resulting timing  
15      differences have generated over \$110 million of ADIT taxes  
16      from 2018 to 2020. We expect the total ADIT from solar  
17      investments to be \$155 million from 2018 to our projected  
18      2022 test year.

19  
20      Finally, Tampa Electric has continued to optimize its  
21      federal tax repairs deductions by expensing qualifying  
22      costs for generation, transmission, and distribution  
23      repairs for tax purposes. During the period from 2014 to  
24      2020, the company generated approximately \$660 million of  
25      tax repairs deductions. These deductions have increased

1 the amount of ADIT in our capital structure by  
2 approximately \$560 million in 2020. For the period from  
3 2014 to 2022, the company expects to generate over \$930  
4 million of repairs deductions. These deductions have  
5 increased the amount of ADIT in our capital structure by  
6 approximately \$770 million in 2022.  
7

8 **Q.** What impact has the TCJA had on the ADIT in the company's  
9 proposed 2022 capital structure?  
10

11 **A.** The TCJA lowered the federal income tax rate, which was  
12 good for the company and our customers, but not all changes  
13 in the TCJA helped customers. All other things being equal,  
14 the TCJA has reduced the amount of ADIT in the company's  
15 capital structure on a relative basis. This has required  
16 the company to maintain higher proportions of investor  
17 supplied capital in its capital structure, which has  
18 increased the company's overall required rate of return and  
19 revenue requirement relative to pre-TCJA levels.  
20

21 The TCJA caused the level of deferred taxes in the company's  
22 capital structure to decline on a relative basis in two  
23 ways: (1) by reducing the tax rate used to value ADIT on  
24 the balance sheet and (2) by eliminating bonus depreciation  
25 for utilities like Tampa Electric.

1 Prior to 2018, the bonus depreciation provisions in the  
2 Internal Revenue Code allowed Tampa Electric to deduct as  
3 much as 50 percent of the cost of an asset in the year the  
4 asset went in service. Because the company records ADIT on  
5 book-tax timing differences, the short lives inherent in  
6 bonus tax depreciation created large timing differences in  
7 the early years of an asset and generated large ADIT  
8 increases relatively quickly.

9  
10 Now that bonus depreciation is no longer available to Tampa  
11 Electric, the company must compute its federal income tax  
12 depreciation deduction using the longer lives in the  
13 Modified Accelerated Cost Recovery System ("MACRS").  
14 Because asset lives under MACRS are longer than under bonus  
15 depreciation, the MACRS system generates smaller book-tax  
16 timing differences, which reduces the volume of ADIT being  
17 added to the company's capital structure each year.

18  
19 Since the company's rate base and capital structure are  
20 synchronized in the ratemaking process, a relative  
21 reduction in the amount of zero-cost ADIT must be made up  
22 by relatively higher amounts of debt and equity, both of  
23 which have a cost. The financial equity ratio can remain  
24 constant, but the relative reduction in the dollar amount  
25 of ADIT must be met with increased debt and equity dollar

1 support.

2  
3 **Q.** Can you provide additional detail on the changing  
4 components of the company's capital structure?

5  
6 **A.** Yes. Capital structure components through time are shown  
7 on Documents No. 8 and No. 9 in my Exhibit No. JSC-1.

8  
9 **FUTURE FINANCIAL PROJECTIONS AND REGULATORY OPTIONS**

10 **Q.** How do you expect the company's financial profile and  
11 condition to change after 2022?

12  
13 **A.** Our rate base will continue growing and we could be facing  
14 a federal income tax rate increase.

15  
16 The second and final phase of our Big Bend Modernization  
17 project is expected to be placed into service in December  
18 2022, so its first full year in service will be 2023. We  
19 will be placing the second tranche of Future Solar in  
20 service in late 2022, so its first full year in service  
21 will be 2023. The third tranche of Future Solar will be  
22 placed in service in late 2023, so its first full year in  
23 service will be 2024. Absent additional rate relief in 2023  
24 and 2024, these plant additions will put pressure on our  
25 ability to earn within the range of return on equity the

1 commission establishes in this proceeding.

2  
3 **Q.** What are the amounts of incremental rate base for these  
4 plant additions in 2023 and 2024?

5  
6 **A.** Document No. 10 of my Exhibit No. JSC-1 includes a schedule  
7 reflecting the projected original in-service amount for  
8 these assets, their projected 13-month average net book  
9 value for 2023 and 2024, the expected equity dollar support  
10 needed for these assets, and the impact each would have on  
11 the company's Return on Equity.

12  
13 **Q.** How would these asset additions impact company regulatory  
14 filings?

15  
16 **A.** Given the expected rate base growth from normal plant  
17 additions and the major projects described above, and  
18 absent an alternative regulatory approach, the company  
19 anticipates that it would need to seek additional base rate  
20 relief for 2023 and 2024. Specifically, the company would  
21 expect to file another general request for base rate relief  
22 in 2022 seeking additional base revenues in 2023 and a  
23 general rate proceeding in 2023 seeking additional base  
24 revenues in 2024.

1     **Q.**     Has the company considered alternatives to filing full  
2             general rate proceedings in these two years?

3  
4     **A.**     Yes. The company proposes that the Commission consider  
5             approving GBRAs to cover the asset additions described  
6             above. The first GBRA would be effective for the first  
7             billing cycle in 2023 in the amount of \$102.2 million and  
8             would cover the revenue requirement associated with Phase  
9             Two of the Big Bend Modernization Project and the second  
10            tranche of our Future Solar. The second GBRA would become  
11            effective for the first billing cycle in 2024 in the amount  
12            of \$25.6 million and would cover the third tranche of  
13            Future Solar.

14  
15    **Q.**     Have you prepared a schedule showing the revenue  
16             requirements to be recovered by the company's proposed two  
17             GBRAs?

18  
19    **A.**     Yes. Document No. 10 of my Exhibit No. JSC-1 shows the  
20             revenue requirement for the assets to be recovered through  
21             the two GBRAs using the 13-month average net book value in  
22             the first full year the asset is operating.

23  
24    **Q.**     What assumptions did you make when calculating the GBRAs  
25             shown in Document No. 10 of your Exhibit No. JSC-1?

1     **A.**     The calculations on Document No. 10 start with the 13-month  
2             average rate base (net book value) amount for each GBRA  
3             project. That amount is then multiplied by the 2022 Rate of  
4             Return reflected in MFR Schedule A-1 of 6.67 percent. The  
5             resulting net operating income need for each project was  
6             multiplied by the NOI Multiplier reflected in MFR Schedule  
7             A-1 of 1.34315 to gross up the amount for taxes. This  
8             resulted in the calculated Return on Rate Base for each  
9             project.

10  
11            O&M projections are based on amounts expected to be incurred  
12            by operations. Depreciation expense for each project uses  
13            the depreciation rates for 2022. Property tax expense is  
14            based on the prior year end net book value times an  
15            estimated percentage of the net book value of assets that  
16            is included in the property tax calculation. For Big Bend  
17            Modernization Phase 2, this percentage is 59 percent  
18            (consistent with historical percentages) and for Solar Wave  
19            2 Tranche 2 and Tranche 3, this percentage is 20 percent  
20            (consistent with the solar property tax exemption  
21            percentage); this amount is then further multiplied by the  
22            projected millage rate of 1.70 percent.

23  
24            Finally, we added the return on rate base to the operating  
25            expense total to determine the total Revenue Requirement

1 for each project.

2  
3 **Q.** What rate design principles does the company propose to  
4 use for calculating the customer rates needed to implement  
5 the GBRAs?

6  
7 **A.** We propose that the rates to implement the GBRAs be  
8 calculated using the rate design methodology approved by  
9 the Commission for our general base rate increase to be  
10 effective with the first billing cycle in January 2022.

11  
12 **Q.** Does Tampa Electric believe there is a reasonable chance  
13 that federal or state corporate income tax rates will  
14 increase above their current rates and become effective in  
15 2022 or 2023?

16  
17 **A.** Yes. The results of the 2020 general election have increased  
18 the prospects of a federal corporate income tax rate  
19 increase. Before he was elected, President Biden released  
20 a plan to raise the federal corporate income tax rate from  
21 21 percent to 28 percent. Since the members of the same  
22 political party effectively control both houses of Congress  
23 and the executive branch, the chances of federal tax reform  
24 and a corporate tax rate increase are greater now than  
25 before the 2020 general election.

1     **Q.**     What action should the Commission take if the federal  
2             corporate tax rate is increased?

3  
4     **A.**     It depends on when a higher federal income tax rate is  
5             enacted and becomes effective.

6  
7             If a higher corporate income tax rate is enacted during  
8             this proceeding and becomes effective for the 2022 tax year,  
9             the new tax rate should be used to calculate the company's  
10            2022 revenue requirement and 2022 rate increase. The  
11            Commission should also recalculate the company's proposed  
12            GBRAs to reflect the new federal income tax rate.

13  
14            If a higher corporate income tax rate is enacted after this  
15            proceeding is over and becomes effective in calendar years  
16            2022 or 2023, or if a higher tax rate is enacted for those  
17            years too late in this proceeding to be considered, Tampa  
18            Electric recommends that the Commission decide in this case  
19            to handle any such change using an approach like the one  
20            outlined in the tax reform provision of the 2017 Agreement.  
21            In the near term, while the company's 2022 base rate change  
22            and GBRAs are "fresh," a future tax rate change, whether up  
23            or down, should be handled using a consistent and fair  
24            methodology to calculate the impacts of the rate change on  
25            the company, and update the company's base rates and charges

1 in an administratively efficient manner. Document No. 11 in  
2 my Exhibit No. JSC-1 reflects the company's proposal for  
3 addressing near-term tax reform. We ask that the Commission  
4 approve it in this proceeding.

5  
6 **Q.** Why should the Commission approve the company's proposed  
7 method for addressing tax reform?

8  
9 **A.** For two reasons.

10  
11 First, as noted above, income tax expense is the third  
12 largest operating expense affecting our revenue  
13 requirement. The kind of federal tax rate increase included  
14 in the President's plan would immediately and significantly  
15 impair our ability to earn a fair rate of return. Having a  
16 thoughtful regulatory mechanism in place to deal with a  
17 near-term federal corporate income tax rate increase  
18 without a full revenue requirement proceeding will promote  
19 regulatory economy and efficiency and provide a measure of  
20 certainty that would likely be attractive to the investment  
21 community.

22  
23 Second, the kind of tax reform methodology reflected in  
24 Document No. 11 of my Exhibit No. JSC-1 worked when federal  
25 and state tax rates went down and should work equally well

1 if and when income tax rates go up. Tampa Electric took  
2 prompt action to lower its base rates by approximately \$107  
3 million when federal and state tax rates went down and  
4 should have the same opportunity to increase its rates if  
5 income tax rates go up.

6  
7 **Q.** What approvals does the company seek for reporting economic  
8 development expenses in its earnings surveillance reports  
9 in 2023 and 2024?

10  
11 **A.** Section 25-6.0426, Florida Administrative Code, governs how  
12 Tampa Electric reports economic development expenses for  
13 surveillance reporting purposes. Subsection (3) of that  
14 rule limits the amount of economic development expense that  
15 can be recognized for earnings surveillance reporting  
16 purposes. Subsection (4) of that rule specifies that the  
17 Commission will determine the level of sharing or prudent  
18 economic development costs and the future treatment of  
19 those costs for surveillance reporting purposes.

20  
21 Tampa Electric has included \$367,000 of economic  
22 development expenses in the calculation of net operating  
23 income for its 2022 test year, but intends to spend  
24 additional resources on economic development in 2023 and  
25 2024. Those plans include adding team members to focus on

1 economic development and increased spending on the types of  
2 economic development expenses allowed for recovery in Rule  
3 25-6.0426. Accordingly, for surveillance reporting purposes  
4 in 2023 and 2024, the company seeks permission to incur up  
5 to \$750,000 and \$1.5 million in those years, respectively,  
6 with customer sharing at the 95 percent level contemplated  
7 in the rule. This additional spending is prudent and will  
8 benefit Tampa Electric's customers by contributing to the  
9 economic health and growth in our service territory.

10  
11 **SUMMARY**

12 **Q.** Please summarize your direct testimony.

13  
14 **A.** My direct testimony describes how the company's financial  
15 profile has changed since our last rate case, the steps we  
16 have taken to control expense levels, and how we calculated  
17 income tax expense for our 2022 test year. I also propose  
18 GBRA's for 2023 and 2024 and a tax reform methodology that,  
19 if approved in this case, would substantially reduce our  
20 need to seek an additional general base rate increase  
21 before 2025.

22  
23 Since our last rate case, Tampa Electric has continued to  
24 transform the company into a safer and more customer-  
25 focused electric utility. Our generating fleet is cleaner,

greener, and more efficient. These changes have also transformed the company's financial profile, allowed us to lower fuel costs, to manage O&M expenses, operate within the boundaries of our 2013 Stipulation and 2017 Agreement and moderate our need for future rate increases.

**Q.** Does this conclude your direct testimony?

**A.** Yes, it does.

FILED SEP 30, 2013  
DOCUMENT NO. 05819-13  
FPSC - COMMISSION CLERK

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for rate increase by Tampa  
Electric Company.

DOCKET NO. 130040-EI  
ORDER NO. PSC-13-0443-FOF-EI  
ISSUED: September 30, 2013

The following Commissioners participated in the disposition of this matter:

RONALD A. BRISÉ, Chairman  
LISA POLAK EDGAR  
ART GRAHAM  
EDUARDO E. BALBIS  
JULIE I. BROWN

FINAL ORDER APPROVING STIPULATION AND SETTLEMENT AGREEMENT AMONG  
TAMPA ELECTRIC COMPANY, OFFICE OF PUBLIC COUNSEL, FLORIDA  
INDUSTRIAL POWER USERS GROUP, FLORIDA RETAIL FEDERATION, FEDERAL  
EXECUTIVE AGENCIES, AND WCF HOSPITAL UTILITY ALLIANCE

BY THE COMMISSION:

On February 4, 2013 Tampa Electric Company (Tampa Electric) filed a Petition for Rate Increase (Petition). On May 29 and 30, 2013 we held noticed customer meetings in Tampa and Winter Haven and took oral and written testimony and exhibits from members of the public. Final hearing in this cause was noticed and scheduled for September 9 – 13, 2013.

On September 4, 2013 Tampa Electric, with the concurrence of all the parties, filed a Motion to Hold Case in Abeyance (Motion) alleging agreement amongst all the parties to a settlement of all the issues in the Petition and requesting time to prepare and submit the settlement agreement. On September 6, 2013 the parties filed a Joint Motion of Tampa Electric Company, Office Of Public Counsel, Florida Industrial Power Users Group, Florida Retail Federation, Federal Executive Agencies, and WCF Hospital Utility Alliance for Approval of Stipulation and Settlement Agreement and attached the Stipulation and Settlement Agreement (Agreement). The Agreement is executed by all the parties to this action. The scheduled administrative hearing was convened and the Motion was heard on September 9, 2013. After hearing argument of counsel for the parties on the Motion, and admitting into the record the exhibits of the parties and staff, the hearing was continued to September 11, 2013, in order to allow us and staff to review the record and consider the terms of the Agreement. On September 11, we heard oral argument from the parties regarding the Agreement.

We have jurisdiction pursuant to Chapter 366, Florida Statutes, including Sections 366.04, 366.041, 366.05, 366.06, 366.07, 366.076, 366.8255, 366.93, and Sections 120.57(2) and (4), F.S., and Rules 28-106.301 and 28-106.302, Florida Administrative Code.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 2

We find that the Agreement resolves all issues in this rate case. Further all parties to this action are satisfied that the terms of the Agreement protect their interests. The signatories to the Agreement are organizations that represent the major customer groups served by Tampa Electric and the entity statutorily charged with representing people of the state of Florida in proceedings before us. Thus, we find that the customers' interests are fairly represented by the signatories to the Agreement.

The Agreement runs from November 1, 2013, through the end of 2017. During such time, the parties agree that Tampa Electric cannot file for new rates that would be effective prior to January first 2018, except under very limited circumstances. The provisions of the Agreement include a negotiated rate increase and return on equity that are less than Tampa Electric requested in its Petition. Additionally, no further collections will be made for storm recovery. The Agreement provides a phased-in approach to the rate increase: an initial \$57.5 million increase effective November of 2013, an additional \$7.5 million increase effective November of 2014, and an additional \$5 million increase effective November of 2015. The Agreement further includes a generation base rate adjustment (GBRA) of an additional \$110 million on January 1, 2017, or on the in-service date of the Polk 2-5 conversion, whichever is later. The negotiated \$110 million GBRA amount is less than the revenue requirement filed in the recent Polk determination of need that we approved in December of 2012. Finally, the Agreement includes an economic development rider to encourage business growth at no cost to the ratepayers.

We find that the terms of the Agreement provide base rate stability to customers within a four-year period, sets fair, just, and reasonable rates, and encourages economic and business growth.

Based upon the Petition, our review of the Agreement, the evidence and oral argument at the hearing, and for the reasons stated above, we find approval of the Agreement to be in the public interest. Accordingly, we approve the Agreement which is attached to this Order as Exhibit A and made a part hereof. The tariffs attached to this Order as Exhibit B and made a part thereof are approved.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that the attached Stipulation and Settlement Agreement is approved. It is further

ORDERED that the attached tariffs are approved. It is further

ORDERED that this docket shall be closed if no appeal is timely filed.

ORDER NO. PSC-13-0443-FOF-EI

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Office of Commission Clerk, and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Rate Increase  
by Tampa Electric Company.

)  
)  
)  
DOCKET NO. 130040-EI  
Filed: September 6, 2013

STIPULATION AND SETTLEMENT AGREEMENT

WHEREAS, Tampa Electric Company ("Tampa Electric" or "the Company"), the Office of Public Counsel ("OPC"), the Florida Industrial Power Users Group ("FIPUG"), the Florida Retail Federation ("FRF"), the Federal Executive Agencies ("FEA") and WCF Hospital Utility Alliance ("HUA") have signed this Stipulation and Settlement Agreement ("the Agreement"); and

WHEREAS, unless the context clearly requires otherwise the term "Party" or "Parties" means a signatory or signatories to this Agreement, and the term "Consumer Parties" shall refer collectively to OPC, FIPUG, FRF, FEA, and HUA; and

WHEREAS, in an April 5, 2013 filing in this docket Tampa Electric petitioned the Florida Public Service Commission ("the Commission") for an increase in its base rates and miscellaneous service charges of approximately \$134.8 million effective January 1, 2014 based on a 2014 projected test year; and

WHEREAS, OPC filed an intervention and FIPUG, FRF, FEA and HUA were authorized to intervene; and

WHEREAS, the Parties have filed voluminous prepared testimonies with accompanying exhibits and conducted extensive discovery; and

WHEREAS, the Parties to this Agreement have undertaken to resolve the issues raised in this proceeding so as to maintain a degree of stability and predictability with respect to Tampa

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI

---

Exhibit A

Electric's base rates and charges and to avoid the inherent risks, uncertainties and costs of further litigation; and

WHEREAS, the legal system favors the settlement of disputes by mutual agreement between the contending parties and the Commission has long favored negotiated settlements that are in the public interest;

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants contained herein, which the Parties agree and acknowledge constitute good and valuable consideration, the Parties hereby stipulate and agree as follows:

1. Term.

(a) This Agreement will become effective upon Commission approval and shall be implemented on the date of the meter reading for the first billing cycle of November 2013 ("the Implementation Date") and continue at least through the date of the last billing cycle in December 2017. These base rates, charges and credits may continue beyond December 2017 unless otherwise changed by Commission Order. The period from the Implementation Date through the last billing cycle in December 2017 may be referred to herein as the "Minimum Term".

(b) The Parties reserve all rights, unless such rights are expressly waived or released, under the terms of this Agreement.

2. Return on Equity and Equity Ratio.

(a) Subject to the adjustment trigger provision in paragraph 2(b), Tampa Electric's authorized return on common equity ("ROE") shall be within a range of 9.25% to 11.25%, with a mid-point of 10.25%. Except as otherwise specifically provided in this Agreement, Tampa Electric's authorized ROE range and mid-point using a 54% equity

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 6

Exhibit A

ratio (investor sources with any difference to actual equity ratio spread ratably over long-term and short-term debt) shall be used for all purposes during the Term, including cost recovery clauses, earnings surveillance reporting, paragraph 7 of this Agreement regarding an ROE adjustment and the calculation of the Company's Allowance for Funds Used During Construction ("AFUDC") rate and associated amounts of AFUDC in accordance with Rule 25-6.0141, F.A.C..

(b) If at any time during the Term, the average 30-year United States Treasury Bond yield rate for any period of six (6) consecutive months is at least 75 basis points greater than the yield rate on the date the Commission votes to approve this Agreement ("the Trigger"), Tampa Electric's authorized return on common equity ("ROE") shall be increased by 25 basis points to be within a range of 9.50% to 11.50%, with a mid-point of 10.50% ("Revised Authorized Return on Equity") from the Trigger Effective Date defined below for and through the remainder of the Minimum Term, and for any period in which the Company's rates continue in effect after December 31, 2017 until the Commission issues a final order in a future proceeding changing the Company's rates and its authorized ROE. The Trigger shall be calculated by summing the reported 30-year U.S. Treasury bond rates for each day over any six-month period, e.g., January 1, 2014 through July 1, 2014, or March 17, 2014 through September 17, 2014, for which rates are reported, and dividing the resulting sum by the number of reporting days in such period. The effective date of the Revised Authorized Return on Equity ("Trigger Effective Date") shall be the first day of the month following the day in which the Trigger is reached. If the Trigger is reached and the Revised Authorized Return on Equity becomes effective, except as otherwise specifically provided in this Agreement, Tampa Electric's Revised

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 7

Exhibit A

Authorized Return on Equity range and mid-point shall be used for the remainder of the Term for cost recovery clauses, earnings surveillance reporting, paragraph 7 of this Agreement regarding an ROE adjustment and AFUDC.

(c) The Return on Equity in effect at the expiration of the Term of this Agreement and subsection 2(c) of this Agreement shall continue in effect until return on equity is next reset by the Commission whether by operation of Paragraph 7 or otherwise.

3. Customer Rates.

(a)(i) Upon the Implementation Date and effective with the date of the first meter reading for the first billing cycle of November 2013, Tampa Electric shall be authorized to increase its base rates and service charges by \$57.5 million of annual revenues, based on the projected 2014 test year billing determinants reflected in the Minimum Filing Requirements ("MFRs") filed with the company's April 5, 2013 Petition in this proceeding, adjusted to reflect actual Residential Service ("RS") tier proportion billing determinant data on a 12 month basis ending July 31, 2013 in the amounts and manner shown in the rate design materials attached hereto as **Exhibit A**.

(ii) Effective with the date of the meter reading for the first billing cycle of November 2014, Tampa Electric shall be authorized to increase its base rates by an additional \$7.5 million of annual revenues (for a total increase of \$65.0 million over the company's currently authorized base rates), based on the projected test year billing determinants reflected in the Minimum Filing Requirements ("MFRs") filed with the company's April 5, 2013 Petition in this proceeding, adjusted to reflect actual RS tier proportion billing determinant data on a 12 month basis ending July 31, 2014.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 8

Exhibit A

(iii) Effective with the date of the meter reading for the first billing cycle of November 2015, Tampa Electric shall be authorized to increase its base rates by an additional \$5.0 million of annual revenues (for a total increase of \$70.0 million over the company's currently authorized base rates), based on the projected test year billing determinants reflected in the Minimum Filing Requirements ("MFRs") filed with the company's April 5, 2013 Petition in this proceeding, adjusted to reflect actual RS tier proportion billing determinant data on a 12 month basis ending July 31, 2015.

(iv) In addition, the company shall be authorized to increase its base rates as set forth in paragraph 6, below, for the Polk 2-5 Generation Base Rate Adjustment.

(v) Except as otherwise specifically provided in this Agreement, the cost of service support used to calculate the rate increases authorized in this paragraph has been and will be produced, and rates have been and will be designed, based on the FPSC's practice that no class receive a base rate decrease in an overall base rate increase proceeding and that no class be increased more than 1.5 times the system average percent revenue increase (including clauses).

(b) Attached hereto as **Exhibit B** are tariff sheets for new base rates and service charges that implement the rate increases described in paragraph 3(a)(i) above, which tariff sheets shall become effective on the first billing cycle in November 2013. The new base rates reflected in the attached tariff sheets are based on the billing determinants as of July 31, 2013 as shown in **Exhibit A** with the following clarifications and exceptions to the matters addressed in the company's Petition in this proceeding:

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 9

Exhibit A

(i) The rates will reflect the use of a Minimum Distribution System ("MDS") costing methodology as proposed by Tampa Electric in this proceeding in the direct testimony and exhibit of William R. Ashburn.

(ii) The rates will reflect the use of a 12 Coincident Peak and 1/13th Average Demand methodology for allocating production plant costs.

(iii) Except as specified in paragraph 6, the Interruptible Service ("IS") rate schedules will remain in effect as prior to the filing of the petition in this proceeding, closed to new business and with no change to the current base rate charges.

(iv) The Commercial Industrial Service Rider tariff shall be effective as proposed by Tampa Electric in this proceeding in MFR Schedule E-14, pages 55-57 and 74-79 (Bates Stamped Pages 132-143 and 151-156)

(v) The current lock period for the interruptible credit shall be increased from 3 to 6 years.

(vi) The on-peak and off-peak time of use energy rates for Rate Schedule GSdT, and the energy rates for Rate Schedule GSD Standard, shall remain the same as they currently are authorized in the company's tariff as of the filing of the Petition in this case. Thus, the GSdT on and off peak base energy rates will be held at the present levels of \$0.02898 and \$0.01046 per kWh, respectively, and the GSdT Demand Charge shall be increased as shown in **Exhibit B**. Similarly, the GSD Standard base energy rate will be held at the present level of \$0.01583 per kWh and the GSD Demand Charge shall be increased as shown in **Exhibit B**. This change is intended to modify the rate structure of the proposed increase to this rate schedule but not affect the rate increase for this class.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 10

Exhibit A

(vii) The company's standby generator credits shall be increased from \$4.00/KW/Month to \$4.75/KW/Month, effective on the Implementation Date of this Agreement, i.e., the date of the meter reading for the first billing cycle of November 2013. To the extent that implementation of the revised standby generator credits results in an under-recovery of revenues that are subject to the ECCR clause, the company shall be authorized to recover any such under-recovery in its ECCR charges for 2014.

(viii) The relay service rate will be held at the present level of \$.60/KW/Month.

(ix) The company shall introduce a new Economic Development Rider (attached to this Agreement as **Exhibit C**) on a pilot basis for a 3-year period which shall become effective upon the Implementation Date. The Commission's approval of this Agreement shall constitute approval of the Economic Development Rider and shall satisfy the requirements of Commission Rule 25-6.0426(3)-(6), F.A.C., and accordingly, the reductions afforded in these tariffs shall be included as a cost in the company's cost of service for all ratemaking purposes and surveillance reporting. During the pilot period, the rates in the Economic Development Tariff shall be open for new customers and new applications to existing customers through December 31, 2016, unless the maximum amount of economic development expenditures as specified in Commission Rule 25-6.0426, F.A.C., is met, at which time the tariff will be closed for new customers or new applications to existing customers until the amount again falls below the maximum allowed.

(x) Except as specified in paragraph 6, the Lighting Facilities Charge shall remain in effect as prior to the filing of the petition in this proceeding.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 11

Exhibit A

(xi) The company's proposed miscellaneous tariff changes as set forth on **Exhibit D** shall be approved and become effective as of the first billing cycle of November 2013. The changes shown on **Exhibit D** are reflected in the tariffs attached as **Exhibit B** as applicable.

(c) The base rates, charges and credits set in accordance with this Agreement shall not be changed during the Term except as otherwise permitted or provided for in this Agreement and shall continue in effect until next reset by the Commission.

(d) To the extent that any of Tampa Electric's cost recovery clauses are impacted by changes in rate design, billing determinants, Authorized Return on Equity or Revised Authorized Return on Equity during the Term, such changes shall be reflected in the affected clauses as of the date of the meter readings for the first billing cycle of January in the year following the year in which the change occurs.

(e) The provisions of this paragraph 3 shall remain in effect during the Term except as otherwise permitted or provided for in this Agreement and shall continue in effect until the company's base rates are next reset by the Commission.

4. Other Cost Recovery. Nothing shall preclude the company from requesting the Commission to approve the recovery of costs that are: (a) of a type which traditionally and historically would be, have been, or are presently recovered through cost recovery clauses or surcharges, or (b) incremental costs not currently recovered in base rates which the Legislature or Commission determines are clause recoverable subsequent to the approval of this Agreement. Except as provided in this Agreement, it is the intent of the Parties in this Paragraph 4 that Tampa Electric not be allowed to recover through cost recovery clauses, increases in the magnitude of costs of types or categories (including,

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 12

Exhibit A

but not limited to, for example, investment in and maintenance of transmission assets) that have been and traditionally, historically and ordinarily would be recovered through base rates. It is the further intent of the Parties to recognize that an authorized governmental entity may impose requirements on Tampa Electric involving new or atypical kinds of costs (including, but not limited to, for example, requirements related to cyber security) and, concurrently with the imposition of such requirements, the Legislature and/or Commission may authorize Tampa Electric to recover those related costs through a cost recovery clause, and in such event, Tampa Electric shall be able to seek recovery of such costs from the Commission. This Paragraph 4 does not preclude Tampa Electric from seeking clause recovery of a type of cost (and for the same or similar reasons) not heretofore recovered through a clause which the Commission or the Legislature authorizes or has authorized another electric utility to recover through a clause before or during the Term of this Agreement. The Parties to this Agreement are not precluded from participating in any proceedings pursuant to this paragraph.

5. Storm Damage.

(a) Nothing in this Agreement shall preclude Tampa Electric from petitioning the Commission to seek recovery of costs associated with any tropical systems named by the National Hurricane Center or its successor without the application of any form of earnings test or measure and irrespective of previous or current base rate earnings. Consistent with the rate design methods approved in this Agreement, the Parties agree that recovery of storm costs from customers will begin, on an interim basis, sixty days following the filing of a cost recovery petition and tariff with the Commission and will be based on a 12-month recovery period if the storm costs do not exceed \$4.00/1,000 kWh

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 13

Exhibit A

on monthly residential customer bills. In the event the storm costs exceed that level, any additional costs in excess of \$4.00/1,000 kWh shall be recovered in a subsequent year or years as determined by the Commission. All storm related costs shall be calculated and disposed of pursuant to Commission Rule 25-6.0143, F.A.C., and shall be limited to (i) costs resulting from a tropical system named by the National Hurricane Center or its successor, (ii) the estimate of incremental storm restoration costs above the level of storm reserve prior to the storm and (iii) the replenishment of the storm reserve to the level as of October, 2013. The Parties to this Agreement are not precluded from participating in any such proceedings and opposing the amount of Tampa Electric's claimed costs or whether the proposed recovery is consistent with this Paragraph 5, but not the mechanism agreed to herein.

(b) The Parties agree that the \$4.00/1,000 kWh cap in this Paragraph 5 shall apply in aggregate for a calendar year; provided, however, that Tampa Electric may petition the Commission to allow Tampa Electric to increase the initial 12 month recovery at rates greater than \$4.00/1,000 kWh or for a period longer than 12 months if Tampa Electric incurs in excess of \$100 million storm recovery costs that qualify for recovery in a given calendar year, inclusive of the amount needed to replenish the storm reserve to the level that existed as of August 31, 2013. All Parties reserve their right to oppose such a petition.

(c) The Parties expressly agree that any proceeding to recover costs associated with any storm shall not be a vehicle for a "rate case" type inquiry concerning the expenses, investment, or financial results of operations of Tampa Electric and shall not apply any form of earnings test or measure or consider previous or current base rate earnings.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 14

Exhibit A

(d) The provisions of this paragraph 5 shall remain in effect during the Term except as otherwise permitted or provided for in this Agreement and shall continue in effect until the company's base rates are next reset by the Commission.

6. Polk Generation Base Rate Adjustment.

(a) Tampa Electric projects that its Polk 2-5 Waste Heat Recovery Conversion Project ("Polk 2-5" or the "Project") will enter commercial service while this Agreement is in effect with Polk 2-5 projected to go into service in January 2017. For this Project, Tampa Electric shall be authorized to increase its base rates as specified in paragraph 3 of this Agreement by \$110 Million annually effective on the later of the Project's actual in-service date or January 1, 2017. This base rate adjustment will be referred to as the Polk Generation Base Rate Adjustment ("Polk GBRA"). The Polk GBRA is an amount agreed to by and between the parties that reflects their negotiations regarding all relevant factors such as capital costs, cost of capital, capital structure and the other costs and expenses associated with the Project. The Parties agree that the amount of the Polk GBRA is fair and reasonable and intend that the Polk GBRA be implemented as provided herein without further inquiry or regulatory evaluation other than the approval of this Agreement. Nothing in this Agreement shall preclude any Party from asserting, in any proceeding to set Tampa Electric's rates to be effective after December 31, 2017, that the actual revenue requirements of the Polk 2-5 Waste Heat Recovery Conversion Project are different from those provided for in this Agreement.

(b) The Polk GBRA shall be reflected in Tampa Electric's customers' bills by allocating the \$110 Million annual increase to all rate classes (including IS and Lighting Facilities) based on each class's percentage of total base revenues calculated using the

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 15

Exhibit A

base rates in effect on December 1, 2016 and the company's projected 2017 billing determinants consistent with and/or as shown in the company's clause filings for 2017, with class revenue increases to be allocated as an equal percentage applied to all base rates, charges and credits for the respective classes. Tampa Electric will begin applying the Polk GBRA to meter readings made on and after the commercial in-service date of the Project or the first billing cycle of January 2017, whichever is later.

(c) Upon expiration of this Agreement, Tampa Electric's base rates, charges and credits including the effects of the Polk GBRA, as implemented pursuant to this Agreement shall continue in effect until next reset by the Commission. Tampa Electric's base rates, charges and credits approved in any final order issued pursuant to paragraph 7 of this Agreement, including the effects of the Polk GBRA, as implemented pursuant to this Agreement, shall continue in effect until next reset by the Commission.

7. Earnings.

(a) Notwithstanding paragraph 2 and subject to the Trigger in Paragraph 2(b) above, if Tampa Electric's earned return on common equity falls below 9.25% during the Term on a Tampa Electric monthly earnings surveillance report stated on an actual Commission thirteen-month average adjusted basis, Tampa Electric may petition the Commission to amend its base rates either as a general rate proceeding under Sections 366.06 and 366.07, Florida Statutes, and/or as a limited proceeding under Section 366.076, Florida Statutes. Nothing in this Agreement shall be construed as an agreement by the Consumer Parties that a limited proceeding would be appropriate, and Tampa Electric acknowledges and agrees that the Consumer Parties reserve and retain all rights to challenge the propriety of any limited proceeding or to assert that any request for base rate changes

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 16

Exhibit A

should properly be addressed through a general base rate case, as well as to challenge any substantive proposals to change the company's rates in any such future proceeding. This floor shall be subject to adjustment in accordance with the Trigger provision in paragraph 2(b). Throughout this Agreement, "Commission actual adjusted basis" and "actual adjusted earned return" shall mean results reflecting all adjustments to Tampa Electric's books required by the Commission by rule or order, but excluding pro forma weather adjustments. The other parties to this Agreement shall be entitled to participate in any proceeding initiated by Tampa Electric to increase base rates pursuant to this paragraph, and may oppose Tampa Electric's request.

(b) Notwithstanding paragraph 2 and subject to the Trigger in Paragraph 2(b) above, if Tampa Electric's earned return on common equity exceeds 11.25% during the Term on a Tampa Electric monthly earnings surveillance report stated on an actual Commission thirteen-month average adjusted basis, any Consumer Party shall be entitled to petition the Commission for a review of Tampa Electric's base rates. In any case initiated by Tampa Electric or any other party pursuant to paragraph 7, all parties will have full rights conferred by law. The ceiling in this subsection shall be subject to adjustment in accordance with the Trigger provision in paragraph 2(b).

(c) Notwithstanding paragraph 2 and subject to the Trigger in Paragraph 2(b) above, this Agreement shall terminate upon the effective date of any final order issued in any such proceeding pursuant to paragraph 7 that changes Tampa Electric's base rates prior to the last billing cycle of December 2017.

(d) This paragraph 7 shall not (i) be construed to bar Tampa Electric from requesting any recovery of costs otherwise contemplated by this Agreement; (ii) apply to any

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 17

Exhibit A

request to change Tampa Electric's base rates that would become effective after the expiration of the Minimum Term of this Agreement; or (iii) limit any party's rights in proceedings concerning changes to base rates that would become effective subsequent to the Minimum Term of this Agreement to argue that Tampa Electric's authorized ROE range should be different than as set forth in this Agreement.

(e) Notwithstanding any other provision of the Agreement, the parties fully and completely reserve all rights available to them under the law to challenge the level or rate structure (or the cost of service methodologies underlying them) of Tampa Electric's base rates, charges and credits effective as of January 1, 2018 or thereafter. It is specifically understood and agreed that this Agreement does not preclude any party from filing before January 1, 2018 an action to challenge the level or rate structure (or the cost of service methodologies underlying them) of Tampa Electric's base rates, charges and credits effective as of January 1, 2018 or thereafter.

8. Depreciation. Notwithstanding any requirements of Rules 25-6.0436 and 25-6.04364, F.A.C., the company shall not be required during the Term of this Agreement to file any depreciation study or dismantlement study. The depreciation and amortization accrual rates in effect as of the effective date of this Agreement (except as modified for software by paragraph 11(b)) shall remain in effect throughout the Term. The Parties agree that the provisions of Rules 25-6.0436 and 25-6.04364, F.A.C., pursuant to which depreciation and dismantlement studies are filed at least every four years will not apply to the company during the Term and that the Commission's approval of this Agreement shall excuse the company from compliance with the filing requirement of these rules during the Term. The company shall file a depreciation study no more than one year nor

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 18

Exhibit A

less than 60 days before the filing of its next general rate proceeding under Sections 366.06 and 366.07, Florida Statutes, such that the proposed depreciation rates can be considered contemporaneously with the company's next general rate proceeding.

9. Application of Agreement. No Party to this Agreement will request, support or seek to impose a change in the application of any provision of this Agreement. Except as provided in Paragraph 7, a Party to this Agreement will neither seek nor support any reduction in Tampa Electric's base rates, including limited, interim or any other rate decreases, that would take effect prior to the first billing cycle for January 2018, except for any such reduction requested by Tampa Electric or as otherwise provided for in this Agreement. Tampa Electric shall not seek interim, limited, or general base rate relief during the Term except as provided for in Paragraph 7 of this Agreement. Tampa Electric is not precluded from seeking interim, limited or general base rate relief that would be effective during or after the first billing cycle in January 2018, nor are the Parties precluded from opposing such relief. Such interim relief may be based on time periods before January 1, 2018, consistent with Section 366.071, Florida Statutes, and calculated without regard to the provisions of this Agreement.
10. New Tariffs. Nothing in this Agreement shall preclude Tampa Electric from filing and the Commission from approving any new or revised tariff provisions or rate schedules requested by Tampa Electric, provided that such tariff request does not increase any existing base rate component of a tariff or rate schedule during the Term unless the application of such new or revised tariff or rate schedule is optional to Tampa Electric's customers.
11. Other.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 19

Exhibit A

(a) Tampa Electric will discontinue its annual \$8 million storm damage expense accrual effective upon the Implementation Date of this Agreement, i.e., the date of the meter reading for the first billing cycle of November 2013. For clarity, this means that Tampa Electric's storm reserve account shall be credited with \$6,666,667 for 2013, which value represents ten months of the storm accrual at the annual rate of \$8 million as approved by the Commission in Docket No. 080317-EI and included in the company's current rates.

(b) Tampa Electric will use a 15 year amortization period for all computer software beginning effective January 1, 2013.

(c) Tampa Electric shall amortize its actual rate case expenses for Docket No. 130040-EI over the Term of this Settlement Agreement.

(d) The provisions of this paragraph 11 (a), (b) and (c) shall remain in effect during the Term except as otherwise permitted or provided for in this Agreement and shall continue in effect until the company's base rates are next reset by the Commission.

(e) On or before March 1, 2017, the company shall file and serve on the parties a forecasted earnings surveillance report for 2017 reflecting the increase authorized by paragraph 6 of this Agreement.

12. Commission Approval. The provisions of this Agreement are contingent on approval of this Agreement in its entirety by the Commission without modification and in lieu of conducting a hearing with live testimony and cross examination on the merits of the petition that initiated this proceeding. The Parties further agree that they will support this Agreement and will not request or support any order, relief, outcome, or result in conflict with the terms of this Agreement in any administrative or judicial proceeding relating to, reviewing, or challenging the

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 20

Exhibit A

establishment, approval, adoption, or implementation of this Agreement or the subject matter hereof. No Party will assert in any proceeding before the Commission that this Agreement or any of the terms in the Agreement shall have any precedential value. The Parties' agreement to the terms in the Agreement shall be without prejudice to any Party's ability to advocate a different position in future proceedings not involving the Agreement. The Parties further expressly agree that no individual provision, by itself, necessarily represents a position of any party in a future proceeding, and the Parties further agree that no Party shall assert or represent in any future proceeding in any forum that another Party endorses any specific provision of this Agreement because of that Party's signature herein. It is the intent of the Parties to this Agreement that the Commission's approval of all the terms and provisions of this Revised and Restated Settlement Agreement is an express recognition that no individual term or provision, by itself, necessarily represents a position, in isolation, of any Party or that a Party to this Agreement endorses a specific provision, in isolation, of this Agreement because of that Party's signature herein. Approval of this Agreement in its entirety will resolve all matters in Docket No. 130040-EI pursuant to and in accordance with Section 120.57(4), Florida Statutes. This docket will be closed effective on the date the Commission Order approving this Agreement is final, and no Party shall seek appellate review of any order issued in this Docket.

13. Disputes. To the extent a dispute arises among the Parties about the provisions, interpretation, or application of this Settlement Agreement, the Parties agree to meet and confer in an effort to resolve the dispute. To the extent that the Parties cannot resolve any dispute, the matter may be submitted to the Commission for resolution.

14. Execution. This Agreement is dated as of September 6, 2013. It may be executed in counterpart originals and a facsimile of an original signature shall be deemed an original.

**SCHEDULE A-3**  
**FLORIDA PUBLIC SERVICE COMMISSION**  
**COMPANY: TAMPA ELECTRIC COMPANY**  
**DOCKET No. 130040-EI**

**EXPLANATION:** Provides a summary of all proposed changes to rates and charges, detailing current and proposed classes of service, rates, and charges, and other service charges.

**WITNESS: W. R. ANTHONY**

 Historical Prev Year Ended: 12/31/2013  
 Witness: W. R. Johnson

BASE REVENUE BY RATE SCHEDULE - CALCULATIONS  
 By rate schedule, calculate revenues from charges and proposed rates for the last year. Many customers are to be transferred from one schedule to another. Show revenues separately for the transfer group. Commodity factors are used for Nation's last year only. The total base revenue by class must equal that shown in Schedule E-13a. The billing units must equal those shown in Schedule E-15.  
 PROVIDE TOTAL REVENUE OF BILLS, MONTHLY, AND BILLING UNIT FOR EACH RATE SCHEDULE (INCLUDING STANDARDS) AND TIME OF USE CUSTOMERS AND TRANSFER GROUP.

| FLORIDA PUBLIC SERVICE COMMISSION |                       | EXPLANATION:   |             | Type of data shown:                   |             |
| COMPANY: TAMPA ELECTRIC COMPANY   |                       | By rate schedule calculate revenue under present and proposed rates for the year. If any customers are to be transferred from one schedule to another, show revenue and proposed for the other group. Comparison between the two rates for historic and proposed only. The total revenue shown by rates must equal that shown in Schedule E-13a. The billing unit must equal those shown in Schedule E-15. |             | XX Proposed Year End: 12/31/2014      |             |
| DOCKET NO. 130040-EI              |                       | PROVIDE TOTAL NUMBER OF BILLS, MWH, AND BILLING UNITS FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS) AND TRANSFER GROUP.  |             | Historical Prior Year End: 12/31/2013 |             |
|                                   |                       |  |             | Witness: W. R. Ashburn                |             |
|                                   |                       | Rate Schedule  |             | BS E-13b-1                            |             |

| By rate schedule, calculate revenue under present and proposed rates for the first year. If any customers are to be transferred from one schedule to another, show revenue separately for the transfer group. Consider factors are used for historic base rates only. The total base revenue by class must equal that shown in Schedule E-13a. The billing unit must equal those shown in Schedule E-13. Provide total number of bills, MWs, and billing unit for each rate schedule (including standard and time of use customers) and transfer group. |                        |              |                             |                              |             |               |               |             |                  |

Exhibit B

SCHEDULE E-13

BASE REVENUE BY RATE SCHEDULE - CALCULATIONS

Page 5 of 18

By rate schedule, calculate revenues under present and proposed rates for the test year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Connection factors are used for historic test years only. The total base revenue by class must equal that shown in Schedule E-13a. The billing unit must equal those shown in Schedule E-13.

PROVIDE TOTAL NUMBER OF BILLS MONTHS AND BILLING UNIT FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS) AND TRANSFER GROUP.

Witness: W. R. Anshum

XX Projected Test Year Ended 12/31/2014  
Historical Prior Year Ended 12/31/2013  
Historical Prior Year Ended 12/31/2012

| By rate schedule, calculate revenues under present and proposed rates for the last year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are used for historic test years only. The total base revenue by class must equal that shown in Schedule E-13a. The billing units must equal those shown in Schedule E-15. |                            |              |                             |             |                              |             |            |            |                  |
| PROVIDE TOTAL NUMBER OF BILLS, MW/KV, AND BILLING KW FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS) AND TRANSFER GROUP.   |                            |              |                             |             |                              |             |            |            |                  |

COMPANY: TAMPA ELECTRIC COMPANY

DOCKET NO. 130040-E

XX Proposed Test Year Ended 12/31/2024  
Proposed Prior Year Ended 12/31/2023  
Historical Prior Year Ended 12/31/2012  
Witness: W. R. Auburn

Transferred from one schedule to another, show revenues separately for the transfer group. Consider factors are used for historic test year only. The total base revenue by class must equal that shown in Schedule E-15a. The billing unit must equal those shown in Schedule E-15.  
PROVIDE TOTAL NUMBER OF BILLS, MARCH, AND BILLING W/ FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS) AND TRANSFER GROUP.

| SCHEDULE E-13: BASE REVENUE BY RATE SCHEDULE - CALCULATIONS |  |              |  |   |  |  |  |  |  |
|---|--|--------------|--|---|--|--|--|--|--|
| FLORIDA PUBLIC SERVICE COMMISSION                           |  | EXPLANATION: |  | By rate schedule, calculate revenue under present and proposed rates for the rate year. If any customers are to be transferred from one schedule to another, then revenues are calculated for the rate year. The total revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. The billing cycle must equal the revenue for each rate schedule. Schedule E-13a and E-13b must be equal. The revenue for each rate schedule is shown in Schedule E-13a. | SCHEDULE E-13:                  |                              | BASE REVENUE BY RATE SCHEDULE - CALCULATIONS  |              | Page 10 of 18                          |                  |           |
|---------------------------------|------------------------------|---|--------------|--|------------------|-----------|
| EXPLANATION:                    |                              | By rate schedule, calculate revenues under present and proposed rates for the first year. If any customers are to be transferred from one schedule to another, determine the revenue for the transfer group. Consideration must be given to the fact that the total base revenue by rate schedule must equal the total base revenue by rate schedule. The total base revenue by rate schedule must equal the total base revenue by rate schedule. The total base revenue by rate schedule must equal the total base revenue by rate schedule. |              | Type of Rate Schedule                  |                  |           |
| COMPANY: TAMPA ELECTRIC COMPANY |                              | Used for historic base rates only. The total base revenue by rate schedule must equal the total base revenue by rate schedule. The total base revenue by rate schedule must equal the total base revenue by rate schedule. The total base revenue by rate schedule must equal the total base revenue by rate schedule.  |              | XX Proposed Test year ended 12/31/2014 |                  |           |

| BASE REVENUE BY RATE SCHEDULE - CALCULATIONS  |   |       |                             |                 |       |                              |                  |                  |  |
| By rate schedule, calculate revenues under present and proposed rates for the year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are used for historic test years only. The total base revenue by class must equal that shown in Schedule E-12a. The billing units must equal those shown in Schedule E-15. |   |       |                             |                 |       |                              |                  |                  |  |
| PROVIDE TOTAL NUMBER OF BILLS, MONTHS AND BILLING Cycles FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS AND TRANSFER GROUP)   |   |       |                             |                 |       |                              |                  |                  |  |

| FLORIDA PUBLIC SERVICE COMMISSION                     |  | EXPLANATION: By rate schedule, calculate revenues under present and proposed rates for the last year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are used for historic test years only. The total base revenue by class must equal that shown in Schedule E-13a. The billing units must equal those shown in Schedule E-15. |             |            |                              |             | Type of data shown:                     |                  |       |  |

| SCHEDULE E-13c                    |  |              | BASE REVENUE BY RATE SCHEDULE - CALCULATIONS   |  |  |  |  | Page 14 of 18                             |  |
|-----------------------------------|--|--------------|--|--|--|--|--|---|--|
| FLORIDA PUBLIC SERVICE COMMISSION |  | EXPLANATION: | By rate schedule, calculate revenues under present and proposed rates for the test year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are used for historic test years only. The total base revenue by class must equal that shown in Schedule E-13a. The billing units must equal those shown in Schedule E-15. |  |  |  |  | Type of data shown:                       |  |

Exhibit B

SCHEDULE E-13

BASE REVENUE BY RATE SCHEDULE - CALCULATIONS

Page 15 of 18

FLORIDA PUBLIC SERVICE COMMISSION

EXPLANATION:

By rate schedule, calculate revenues under present and proposed rates for the last year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are to be used for historic last year only. The total base revenue by class must equal that shown in Schedule E-15. The filing unit must show those shown in Schedule E-15.

Type of data shown:

XX Proposed Last Year Ended 12/31/2014  
 Historical Prev Year Ended 12/31/2013  
 Worksheet Prev Year Ended 12/31/2012  
 Worksheet W. R. Auburn

PROVIDE TOTAL NUMBER OF BILLS, MWs, AND BILLING kW FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS AND TRANSFER GROUPS).

Rate Schedule 25.031

| BASE REVENUE BY RATE SCHEDULE - CALCULATIONS |   |  |                             |  |                  |  |                              |            |                  |
|--|---|--|-----------------------------|--|------------------|--|------------------------------|------------|------------------|
| EXPLANATION                                  |   | By rate schedule, calculate revenue (after present and proposed rates) for the last year. If any customers are to be transferred from one schedule to another, then revenue is calculated for the transfer group. Computation factors are used for historic (last year) only. The total base revenue is shown in Schedule E-13a. The billing unit is shown in Schedule E-15. |                             | Type of data shown:  |                  | Page 16 of 18  |                              |            |                  |

SCHEDULE E-13c

FLORIDA PUBLIC SERVICE COMMISSION

COMPANY: TAMPA ELECTRIC COMPANY

DOCKET No: 130040-EI

BASE REVENUE BY RATE SCHEDULE - CALCULATIONS

By rate schedule, calculate revenues under present and proposed rates for the test year. If any customers are to be transferred from one schedule to another, show revenues separately for the transfer group. Correction factors are used for historic last years only. The total base revenue by class must equal that shown in Schedule E-13a. The billing units must equal those shown in Schedule E-15.

PROVIDE TOTAL NUMBER OF BILLS, MWHs, AND BILLING KW FOR EACH RATE SCHEDULE (INCLUDING STANDARD AND TIME OF USE CUSTOMERS) AND TRANSFER GROUP.

Page 17 of 18

Type of data shown:

XX Projected Test year Ended: 12/31/2014

Projected Prior Year Ended: 12/31/2013

Historical Prior Year Ended: 12/31/2012

Witness: W. R. Ashburn

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 73

Exhibit B

Exhibit B

The following list of revised Tariff Sheets reflect tariff changes originally proposed by Tampa Electric and those revised/proposed as a result of the Stipulation and Settlement Agreement (SSA) entered into by Tampa Electric and all of the intervenors in this proceeding. The proposed effective date for these revisions is the date of the meter readings for the first billing cycle in November 2013.

| Sheet No. | Proposed Revision  |
|-----------|--|
| 3.030     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |
| 3.032     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |
| 3.200     | Increased Standby Generator credit from \$4.00 to \$4.75 as proposed in SSA.   |
| 3.255     | Renames Customer Facilities Charge to Basic Service Charge as originally proposed by Tampa Electric in the docket, but retains references to IS rate schedules.  |
| 4.010     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |
| 4.040     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |
| 4.070     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |
| 4.080     | Reflects revisions as originally proposed by Tampa Electric in Docket No. 130040-EI.   |

CANCELS ELEVENTH REVISED SHEET NO. 3.030

#### SERVICE CHARGES

1. An Initial Connection Charge of \$75.00 is applicable for the initial establishment of service to a premises.
2. The appropriate Connection Charge shown below shall apply to the subsequent re-establishment of service to a premises for which service has not been disconnected due to non-payment or violation of Company or Commission Rules. For purposes of these charges, normal working hours are Monday through Friday, 7:00 a.m. to 6:00 p.m., excluding holidays.
  - a. A Connection Charge of \$28.00 shall apply to the re-establishment of service to a premises. The service work will be performed during normal working hours on the next business day following the customer's request for service unless the customer requests a later service date.
  - b. A Connection Charge of \$75.00 shall apply to the re-establishment of service to a premises performed by the Company to accommodate a special request by the customer for same day service. Such special request must be made prior to 6:00 p.m. of that day.
  - c. A Connection Charge of \$300.00 shall apply to the re-establishment of service to a premises performed by the Company on a Saturday, between 8:00 a.m. and 12:00 noon, to accommodate a special request by the customer for service during that time.
3. The appropriate Reconnect after Disconnect Charge shown below shall apply to the re-establishment of service after service has been disconnected due to non-payment or violation of Company or Commission Rules:
  - a. For service which has been disconnected at the point of metering, the Reconnect after Disconnect Charge is \$55.00.
  - b. For service which has been disconnected at a point distant from the meter, the Reconnect after Disconnect Charge is \$165.00.
4. A Field Visit Charge of \$25.00 may be assessed and applied to the customer's first billing for service at a particular premises following the occurrence of any of the events described below:

Exhibit B

FIRST REVISED SHEET NO. 3.032  
CANCELS ORIGINAL SHEET NO. 3.032

Continued from Sheet No. 3.030

- a. A Company representative visits the premises for the purpose of disconnecting service due to non-payment and instead makes other payment arrangements with the customer.
  - b. The customer has requested service to be initially connected or reconnected and the Company upon arrival finds the premises is not in a state of readiness or acceptable condition to be energized.
  - c. The customer or his representative has made an appointment with the Company to discuss the design, location, or alteration of his service arrangement at the premise and the Company maintains such an appointment, but finds the customer/representative is not present for such discussion.
5. A Returned Check Charge as allowed by Florida Statute 68.065 shall apply for each check or draft dishonored by the bank upon which it is drawn. Termination of service shall not be made for failure to pay the Returned Check Charge.
  6. Charges for services due and rendered which are unpaid as of the past due date are subject to a Late Payment Charge. The Late Payment Charge for non-governmental accounts shall be the greater of \$5.00 or 1.5% for late payments over \$10.00 and 1.5% for late payments \$10.00 or less. Accounts of federal, state, and local governmental agencies and instrumentalities are subject to a Late Payment Charge at a rate no greater than allowed, and in a manner permitted, by applicable law.
  7. A Tampering Charge of \$55.00 is applicable to a customer for whom the Company deems has undertaken unauthorized use of service and for whom the Company has not elected to pursue full recovery of investigative costs and damages as a result of the unauthorized use. This charge is in addition to any other service charges which may be applicable.

Exhibit B

NINTH REVISED SHEET NO. 3.200  
CANCELS EIGHTH REVISED SHEET NO. 3.200

**STANDBY GENERATOR RIDER**

SCHEDULE: GSSG-1

AVAILABLE: At the option of the customer, available to commercial and industrial customers on rate schedule GSD, GSDT, SBF, and SBFT who sign a Tariff Agreement for the Provision of Standby Generator Transfer Service.

CHARACTER OF SERVICE: Upon notification by Tampa Electric Company, electric service to all or a portion of the customer's firm load will be transferred by the customer to a standby generator(s) for service.

MONTHLY CREDITS: Credits will be applied each billing period to the regular bill submitted under the GSD, GSDT, SBF, or SBFT rate schedule, for credits generated in the previous billing period.

Credit:

\$4.75/KW/Month payment for Average Transferable Demand of a customer's load to a standby generator(s).

INITIAL TRANSFERABLE DEMAND: To begin participation under this tariff, Initial Transferable Demand will be determined by Tampa Electric in the field at the customer's site by transferring the customer's normal load to the standby generator(s).

AVERAGE TRANSFERABLE DEMAND: For a control month, Transferable Demand is calculated by totaling the KWH produced by the standby generator(s) during all the control(s) in the month divided by the total control hours in the month (less the 30 minute customer response time to transfer load per control). This demand is then averaged with the calculated Transferable Demands from the previous service months (for a maximum of eleven) to determine the Average Transferable Demand. For non-control months, the Average Transferable Demand is the average of the calculated Transferable Demands of the previous twelve months.

NOTIFICATION SCHEDULE: All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight savings time and vice versa.)

Normally the Company will notify customers to transfer load to standby generator(s) during the prime hours. These periods are:

SECOND REVISED SHEET NO. 3.255  
CANCELS FIRST REVISED SHEET NO. 3.255

#### NET METERING SERVICE

**SCHEDULE:** NM-1

**AVAILABLE:** Entire Service Area.

**APPLICABLE:** This schedule is applicable to a customer who:

1. Takes retail electric service from Tampa Electric under an otherwise applicable rate schedule (OAS) at their premises;
2. Uses a renewable electrical generating facility ("Eligible Customer Generator") with a capacity of not more than 2,000 kilowatts that is located on the customer's owned, leased, or rented premises and that is intended primarily to offset part or all of the customer's own electrical requirements;
3. Is interconnected and operates in parallel with Tampa Electric's transmission or distribution systems; and
4. Provides Tampa Electric with a completed signed Standard Interconnection Agreement (SIA) for Tier 1, Tier 2 or Tier 3 Renewable Generator Systems.

A customer who owns, rents or leases a premises that includes an Eligible Customer Generator, that was previously approved by Tampa Electric for interconnection prior to the customer moving in and/or taking electric service with Tampa Electric (Change of Party Customer), will take service on this tariff as long as the requirements of this section are met. To be eligible, the Change of Party Customer must have a completed signed SIA.

At the NM-1 customer's sole discretion, service may be taken under one of Tampa Electric's standby rate schedules SBF or SBFT with or without GSLM-3, if it is not already their OAS. Customers taking service under IS or IST schedules who take NM-1 service may, at their sole discretion, choose to take service under one of Tampa Electric's standby rate schedule SBI, as applicable, if it is not already their OAS.

**MONTHLY RATE:** All rates charged under this schedule will be in accordance with the Eligible Customer Generator's OAS. A Customer served under this schedule is responsible for all charges from its OAS including monthly minimum charges, basic service charges, meter charges, facilities charges, demand charges and surcharges. Charges for energy (kWh) supplied by Tampa Electric will be based on the net metered usage in accordance with Billing (see below).

CANCELS THIRD REVISED SHEET NO. 4.010

#### TECHNICAL TERMS AND ABBREVIATIONS

**Alternating Current**

An electric current that reverses its direction at regularly recurring intervals.

**Ampere**

The common unit of electric current flow.

**Applicant**

Any person, partnership, association, corporation or governmental agency controlling or responsible for the development of a new subdivision, business, industry, community, geographic area or dwelling unit and applying for the construction of electric facilities to serve such facility or the conversion, relocation or removal of existing electric facilities which serve such facility.

**Authority Having Jurisdiction (AHJ)**

A person or agency authorized to inspect and approve electrical installations.

**Auxiliary Service**

The type of electric service which is furnished or made available by the Company for a portion of a Customer's electrical energy requirements which ordinarily is furnished by the Customer from some other source of electrical supply.

**Available Fault Current**

The maximum current available from the utility source that may occur in a fault condition.

**Avoided Costs**

The incremental costs to an electric utility of electric energy or capacity or both which, but for the purchase from the qualifying facility or facilities, such utility would generate itself or purchase from another source.

**Basic Service Charge**

A charge comprised of the cost of meter and service equipment, a portion of the cost of distribution equipment (poles, wires, transformers) plus the recurring cost of reading the meter, calculating and mailing the bill, processing payment, and maintaining the customer's records.

PAGE 82

Exhibit B

SEVENTH REVISED SHEET NO. 4.040  
CANCELS SIXTH REVISED SHEET NO. 4.040

|  |  |
|--|--|
| <b>Current</b>   | The volume of electric energy in amperes flowing through a conductor.  |
| <b>Customer</b>  | Any present or prospective user of the Company's electric service, his authorized representative (builder, architect, engineer, electrical contractor, etc.) or others for whose benefit the electric service under this tariff is made (property owner, landlord, tenant, renter, occupant, etc.). When electric service is desired at more than one location, each such location or delivery point shall be considered as a separate customer. |
| <b>Delivery Point (Point of Attachment, Point of Delivery)</b> | The point where the Company wiring interfaces with the customer wiring, and where the customer assumes the responsibility for further delivery and use of the electricity.   |
| <b>Delta Connection</b>  | A three-phase electrical connection where the electrical service is connected in a triangular configuration.   |
| <b>Demand</b>  | The magnitude of electric load of an installation. Demand may be expressed in kilowatts, kilovolt-amperes, or other suitable units.  |
| <b>Demand Charge</b>   | The specified charge to be billed on the basis of the demand under an applicable rate schedule.  |
| <b>Difficult Trenching Conditions</b>                          | Trenching through soil which contains considerable rock, is unstable, has a high water table, and/or has obstructions that unduly impede trenching at normal speeds with machines or requires extensive hand digging or shoring.   |
| <b>Distribution System</b>                                     | Electric service facilities consisting of primary and secondary conductors, service laterals, transformers and necessary accessories and appurtenances for the furnishing of electric power at utilization voltage (13 kV and below on the Company's system).  |
| <b>Drawing</b>   | Drawings illustrating technical specification and requirements for electric service are published separately in the Tampa Electric Standard Electrical Service Requirements Manual which is available upon request at any Tampa Electric Company office.   |

DOCKET NO. 130040-EI  
PAGE 83

Exhibit B

THIRD REVISED SHEET NO. 4.070  
CANCELS SECOND REVISED SHEET NO. 4.070

**Interconnection Costs**

All costs associated with the change-out, upgrading or addition of protective devices, transformers, lines, services, meters, switches, and associated equipment and devices beyond those which would be required to provide normal service to the qualifying facility if no cogeneration were involved.

**Kilovar (KVAR)**

Reactive power is that portion of the apparent power which is not available to do work. Reactive power is required to furnish charging current to magnetic or electrostatic equipment connected to a system.

**Kilovolt-Ampere (KVA)**

It is the product of the volts times the amperes, divided by 1,000, where the amperes represent the vectorial sum of the ampere current that is in step with the alternating voltage (representing the current to do useful work) and the reactive ampere current flowing in the circuit.

**Kilowatt (KW) (1000 watts)**

A watt is the electrical unit of power or rate of doing work. It is equal to one ampere flowing under the pressure of one volt at unity power factor.

**Kilowatt-Hour (KWH)**

Kilowatts times time in hours.

**Light-Emitting Diode (LED)**

A semiconductor light source.

**Line Extension**

That extension of the circuit to be added to the existing circuit.

**Load**

- (1) The customer's equipment requiring electrical power.
- (2) The quantity of electric power required by the customer's equipment, usually expressed in kilowatts or horsepower.

**Load Balance**

An equally spread load over a multiphase system.

**Load Center**

The customer's circuit panel or distribution point.

**Load Factor**

The number of kilowatt-hours used for a given period of time divided by the product of the maximum kilowatt demand established during the period and the number of hours in the period.

Exhibit B

THIRD REVISED SHEET NO. 4.080  
CANCELS SECOND REVISED SHEET NO. 4.080

**Low-Density Subdivision**

A subdivision having a density of at least 1.0 dwelling units but less than 6 dwelling units per acre.

**Lumen**

A unit of light measurement. The intensity of light delivered by one standard candle at a distance of one foot is approximately one (1) lumen.

**Luminaire**

A lighting fixture for street and area lighting.

**Main Distribution System**

That part of the Company's Distribution System which does not include overhead service drops, underground service laterals or lighting systems.

**Main Switch (Disconnect)**

A customer-owned device used to disconnect the customer's total load from the Company's system.

**Manufactured Home (includes Mobile Home and Trailer)**

A factory assembled structure equipped with the necessary service connections and made so as to be readily moveable as a unit without a permanent foundation.

**Metal Halide**

A lamp using argon-xenon and mercury as a medium for street and area lighting.

**Metering Room**

A room in a customer's facility existing solely for the metering equipment.

**Meter Socket Enclosure**

A meter socket enclosure is a device that provides support and means of electrical connection to a watt-hour meter. It has a wiring chamber with provisions for conduit entrances and exits, and a means of sealing the meter in place.

**Multiple Occupancy Buildings**

A structure erected and formed of component structural parts and designed to contain five (5) or more individual dwelling units.

**National Electrical Code (NEC)**

The minimum standard for customer wiring as enacted by the National Fire Protection Association and enforced by local government.

**Network**

An arrangement of transformers and wiring effecting a highly reliable source of electrical energy in any given area.

FIFTH REVISED SHEET NO. 4.090  
CANCELS FOURTH REVISED SHEET NO. 4.090

**Overhead Service**

Wiring and associated facilities normally installed by the Company on poles to serve the customer.

**Ownership Line**

The point where the Company's facilities connect with the customer's facilities.

**Pedestal**

A meter socket enclosure mounted on a post and fed from an underground source.

**Power Factor**

Ratio of kilowatts to kilovolt-amperes.

**Premises**

The property location of customer or Company equipment.

**Primary Distribution Service**

The delivery of electricity transformed from the transmission system to a distribution service voltage, typically 13kV, whereby the customer may utilize such voltage and is responsible for providing the transformation facilities to reduce the voltage for any secondary distribution service voltage requirement.

**Primary Voltage**

The voltage level in a local geographic area which is available after the Company has provided transformation from the transmission system.

**Qualifying Facility**

A cogenerator or small power producer which obtains qualifying status under Section 201 of PURPA and Subpart B of FERC regulations.

**Raceway**

A mechanical structure for supporting wiring, conduits or bus.

**Rate Schedule**

The approved standard used for calculation of bills.

**Relay Service**

Premium service supplied to a customer from more than one distinct source capable of automatic or customer controlled manual switching upon loss of the preferred source. A distinct source is a distribution source originating from a unique distribution substation transformer.

CANCELS THIRD REVISED SHEET NO. 4.100

**Renewable Energy**

Electrical energy produced from renewable sources defined in applicable Florida Statutes.

**Residential Service**

Service to customers in private residences and individually metered apartments and condominiums when all energy is used for domestic purposes.

**Right-of-Way**

The established path for the installation of the Company's wiring on public property.

**Rules and Regulations**

The approved standards and methods for service to the Company's customers.

**Rural**

Outside the geographical limits of any incorporated cities, except areas which exhibit urban characteristics.

**Secondary Distribution Service**

The delivery of electricity transformed to the lowest utilized service voltage, typically ranging from 120 volts to 480 volts.

**Service**

- (1) The supply of the Company's product, "Electrical Energy", measured in kilowatt-hours and kilowatt demand.
- (2) The conductors and equipment for delivering energy from the electricity supply system to the wiring system of the premises served.

**Service Area**

The established geographical boundaries of the Company.

**Service Drop**

The overhead service conductor(s) from the last pole or other aerial support to and including the connections to the service entrance conductors at the building.

**Service Entrance**

That portion of the wiring system between the point of attachment to the Company's distribution system and the load side terminals of the main switch or switches. This will include the grounding equipment.

**Service Equipment**

The necessary equipment, usually consisting of circuit-breaker or switch, fuses and their accessories, located near the point of entrance of supply conductors' to a building and intended to constitute the main control and means of disconnection for the supply to that building.

Exhibit B

THIRD REVISED SHEET NO. 4.120  
CANCELS SECOND REVISED SHEET NO. 4.120

**Townhouse**

A single family dwelling unit in a group of such units contained in a building where each unit is separated only by fire walls. Each townhouse unit is normally constructed upon a separate lot and serviced with separate utilities.

**Transformer**

The device which changes voltage levels.

**Transmission System**

The network of high voltage lines and associated equipment, typically ranging from 69 kV to 230 kV, which are used to move electrical power from generating resources to load centers where it is transformed to a lower primary distribution voltage for distribution to customers.

**Underground Commercial Distribution (UCD)**

The wiring, transformers, and other related equipment required to distribute electrical energy to a commercial customer or customers.

**Underground Residential Distribution (URD)**

The wiring, transformers, and other related equipment required to distribute electrical energy to a residential customer or multiple residential customers.

**Underground Service**

The wiring system and associated equipment which is placed on or in the earth, as opposed to pole line construction.

**Urban**

Inside the geographical limits of an incorporated city, or having the characteristics of such an area in terms of use and density.

**Vault**

An isolated ventilated enclosure for electrical equipment with fire-resistant walls, ceiling and floor which personnel may enter and in which transformers and switching equipment are installed, operated, and maintained.

**Voltage**

The electrical pressure of a circuit expressed in volts. Generally, the nominal rating based on the maximum normal effective difference of potential between the conductors of a circuit.

**Voltage Dip**

A momentary reduction of voltage level.

**Watt**

The basic unit of electrical power (see Kilowatt).

**Weatherhead**

A device used at the service entrance to prevent water from entering the service mast or riser.

SIXTH REVISED SHEET NO. 5.090  
CANCELS FIFTH REVISED SHEET NO. 5.090

Continued from Sheet No. 5.080

### 2.2.5 LIMITATION ON CONSEQUENTIAL DAMAGES

The Customer shall not be entitled to recover from the Company for loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement of property or equipment, diminution in value of property, expenses to restore operations, loss of goods or products, or any other consequential, indirect, unforeseen, incidental or special damages.

### 2.3 COMPANY EQUIPMENT ON PRIVATE PROPERTY

An easement will be required where necessary for the Company to locate its facilities on property not designated as a public right-of-way to serve the customer on whose property the facilities are to be located. Service drops, service laterals and area light services are the exception to the preceding rule. If a service drop is expected to serve future customers, an easement should be obtained. Easements will also be required where it is necessary for the Company's facilities to cross over property not designated as public right-of-way to serve customers other than the property owner. Normal distribution easements will be 15 feet wide, but easements will vary in dimensions depending upon the type of facility necessary. All matters pertaining to easements will be handled directly with the appropriate representative in the Company office serving the area in question.

In the event that the Company's facilities are located on a customer's property to serve the customer, and if it becomes desirable to relocate these facilities due to expansion of the customer's building or other facilities, or for other reasons initiated by the customer, the Company will, where feasible, relocate its facilities. The Company may require that all costs associated with the requested relocation or removal be charged to the customer making the request.

### 2.4 ELECTRIC SYSTEM RELOCATIONS

In subdivided property in general, the Company endeavors to locate its facilities such that they are in the immediate vicinity of a lot line. This may not be possible due to subdivision replatting or inability of the Company to so locate its facilities. In rural areas facilities are located so as to provide the most efficient electrical distribution system.

If a customer desires that a guy wire, pole or other facility be relocated, the Engineering Department at the nearest Company office should be contacted. Consideration will be given to each case; and if practicable, the Company will relocate such facility to the vicinity of the nearest lot line or to the desired location. The Company may require that all costs associated with the requested relocation or removal be charged to the customer making the request.

Continued to Sheet No. 5.100

ISSUED BY: G. L. Gillette, President

DATE EFFECTIVE:

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 90

Exhibit B

SEVENTH REVISED SHEET NO. 5.180  
CANCELS SIXTH REVISED SHEET NO. 5.180

Continued from Sheet No. 5.175

Where the company's facilities are reasonably adequate and of sufficient capacity to carry the actual loads normally imposed, the company may require that the equipment on the Customer's premises shall be such that the starting and operating characteristics will not cause an instantaneous voltage drop of more than 4% of the standard voltage, measured at the point of delivery, or cause objectionable flicker to other Customer's service.

#### 2.17 EMERGENCY RELAY POWER SUPPLY

The Company will receive applications for emergency relay power supply service from existing and/or new customers and reserves the right to approve or disapprove each application based upon need, location, feasibility, availability and size of load.

After receiving approval, the Company will require that all costs of any duplication of additional facilities required by the customer in excess of the facilities normally furnished by the Company for a single source, single transformation, electric service installation, be charged to the customer making the request. This shall include the cost of existing facilities being reserved at a charge of \$31.78 per kW.

Customers requesting relay service through a single point of delivery to a multi-served facility, must ensure that all new occupants of the multi-served facility beyond the single point of delivery are aware of the obligation to pay charges associated with relay service. All existing occupants (i.e. occupants with leases predating the request for relay service to a multi-served facility) may choose not to pay the relay service charge at the time service is provided but must pay the charge upon renewal of the existing lease. Any unrecovered revenues related to the relay service charge will be billed to the customer requesting relay service for the multi-served facility.

Exceptions may be made by the Company when public safety is involved.

### III. CUSTOMER SERVICES AND WIRING

#### 3.1 GENERAL REQUIREMENTS FOR CUSTOMER WIRING

As previously stated, compliance of customer owned facilities with the requirements of the National Electrical Code will provide the customer with a safe installation, but not necessarily an efficient or convenient installation.

EIGHTEENTH REVISED SHEET NO. 6.030  
CANCELS SEVENTEENTH REVISED SHEET NO. 6.030

**RESIDENTIAL SERVICE**

**SCHEDULE:** RS

**RATE CODE:** 110, 111, 120, 121, 130, 131, 170, 171, 180, 181.

**AVAILABLE:** Entire service area.

**APPLICABLE:** To residential consumers in individually metered private residences, apartment units, and duplex units. All energy must be for domestic purposes and should not be shared with or sold to others. In addition, energy used in commonly-owned facilities in condominium and cooperative apartment buildings will qualify for this rate schedule, subject to the following criteria:

1. 100% of the energy is used exclusively for the co-owners' benefit.
2. None of the energy is used in any endeavor which sells or rents a commodity or provides service for a fee.
3. Each point of delivery will be separately metered and billed.
4. A responsible legal entity is established as the customer to whom the Company can render its bills for said service.

Resale not permitted.

**LIMITATION OF SERVICE:** This schedule includes service to single phase motors rated up to 7.5 HP. Three phase service may be provided where available for motors rated 7.5 HP and over.

**MONTHLY RATE:**

**Basic Service Charge:**  
\$15.00

**Energy and Demand Charge:**

|                    |                |
|--------------------|----------------|
| First 1,000 kWh    | 4.598¢ per kWh |
| All additional kWh | 5.598¢ per kWh |

**MINIMUM CHARGE:** The Basic Service Charge.

**FUEL CHARGE:** See Sheet Nos. 6.020 and 6.021.

TWENTIETH REVISED SHEET NO. 6.050  
CANCELS NINETEENTH REVISED SHEET NO. 6.050

**GENERAL SERVICE - NON DEMAND**

**SCHEDULE:** GS

**RATE CODE:** 200, 201, 920.

**AVAILABLE:** Entire service area.

**APPLICABLE:** For lighting and power in establishments not classified as residential whose energy consumption has not exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

**CHARACTER OF SERVICE:** Single or 3 phase, 60 cycles and approximately 120 volts or higher, at Company's option.

**LIMITATION OF SERVICE:** All service under this rate shall be furnished through one meter. Standby service permitted on Schedule GST only.

**MONTHLY RATE:**

**Basic Service Charge:**

|                     |         |
|---------------------|---------|
| Metered accounts    | \$18.00 |
| Un-metered accounts | \$15.00 |

**Energy and Demand Charge:**

4.899¢ per kWh

**MINIMUM CHARGE:** The Basic Service Charge.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 0.151¢ per kWh of billing energy. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

CANCELS EIGHTEENTH REVISED SHEET NO. 6.080

GENERAL SERVICE - DEMAND

**SCHEDULE:** GSD

**RATE CODE:** 360, 364, 365.

**AVAILABLE:** Entire service area.

**APPLICABLE:** To any customer whose energy consumption has exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. Also available to customers with energy consumption at any level below 9,000 kWh per billing period who agree to remain on this rate for at least twelve (12) months. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

**CHARACTER OF SERVICE:** A-C; 60 cycles; 3 phase; at any standard Company voltage.

**LIMITATION OF SERVICE:** Standby service is permitted only for customers who generate less than 20% of their on-site load requirements or whose generating equipment is used for emergency purposes.

**MONTHLY RATE:**

STANDARD

OPTIONAL

Basic Service Charge:

Secondary Metering Voltage \$ 30.00  
Primary Metering Voltage \$130.00  
Subtrans. Metering Voltage \$990.00

Basic Service Charge:

Secondary Metering Voltage \$ 30.00  
Primary Metering Voltage \$130.00  
Subtrans. Metering Voltage \$990.00

Demand Charge:

\$9.16 per kW of billing demand

Demand Charge:

\$0.00 per kW of billing demand

Energy Charge:

1.583¢ per kWh

Energy Charge:

5.879¢ per kWh

The customer may select either standard or optional. Once an option is selected, the customer must remain on that option for twelve (12) consecutive months.

SEVENTEENTH REVISED SHEET NO. 6.081  
CANCELS SIXTEENTH REVISED SHEET NO. 6.081

Continued from Sheet No. 6.080

**BILLING DEMAND:** The highest measured 30-minute interval kW demand during the billing period.

**MINIMUM CHARGE:** The Basic Service Charge and any Minimum Charge associated with optional riders.

**TEMPORARY DISCONTINUANCE OF SERVICE:** Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

**POWER FACTOR:** Power factor will be calculated for customers with measured demands of 1,000 kW or more in any one billing period out of twelve (12) consecutive billing periods ending with the current billing period. When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING VOLTAGE ADJUSTMENT:** When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

**DELIVERY VOLTAGE CREDIT:** When a customer under the standard rate takes service at primary voltage, a discount of 74¢ per kW of billing demand will apply. A discount of \$2.30 per kW of billing demand will apply when a customer under the standard rate takes service at subtransmission or higher voltage.

| (Monday-Friday)    |                             | and<br>6:00 PM - 10:00 PM    |

**Off-Peak Hours:** All other weekday hours, and all hours on Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day shall be off-peak.

**MINIMUM CHARGE:** The Basic Service Charge.

**BASIC SERVICE CHARGE CREDIT:** Any customer who makes a one time contribution in aid of construction of \$94.00 (lump-sum meter payment), shall receive a credit of \$2.00 per month. This contribution in aid of construction will be subject to a partial refund if the customer terminates service on this optional time-of-day rate.

**TERMS OF SERVICE:** A customer electing this optional rate shall have the right to transfer to the standard applicable rate at any time without additional charge for such transaction, except that any customer who requests this optional rate for the second time on the same premises will be required to sign a contract to remain on this rate for at least one (1) year.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 0.151¢ per kWh of billing energy. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

**FUEL CHARGE:** See Sheet Nos. 6.020 and 6.021.

**ENERGY CONSERVATION CHARGE:** See Sheet Nos. 6.020 and 6.021.

TWENTIETH REVISED SHEET NO. 6.330  
CANCELS NINETEENTH REVISED SHEET NO. 6.330

TIME-OF-DAY  
GENERAL SERVICE - DEMAND  
(OPTIONAL)

SCHEDULE: GSDT

RATE CODE: 362

AVAILABLE: Entire service area.

APPLICABLE: To any customer whose energy consumption has exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. Also available to customers with energy consumption at any level below 9,000 kWh per billing period who agree to remain on this rate for at least twelve (12) months. For any billing period that exceeds 35 days, the consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

CHARACTER OF SERVICE: A-C; 60 cycles; 3 phase; at any standard Company voltage.

LIMITATION OF SERVICE: Standby service is permitted only for customers who generate less than 20% of their on-site load requirements or whose generating equipment is used for emergency purposes.

MONTHLY RATE:

Basic Service Charge:

|                                  |          |
|----------------------------------|----------|
| Secondary Metering Voltage       | \$ 30.00 |
| Primary Metering Voltage         | \$130.00 |
| Subtransmission Metering Voltage | \$990.00 |

Demand Charge:

\$3.09 per kW of billing demand, plus  
\$6.07 per kW of peak billing demand

Energy Charge:

2.898¢ per kWh during peak hours  
1.046¢ per kWh during off-peak hours

Exhibit B

SIXTEENTH REVISED SHEET NO. 6.332  
CANCELS FIFTEENTH REVISED SHEET NO. 6.332

Continued from Sheet No. 6.331

**POWER FACTOR:** Power factor will be calculated for customers with measured demands of 1,000 kW in any billing period out of twelve (12) consecutive billing periods ending with the current billing period. When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING VOLTAGE ADJUSTMENT:** When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

**DELIVERY VOLTAGE CREDIT:** When the customer takes service at primary voltage a discount of 74¢ per kW of billing demand will apply. When the customer takes service at subtransmission or higher voltage, a discount of \$2.30 per kW of billing demand will apply.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 60¢ per kW of billing demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

CANCELS EIGHTEENTH REVISED SHEET NO. 6.340

TIME OF DAY  
INTERRUPTIBLE SERVICE  
(CLOSED TO NEW BUSINESS AS OF MAY 7, 2009)

SCHEDULE: IST

RATE CODE: 342.

AVAILABLE: Entire Service Area.

APPLICABLE: To be eligible for service under Rate Schedule IST, a customer must have been taking interruptible service under rate schedules IS-1, IST-1, IS-3, IST-3, SBI-1, or SBI-3 on May 6, 2009 and have signed the Agreement for the Purchase of Industrial Load Management Service under Rate Schedule GSLM-2. When electric service is desired at more than one location, each such location or point of delivery shall be considered as a separate customer. Resale not permitted.

CHARACTER OF SERVICE: The electric energy supplied under this schedule is three phase primary voltage or higher.

LIMITATION OF SERVICE: Standby service is permitted only for customers who generate less than 20% of their on-site load requirements or whose generating equipment is used for emergency purposes.

Basic Service Charge:

|                                  |            |
|----------------------------------|------------|
| Primary Metering Voltage         | \$622.00   |
| Subtransmission Metering Voltage | \$2,372.00 |

Demand Charge:  
\$9.16 per kW-Month of Supplemental Billing Demand (Supplemental Billing Demand Charge)

Energy Charge:  
1.583¢ per Supplemental kWh

**DEFINITIONS OF THE USE PERIODS:** All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight saving time and vice-versa.)

|                    |                             |                              |
|--------------------|-----------------------------|------------------------------|
|                    | <u>April 1 - October 31</u> | <u>November 1 - March 31</u> |
| <u>Peak Hours:</u> | 12:00 Noon - 9:00 PM        | 6:00 AM - 10:00 AM           |
| (Monday-Friday)    |                             | and                          |
|                    |                             | 6:00 PM - 10:00 PM           |

Off-Peak Hours: All other weekday hours, and all hours on Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day shall be off-peak.

**BILLING UNITS:**

Demand Units: Metered Demand - The highest measured 30-minute interval kW demand served by the company during the month.

Site Load - The highest kW total of Customer generation plus deliveries by the company less deliveries to the Company, occurring in the same 30-minute interval, during the month.

Normal Generation - The generation level equaled or exceeded by the Customer's generation 10% of the metered intervals during the previous twelve months.

Supplemental Billing Demand - The amount, if any, by which the highest Site Load during any 30-minute interval in the month exceeds Normal Generation, but no greater than Metered Demand.

Continued to Sheet No. 6.602

ISSUED BY: G. L. Gillette, President

DATE EFFECTIVE:

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 111

Exhibit B

FOURTH REVISED SHEET NO. 6.602  
CANCELS THIRD REVISED SHEET NO. 6.602

Continued from Sheet No. 6.601

**Contract Standby Demand** - As established pursuant to the Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. Anytime a customer registers a Standby Demand that is higher than the existing Contract Standby Demand, that Standby Demand will become the new Contract Standby Demand, beginning with the following period.

**Standby Demand** - The greater of Contract Standby Demand or the amount by which Metered Demand exceeds Supplemental Billing Demand, but no greater than Normal Generation.

**Actual Standby Billing Demand** - The summation of the daily amounts by which the highest on-peak measured 30-minute interval kW demands served by the Company exceed the monthly Supplemental Billing Demand.

**Energy Units:** Energy provided by the Company during each 30-minute period up to the Supplemental Demand level shall be billed as Supplemental kWh. The remaining energy shall be billed as Standby kWh.

**MINIMUM CHARGE:** The Basic Service Charge, Local Facilities Reservation Charge, Power Supply Reservation Charge, and any Minimum Charge associated with optional riders.

**TERM OF SERVICE:** Any customer receiving service under this schedule will be required to give the Company written notice at least 60 months prior to transferring to a firm non-standby schedule. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

**TEMPORARY DISCONTINUANCE OF SERVICE:** Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

**POWER FACTOR:** When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING VOLTAGE ADJUSTMENT:** When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

**DELIVERY VOLTAGE CREDIT:** When the customer takes service at primary voltage, a discount of 74¢ per kW of Supplemental Demand and 62¢ per kW of Standby Demand will apply.

When the customer takes service at subtransmission or higher voltage, a discount of \$2.30 per kW of Supplemental Demand and \$1.92 per kW of Standby Demand will apply.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 60¢ per kW of Supplemental Demand and Standby Demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

**FUEL CHARGE:** See Sheet Nos. 6.020 and 6.021. Note: Standby fuel charges shall be based on the time of use (i.e., peak and off-peak) fuel rates for Rate Schedule SBF. Supplemental fuel charges shall be based on the standard fuel rate for Rate Schedule SBF.

**ENERGY CONSERVATION CHARGE:** See Sheet Nos. 6.020 and 6.021.

**CAPACITY CHARGE:** See Sheet Nos. 6.020 and 6.021.

**CHARGES FOR SUPPLEMENTAL SERVICE**

**Demand Charge:**

\$3.09 per kW-Month of Supplemental Demand (Supplemental Billing Demand Charge), plus  
\$6.07 per kW-Month of Supplemental Peak Demand (Supplemental Peak Billing Demand Charge)

**Energy Charge:**

2.898¢ per Supplemental kWh during peak hours  
1.046¢ per Supplemental kWh during off-peak hours

**DEFINITIONS OF THE USE PERIODS:** All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight saving time and vice-versa.)

|                           |                             |                              |
|---------------------------|-----------------------------|------------------------------|
|                           | <u>April 1 - October 31</u> | <u>November 1 - March 31</u> |
| <b><u>Peak Hours:</u></b> | 12:00 Noon - 9:00 PM        | 6:00 AM - 10:00 AM           |
| (Monday-Friday)           |                             | and                          |
|                           |                             | 6:00 PM - 10:00 PM           |

**Off-Peak Hours:** All other weekday hours, and all hours on Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day shall be off-peak.

**BILLING UNITS:**

**Demand Units:** Metered Demand - The highest measured 30-minute interval kW demand served by the Company during the month.

Metered Peak Demand - The highest measured 30-minute interval kW demand served by the Company during the peak hours.

Site Load - The highest kW total of Customer generation plus deliveries by the company less deliveries to the company, occurring in the same 30-minute interval, during the month.

Exhibit B

THIRD REVISED SHEET NO. 6.607  
CANCELS SECOND REVISED SHEET NO. 6.607

Continued from Sheet No. 6.606

Peak Site Load - The highest 30-minute customer generation plus deliveries by the Company less deliveries to the Company during the peak hours.

Normal Generation - The generation level equaled or exceeded by the customer's generation 10% of the metered intervals during the previous twelve months.

Supplemental Billing Demand - The amount, if any, by which the highest Site Load during any 30-minute interval in the month exceeds Normal Generation, but no greater than Metered Demand.

Supplemental Peak Billing Demand - The amount, if any, by which the highest Peak Site Load during any 30-minute interval in the peak hours exceeds Normal Generation, but no greater than Metered Peak Demand.

Contract Standby Demand - As established pursuant to the Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. Anytime a customer registers a Standby Demand that is higher than the existing Contract Standby Demand, that Standby Demand will become the new Contract Standby Demand, beginning with the following period.

Standby Demand - The greater of Contract Standby Demand or the amount by which Metered Demand exceeds Supplemental Billing Demand, but no greater than Normal Generation.

Actual Standby Billing Demand - The summation of the daily amounts by which the highest on-peak measured 30-minute interval kW demands served by the Company exceed the monthly Supplemental Peak Billing Demand.

Energy Units: Energy provided by the Company during each 30-minute period up to the Supplemental Demand level shall be billed as Supplemental kWh. The remaining energy shall be billed as Standby kWh.

MINIMUM CHARGE: The Basic Service Charge, Local Facilities Reservation Charge, Power Supply Reservation Charge and any Minimum Charge associated with optional riders.

Exhibit B

EIGHTH REVISED SHEET NO. 6.608  
CANCELS SEVENTH REVISED SHEET NO. 6.608

Continued from Sheet No. 6.607

**TERM OF SERVICE:** Any customer receiving service under this schedule will be required to give the Company written notice at least 60 months prior to transferring to a firm non-standby schedule. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

**TEMPORARY DISCONTINUANCE OF SERVICE:** Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

**POWER FACTOR:** When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING VOLTAGE ADJUSTMENT:** When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charges, Energy Charges, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charges, Energy Charges, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

**DELIVERY VOLTAGE CREDIT:** When the customer takes service at primary voltage, a discount of 74¢ per kW of Supplemental Demand and 62¢ per kW of Standby Demand will apply.

When the customer takes service at subtransmission or higher voltage, a discount of \$2.30 per kW of Supplemental Demand and \$1.92 per kW of Standby Demand will apply.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 60¢ per kW of Supplemental Demand and Standby Demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

SIXTH REVISED SHEET NO. 6.700  
CANCELS FIFTH REVISED SHEET NO. 6.700

**INTERRUPTIBLE STANDBY AND SUPPLEMENTAL SERVICE  
(CLOSED TO NEW BUSINESS AS OF MAY 7, 2009)**

**SCHEDULE:** SBI

**RATE CODES:** 348, 349

**AVAILABLE:** Entire service area.

**APPLICABLE:** Required for all self-generating customers eligible for service under rate schedules IS or IST whose generating capacity in kilowatts (exclusive of emergency generation equipment) exceeds 20% of their site load in kilowatts. Also available to self-generating customers eligible for service under rate schedules IS or IST whose generating capacity in kilowatts does not exceed 20% of their site load in kilowatts, but who agree to all the terms and conditions of this rate schedule. To be eligible for service under this rate schedule, a customer must have been taking interruptible service under rate schedules IS-1, IST-1, IS-3, IST-3, SBI-1, or SBI-3 on May 6, 2009 and have signed the Supplemental Tariff Agreement for the Purchase of Industrial Standby and Supplemental Load Management Rider Service. Resale not permitted.

**CHARACTER OF SERVICE:** The electric energy supplied under this schedule is three phase primary voltage or higher

**LIMITATION OF SERVICE:** A customer taking service under this tariff must sign the Tariff Agreement for the Purchase of Standby and Supplemental Service.

**MONTHLY RATE:**

**Basic Service Charge:**

|                                  |            |
|----------------------------------|------------|
| Primary Metering Voltage         | \$647.00   |
| Subtransmission Metering Voltage | \$2,397.00 |

**Demand Charge:**

\$1.45 per KW-Month of Supplemental Demand (Supplemental Demand Charge)  
\$1.45 per KW-Month of Standby Demand (Local Facilities Reservation Charge)

plus the greater of:

\$1.20 per KW-Month of Standby Demand (Bulk Transmission Reservation Charge); or

\$0.48 per KW-Day of Actual Standby Billing Demand (Bulk Transmission Demand Charge)

**POWER FACTOR:** When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING VOLTAGE ADJUSTMENT:** When the customer takes energy metered at subtransmission or higher voltage, a discount of 1% will apply to the standby and supplemental demand charges, energy charges, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charges, and any credits associated with optional riders.

**DELIVERY VOLTAGE CREDIT:** When the customer furnishes and installs all subtransmission or higher voltage to utilization voltage substation transformation, a discount of 40¢ per KW of Supplemental Demand and 33¢ per KW of Standby Demand will apply.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 57¢ per KW of Supplemental Demand and Standby Demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

**VOLTAGE ADJUSTMENT FOR CONTRACT CREDIT VALUE**

The Contract Credit Value (CCV) under Rate Rider GLSM-3 will be reduced by 1% to reflect service at primary voltage, the lowest voltage service provided under this schedule. Additionally, a Metering Voltage Adjustment may apply under this schedule.

**FUEL CHARGE:** Supplemental energy may be billed at either standard or time-of-day fuel rates at the option of the customer. See Sheet Nos. 6.020 and 6.021.

**ENERGY CONSERVATION CHARGE:** See Sheet Nos. 6.020 and 6.021.

**CAPACITY CHARGE:** See Sheet Nos. 6.020 and 6.021.

**ENVIRONMENTAL COST RECOVERY CHARGE:** See Sheet Nos. 6.020 and 6.021.

**FLORIDA GROSS RECEIPTS TAX:** See Sheet No. 6.021.

**FRANCHISE FEE CHARGE:** See Sheet No. 6.021.

**PAYMENT OF BILLS:** See Sheet No. 6.022.

Exhibit B

ORIGINAL SHEET NO. 6.720

ECONOMIC DEVELOPMENT RATE - EDR

**SCHEDULE:** EDR

**AVAILABLE:** Entire service area.

This Rider is available for load associated with initial permanent service to new establishments or the expansion of existing establishments. Service under the Rider is limited to Customers who make application to the Company for service under this Rider, and for whom the Company approves such application. The New Load applicable under this Rider must be a minimum of 350 kW at a single delivery point. To qualify for service under this Rider, the Customer must employ an additional work force of at least 25 full-time equivalent (FTE) employees at the location of the single point of delivery.

Initial application for this Rider is not available to existing load. However, if a change in ownership occurs after the Customer contracts for service under this Rider, the successor Customer may be allowed to fulfill the balance of the contract under Rider EDR and continue the schedule of credits outlined below. This Rider is also not available for renewal of service following interruptions such as equipment failure, temporary plant shutdown, strike, or economic conditions. This Rider is also not available for load shifted from one establishment or delivery point on the Tampa Electric system to another on the Tampa Electric system.

The load and employment requirements under the Rider must be achieved at the same delivery point. Additional metering equipment may be required to qualify for this Rider. The Customer Service Agreement under this Rider must include a description of the amount and nature of the load being provided, the number of FTE's resulting, and documentation verifying that the availability of the Economic Development Rider is a significant factor in the Customer's location/expansion decision.

This Rider will not be available for initial application for service after December 31, 2016.

**LIMITATION OF SERVICE:** The Company reserves the right to limit applications for this Rider when the Company's Economic Development expenses from this Rider and other sources exceed the amount set for the Company under Rule 25-6.0426 FAC.

Service under this Rider may not be combined with service under the Commercial/Industrial Service Rider.

**DEFINITION:** New Load: New Load is that which is added to the Company's system by a new establishment after January 1, 2014. For existing establishments, New Load is the net incremental load above that which existed prior to approval for service under this Rider.

DOCKET NO. 130040-EI  
PAGE 121

Exhibit B

ORIGINAL SHEET NO. 6.725

Continued from Sheet No. 6.720

**DESCRIPTION:** A credit based on the percentages below will be applied to the base demand charges and base energy charges of the Customer's otherwise applicable rate schedule associated with the Customer's New Load:

|   |   |
|---|---|
| Year 1 – 20% reduction in base demand and energy charges* |   |
| Year 2 – 15%  | " |
| Year 3 – 10%  | " |
| Year 4 – 5%   | " |
| Year 5 – 0%   | " |

\* All other charges including basic service, fuel cost recovery, capacity cost recovery, conservation cost recovery, and environmental cost recovery will also be based on the Customer's otherwise applicable rate. The otherwise applicable rates may be any of the following: GSD, GSDT. Any Customer taking service under the CISR Rider is ineligible to take service under this EDR Rider.

**TERM OF SERVICE:** The Customer agrees to a five-year contract term. Service under this Rider will terminate at the end of the fifth year.

The Company may terminate service under this Rider at any time if the Customer fails to comply with the terms and conditions of this Rider. Failure to: 1) maintain the level of employment specified in the Customer's Service Agreement and/or 2) purchase from the Company the amount of load specified in the Customer's Service Agreement may be considered grounds for termination.

**PROVISIONS FOR EARLY TERMINATION:** If the Company terminates service under this Rider for the Customer's failure to comply with its provisions, the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

If the Customer opts to terminate service under this Rider before the term of service specified in the Service Agreement the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

**RULES AND REGULATIONS:** Service under this schedule is subject to orders of governmental bodies having jurisdiction and to the currently effective "General Rules and Regulations for Electric Service" on file with the Florida Public Service Commission. In case of conflict between any provision of this schedule and said "General Rules and Regulations for Electric Service" the provision of this schedule shall apply.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 122

Exhibit B

ORIGINAL SHEET NO. 6.740

**COMMERCIAL/ INDUSTRIAL SERVICE RIDER**

**SCHEDULE:** CISR-2

**AVAILABLE:** Entire Service Area. Available, at the Company's option, to non-residential customers currently taking firm service or qualified to take firm service under the Company's Tariff Schedules GSD or GSDT. Customers desiring to take service under this rider must make a written request for service. Such request shall be subject to the Company's approval with the Company under no obligation to grant service under this rider. Resale not permitted.

This rider will be closed to further subscription by eligible customers when one of the two conditions has occurred: (1) The total capacity subject to executed Contract Service Arrangements ("CSAs") reaches 500 megawatts of connected load or (2) The Company has executed twenty-five (25) CSAs with eligible customers under this rider. These limitations on subscription can be removed or revised by the Commission at any time upon good cause having been shown by the Company.

The Company is not authorized by the Florida Public Service Commission to offer a CSA under this rate schedule in order to shift existing load currently being served by a Florida electric utility pursuant to a tariff rate schedule on file with the Florida Public Service Commission away from that utility to Tampa Electric Company.

**APPLICABLE:** Service provided under this optional rider shall be applicable to all, or a portion of the customer's existing or projected electric service requirements which the customer and the Company have determined, but for the application of this rider, would not be served by the Company and which otherwise qualifies for such service under the terms and conditions set forth herein ("Applicable Load"). Two categories of Applicable Load shall be recognized: Retained Load (existing load at an existing location) and New Load (all other Applicable Load).

Applicable Load must be served behind a single meter and must exceed a minimum level of demand determined from the following provisions:

**Retained Load:** For Customers whose highest metered demand in the past 12 months was less than 10,000 KW, the minimum Qualifying Load would be the greater of 500 KW or 20% of the highest metered demand in the past 12 months; or

For Customers whose highest metered demand in the past 12 months was greater than or equal to 10,000 KW, the minimum Qualifying Load would be 2,000 KW.

**New Load:** 500 KW of installed, connected demand.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 123

Exhibit B

ORIGINAL SHEET NO. 6.745

Continued from Sheet No. 6.740

Any customer receiving service under this Rider must provide the following documentation, the sufficiency of which shall be determined by the Company:

1. Legal attestation by the customer (through an affidavit signed by an authorized representative of the customer) to the effect that, but for the application of this rider to the New or Retained Load, such load would not be served by the Company;
2. Such documentation as the Company may request demonstrating to the Company's satisfaction that there is a viable lower cost alternative (excluding alternatives in which the Company has an ownership or operating interest) to the customer's taking electric service from the Company; and
3. In the case of existing customer, an agreement to provide the Company with a recent energy audit of the customer's physical facility (the customer may have the audit performed by the Company at no expense to the customer) which provides sufficient detail to provide reliable cost and benefit information on energy efficiency improvements which could be made to reduce the customer's cost of energy in addition to any discounted pricing provided under this rider.

**CHARACTER OF SERVICE:**

This optional rider is offered in conjunction with the rates, terms and conditions of the tariff under which the customer takes service and affects the total bill only to the extent that negotiated rates, terms and conditions differ from the rates, terms and conditions of the otherwise applicable rate schedules as provided for under this rider.

**MONTHLY CHARGES:**

Unless specifically noted in this rider or within the CSA, the charges assessed for service shall be those found within the otherwise applicable rate schedules.

**ADDITIONAL BASIC SERVICE CHARGE:**

\$250.00

**DEMAND/ENERGY CHARGES:**

The negotiable charges under this rider may include the Demand and/or Energy Charges as set forth in the otherwise applicable tariff schedule. The specific charges or procedure for calculating the charges under this rider shall be set forth in the negotiated CSA and shall recover all incremental costs the Company incurs in serving the customer plus a contribution to the Company's fixed costs.

ORIGINAL SHEET NO. 6.750

Continued from Sheet No. 6.745

**PROVISIONS AND/OR CONDITIONS ASSOCIATED WITH MONTHLY CHARGES:**

Any negotiated provisions and/or conditions associated with the Monthly Charges shall be set forth in the CSA and may be applied during all or a portion of the term of the CSA. These negotiated provisions and/or conditions may include, but are not limited to, a guarantee by the Company to maintain the level of either the Demand and/or Energy charges negotiated under this rider for a specified period, such period not to exceed the term of the CSA.

**SERVICE AGREEMENT:**

Each customer shall enter into a sole supplier CSA with the Company to purchase the customer's entire requirements for electric service at the service locations set forth in the CSA. For purposes of the CSA "the requirements for electric service" may exclude certain electric service requirements served by the customer's own generation as of the date shown on the CSA. The CSA shall be considered a confidential document. The pricing levels and procedures described within the CSA, as well as any information supplied by the customer through an energy audit or as a result of negotiations or information requests by the Company and any information developed by the Company in connection therewith, shall be treated by the Company as confidential, proprietary information. If the Commission or its staff seeks to review any such information that the parties wish to protect from public disclosure, the information shall be provided with a request for confidential classification under the confidentiality rules of the Commission.

The service agreement, its terms and conditions, and the applicability of this rider to any particular customer or specific load shall be subject to the regulations and orders of the Commission.

Exhibit B

THIRD REVISED SHEET NO. 6.815  
CANCELS SECOND REVISED SHEET NO. 6.815

Continued from Sheet No. 6.810

Miscellaneous Facilities Charges:

| Rate Code | Description                                     | Monthly Facility Charge | Monthly Maintenance Charge |
|-----------|---|-------------------------|----------------------------|
| 563       | Timer   | \$6.81                  | \$1.29                     |
| 569       | PT Bracket (accommodates two post top fixtures) | \$3.85                  | \$0.05                     |

NON-STANDARD FACILITIES AND SERVICES:

The customer shall pay all costs associated with additional company facilities and services that are not considered standard for providing lighting service, including but not limited to, the following:

1. relays;
2. distribution transformers installed solely for lighting service;
3. protective shields;
4. bird deterrent devices;
5. light trespass shields;
6. light rotations;
7. light pole relocations;
8. devices required by local regulations to control the levels or duration of illumination including associated planning and engineering costs;
9. removal and replacement of pavement required to install underground lighting cable; and
10. directional boring.

MINIMUM CHARGE: The monthly charge.

FUEL CHARGE: See Sheet Nos. 6.020 and 6.021.

ENERGY CONSERVATION CHARGE: See Sheet Nos. 6.020 and 6.021.

CAPACITY CHARGE: See Sheet Nos. 6.020 and 6.021.

ENVIRONMENTAL COST RECOVERY CHARGE: See Sheet Nos. 6.020 and 6.021.

FLORIDA GROSS RECEIPTS TAX: See Sheet No. 6.021.

FRANCHISE FEE: See Sheet No. 6.021.

PAYMENT OF BILLS: See Sheet No. 6.022.

SPECIAL CONDITIONS:

On customer-owned public street and highway lighting systems not subject to other rate schedules, the monthly rate for energy served at primary or secondary voltage, at the company's option, shall be 2.462¢ per kWh of metered usage, plus a Basic Service Charge of \$10.50 per month and the applicable additional charges as specified on Sheet Nos. 6.020 and 6.021.

Exhibit B

FIFTH REVISED SHEET NO. 7.203  
CANCELS FOURTH REVISED SHEET NO. 7.203

Continued from Sheet No. 7.202

**13. Vandalism**

The Customer shall be responsible for the cost incurred to repair or replace any Equipment that has been damaged as a result of any cause other than normal wear and tear. The Company shall not be required to make such repair or replacement prior to payment by the Customer for such damage. At the Customer's expense, and at the Company's discretion, the Company may install a luminaire protective shield to protect any Equipment repaired or replaced as a result of vandalism.

**14. Tree Trimming**

The Customer shall arrange for tree trimming by qualified personnel at Customer's sole expense when the installation of, illumination from or maintenance access to the Equipment is obstructed by trees and other vegetation. The Company will not be responsible for trimming trees for lighting installation or illumination obstruction. Failure to maintain adequate clearance around the luminaire and pole may cause a delay in requested repairs or required maintenance.

**15. Termination, Removal**

The Customer shall have the right to terminate this Agreement without any liability or obligation to the Company during the three (3) business day period following the Effective Date ("Initial Termination Period"), provided that written notice of such termination is received by the Company no later than the close of business on the third business day following the Effective date. In addition, the Customer may terminate this Agreement during the period that commences at the close of the Initial Termination Period and ends at 5:00 p.m. on the date immediately preceding the date on which installation of the Equipment at the Installation Site is scheduled to commence ("Final Termination Period"), provided that written notice of such termination is received by the Company no later than 5:00 p.m. on the day immediately preceding the date on which installation of the Equipment commences and, provided further, that the Customer reimburses the Company for any costs incurred by the Company up to the time of the termination by the Customer. These costs include, but are not limited to, shipping and storeroom handling cost for items purchased pursuant to or in contemplation of the Agreement, restocking fees on returned purchases, the cost of purchased Equipment that cannot be returned, or in the Company's sole judgment, reasonably absorbed in current inventory, and engineering time. The Customer may not terminate this Agreement once installation of the Equipment has commenced.

The company may, at its option and on five (5) days written notice to Customer, terminate this agreement in the event that:

- (a) the Customer fails to pay the Company for any of the services provided herein;
- (b) the Customer violates the terms of this agreement;
- (c) a petition for adjudication of bankruptcy or for reorganization or rearrangement is filed by Customer pursuant to any federal or state bankruptcy law or similar federal or state law; or
- (d) a trustee or receiver is appointed to take possession of the Installation Site (or if Customer is a tenant at the Installation Site, tenant's interest in the Installation Site) and possession is not restored to Tenant within thirty (30) days.

Continued to Sheet No. 7.204

ISSUED BY: G. L. Gillette, President

DATE EFFECTIVE:

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 129

Exhibit B

FIFTH REVISED SHEET NO. 7.204  
CANCELS FOURTH REVISED SHEET NO. 7.204

Continued from Sheet No. 7.203

If such termination occurs prior to the expiration of the current term, the Customer agrees to pay the Company, as liquidated damages, an amount equal to the net present value of the monthly rate for each service taken, less all applicable fuel and other adjustment clause charges, and (where applicable) franchise fees and taxes, for each month of the unexpired current term.

**16. Easements**

The customer covenants that it owns or controls the Installation Site or has binding arrangements with the owner to the extent necessary to grant the Company an easement to permit performance of the Agreement. If a tenant of the Installation Site, Customer represents that Customer's lease is for a term of at least the Primary Term. The Customer and the owner or landlord of the Installation Site, if other than the Customer (individually, the "Grantor" collectively, the "Grantors"), hereby grant the Company a **Non-exclusive Easement** for ingress and egress over and under the Installation Site for installation, inspection, operation, maintenance, repair, replacement, and removal of the Equipment. The easement shall terminate upon the Company's removal of the Equipment. The Equipment shall remain the Company's personal property, notwithstanding the manner or mode of its attachment to the Installation Site and shall not be deemed fixtures. Any claim(s) that the Company has or may hereafter have with respect to the Equipment shall be superior to any lien, right or claim of any nature that any Grantor or anyone claiming through Grantor now has or may hereafter have with respect to the Equipment by law, agreement or otherwise.

In the event that this agreement is terminated pursuant to Paragraph 15 or expires pursuant to Paragraph 10, each of the Grantors expressly grants the Company or its assigns or agents the continued right of entry at any reasonable time to remove the Equipment, or any part hereof, from the Installation Site. The Grantors, individually or collectively, shall make no claim whatsoever to the Equipment or any interest or right therein.

**17. Attachments**

In no event shall the Customer, or any other Grantor, place upon or attach to the Equipment, except with the Company's prior written consent and as set forth in Tampa Electric's "Guidelines for Attaching Banners to TEC Poles," any sign or device of any nature, or place, install or permit to exist, anything, including trees or shrubbery, which would interfere with the Equipment or tend to create a dangerous condition. The Company is hereby granted the right to remove, without liability, anything placed, installed, or existing in violation of this paragraph.

**18. Insurance**

Customer, at his sole cost and expense, shall maintain insurance, in amounts and under policy forms satisfactory to Company at all times during the life of this Agreement. Failure to provide insurance in accordance with this Section shall constitute a material breach of this Agreement.

**19. Amendments**

During the term of this Agreement, Company and Customer may amend or enter into additional addenda to the Agreement ("Addenda") upon the mutual written agreement of both parties in the form of Addendum "A" hereto.

Exhibit B

EIGHTH REVISED SHEET NO. 7.205  
CANCELS SEVENTH REVISED SHEET NO. 7.205

Continued from Sheet No. 7.204

**20. Light Trespass**

Customer acknowledges and agrees that the Customer is solely responsible for specifying the general location of the Equipment and the direction and orientation of the illumination provided thereby. The Company will not be required to install or continue to operate the Equipment at any location where the service may be or has become objectionable to others. If it is found either during or after installation that the illumination is objectionable to others, the Customer shall be responsible for the costs incurred to relocate, remove, or shield the Equipment in addressing the objection unless the Customer is otherwise able to fully address and satisfy the third-party objections in question. In the event removal of any Equipment is the only practicable resolution of the objection, such removal will be deemed a termination prior to the expiration of the Primary Term as provided in Paragraph 15 and Customer promptly shall pay the Company the liquidated damages specified therein for the percentage or portion of the Equipment that must be removed.

**21. Assignments**

This Agreement shall inure to the benefit of, and be binding upon, the respective heirs, legal representatives, successors and assigns of the parties hereto. This Agreement may be assigned by the Customer only with the Company's prior written consent. In the event of an Assignment, the assignee may be substituted herein for the Customer and/or other Grantor with respect to all Customer rights and obligations, but the initial Customer shall not be released from the obligations of this Agreement except by a separate writing from the Company in the Company's sole discretion.

**22. General**

No delay or failure by the Customer or the Company to exercise any right under this Agreement shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

This Agreement shall be construed in accordance with and governed by the laws of the State of Florida.

IN WITNESS WHEREOF, the parties, each of whom represents and warrants that he or she is duly authorized to execute this Agreement, have caused this instrument to be executed in due form of law.

5. The Customer expressly agrees to reserve and make available to the Company space on the Customer's premises for the installation of the Company's notification and metering equipment. The Customer shall properly protect the Company's property on the Customer's premises and shall permit no one but the Company's agents, or persons authorized by law, to have access to the Company's equipment. The Customer shall, as promptly as practicable, notify the Company concerning any noticeable faulty condition or malfunction of the Company's equipment.

6. The initial term of this Agreement shall be 30 days. The Customer is required to give the Company 30-day notice in advance of discontinuing service under the GSSG-1 rider attached as Exhibit "A", said minimum notice requirement being specified in Exhibit "A". The term of this Agreement shall automatically extend beyond such initial term until such time as the Company has had the minimum number of days notice of the Customer's desire no longer to participate in the program as is provided for in Exhibit "A".

7. The Company may terminate this Agreement at any time for the Customer's failure to comply with the terms and conditions of Schedule GSSG-1 or this Agreement. Such termination will only affect the application of the GSSG-1 rider. Prior to any such termination, the Company shall notify the Customer at least thirty (30) days in advance and describe the Customer's failure to comply. The Company may then terminate this Agreement at the end of the 30-day period. If the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly billing credits specified in Schedule GSSG-1.

8. This Agreement may be terminated if the same is required in order to comply with the regulatory rulings.

9.a The Customer shall indemnify, hold harmless and defend the Company from and against any and all liability, proceedings, suits, costs or expenses, for loss or damage to property or for injury to persons, in any manner directly or indirectly connected with, or arising out of, the use of standby generator transfer service on the Customer's side of the point of delivery or out of the Customer's negligent acts or omissions.

b. With respect to a Customer that is the state, a state agency or subdivision (as those terms are defined in Section 768.28(2), Florida Statutes, or the successor thereto), the obligations of Customer set forth in Paragraph 9.a above shall be subject to Section 768.28 (or the successor thereto), including the limitations contained therein. With respect to a Customer that is the United States of America, or agency or subdivision thereof, the obligations set forth in Paragraph 9.a shall not apply. In either case, the Company reserves its rights under

Section 768.28 (or the successor thereto), and the Federal Tort Claims Act (or the successor thereto), as applicable, including, but not limited to, the right to pursue legislative relief.

In either case, the Company reserves its rights under Section 768.28 (or the successor thereto), and the Federal Tort Claims Act (or the successor thereto), as applicable, including, but not limited to, the right to pursue legislative relief.

10. This Agreement supersedes all previous agreements and representations, either written or oral, heretofore made between the Company and the Customer with respect to matters herein contained. Any modification(s) to this Agreement must be approved, in writing, by the Company and the Customer.

11. This Agreement incorporates by reference the applicable terms of the tariff filed with the Florida Public Service Commission by Tampa Electric, as amended from time to time. To the extent of any conflict between this agreement and such tariff, the agreement shall control.

12. This Agreement may not be assigned by the Customer without the prior written consent of the Company. This Agreement shall inure to the benefit of, and be binding upon, the respective heirs, legal representatives, successors and assigns of the parties hereto. IN WITNESS WHEREOF, the Customer and the Company have caused this Agreement to be executed by their duly authorized representatives as of the day and year first above written.

CANCELS FIRST REVISED SHEET NO. 7.750

**CONTRACT SERVICE ARRANGEMENT FOR THE PROVISION OF SERVICE UNDER  
THE COMMERCIAL / INDUSTRIAL SERVICE RIDER**

This Contract Service Arrangement ("Agreement") is made and entered into as of this \_\_\_\_\_ day of \_\_\_\_\_, by and between \_\_\_\_\_, (hereinafter called in the "Customer") and Tampa Electric Company, a Florida corporation (hereinafter called the "Company").

**WITNESSETH:**

**WHEREAS**, the Company is an electric utility operating under Chapter 366, Florida Statutes, subject to the jurisdiction of the Florida Public Service Commission or any successor agency thereto (hereinafter called the "Commission"); and

**WHEREAS**, the Customer is \_\_\_\_\_; and

**WHEREAS**, the Customer can receive electric service from the Company under tariff schedule \_\_\_\_\_ at the service location described in Exhibit "A"; and

**WHEREAS**, the present pricing available under the Company's rate schedule \_\_\_\_\_ is sufficient economic justification for the Customer to decide not to take electric service from the Company for all or a part of the Customer's needs; and

**WHEREAS**, the Customer has shown evidence and attested to its intention to not take electric service from the Company unless a pricing adjustment is made under the Company's Commercial / Industrial Service Rider ("CISR-2"); and

**WHEREAS**, the Company has sufficient capacity to serve the Customer at the aforementioned service location for the foreseeable future and for at least the following \_\_\_\_\_ month period; and

**WHEREAS**, the Company is willing to make a pricing adjustment for the Customer in exchange for a commitment by the Customer to continue to purchase electric energy exclusively from the Company at agreed upon service locations (for purposes of this Agreement, the "electric energy" may exclude certain electric service requirements served by the Customer's own generation as of the date of this Agreement);

**NOW THEREFORE**, in consideration of the mutual covenants expressed herein, the Company and Customer agree as follows:

Continue to Sheet No. 7.751

SECOND REVISED SHEET NO. 7.751  
CANCELS FIRST REVISED SHEET NO. 7.751

Continued from Sheet No. 7.750

1. Rate Schedules - The Company agrees to furnish and the Customer agrees to take power pursuant to the terms and conditions of the Company's tariff, rate schedule \_\_\_\_\_ and the CISR-2 rider, as currently approved by the Commission or as said tariff and rate schedules may be modified in the future and approved by the Commission (except as described in Section 6 herein). The Customer agrees to abide by all applicable requirements of the tariff, rate schedule \_\_\_\_\_ and CISR-2, except to the extent specifically modified by this Agreement. Copies of the Company's currently approved rate schedule \_\_\_\_\_ and CISR-2 rider are attached as Exhibit "B" and made a part hereof. In the event of any conflict between the terms of this Agreement and such tariff or rate schedule (other than as set out in CISR-2) the terms of this Agreement shall control.
2. Term of Agreement - This Agreement shall remain in force for a term of \_\_\_\_\_ months commencing on the date above first written.
3. Modifications to Tariff and Rate Schedule - See Exhibit "C" to this Agreement.
4. Exclusivity Provision - During the term hereof, the Customer agrees to purchase from the Company the Customer's entire requirements for electric capacity and energy for its facilities and equipment at the service location(s) described in Exhibit A to this Agreement. The "entire requirements for electric capacity and energy" may exclude certain electric service requirements served by the Customer's own generation as of the date of this Agreement.
5. Termination Fees and Provisions - See Exhibit "D" to this Agreement.
6. Modification of Rate Schedule - In the event that any provision of any applicable rate schedules is amended or modified by the Commission in a manner that is material and adverse to one of the parties hereto, that party shall be entitled to terminate this Agreement, by written notice to the other party tendered not later than sixty (60) days after such amendment or modification becomes final and nonappealable, with such termination to become effective \_\_\_\_\_ days after receipt of such notice, whereupon service to the Customer shall revert to the otherwise applicable rate schedules available to the Customer.

7. Entire Agreement - This Agreement supersedes all previous agreements and representations either written or oral heretofore made between the Company and the Customer with respect to the matters herein contained. This Agreement, when duly executed, constitutes the only agreement between the parties hereto relative to the matters herein described.
8. Incorporation of Tariff - This Agreement incorporates by reference the terms and conditions of the Company's tariff, rate schedule \_\_\_\_\_ and CISR-2 rider filed by the Company with, and approved by, the Commission, as amended from time to time. In the event of any conflict between this Agreement and such tariff or rate schedule (other than as set out in CISR-2), the terms and conditions of this Agreement shall control.
9. Notices - All notices and other communications hereunder shall be in writing and shall be delivered by hand, by prepaid first class registered or certified mail, return receipt requested, by courier or by facsimile, addressed as follows:

Except as otherwise expressly provided in this Agreement, all notices and other communications shall be deemed effective upon receipt. Each party shall have the right to designate a different address for notices to it by notice similarly given.

10. Assignment; No Third Party Beneficiaries - This Agreement shall inure to the benefit of and shall bind the successors and assigns of the parties hereto. No assignment of any rights or delegation of any obligations hereunder shall have the effect of releasing the assigning party of any of its obligations hereunder, and the assigning party shall remain primarily liable and responsible therefore notwithstanding any such assignment or delegation. Nothing in this Agreement shall be construed to confer a benefit on any person not a signatory party hereto or such signatory party's successors and assigns.

11. Waiver - At its option, either party may waive any or all of the obligations of the other party contained in this Agreement, but waiver of any obligation or any breach of this Agreement by either party shall in no event constitute a waiver as to any other obligation or breach or any future breach, whether similar or dissimilar in nature, and no such waiver shall be binding unless in writing signed by the waiving party.

12. Headings - The section and paragraph headings contained in the Agreement are for reference purposes only and shall not affect, in any way, the meaning or interpretation of this Agreement.
13. Counterparts - This Agreement may be executed simultaneously in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
14. Dispute Resolution - All disputes arising between the Customer and the Company under this Agreement shall be finally decided by the Commission in accordance with the applicable rules and procedures of the Commission.
15. Governing Law - This Agreement shall be construed and enforced in accordance with the laws of the State of Florida.
16. Confidentiality - The pricing levels and procedures described within this Agreement, as well as any information supplied by the Customer through an energy audit or as a result of negotiations or information requests by the Company and any information developed by the Company in connection therewith are considered confidential, proprietary information of the parties. If requested, such information shall be made available for review by the Commission and its staff only and such review shall be made under the confidentiality rules of the Commission.

10. This Agreement supersedes all previous agreements or representations, either written or oral, heretofore in effect between the Company and the Customer, made in respect to matters herein contained and, when duly executed, this Agreement constitutes the entire Agreement between the parties hereto.
11. Except for those claims, losses and damages arising out of Company's sole negligence, the Customer agrees to defend, at its own expense, and indemnify the Company for any and all claims, losses and damages, including attorney's fees and costs, which arise or are alleged to have arisen out of operation of or damage to the Facilities. For purposes of this paragraph, "Company" shall be defined as Tampa Electric Company, its parent, TECO Energy, Inc., and all subsidiaries and affiliates thereof, and each of their respective officers, directors, affiliates, insurers, representatives, agents, employees, contractors, or parent, sister, or successor corporations.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed the day and year first above written.

APPENDIX A

Long-Term Facilities

Monthly Rental and Termination Factors

The Monthly Rental factor to be applied to the in-place value of the facilities as identified in the Long-Term Agreement is 1.19% per month plus applicable taxes.

If the Long-Term Rental Agreement for Facilities is terminated, a Termination Fee shall be computed by applying the following Termination Factors to the in-place value of the facilities based on the year in which the Agreement is terminated:

| Year Agreement<br>is Terminated | Termination<br>Factors<br>% |
|---------------------------------|-----------------------------|
| 1                               | 3.9                         |
| 2                               | 7.5                         |
| 3                               | 10.8                        |
| 4                               | 13.8                        |
| 5                               | 16.4                        |
| 6                               | 18.7                        |
| 7                               | 20.6                        |

Exhibit B

SECOND REVISED SHEET NO. 7.885  
CANCELS FIRST REVISED SHEET NO. 7.885

#### ARTICLE 1 – DEFINITIONS

- 1.1 "Base Revenue" is the portion of electric revenue received by the Company for electric service to the Premises consisting only of applicable base demand charges, base non-fuel energy charges and facilities rental charges, if applicable. Base Revenue excludes, without limitation, capacity, basic service, energy conservation, environmental, and fuel and purchased power recovery charges, franchise fees, and taxes.
- 1.2 "Baseline Base Revenue" equals the Base Revenue, if any, received for electric service at the Premises for the twelve-month period prior to the In-Service Date. If electric service has existed for less than twelve months prior to the In-Service Date, the Baseline Base Revenue will be calculated by averaging the monthly Base Revenue for those months that the electric service has existed prior to the In-Service Date and multiplying that average monthly Base Revenue by twelve. If no electric service has been provided at the Premises prior to the In-Service Date, the Baseline Base Revenue shall be zero. If the requested expanded electric service to the Premises will be measured by new metering, separate and apart from any metering of existing service to the Premises, there shall be no need to calculate Baseline Base Revenue and the Incremental Base Revenue shall be all Base Revenue received for electric service measured by the new metering during the Performance Guarantee Period.
- 1.3 "Incremental Base Revenue" is Base Revenue received during the Performance Guaranty Period for electric service rendered to the Premises in excess of Baseline Base Revenue.
- 1.4 "Performance Guaranty Period" is the period of time commencing with the In-service Date, and ending on the fifth anniversary of the In-Service Date ("Expiration Date").
- 1.5 "Performance Guaranty Amount" is the dollar amount calculated in 2.2 below.

#### ARTICLE II - PERFORMANCE GUARANTEE AMOUNT

- 2.1 For purposes of this Agreement, Incremental Base Revenue shall equal the amount remaining after any applicable previously calculated Baseline Base Revenue is subtracted from the total Base Revenue received by the Company from the Customer for electric service to the Premises during the Performance Guarantee Period.
- 2.2 The Performance Guaranty Amount is the cost, as determined by the Company, of the required system expansion less Customer's Contribution in Aid of Construction ("CIAC") multiplied by a factor of 1.53. The Customer agrees to provide Company a Performance Guaranty Amount in the amount specified in the table below prior to Company installing the Facilities necessary to provide the electric service to serve the Premises.

SECOND REVISED SHEET NO. 7.920  
CANCELS FIRST REVISED SHEET NO. 7.920

ARTICLE I – DEFINITIONS

- 1.1 "Relocated Facilities"– Customer facilities that have been dismantled or removed from one site on the customer's lands and reconstructed or relocated to the Premises in support of expanded mining activity within a specified region of customer lands within the Company's service territory.
- 1.2 "Expanded Facilities"– new Customer facilities built at or near the Premises to support expanded mining operations within a specified region of Customer lands within the Company's service territory.
- 1.3 "Base Revenue" is the portion of electric revenue received by the Company for electric service to the Premises consisting only of applicable base demand charges, base non-fuel energy charges and facilities rental charges, if applicable. Base Revenue excludes, without limitation, capacity, basic service, energy conservation, environmental, and fuel and purchased power recovery charges, franchise fees, and taxes.
- 1.4 "Baseline Base Revenue" equals the Base Revenue, if any, received for electric service at the current Premises (in the case of Expanded Mining Facilities) or at the former location (in the case of Relocated Mining Facilities), for the twelve-month period prior to the In-Service Date. If electric service has existed for less than twelve months prior to the In-Service Date, the Baseline Base Revenue will be calculated by averaging the monthly Base Revenue for those months that the electric service has existed prior to the In-Service Date and multiplying that average monthly Base Revenue by twelve. If no electric service has been provided at the Premises prior to the In-Service Date, the Baseline Base Revenue shall be zero. If the requested expanded electric service to the Premises will be measured by new metering, separate and apart from any metering of existing service to the Premises, there shall be no need to calculate Baseline Base Revenue and the Incremental Base Revenue shall be all Base Revenue received for electric service measured by the new metering during the Performance Guarantee Period.
- 1.5 "Incremental Base Revenue" is Base Revenue received during the Performance Guaranty Period for electric service rendered to the Premises in excess of Baseline Base Revenue.
- 1.6 "Performance Guaranty Period" is the period of time commencing with the In-service Date, and ending on the fifth anniversary of the In-Service Date ("Expiration Date").
- 1.7 "Performance Guaranty Amount" is the dollar amount calculated in 2.2 below

**CHARGES/CREDITS TO QUALIFYING FACILITY**

**A. Basic Service Charges**

A monthly Basic Service Charge will be rendered for maintaining an account for a Qualifying Facility engaged in either an As-Available Energy or Firm Capacity and Energy transaction and for other applicable administrative costs. Actual charges will depend on how the QF is interconnected to the Company.

QFs not directly interconnected to the Company, will be billed \$990 monthly as a Basic Service Charge.

Monthly Basic Service charges, applicable to QFs directly interconnected to the Company, by Rate Schedule are:

| Rate<br>Schedule | Basic Service<br>Charge (\$) | Rate<br>Schedule | Basic Service<br>Charge (\$) |
|------------------|------------------------------|------------------|------------------------------|
| RS               | 15.00                        | GST              | 20.00                        |
| GS               | 18.00                        | GSDT (secondary) | 30.00                        |
| GSD (secondary)  | 30.00                        | GSDT (primary)   | 130.00                       |
| GSD (primary)    | 130.00                       | GSDT (subtrans.) | 990.00                       |
| GSD (subtrans.)  | 990.00                       | SBFT (secondary) | 55.00                        |
| SBF (secondary)  | 55.00                        | SBFT (primary)   | 155.00                       |
| SBF (primary)    | 155.00                       | SBFT (subtrans.) | 1,015.00                     |
| SBF (subtrans.)  | 955.00                       | IST (primary)    | 622.00                       |
| IS (primary)     | 622.00                       | IST (subtrans.)  | 2,372.00                     |
| IS (subtrans.)   | 2,372.00                     |                  |                              |
| SBI (primary)    | 647.00                       |                  |                              |
| SBI (subtrans.)  | 2,397.00                     |                  |                              |

When appropriate, the Basic Service Charge will be deducted from the Qualifying Facility's monthly payment. A statement of the charges or payments due the Qualifying Facility will be rendered monthly. Payment normally will be made by the twentieth business day following the end of the billing period.

SECOND REVISED SHEET NO. 8.312  
CANCELS FIRST REVISED SHEET NO. 8.312

Continued from Sheet No. 8.308

Should the CEP elect a Net Billing Arrangement, the hourly net capacity and energy sales delivered to the purchasing utility shall be purchased at the utility's avoided capacity and energy rates, where applicable, in accordance with FPSC Rules 25-17.0825 and 25-17.0832, F.A.C. Purchases from the interconnecting utility shall be billed at the retail rate schedule, under which the CEP load would receive service as a customer of the utility.

Although a billing option may be changed in accordance with FPSC Rule 25-17.082, F.A.C., the Contracted Capacity may only change through mutual negotiations satisfactory to the CEP and the Company.

Basic Service charges that are directly attributable to the purchase of firm capacity and energy from the CEP are deducted from the CEP's total monthly payment. A statement covering the charges and payments due the CEP is rendered monthly and payment normally is made by the 20<sup>th</sup> business day following the end of the Monthly Period.

**CHARGES/CREDITS TO THE CEP:**

1. **Basic Service Charges:** A monthly Basic Service Charge will be rendered for maintaining an account for the CEP engaged in either an As-Available Energy or firm capacity and energy transaction and for other applicable administrative costs. Actual charges will depend on how the CEP is interconnected to the Company.

CEPs not directly interconnected to the Company, will be billed \$990 monthly as a Basic Service Charge.

Monthly Basic Service charges, applicable to CEPs directly interconnected to the Company, by Rate Schedule are:

| RATE<br>SCHEDULE | BASIC SERVICE<br>CHARGE (\$) | RATE<br>SCHEDULE | BASIC SERVICE<br>CHARGE (\$) |

FIRST REVISED SHEET NO. 8.314  
CANCELS ORIGINAL SHEET NO. 8.314

If CEP takes service under Rate Rider GSLM-2 or GSLM-3, an additional Basic Service Charge of \$200.00 will apply.

When appropriate, the Basic Service Charge will be deducted from the CEP's monthly payment. A statement of the charges or payments due the CEP will be rendered monthly. Payment normally will be made by the 20<sup>th</sup> business day following the end of the billing period.

2. **Interconnection Charge for Non-Variable Utility Expenses:** The CEP shall bear the cost required for interconnection including the metering. The CEP shall have the option of payment in full for interconnection or make equal monthly installment payments over a 36 month period together with interest at the rate then prevailing for 30 days highest grade commercial paper; such rate to be determined by the Company 30 days prior to the date of each payment.
3. **Interconnection Charge for Variable Utility Expenses:** The CEP shall be billed monthly for the cost of variable utility expenses associated with the operation and maintenance of the interconnection. These costs include a) the Company's inspections of the interconnection and b) maintenance of any equipment beyond that which would be required to provide normal electric service to the CEP with respect to other Customers with similar load characteristics.
4. **Taxes and Assessments:** The CEP shall be billed monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its purchases of firm capacity and energy produced by the CEP.

If the Company obtains any tax savings as a result of its purchases of firm capacity and energy produced by the CEP, which tax savings would not have otherwise been obtained, those tax savings shall be credited to the CEP.

5. **Emission Allowance Clause:** Subject to approval by the FPSC, the CEP shall receive a monthly credit, to the extent the Company can identify the same, equal to the value, if any, of any reduction in the number of air emission allowances used by the Company as a result of its purchase of firm capacity and energy produced by the EP; provided that no such credit shall be given if the cost of compliance associated with air emission standards is included in the determination of full avoided cost.

**TERMS OF SERVICE:**

1. It shall be the CEP's responsibility to inform the Company of any change in its electric generation capability.

EIGHTH NINTH REVISED SHEET NO. 3.200  
CANCELS SEVENTH ~~EIGHTH~~ REVISED SHEET NO. 3.200

**STANDBY GENERATOR RIDER**

SCHEDULE: GSSG-1

AVAILABLE: At the option of the customer, available to commercial and industrial customers on rate schedule GSD, GSDT, SBF, and SBFT who sign a Tariff Agreement for the Provision of Standby Generator Transfer Service.

CHARACTER OF SERVICE: Upon notification by Tampa Electric Company, electric service to all or a portion of the customer's firm load will be transferred by the customer to a standby generator(s) for service.

MONTHLY CREDITS: Credits will be applied each billing period to the regular bill submitted under the GSD, GSDT, SBF, or SBFT rate schedule, for credits generated in the previous billing period.

Credit:

\$4.004.75/KW/Month payment for Average Transferable Demand of a customer's load to a standby generator(s).

INITIAL TRANSFERABLE DEMAND: To begin participation under this tariff, Initial Transferable Demand will be determined by Tampa Electric in the field at the customer's site by transferring the customer's normal load to the standby generator(s).

AVERAGE TRANSFERABLE DEMAND: For a control month, Transferable Demand is calculated by totaling the KWH produced by the standby generator(s) during all the control(s) in the month divided by the total control hours in the month (less the 30 minute customer response time to transfer load per control). This demand is then averaged with the calculated Transferable Demands from the previous service months (for a maximum of eleven) to determine the Average Transferable Demand. For non-control months, the Average Transferable Demand is the average of the calculated Transferable Demands of the previous twelve months.

NOTIFICATION SCHEDULE: All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight savings time and vice versa.)

Normally the Company will notify customers to transfer load to standby generator(s) during the prime hours. These periods are:

CANCELS ORIGINAL FIRST REVISED SHEET NO. 3.255

#### NET METERING SERVICE

**SCHEDULE:** NM-1

**AVAILABLE:** Entire Service Area.

**APPLICABLE:** This schedule is applicable to a customer who:

1. Takes retail electric service from Tampa Electric under an otherwise applicable rate schedule (OAS) at their premises;
2. Uses a renewable electrical generating facility ("Eligible Customer Generator") with a capacity of not more than 2,000 kilowatts that is located on the customer's owned, leased, or rented premises and that is intended primarily to offset part or all of the customer's own electrical requirements;
3. Is interconnected and operates in parallel with Tampa Electric's transmission or distribution systems; and
4. Provides Tampa Electric with a completed signed Standard Interconnection Agreement (SIA) for Tier 1, Tier 2 or Tier 3 Renewable Generator Systems.

A customer who owns, rents or leases a premises that includes an Eligible Customer Generator, that was previously approved by Tampa Electric for interconnection prior to the customer moving in and/or taking electric service with Tampa Electric (Change of Party Customer), will take service on this tariff as long as the requirements of this section are met. To be eligible, the Change of Party Customer must have a completed signed SIA.

At the NM-1 customer's sole discretion, service may be taken under one of Tampa Electric's standby rate schedules SBF or SBFT with or without GSLM-3, if it is not already their OAS. Customers taking service under IS or IST schedules who take NM-1 service may, at their sole discretion, choose to take service under one of Tampa Electric's standby rate schedule SBI, as applicable, if it is not already their OAS.

**MONTHLY RATE:** All rates charged under this schedule will be in accordance with the Eligible Customer Generator's OAS. A Customer served under this schedule is responsible for all charges from its OAS including monthly minimum charges, customer basic service charges, meter charges, facilities charges, demand charges and surcharges. Charges for energy (kWh) supplied by Tampa Electric will be based on the net metered usage in accordance with Billing (see below).

CANCELS SECOND THIRD REVISED SHEET NO. 4.010

#### TECHNICAL TERMS AND ABBREVIATIONS

**Alternating Current**

An electric current that reverses its direction at regularly recurring intervals.

**Ampere**

The common unit of electric current flow.

**Applicant**

Any person, partnership, association, corporation or governmental agency controlling or responsible for the development of a new subdivision, business, industry, community, geographic area or dwelling unit and applying for the construction of electric facilities to serve such facility or the conversion, relocation or removal of existing electric facilities which serve such facility.

**Authority Having Jurisdiction (AHJ)**

A person or agency authorized to inspect and approve electrical installations.

**Auxiliary Service**

The type of electric service which is furnished or made available by the Company for a portion of a Customer's electrical energy requirements which ordinarily is furnished by the Customer from some other source of electrical supply.

**Available Fault Current**

The maximum current available from the utility source that may occur in a fault condition.

**Avoided Costs**

The incremental costs to an electric utility of electric energy or capacity or both which, but for the purchase from the qualifying facility or facilities, such utility would generate itself or purchase from another source.

**Basic Service Charge**

A charge comprised of the cost of meter and service equipment, a portion of the cost of distribution equipment (poles, wires, transformers) plus the recurring cost of reading the meter, calculating and mailing the bill, processing payment, and maintaining the customer's records.

ISSUED BY: J. B. Ramil G. L. Gillette,  
President

DATE EFFECTIVE: March 11, 2002

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 152

Exhibit B

SIXTH SEVENTH REVISED SHEET NO. 4.040  
CANCELS FIFTH SIXTH REVISED SHEET NO. 4.040

**Current**

The volume of electric energy in amperes flowing through a conductor.

**Customer**

Any present or prospective user of the Company's electric service, his authorized representative (builder, architect, engineer, electrical contractor, etc.) or others for whose benefit the electric service under this tariff is made (property owner, landlord, tenant, renter, occupant, etc.). When electric service is desired at more than one location, each such location or delivery point shall be considered as a separate customer.

**Customer Facilities Charge**

A charge comprised of the return on the Company's investment in a customer's meter and service equipment plus the recurring cost of reading the meter, calculating and mailing the bill, processing payment, and maintaining the customer's records.

**Delivery Point (Point of Attachment, Point of Delivery)**

The point where the Company wiring interfaces with the customer wiring, and where the customer assumes the responsibility for further delivery and use of the electricity.

**Delta Connection**

A three-phase electrical connection where the electrical service is connected in a triangular configuration.

**Demand**

The magnitude of electric load of an installation. Demand may be expressed in kilowatts, kilovolt-amperes, or other suitable units.

**Demand Charge**

The specified charge to be billed on the basis of the demand under an applicable rate schedule.

**Difficult Trenching Conditions**

Trenching through soil which contains considerable rock, is unstable, has a high water table, and/or has obstructions that unduly impede trenching at normal speeds with machines or requires extensive hand digging or shoring.

**Distribution System**

Electric service facilities consisting of primary and secondary conductors, service laterals, transformers and necessary accessories and appurtenances for the furnishing of electric power at utilization voltage (13 kV and below on the Company's system).

**Drawing**

Drawings illustrating technical specification and requirements for electric service are published separately in the Tampa Electric Standard Electrical Service Requirements Manual which is available upon request at any Tampa Electric Company office.

PAGE 153

Exhibit B

SECOND ~~THIRD~~ REVISED SHEET NO. 4.070  
CANCELS FIRST SECOND REVISED SHEET NO. 4.070

#### Interconnection Costs

All costs associated with the change-out, upgrading or addition of protective devices, transformers, lines, services, meters, switches, and associated equipment and devices beyond those which would be required to provide normal service to the qualifying facility if no cogeneration were involved.

#### Kilovar (KVAR)

Reactive power is that portion of the apparent power which is not available to do work. Reactive power is required to furnish charging current to magnetic or electrostatic equipment connected to a system.

#### Kilovolt-Ampere (KVA)

It is the product of the volts times the amperes, divided by 1,000, where the amperes represent the vectorial sum of the ampere current that is in step with the alternating voltage (representing the current to do useful work) and the reactive ampere current flowing in the circuit.

#### Kilowatt (KW) (1000 watts)

A watt is the electrical unit of power or rate of doing work. It is equal to one ampere flowing under the pressure of one volt at unity power factor.

#### Kilowatt-Hour (KWH)

Kilowatts times time in hours.

#### Light-Emitting Diode (LED)

A semiconductor light source.

#### Line Extension

That extension of the circuit to be added to the existing circuit.

#### Load

- (1) The customer's equipment requiring electrical power.
- (2) The quantity of electric power required by the customer's equipment, usually expressed in kilowatts or horsepower.

#### Load Balance

SECOND-THIRD REVISED SHEET NO. 4.080  
CANCELS FIRST-SECOND REVISED SHEET NO. 4.080

**Low-Density Subdivision**

A subdivision having a density of at least 1.0 dwelling units but less than 6 dwelling units per acre.

**Lumen**

A unit of light measurement. The intensity of light delivered by one standard candle at a distance of one foot is approximately one (1) lumen.

**Luminaire**

A lighting fixture for ~~Street~~ street and area lighting.

**Main Distribution System**

That part of the Company's Distribution System which does not include overhead service drops, underground service laterals or lighting systems.

**Main Switch (Disconnect)**

A customer-owned device used to disconnect the customer's total load from the Company's system.

**Manufactured Home (includes Mobile Home and Trailer)**

A factory assembled structure equipped with the necessary service connections and made so as to be readily moveable as a unit without a permanent foundation.

**Metal Halide**

A lamp using argon-xenon and mercury as a medium for street and area lighting.

**Metering Room**

A room in a customer's facility existing solely for the metering equipment.

**Meter Socket Enclosure**

A meter socket enclosure is a device that provides support and means of electrical connection to a watt-hour meter. It has a wiring chamber with provisions for conduit entrances and exits, and a means of sealing the meter in place.

**Multiple Occupancy Buildings**

ISSUED BY: ~~J. B. Ramil~~ G. L. Gillette,  
President

Exhibit B

FOURTH FIFTH REVISED SHEET NO. 4.090  
CANCELS THIRD FOURTH REVISED SHEET NO. 4.090

**Overhead Service**

Wiring and associated facilities normally installed by the Company on poles to serve the customer.

**Ownership Line**

The point where the Company's facilities connect with the customer's facilities.

**Pedestal**

A meter socket enclosure mounted on a post and fed from an underground source.

**Power Factor**

Ratio of kilowatts to kilovolt-amperes.

**Premises**

The property location of customer or Company equipment.

**Primary Distribution Service**

The delivery of electricity transformed from the transmission system to a distribution service voltage, typically 13kV, whereby the customer may utilize such voltage and is responsible for providing the transformation facilities to reduce the voltage for any secondary distribution service voltage requirement.

**Primary Voltage**

The voltage level in a local geographic area which is available after the Company has provided transformation from the transmission system.

**Qualifying Facility**

A cogenerator or small power producer which obtains qualifying status under Section 201 of PURPA and Subpart B of FERC regulations.

**Raceway**

A mechanical structure for supporting wiring, conduits or bus.

**Rate Schedule**

The approved standard used for calculation of bills.

Relay Service

Premium service supplied to a customer from more than one distinct source capable of automatic or customer controlled manual switching upon loss of the preferred source. A distinct source is a distribution source originating from a unique distribution substation transformer.

ISSUED BY: C-R-Black G. L. Gillette,  
President

Exhibit B

THIRD FOURTH REVISED SHEET NO. 4.100  
CANCELS SECOND THIRD REVISED SHEET NO. 4.100

**Relay Service**

Premium service supplied to a customer from more than one distinct source capable of automatic or customer-controlled manual switching upon loss of the preferred source. A distinct source is a distribution source originating from a unique distribution substation transformer.

**Renewable Energy**

Electrical energy produced from renewable sources defined in applicable Florida Statutes.

**Residential Service**

Service to customers in private residences and individually metered apartments and condominiums when all energy is used for domestic purposes.

**Right-of-Way**

The established path for the installation of the Company's wiring on public property.

**Rules and Regulations**

The approved standards and methods for service to the Company's customers.

**Rural**

Outside the geographical limits of any incorporated cities, except areas which exhibit urban characteristics.

**Secondary Distribution Service**

The delivery of electricity transformed to the lowest utilized service voltage, typically ranging from 120 volts to 480 volts.

**Service**

- (1) The supply of the Company's product, "Electrical Energy", measured in kilowatt-hours and kilowatt demand.
- (2) The conductors and equipment for delivering energy from the electricity supply system to the wiring system of the premises served.

**Service Area**

The established geographical boundaries of the Company.

**Service Drop**

The overhead service conductor(s) from the last pole or other aerial support to and including the connections to the service entrance conductors at the building.

**Service Entrance**

ISSUED BY: C. R. Black, G. L. Gillette,  
President

**Townhouse**

A single family dwelling unit in a group of such units contained in a building where each unit is separated only by fire walls. Each townhouse unit is normally constructed upon a separate lot and serviced with separate utilities.

**Transformer**

The device which changes voltage levels.

**Transmission System**

The network of high voltage lines and associated equipment, typically ranging from 69 kV to 230 kV, which are used to move electrical power from generating resources to load centers where it is transformed to a lower primary distribution voltage for distribution to customers.

**Underground Commercial Distribution (UCD)**

The wiring, transformers, and other related equipment required to distribute electrical energy to a commercial customer or customers.

**Underground Residential Distribution (URD)**

The wiring, transformers, and other related equipment required to distribute electrical energy to a residential customer or multiple residential customers.

**Underground Service**

The wiring system and associated equipment which is placed on or in the earth, as opposed to pole line construction.

**Urban**

Inside the geographical limits of an incorporated city, or having the characteristics of such an area in terms of use and density.

**Vault**

An isolated ventilated enclosure for electrical equipment with fire-resistant walls, ceiling and floor which personnel may enter and in which transformers and switching equipment are installed, operated, and maintained.

**Voltage**

The electrical pressure of a circuit expressed in volts. Generally, the nominal rating based on the maximum normal effective difference of potential between the conductors of a circuit.

**Voltage Dip**

A momentary reduction of voltage level.

**Watt**

The basic unit of electrical power (see Kilowatt).

**Weather Head Weatherhead**

A device used at the service entrance to prevent water from entering the service mast or riser.

FIFTH SIXTH REVISED SHEET NO. 5.090  
CANCELS FOURTH FIFTH REVISED SHEET NO. 5.090

Continued from Sheet No. 5.080

#### 2.2.5 LIMITATION ON CONSEQUENTIAL DAMAGES

The Customer shall not be entitled to recover from the Company for loss of use of any property or equipment, loss of profits or income, loss of production, rental expenses for replacement of property or equipment, diminution in value of property, expenses to restore operations, loss of goods or products, or any other consequential, indirect, unforeseen, incidental or special damages.

#### 2.3 ——— COMPANY EQUIPMENT ON PRIVATE PROPERTY

An easement will be required where necessary for the Company to locate its facilities on property not designated as a public right-of-way to serve the customer on whose property the facilities are to be located. Service drops, service laterals and area light services are the exception to the ~~proceeding~~ preceding rule. If a service drop is expected to serve future customers, an easement should be obtained. Easements will also be required where it is necessary for the Company's facilities to cross over property not designated as public right-of-way to serve customers other than the property owner. Normal distribution easements will be 15 feet wide, but easements will vary in dimensions depending upon the type of facility necessary. All matters pertaining to easements will be handled directly with the appropriate representative in the Company office serving the area in question.

In the event that the Company's facilities are located on a customer's property to serve the customer, and if it becomes desirable to relocate these facilities due to expansion of the customer's building or other facilities, or for other reasons initiated by the customer, the Company will, where feasible, relocate its facilities. The Company may require that all costs associated with the requested relocation or removal be charged to the customer making the request.

#### 2.4 ——— ELECTRIC SYSTEM RELOCATIONS

In subdivided property in general, the Company endeavors to locate its facilities such that they are in the immediate vicinity of a lot line. This may not be possible due to subdivision replatting or inability of the Company to so locate its facilities. In rural areas facilities are located so as to provide the most efficient electrical distribution system.

If a customer desires that a guy wire, pole or other facility be relocated, the Engineering Department at the nearest Company office should be contacted. Consideration will be given to each case; and if practicable, the Company will relocate such facility to the vicinity of the nearest lot line or to the desired location. The Company may require that all costs associated with the requested relocation or removal be charged to the customer making the request.

ISSUED BY: W. N. Cantrell G. L.  
Gillette, President

DATE EFFECTIVE: October 15, 2004

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 164

Exhibit B

SIXTH SEVENTH REVISED SHEET NO. 5.180  
CANCELS FIFTH SIXTH REVISED SHEET NO. 5.180

Continued from Sheet No. 5.175

Where the company's facilities are reasonably adequate and of sufficient capacity to carry the actual loads normally imposed, the company may require that the equipment on the Customer's premises shall be such that the starting and operating characteristics will not cause an instantaneous voltage drop of more than 4% of the standard voltage, measured at the point of delivery, or cause objectionable flicker to other Customer's service.

#### 2.17 EMERGENCY RELAY POWER SUPPLY

The Company will receive applications for emergency relay power supply service from existing and/or new customers and reserves the right to approve or disapprove each application based upon need, location, feasibility, availability and size of load.

After receiving approval, the Company ~~may~~ will require that all costs of any duplication of additional facilities required by the customer in excess of the facilities normally furnished by the Company for a single source, single transformation, electric service installation, be charged to the customer making the request. This shall include the cost of existing facilities being reserved at a charge of \$31.78 per kW.

Customers requesting relay service through a single point of delivery to a multi-served facility, must ensure that all new occupants of the multi-served facility beyond the single point of delivery are aware of the obligation to pay charges associated with relay service. All existing occupants (i.e. occupants with leases predating the request for relay service to a multi-served facility) may choose not to pay the relay service charge at the time service is provided but must pay the charge upon renewal of the existing lease. Any unrecovered revenues related to the relay service charge will be billed to the customer requesting relay service for the multi-served facility.

Exceptions may be made by the Company when public safety is involved.

### III. CUSTOMER SERVICES AND WIRING

#### 3.1 GENERAL REQUIREMENTS FOR CUSTOMER WIRING

As previously stated, compliance of customer owned facilities with the requirements of the National Electrical Code will provide the customer with a safe installation, but not necessarily an efficient or convenient installation.

**RESIDENTIAL SERVICE**

**SCHEDULE:** RS

**RATE CODE:** 110, 111, 120, 121, 130, 131, 170, 171, 180, 181.

**AVAILABLE:** Entire service area.

**APPLICABLE:** To residential consumers in individually metered private residences, apartment units, and duplex units. All energy must be for domestic purposes and should not be shared with or sold to others. In addition, energy used in commonly-owned facilities in condominium and cooperative apartment buildings will qualify for this rate schedule, subject to the following criteria:

1. 100% of the energy is used exclusively for the co-owners' benefit.
2. None of the energy is used in any endeavor which sells or rents a commodity or provides service for a fee.
3. Each point of delivery will be separately metered and billed.
4. A responsible legal entity is established as the customer to whom the Company can render its bills for said service.

Resale not permitted.

**LIMITATION OF SERVICE:** This schedule includes service to single phase motors rated up to 7.5 HP. Three phase service may be provided where available for motors rated 7.5 HP and over.

**MONTHLY RATE:**

~~Customer Facilities~~Basic Service Charge:  
\$10.5015 00

**Energy and Demand Charge:**

|                    |                     |
|--------------------|---------------------|
| First 1,000 kWh    | 4.4954 598¢ per kWh |
| All additional kWh | 5.4955 598¢ per kWh |

**MINIMUM CHARGE:** The ~~Customer Facilities~~Basic Service Charge.

**FUEL CHARGE:** See Sheet Nos. 6.020 and 6.021.

GENERAL SERVICE - NON DEMAND

**SCHEDULE:** GS

**RATE CODE:** 200, 201, 920.

**AVAILABLE:** Entire service area.

**APPLICABLE:** For lighting and power in establishments not classified as residential whose energy consumption has not exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

**CHARACTER OF SERVICE:** Single or 3 phase, 60 cycles and approximately 120 volts or higher, at Company's option.

**LIMITATION OF SERVICE:** All service under this rate shall be furnished through one meter. Standby service permitted on Schedule GST only.

**MONTHLY RATE:**

~~Customer Facilities Charge~~ Basic Service Charge:

|                     |               |
|---------------------|---------------|
| Metered accounts    | \$10.50 18.00 |
| Un-metered accounts | \$ 9.00 15.00 |

Energy and Demand Charge:

4.8454 899¢ per kWh

**MINIMUM CHARGE:** The ~~Customer Facilities~~ Basic Service Charge.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 0.151¢ per kWh of billing energy. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

GENERAL SERVICE - DEMAND

SCHEDULE: GSD

RATE CODE: 360, 364, 365.

AVAILABLE: Entire service area.

APPLICABLE: To any customer whose energy consumption has exceeded 9,000 kWh in any one of the prior twelve (12) consecutive billing periods ending with the current billing period. Also available to customers with energy consumption at any level below 9,000 kWh per billing period who agree to remain on this rate for at least twelve (12) months. For any billing period that exceeds 35 days, the energy consumption shall be prorated to that of a 30-day amount for purposes of administering this requirement. Resale not permitted.

CHARACTER OF SERVICE: A-C; 60 cycles; 3 phase; at any standard Company voltage.

LIMITATION OF SERVICE: Standby service is permitted only for customers who generate less than 20% of their on-site load requirements or whose generating equipment is used for emergency purposes.

MONTHLY RATE:

STANDARD

OPTIONAL

Customer Facilities Basic Service Charge:

Secondary Metering Voltage \$  
Primary Metering Voltage 57-0030.00  
Subtrans. mission Metering \$130.00  
Voltage \$830.00990  
00

Customer Facilities Basic Service Charge:

Secondary Metering Voltage \$  
Primary Metering Voltage 57-0030.00  
Subtrans. mission Metering \$130.00  
Voltage \$830.00990  
00

Demand Charge:

\$8.419 16 per kW of billing demand

Demand Charge:

\$0.00 per kW of billing demand

Energy Charge:

1.583¢ per kWh

Energy Charge:

5.814879¢ per kWh

The customer may select either standard or optional. Once an option is selected, the customer must remain on that option for twelve (12) consecutive months.

SIXTEENTH SEVENTEENTH REVISED SHEET NO. 6.081  
CANCELS FIFTEENTH SIXTEENTH REVISED SHEET NO.  
6.081

Continued from Sheet No. 6.080

**BILLING DEMAND:**— The highest measured 30-minute interval kW demand during the billing period.

**MINIMUM CHARGE:**— The Customer Facilities Basic Service Charge and any Minimum Charge associated with optional riders.

**TEMPORARY DISCONTINUANCE OF SERVICE:** Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

**POWER FACTOR:**

Power factor will be calculated for customers with measured demands of 1,000 kW or more in any one billing period out of twelve (12) consecutive billing periods ending with the current billing period. When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING LEVEL DISCOUNT VOLTAGE ADJUSTMENT:** When the customer takes energy metered at primary voltage, a discount of 1% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

When the customer takes energy metered at subtransmission or higher voltage, a discount of 2% will apply to the Demand Charge, Energy Charge, Transformer Ownership Discount Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credits from optional riders.

**TRANSFORMER OWNERSHIP DISCOUNT DELIVERY VOLTAGE CREDIT:**— When a customer under the standard rate takes service at primary voltage, a discount of 7374¢ per kW of billing demand will apply. A discount of \$1462.30 per kW of billing demand will apply when a customer under the standard rate takes service at subtransmission or higher voltage.

TWENTY-SECOND ~~TWENTY-THIRD~~ REVISED SHEET NO.  
6.350  
CANCELS TWENTY-FIRST ~~TWENTY-SECOND~~ REVISED  
SHEET NO. 6.350

Continued from Sheet No. 6.345

METERING LEVEL DISCOUNT VOLTAGE ADJUSTMENT: When the customer takes energy metered at subtransmission or higher voltage, a discount of 1% of the energy and demand charge will apply to the Demand Charge, Energy Charge, Transformer—Ownership Discount, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charge, and any credit associated with optional riders.

TRANSFORMER OWNERSHIP DISCOUNT DELIVERY VOLTAGE CREDIT: When the customer furnishes and installs all subtransmission or higher voltage to utilization voltage substation transformation, a discount of 40¢ per KW of billing demand will apply.

EMERGENCY RELAY POWER SUPPLY CHARGE: The monthly charge for emergency relay power supply service shall be 57¢ per KW of billing demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

VOLTAGE ADJUSTMENT FOR CONTRACT CREDIT VALUE

The Contract Credit Value (CCV) under Rate Rider GLSM-2 will be reduced by 1% to reflect service at primary voltage, the lowest voltage service provided under this schedule. Additionally, a Metering Level Discount Voltage Adjustment may apply under this schedule.

FUEL CHARGE: See Sheet Nos. 6.020 and 6.021.

ENERGY CONSERVATION CHARGE: See Sheet Nos. 6.020 and 6.021.

CAPACITY CHARGE: See Sheet Nos. 6.020 and 6.021.

ENVIRONMENTAL COST RECOVERY CHARGE: See Sheet Nos. 6.020 and 6.021.

FLORIDA GROSS RECEIPTS TAX: See Sheet No. 6.021.

FRANCHISE FEE CHARGE: See Sheet No. 6.021.

PAYMENT OF BILLS: See Sheet No. 6.025.

NINTH TENTH REVISED SHEET NO. 6.600  
CANCELS EIGHTH NINTH REVISED SHEET NO. 6.600

**FIRM STANDBY AND SUPPLEMENTAL SERVICE**

**SCHEDULE:** SBF

**RATE CODE:** 359

**AVAILABLE:** Entire service area.

**APPLICABLE:** Required for all self-generating Customers whose generating capacity in kilowatts (exclusive of emergency generation equipment) exceeds 20% of their site load in kilowatts and who take firm service from the utility. Also available to self-generating Customers whose generating capacity in kilowatts does not exceed 20% of their site load in kilowatts, but who agree to all the terms and conditions of this rate schedule. Resale not permitted.

**CHARACTER OF SERVICE:** A-C; 60 cycles; 3 phase; at any standard company voltage.

**LIMITATION OF SERVICE:** A customer taking service under this tariff must sign a Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. (See Sheet No. 7.600)

**MONTHLY RATE:**

Customer Facilities Basic Service Charge:

|                                  |                  |
|----------------------------------|------------------|
| Secondary Metering Voltage       | \$ 82.0055.00    |
| Primary Metering Voltage         | \$155.00         |
| Subtransmission Metering Voltage | \$955.001,015.00 |

**CHARGES FOR STANDBY SERVICE:**

**Demand Charge:**

\$ 2,331.92 per kW-Month of Standby Demand  
(Local Facilities Reservation Charge)

plus the greater of:

|             |   |

**CHARGES FOR SUPPLEMENTAL SERVICE:**

**Demand Charge:**

\$8.44<sup>9</sup>/<sub>16</sub> per kW-Month of Supplemental Billing Demand (Supplemental Billing Demand Charge)

**Energy Charge:**

1.583¢ per Supplemental kWh

**DEFINITIONS OF THE USE PERIODS:** All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight saving time and vice-versa.)

|                           |                             |                              |
|---------------------------|-----------------------------|------------------------------|
|                           | <u>April 1 - October 31</u> | <u>November 1 - March 31</u> |
| <b><u>Peak Hours:</u></b> | 12:00 Noon - 9:00 PM        | 6:00 AM - 10:00 AM           |
| (Monday-Friday)           |                             | and                          |
|                           |                             | 6:00 PM - 10:00 PM           |

**Off-Peak Hours:** All other weekday hours, and all hours on Saturdays, Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day shall be off-peak.

**BILLING UNITS:**

**Demand Units:** Metered Demand - The highest measured 30-minute interval kW demand served by the company during the month.

Site Load - The highest kW total of Customer generation plus deliveries by the company less deliveries to the Company, occurring in the same 30-minute interval, during the month.

Normal Generation - The generation level equaled or exceeded by the Customer's generation 10% of the metered intervals during the previous twelve months.

Supplemental Billing Demand - The amount, if any, by which the highest Site Load during any 30-minute interval in the month exceeds Normal Generation, but no greater than Metered Demand.

Exhibit B

THIRD-FOURTH REVISED SHEET NO. 6.602  
CANCELS SECOND THIRD REVISED SHEET NO. 6.602

Continued from Sheet No. 6.601

**Contract Standby Demand** - As established pursuant to the Tariff Agreement for the Purchase of Firm Standby and Supplemental Service. Anytime a customer registers a Standby Demand that is higher than the existing Contract Standby Demand, that Standby Demand will become the new Contract Standby Demand, beginning with the following period.

**Standby Demand** - The greater of Contract Standby Demand or the amount by which Metered Demand exceeds Supplemental Billing Demand, but no greater than Normal Generation.

**Actual Standby Billing Demand** - The summation of the daily amounts by which the highest on-peak measured 30-minute interval kW demands served by the Company exceed the monthly Supplemental Billing Demand.

**Energy Units:** Energy provided by the Company during each 30-minute period up to the Supplemental Demand level shall be billed as Supplemental kWh. The remaining energy shall be billed as Standby kWh.

**MINIMUM CHARGE:** The Customer—FacilitiesBasic Service Charge, Local Facilities Reservation Charge, —Power Supply Reservation Charge, and any Minimum Charge associated with optional riders.

**TERM OF SERVICE:** Any customer receiving service under this schedule will be required to give the Company written notice at least 60 months prior to transferring to a firm non-standby schedule. Such notice shall be irrevocable unless the Company and the customer should mutually agree to void the notice.

**TEMPORARY DISCONTINUANCE OF SERVICE:** Where the use of energy is seasonal or intermittent, no adjustments will be made for a temporary discontinuance of service. Any customer prior to resuming service within 12 months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

**POWER FACTOR:** When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

THIRD-FOURTH REVISED SHEET NO. 6.715  
CANCELS SECOND THIRD REVISED SHEET NO. 6.715

Continued from Sheet No. 6.710

**POWER FACTOR:** When the average power factor during the month is less than 85%, the monthly bill will be increased \$0.002 for each kVARh by which the reactive energy numerically exceeds 0.619744 times the billing energy. When the average power factor during the month is greater than 90%, the monthly bill will be decreased \$0.001 for each kVARh by which the reactive energy is numerically less than 0.484322 times the billing energy.

**METERING LEVEL DISCOUNT VOLTAGE ADJUSTMENT:** When the customer takes energy metered at subtransmission or higher voltage, a discount of 1% will apply to the standby and supplemental demand charges, energy charges, Transformer Ownership Discounts, Delivery Voltage Credit, Power Factor billing, Emergency Relay Power Supply Charges, and any credits associated with optional riders.

**TRANSFORMER OWNERSHIP DISCOUNT DELIVERY VOLTAGE CREDIT:** When the customer furnishes and installs all subtransmission or higher voltage to utilization voltage substation transformation, a discount of 40¢ per KW of Supplemental Demand and 33¢ per KW of Standby Demand will apply.

**EMERGENCY RELAY POWER SUPPLY CHARGE:** The monthly charge for emergency relay power supply service shall be 57¢ per KW of Supplemental Demand and Standby Demand. This charge is in addition to the compensation the customer must make to the Company as a contribution-in-aid of construction.

**VOLTAGE ADJUSTMENT FOR CONTRACT CREDIT VALUE**

The Contract Credit Value (CCV) under Rate Rider GLSM-3 will be reduced by 1% to reflect service at primary voltage, the lowest voltage service provided under this schedule. Additionally, a Metering Level Discount Voltage Adjustment may apply under this schedule.

**FUEL CHARGE:** Supplemental energy may be billed at either standard or time-of-day fuel rates at the option of the customer. See Sheet Nos. 6.020 and 6.021.

**ENERGY CONSERVATION CHARGE:** See Sheet Nos. 6.020 and 6.021.

**CAPACITY CHARGE:** See Sheet Nos. 6.020 and 6.021.

**ENVIRONMENTAL COST RECOVERY CHARGE:** See Sheet Nos. 6.020 and 6.021.

**FLORIDA GROSS RECEIPTS TAX:** See Sheet No. 6.021.

**FRANCHISE FEE CHARGE:** See Sheet No. 6.021.

**PAYMENT OF BILLS:** See Sheet No. 6.022.

Exhibit B

ORIGINAL SHEET NO. 6.720

ECONOMIC DEVELOPMENT RATE - EDR

SCHEDULE: EDR

AVAILABLE: Entire service area

This Rider is available for load associated with initial permanent service to new establishments or the expansion of existing establishments. Service under the Rider is limited to Customers who make application to the Company for service under this Rider, and for whom the Company approves such application. The New Load applicable under this Rider must be a minimum of 350 kW at a single delivery point. To qualify for service under this Rider, the Customer must employ an additional work force of at least 25 full-time equivalent (FTE) employees at the location of the single point of delivery.

Initial application for this Rider is not available to existing load. However, if a change in ownership occurs after the Customer contracts for service under this Rider, the successor Customer may be allowed to fulfill the balance of the contract under Rider EDR and continue the schedule of credits outlined below. This Rider is also not available for renewal of service following interruptions such as equipment failure, temporary plant shutdown, strike, or economic conditions. This Rider is also not available for load shifted from one establishment or delivery point on the Tampa Electric system to another on the Tampa Electric system.

The load and employment requirements under the Rider must be achieved at the same delivery point. Additional metering equipment may be required to qualify for this Rider. The Customer Service Agreement under this Rider must include a description of the amount and nature of the load being provided, the number of FTE's resulting, and documentation verifying that the availability of the Economic Development Rider is a significant factor in the Customer's location/expansion decision.

This Rider will not be available for initial application for service after December 31, 2016.

LIMITATION OF SERVICE: The Company reserves the right to limit applications for this Rider when the Company's Economic Development expenses from this Rider and other sources exceed the amount set for the Company under Rule 25-6.0426 FAC.

Service under this Rider may not be combined with service under the Commercial/Industrial Service Rider.

DEFINITION: New Load: New Load is that which is added to the Company's system by a new establishment after January 1, 2014. For existing establishments, New Load is the net incremental load above that which existed prior to approval for service under this Rider.

Exhibit B

ORIGINAL SHEET NO. 6.725

Continued from Sheet No. 6.720

DESCRIPTION: A credit based on the percentages below will be applied to the base demand charges and base energy charges of the Customer's otherwise applicable rate schedule associated with the Customer's New Load.

|   |   |
|---|---|
| Year 1 – 20% reduction in base demand and energy charges* |   |
| Year 2 – 15%  | " |
| Year 3 – 10%  | " |
| Year 4 – 5%   | " |
| Year 5 – 0%   | " |

\* All other charges including basic service, fuel cost recovery, capacity cost recovery, conservation cost recovery, and environmental cost recovery will also be based on the Customer's otherwise applicable rate. The otherwise applicable rates may be any of the following: GSD, GSDT. Any Customer taking service under the CISR Rider is ineligible to take service under this EDR Rider.

TERM OF SERVICE: The Customer agrees to a five-year contract term. Service under this Rider will terminate at the end of the fifth year.

The Company may terminate service under this Rider at any time if the Customer fails to comply with the terms and conditions of this Rider. Failure to 1) maintain the level of employment specified in the Customer's Service Agreement and/or 2) purchase from the Company the amount of load specified in the Customer's Service Agreement may be considered grounds for termination.

PROVISIONS FOR EARLY TERMINATION: If the Company terminates service under this Rider for the Customer's failure to comply with its provisions, the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

If the Customer opts to terminate service under this Rider before the term of service specified in the Service Agreement, the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

RULES AND REGULATIONS: Service under this schedule is subject to orders of governmental bodies having jurisdiction and to the currently effective "General Rules and Regulations for Electric Service" on file with the Florida Public Service Commission. In case of conflict between any provision of this schedule and said "General Rules and Regulations for Electric Service" the provision of this schedule shall apply.

Exhibit B

ORIGINAL SHEET NO. 6.740

COMMERCIAL/ INDUSTRIAL SERVICE RIDER

SCHEDULE: CISR-2

AVAILABLE: Entire Service Area Available at the Company's option to non-residential customers currently taking firm service or qualified to take firm service under the Company's Tariff Schedules GSD or GSDT. Customers desiring to take service under this rider must make a written request for service. Such request shall be subject to the Company's approval with the Company under no obligation to grant service under this rider. Resale not permitted.

This rider will be closed to further subscription by eligible customers when one of the two conditions has occurred: (1) The total capacity subject to executed Contract Service Arrangements ("CSAs") reaches 500 megawatts of connected load or (2) The Company has executed twenty-five (25) CSAs with eligible customers under this rider. These limitations on subscription can be removed or revised by the Commission at any time upon good cause having been shown by the Company.

The Company is not authorized by the Florida Public Service Commission to offer a CSA under this rate schedule in order to shift existing load currently being served by a Florida electric utility pursuant to a tariff rate schedule on file with the Florida Public Service Commission away from that utility to Tampa Electric Company.

APPLICABLE: Service provided under this optional rider shall be applicable to all, or a portion of the customer's existing or projected electric service requirements which the customer and the Company have determined, but for the application of this rider, would not be served by the Company and which otherwise qualifies for such service under the terms and conditions set forth herein ("Applicable Load"). Two categories of Applicable Load shall be recognized: Retained Load (existing load at an existing location) and New Load (all other Applicable Load).

Applicable Load must be served behind a single meter and must exceed a minimum level of demand determined from the following provisions:

Retained Load: For Customers whose highest metered demand in the past 12 months was less than 10,000 KW, the minimum Qualifying Load would be the greater of 500 KW or 20% of the highest metered demand in the past 12 months, or

For Customers whose highest metered demand in the past 12 months was greater than or equal to 10,000 KW, the minimum Qualifying Load would be 2,000 KW.

New Load: 500 KW of installed, connected demand.

DOCKET NO. 130040-EI  
PAGE 197

Exhibit B

ORIGINAL SHEET NO. 6.745

Continued from Sheet No. 6.740

Any customer receiving service under this Rider must provide the following documentation, the sufficiency of which shall be determined by the Company:

1. Legal attestation by the customer (through an affidavit signed by an authorized representative of the customer) to the effect that, but for the application of this rider to the New or Retained Load, such load would not be served by the Company;
2. Such documentation as the Company may request demonstrating to the Company's satisfaction that there is a viable lower cost alternative (excluding alternatives in which the Company has an ownership or operating interest) to the customer's taking electric service from the Company; and
3. In the case of existing customer, an agreement to provide the Company with a recent energy audit of the customer's physical facility (the customer may have the audit performed by the Company at no expense to the customer) which provides sufficient detail to provide reliable cost and benefit information on energy efficiency improvements which could be made to reduce the customer's cost of energy in addition to any discounted pricing provided under this rider.

**CHARACTER OF SERVICE:**

This optional rider is offered in conjunction with the rates, terms and conditions of the tariff under which the customer takes service and affects the total bill only to the extent that negotiated rates, terms and conditions differ from the rates, terms and conditions of the otherwise applicable rate schedules as provided for under this rider.

**MONTHLY CHARGES:**

Unless specifically noted in this rider or within the CSA, the charges assessed for service shall be those found within the otherwise applicable rate schedules.

**ADDITIONAL BASIC SERVICE CHARGE:**

\$250.00

**DEMAND/ENERGY CHARGES:**

The negotiable charges under this rider may include the Demand and/or Energy Charges as set forth in the otherwise applicable tariff schedule. The specific charges or procedure for calculating the charges under this rider shall be set forth in the negotiated CSA and shall recover all incremental costs the Company incurs in serving the customer plus a contribution to the Company's fixed costs.

ORIGINAL SHEET NO. 6.750

Continued from Sheet No. 6.745

**PROVISIONS AND/OR CONDITIONS ASSOCIATED WITH MONTHLY CHARGES:**

Any negotiated provisions and/or conditions associated with the Monthly Charges shall be set forth in the CSA and may be applied during all or a portion of the term of the CSA. These negotiated provisions and/or conditions may include, but are not limited to, a guarantee by the Company to maintain the level of either the Demand and/or Energy charges negotiated under this rider for a specified period, such period not to exceed the term of the CSA.

**SERVICE AGREEMENT:**

Each customer shall enter into a sole supplier CSA with the Company to purchase the customer's entire requirements for electric service at the service locations set forth in the CSA. For purposes of the CSA "the requirements for electric service" may exclude certain electric service requirements served by the customer's own generation as of the date shown on the CSA. The CSA shall be considered a confidential document. The pricing levels and procedures described within the CSA, as well as any information supplied by the customer through an energy audit or as a result of negotiations or information requests by the Company and any information developed by the Company in connection therewith, shall be treated by the Company as confidential proprietary information. If the Commission or its staff seeks to review any such information that the parties wish to protect from public disclosure, the information shall be provided with a request for confidential classification under the confidentiality rules of the Commission.

The service agreement, its terms and conditions, and the applicability of this rider to any particular customer or specific load shall be subject to the regulations and orders of the Commission.

NON-STANDARD FACILITIES AND SERVICES:

The customer shall pay all costs associated with additional company facilities and services that are not considered standard for providing lighting service, including but not limited to, the following:

1. relays;
2. distribution transformers installed solely for lighting service;
3. protective shields;
4. bird deterrent devices;
5. light trespass shields;
6. light rotations;
7. light pole relocations;
8. devices required by local regulations to control the levels or duration of illumination including associated planning and engineering costs;
9. removal and replacement of pavement required to install underground lighting cable; and
10. directional boring.

MINIMUM CHARGE: The monthly charge.

FUEL CHARGE: See Sheet Nos. 6.020 and 6.021.

ENERGY CONSERVATION CHARGE: See Sheet Nos. 6.020 and 6.021.

CAPACITY CHARGE: See Sheet Nos. 6.020 and 6.021.

ENVIRONMENTAL COST RECOVERY CHARGE: See Sheet Nos. 6.020 and 6.021.

FLORIDA GROSS RECEIPTS TAX: See Sheet No. 6.021.

FRANCHISE FEE: See Sheet No. 6.021.

PAYMENT OF BILLS: See Sheet No. 6.022.

SPECIAL CONDITIONS:

On customer-owned public street and highway lighting systems not subject to other rate schedules, the monthly rate for energy served at primary or secondary voltage, at the company's option, shall be 2.462¢ per kWh of metered usage, plus a customer charge ~~Basic Service Charge~~ of \$10.50 per month and the applicable additional charges as specified on Sheet Nos. 6.020 and 6.021.

Exhibit B

FOURTH FIFTH REVISED SHEET NO. 7.203  
CANCELS THIRD FOURTH REVISED SHEET NO. 7.203

Continued from Sheet No. 7.202

**13. Vandalism**

The Customer shall be responsible for the cost incurred to repair or replace any Equipment that has been damaged as a result of any cause other than normal wear and tear. The Company shall not be required to make such repair or replacement prior to payment by the Customer for such damage. At the Customer's expense, and at the Company's discretion, the Company may install a luminaire protective shield to protect any Equipment repaired or replaced as a result of vandalism.

**14. Tree Trimming**

The Customer shall arrange for tree trimming by qualified personnel at Customer's sole expense when the installation of, illumination from or maintenance access to the Equipment is obstructed by trees and other vegetation. The Company will not be responsible for trimming trees for lighting installation or illumination obstruction. Failure to maintain adequate clearance around the luminaire and pole may cause a delay in requested repairs or required maintenance.

**15. Termination, Removal**

The Customer shall have the right to terminate this Agreement without any liability or obligation to the Company during the three (3) business day period following the Effective Date ("Initial Termination Period"), provided that written notice of such termination is received by the Company no later than the close of business on the third business day following the Effective date. In addition, the Customer may terminate this Agreement during the period that commences at the close of the Initial Termination Period and ends at 5:00 p.m. on the date immediately preceding the date on which installation of the Equipment at the Installation Site is scheduled to commence ("Final Termination Period"), provided that written notice of such termination is received by the Company no later than 5:00 p.m. on the day immediately preceding the date on which installation of the Equipment commences and, provided further, that the Customer reimburses the Company for any costs incurred by the Company up to the time of the termination by the Customer. These costs include, but are not limited to, shipping and storeroom handling cost for items purchased pursuant to or in contemplation of the Agreement, restocking fees on returned purchases, the cost of purchased Equipment that cannot be returned, or in the Company's sole judgment, reasonably absorbed in current inventory, and engineering time. The Customer may not terminate this Agreement once installation of the Equipment has commenced.

~~In the event that the Customer fails to pay the Company for any of the services provided herein or violates the terms of this agreement, the Company may, at its option and on five (5) days written notice, terminate this agreement. The company may, at its option and on five (5) days written notice to Customer, terminate this agreement in the event that:~~

- ~~(a) the Customer fails to pay the Company for any of the services provided herein;~~
- ~~(b) the Customer violates the terms of this agreement;~~
- ~~(c) a petition for adjudication of bankruptcy or for reorganization or rearrangement is filed by Customer pursuant to any federal or state bankruptcy law or similar federal or state law; or~~
- ~~(d) a trustee or receiver is appointed to take possession of the Installation Site (or if Customer is a tenant at the Installation Site, tenant's interest in the Installation Site) and possession~~

If such termination occurs prior to the expiration of the current term, the Customer agrees to pay the Company, as liquidated damages, an amount equal to the net present value of the monthly rate for each service taken, less all applicable fuel and other adjustment clause charges, and (where applicable) franchise fees and taxes, for each month of the unexpired current term.

**16. Easements**

The customer covenants that it owns or controls the Installation Site or has binding arrangements with the owner to the extent necessary to grant the Company an easement to permit performance of the Agreement. If a tenant of the Installation Site, Customer represents that Customer's lease is for a term of at least the Primary Term. The Customer and the owner or landlord of the Installation Site, if other than the Customer (individually, the "Grantor" collectively, the "Grantors"), hereby grant the Company a **Non-exclusive Easement** for ingress and egress over and under the Installation Site and for installation, inspection, operation, maintenance, repair, replacement, and removal of the Equipment. The easement shall terminate upon the Company's removal of the Equipment. The Equipment shall remain the Company's personal property, notwithstanding the manner or mode of its attachment to the Installation Site and shall not be deemed fixtures. Any claim(s) that the Company has or may hereafter have with respect to the Equipment shall be superior to any lien, right or claim of any nature that any Grantor or anyone claiming through Grantor now has or may hereafter have with respect to the Equipment by law, agreement or otherwise.

In the event that this agreement is terminated pursuant to Paragraph 15 or expires pursuant to Paragraph 10, each of the Grantors expressly grants the Company or its assigns or agents the continued right of entry at any reasonable time to remove the Equipment, or any part hereof, from the Installation Site. The Grantors, individually or collectively, shall make no claim whatsoever to the Equipment or any interest or right therein.

**17. Attachments**

In no event shall the Customer, or any other Grantor, place upon or attach to the Equipment, except with the Company's prior written consent and as set forth in Tampa Electric's "Guidelines for Attaching Banners to TEC Poles," any sign or device of any nature, or place, install or permit to exist, anything, including trees or shrubbery, which would interfere with the Equipment or tend to create a dangerous condition. The Company is hereby granted the right to remove, without liability, anything placed, installed, or existing in violation of this paragraph.

**18. Insurance**

Customer, at his sole cost and expense, shall maintain insurance, in amounts and under policy forms satisfactory to Company at all times during the life of this Agreement. Failure to provide insurance in accordance with this Section shall constitute a material breach of this Agreement.

**19. Amendments**

During the term of this Agreement, Company and Customer may amend or enter into additional addenda to the Agreement ("Addenda") upon the mutual written agreement of both parties in the form of Addendum "A" hereto.

Continued from Sheet No. 7.204

**20. Light Trespass**

Customer acknowledges and agrees that the Customer is solely responsible for specifying the general location of the Equipment and the direction and orientation of the illumination provided thereby. The Company will not be required to install or continue to operate the Equipment at any location where the service may be or has become objectionable to others. If it is found either during or after installation that the illumination is objectionable to others, the Customer shall be responsible for the costs incurred to relocate, remove, or shield the Equipment in addressing the objection unless the Customer is otherwise able to fully address and satisfy the third-party objections in question. In the event removal of any Equipment is the only practicable resolution of the objection, such removal will be deemed a termination prior to the expiration of the Primary Term as provided in Paragraph 15 and Customer promptly shall pay the Company the liquidated damages specified therein for the percentage or portion of the Equipment that must be removed.

**21. Assignments**

This Agreement shall inure to the benefit of, and be binding upon, the respective heirs, legal representatives, successors and assigns of the parties hereto. This Agreement may be assigned by the Customer only with the Company's prior written consent. In the event of an Assignment, the assignee may be substituted herein for the Customer and/or other Grantor with respect to all Customer rights and obligations, but the initial Customer shall not be released from the obligations of this Agreement except by a separate writing from the Company in the Company's sole discretion.

**22. General**

No delay or failure by the Customer or the Company to exercise any right under this Agreement shall constitute a waiver of that or any other right, unless otherwise expressly provided herein.

This Agreement shall be construed in accordance with and governed by the laws of the State of Florida.

**IN WITNESS WHEREOF**, the parties, each of whom represents and warrants that he or she is duly authorized to execute this Agreement, have caused this instrument to be executed in due form of law.

5. The Customer expressly agrees to reserve and make available to the Company space on the Customer's premises for the installation of the Company's notification and metering equipment. The Customer shall properly protect the Company's property on the Customer's premises and shall permit no one but the Company's agents, or persons authorized by law, to have access to the Company's equipment. The Customer shall, as promptly as practicable, notify the Company concerning any noticeable faulty condition or malfunction of the Company's equipment.

6. The initial term of this Agreement shall be 30 days. The Customer is required to give the Company ~~30~~ 30 days notice in advance of discontinuing service under the GSSG-1 rider attached as Exhibit "A", said minimum notice requirement being specified in Exhibit "A". The term of this Agreement shall automatically extend beyond such initial term until such time as the Company has had the minimum number of days notice of the Customer's desire no longer to participate in the program as is provided for in Exhibit "A".

7. The Company may terminate this Agreement at any time for the Customer's failure to comply with the terms and conditions of Schedule GSSG-1 or this Agreement. Such termination will only affect the application of the GSSG-1 rider. Prior to any such termination, the Company shall notify the Customer at least thirty (30) days in advance and describe the Customer's failure to comply. The Company may then terminate this Agreement at the end of the 30-day period. If the Customer either refuses or fails to initiate and pursue corrective action, the Company shall be entitled to suspend forthwith the monthly billing credits specified in Schedule GSSG-1.

8. This Agreement may be terminated if the same is required in order to comply with the regulatory rulings.

9.a The Customer shall indemnify, hold harmless and defend the Company from and against any and all liability, proceedings, suits, costs or expenses, for loss or damage to property or for injury to persons, in any manner directly or indirectly connected with, or arising out of, the use of standby generator transfer service on the Customer's side of the point of delivery or out of the Customer's negligent acts or omissions.

b. With respect to a Customer that is the state, a state agency or subdivision (as those terms are defined in Section 768.28(2), Florida Statutes, or the successor thereto), the obligations of Customer set forth in Paragraph 9.a above shall be subject to Section 768.28 (or the successor thereto), including the limitations contained therein. With respect to a Customer that is the United States of America, or agency or subdivision thereof, the obligations set forth in Paragraph 9.a shall not apply. In either case, the Company reserves its rights under

Section 768.28 (or the successor thereto), and the Federal Tort Claims Act (or the successor thereto), as applicable, including, but not limited to, the right to pursue legislative relief.

In either case, the Company reserves its rights under Section 768.28 (or the successor thereto), and the Federal Tort Claims Act (or the successor thereto), as applicable, including, but not limited to, the right to pursue legislative relief.

10. This Agreement supersedes all previous agreements and representations, either written or oral, heretofore made between the Company and the Customer with respect to matters herein contained. Any modification(s) to this Agreement must be approved, in writing, by the Company and the Customer.

11. This Agreement incorporates by reference the applicable terms of the tariff filed with the Florida Public Service Commission by Tampa Electric, as amended from time to time. To the extent of any conflict between this agreement and such tariff, the agreement shall control.

12. This Agreement may not be assigned by the Customer without the prior written consent of the Company. This Agreement shall inure to the benefit of, and be binding upon, the respective heirs, legal representatives, successors and assigns of the parties hereto. IN WITNESS WHEREOF, the Customer and the Company have caused this Agreement to be executed by their duly authorized representatives as of the day and year first above written.

CONTRACT SERVICE ARRANGEMENT FOR THE PROVISION OF SERVICE UNDER  
THE COMMERCIAL / INDUSTRIAL SERVICE RIDER

This Contract Service Arrangement ("Agreement") is made and entered into as of this day of \_\_\_\_\_ by and between \_\_\_\_\_ (hereinafter called in the "Customer") and Tampa Electric Company, a Florida corporation (hereinafter called the "Company").

WITNESSETH:

WHEREAS, the Company is an electric utility operating under Chapter 366, Florida Statutes, subject to the jurisdiction of the Florida Public Service Commission or any successor agency thereto (hereinafter called the "Commission"); and

WHEREAS, the Customer is \_\_\_\_\_, and

WHEREAS, the Customer can receive electric service from the Company under tariff schedule \_\_\_\_\_ at the service location described in Exhibit "A", and

WHEREAS, the present pricing available under the Company's rate schedule \_\_\_\_\_ is sufficient economic justification for the Customer to decide not to take electric service from the Company for all or a part of the Customer's needs; and

WHEREAS, the Customer has shown evidence and attested to its intention to not take electric service from the Company unless a pricing adjustment is made under the Company's Commercial / Industrial Service Rider ("CISR-2"); and

WHEREAS, the Company has sufficient capacity to serve the Customer at the aforementioned service location for the foreseeable future and for at least the following \_\_\_\_\_ month period; and

WHEREAS, the Company is willing to make a pricing adjustment for the Customer in exchange for a commitment by the Customer to continue to purchase electric energy exclusively from the Company at agreed upon service locations (for purposes of this Agreement, the "electric energy" may exclude certain electric service requirements served by the Customer's own generation as of the date of this Agreement);

NOW THEREFORE, in consideration of the mutual covenants expressed herein, the Company and Customer agree as follows:

Exhibit B

FIRST-SECOND REVISED SHEET NO. 7.751  
CANCELS ORIGINAL FIRST REVISED SHEET NO. 7.751

RESERVED FOR FUTURE USE  
Continued from Sheet No. 7.750

1. Rate Schedules - The Company agrees to furnish and the Customer agrees to take power pursuant to the terms and conditions of the Company's tariff, rate schedule and the CISR-2 rider, as currently approved by the Commission or as said tariff and rate schedules may be modified in the future and approved by the Commission (except as described in Section 6 herein). The Customer agrees to abide by all applicable requirements of the tariff, rate schedule and CISR-2, except to the extent specifically modified by this Agreement. Copies of the Company's currently approved rate schedule and CISR-2 rider are attached as Exhibit B and made a part hereof. In the event of any conflict between the terms of this Agreement and such tariff or rate schedule (other than as set out in CISR-2) the terms of this Agreement shall control.
2. Term of Agreement - This Agreement shall remain in force for a term of \_\_\_\_\_ months commencing on the date above first written.
3. Modifications to Tariff and Rate Schedule - See Exhibit "C" to this Agreement.
4. Exclusivity Provision - During the term hereof, the Customer agrees to purchase from the Company the Customer's entire requirements for electric capacity and energy for its facilities and equipment at the service location(s) described in Exhibit A to this Agreement. The "entire requirements for electric capacity and energy" may exclude certain electric service requirements served by the Customer's own generation as of the date of this Agreement.
5. Termination Fees and Provisions - See Exhibit "D" to this Agreement.
6. Modification of Rate Schedule - In the event that any provision of any applicable rate schedules is amended or modified by the Commission in a manner that is material and adverse to one of the parties hereto, that party shall be entitled to terminate this Agreement, by written notice to the other party tendered not later than sixty (60) days after such amendment or modification becomes final and nonappealable, with such termination to become effective \_\_\_\_\_ days after receipt of such notice, whereupon service to the Customer shall revert to the otherwise applicable rate schedules available to the Customer.

PAGE 217

Exhibit B

FIRST SECOND REVISED SHEET NO. 7.885  
CANCELS ORIGINAL FIRST REVISED SHEET NO. 7.885

#### ARTICLE 1 – DEFINITIONS

- 1.1 "Base Revenue" is the portion of electric revenue received by the Company for electric service to the Premises consisting only of applicable base demand charges, base non-fuel energy charges and facilities rental charges, if applicable. Base Revenue excludes, without limitation, capacity, customer basic service, energy conservation, environmental, and fuel and purchased power recovery charges, franchise fees, and taxes.
- 1.2 "Baseline Base Revenue" equals the Base Revenue, if any, received for electric service at the Premises for the twelve-month period prior to the In-Service Date. If electric service has existed for less than twelve months prior to the In-Service Date, the Baseline Base Revenue will be calculated by averaging the monthly Base Revenue for those months that the electric service has existed prior to the In-Service Date and multiplying that average monthly Base Revenue by twelve. If no electric service has been provided at the Premises prior to the In-Service Date, the Baseline Base Revenue shall be zero. If the requested expanded electric service to the Premises will be measured by new metering, separate and apart from any metering of existing service to the Premises, there shall be no need to calculate Baseline Base Revenue and the Incremental Base Revenue shall be all Base Revenue received for electric service measured by the new metering during the Performance Guarantee Period.
- 1.3 "Incremental Base Revenue" is Base Revenue received during the Performance Guaranty Period for electric service rendered to the Premises in excess of Baseline Base Revenue.
- 1.4 "Performance Guaranty Period" is the period of time commencing with the In-service Date, and ending on the fifth anniversary of the In-Service Date ("Expiration Date").
- 1.5 "Performance Guaranty Amount" is the dollar amount calculated in 2.2 below.

#### ARTICLE II - PERFORMANCE GUARANTEE AMOUNT

- 2.1 For purposes of this Agreement, Incremental Base Revenue shall equal the amount remaining after any applicable previously calculated Baseline Base Revenue is subtracted from the total Base Revenue received by the Company from the Customer for electric service to the Premises during the Performance Guarantee Period.
- 2.2 The Performance Guaranty Amount is the cost, as determined by the Company, of the required system expansion less Customer's Contribution in Aid of Construction ("CIAC") multiplied by a factor of 1.53. The Customer agrees to provide Company a Performance Guaranty Amount in the amount specified in the table below prior to Company installing the Facilities necessary to provide the electric service to serve the Premises.

FIRST SECOND REVISED SHEET NO. 7.920  
CANCELS ORIGINAL FIRST REVISED SHEET NO. 7.920

ARTICLE I – DEFINITIONS

- 1.1 "Relocated Facilities"– Customer facilities that have been dismantled or removed from one site on the customer's lands and reconstructed or relocated to the Premises in support of expanded mining activity within a specified region of customer lands within the Company's service territory.
- 1.2 "Expanded Facilities"– new Customer facilities built at or near the Premises to support expanded mining operations within a specified region of Customer lands within the Company's service territory.
- 1.3 "Base Revenue" is the portion of electric revenue received by the Company for electric service to the Premises consisting only of applicable base demand charges, base non-fuel energy charges and facilities rental charges, if applicable. Base Revenue excludes, without limitation, capacity, customer basic service, energy conservation, environmental, and fuel and purchased power recovery charges, franchise fees, and taxes.
- 1.4 "Baseline Base Revenue" equals the Base Revenue, if any, received for electric service at the current Premises (in the case of Expanded Mining Facilities) or at the former location (in the case of Relocated Mining Facilities), for the twelve-month period prior to the In-Service Date. If electric service has existed for less than twelve months prior to the In-Service Date, the Baseline Base Revenue will be calculated by averaging the monthly Base Revenue for those months that the electric service has existed prior to the In-Service Date and multiplying that average monthly Base Revenue by twelve. If no electric service has been provided at the Premises prior to the In-Service Date, the Baseline Base Revenue shall be zero. If the requested expanded electric service to the Premises will be measured by new metering, separate and apart from any metering of existing service to the Premises, there shall be no need to calculate Baseline Base Revenue and the Incremental Base Revenue shall be all Base Revenue received for electric service measured by the new metering during the Performance Guarantee Period.
- 1.5 "Incremental Base Revenue" is Base Revenue received during the Performance Guaranty Period for electric service rendered to the Premises in excess of Baseline Base Revenue.
- 1.6 "Performance Guaranty Period" is the period of time commencing with the In-service Date, and ending on the fifth anniversary of the In-Service Date ("Expiration Date").
- 1.7 "Performance Guaranty Amount" is the dollar amount calculated in 2.2 below

**CHARGES/CREDITS TO QUALIFYING FACILITY**

**A. Customer Basic Service Charges**

A monthly Customer Basic Service Charge will be rendered for maintaining an account for a Qualifying Facility engaged in either an As-Available Energy or Firm Capacity and Energy transaction and for other applicable administrative costs. Actual charges will depend on how the QF is interconnected to the Company.

QFs not directly interconnected to the Company, will be billed \$~~930.00~~ monthly as a Customer Basic Service Charge.

Monthly customer Basic Service charges, applicable to QFs directly interconnected to the Company, by Rate Schedule are:

FIRST SECOND REVISED SHEET NO. 8.312  
CANCELS ORIGINAL FIRST REVISED SHEET NO. 8.312

Continued from Sheet No. 8.308

Should the CEP elect a Net Billing Arrangement, the hourly net capacity and energy sales delivered to the purchasing utility shall be purchased at the utility's avoided capacity and energy rates, where applicable, in accordance with FPSC Rules 25-17.0825 and 25-17.0832, F.A.C. Purchases from the interconnecting utility shall be billed at the retail rate schedule, under which the CEP load would receive service as a customer of the utility.

Although a billing option may be changed in accordance with FPSC Rule 25-17.082, F.A.C., the Contracted Capacity may only change through mutual negotiations satisfactory to the CEP and the Company.

Customer Basic Service charges that are directly attributable to the purchase of firm capacity and energy from the CEP are deducted from the CEP's total monthly payment. A statement covering the charges and payments due the CEP is rendered monthly and payment normally is made by the 20<sup>th</sup> business day following the end of the Monthly Period.

**CHARGES/CREDITS TO THE CEP:**

1. Customer Basic Service Charges: A monthly Customer Basic Service Charge will be rendered for maintaining an account for the CEP engaged in either an As-Available Energy or firm capacity and energy transaction and for other applicable administrative costs. Actual charges will depend on how the CEP is interconnected to the Company.

CEPs not directly interconnected to the Company, will be billed \$580.990 monthly as a Customer Basic Service Charge.

Monthly customer Basic Service charges, applicable to CEPs directly interconnected to the Company, by Rate Schedule are:

If CEP takes service under Rate Rider GSLM-2 or GSLM-3, an additional customer ~~Basic Service charge~~Charge of \$200.00 will apply.

When appropriate, the ~~Customer Basic Service Charge~~ will be deducted from the CEP's monthly payment. A statement of the charges or payments due the CEP will be rendered monthly. Payment normally will be made by the 20<sup>th</sup> business day following the end of the billing period.

2. **Interconnection Charge for Non-Variable Utility Expenses:** The CEP shall bear the cost required for interconnection including the metering. The CEP shall have the option of payment in full for interconnection or make equal monthly installment payments over a 36 month period together with interest at the rate then prevailing for 30 days highest grade commercial paper; such rate to be determined by the Company 30 days prior to the date of each payment.
3. **Interconnection Charge for Variable Utility Expenses:** The CEP shall be billed monthly for the cost of variable utility expenses associated with the operation and maintenance of the interconnection. These costs include a) the Company's inspections of the interconnection and b) maintenance of any equipment beyond that which would be required to provide normal electric service to the CEP with respect to other Customers with similar load characteristics.
4. **Taxes and Assessments:** The CEP shall be billed monthly an amount equal to the taxes, assessments, or other impositions, if any, for which the Company is liable as a result of its purchases of firm capacity and energy produced by the CEP.  
  
If the Company obtains any tax savings as a result of its purchases of firm capacity and energy produced by the CEP, which tax savings would not have otherwise been obtained, those tax savings shall be credited to the CEP.
5. **Emission Allowance Clause:** Subject to approval by the FPSC, the CEP shall receive a monthly credit, to the extent the Company can identify the same, equal to the value, if any, of any reduction in the number of air emission allowances used by the Company as a result of its purchase of firm capacity and energy produced by the EP; provided that no such credit shall be given if the cost of compliance associated with air emission standards is included in the determination of full avoided cost.

**TERMS OF SERVICE:**

1. It shall be the CEP's responsibility to inform the Company of any change in its electric generation capability.

ORIGINAL SHEET NO. 6.720

ECONOMIC DEVELOPMENT RATE - EDR

**SCHEDULE:** EDR

**AVAILABLE:** Entire service area.

This Rider is available for load associated with initial permanent service to new establishments or the expansion of existing establishments. Service under the Rider is limited to Customers who make application to the Company for service under this Rider, and for whom the Company approves such application. The New Load applicable under this Rider must be a minimum of 350 kW at a single delivery point. To qualify for service under this Rider, the Customer must employ an additional work force of at least 25 full-time equivalent (FTE) employees at the location of the single point of delivery.

Initial application for this Rider is not available to existing load. However, if a change in ownership occurs after the Customer contracts for service under this Rider, the successor Customer may be allowed to fulfill the balance of the contract under Rider EDR and continue the schedule of credits outlined below. This Rider is also not available for renewal of service following interruptions such as equipment failure, temporary plant shutdown, strike, or economic conditions. This Rider is also not available for load shifted from one establishment or delivery point on the Tampa Electric system to another on the Tampa Electric system.

The load and employment requirements under the Rider must be achieved at the same delivery point. Additional metering equipment may be required to qualify for this Rider. The Customer Service Agreement under this Rider must include a description of the amount and nature of the load being provided, the number of FTE's resulting, and documentation verifying that the availability of the Economic Development Rider is a significant factor in the Customer's location/expansion decision.

This Rider will not be available for initial application for service after December 31, 2016.

**LIMITATION OF SERVICE:** The Company reserves the right to limit applications for this Rider when the Company's Economic Development expenses from this Rider and other sources exceed the amount set for the Company under Rule 25-6.0426 FAC.

Service under this Rider may not be combined with service under the Commercial/Industrial Service Rider.

**DEFINITION:** New Load: New Load is that which is added to the Company's system by a new establishment after January 1, 2014. For existing establishments, New Load is the net incremental load above that which existed prior to approval for service under this Rider.

ORDER NO. PSC-13-0443-FOF-EI  
DOCKET NO. 130040-EI  
PAGE 229

Exhibit B

ORIGINAL SHEET NO. 6.725

Continued from Sheet No. 6.720

**DESCRIPTION:** A credit based on the percentages below will be applied to the base demand charges and base energy charges of the Customer's otherwise applicable rate schedule associated with the Customer's New Load:

|   |   |
|---|---|
| Year 1 – 20% reduction in base demand and energy charges* |   |
| Year 2 – 15%  | " |
| Year 3 – 10%  | " |
| Year 4 – 5%   | " |
| Year 5 – 0%   | " |

\* All other charges including basic service, fuel cost recovery, capacity cost recovery, conservation cost recovery, and environmental cost recovery will also be based on the Customer's otherwise applicable rate. The otherwise applicable rates may be any of the following: GSD, GSDT. Any Customer taking service under the CISR Rider is ineligible to take service under this EDR Rider.

**TERM OF SERVICE:** The Customer agrees to a five-year contract term. Service under this Rider will terminate at the end of the fifth year.

The Company may terminate service under this Rider at any time if the Customer fails to comply with the terms and conditions of this Rider. Failure to: 1) maintain the level of employment specified in the Customer's Service Agreement and/or 2) purchase from the Company the amount of load specified in the Customer's Service Agreement may be considered grounds for termination.

**PROVISIONS FOR EARLY TERMINATION:** If the Company terminates service under this Rider for the Customer's failure to comply with its provisions, the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

If the Customer opts to terminate service under this Rider before the term of service specified in the Service Agreement the Customer will be required to reimburse the Company for any discounts received under this Rider plus interest.

**RULES AND REGULATIONS:** Service under this schedule is subject to orders of governmental bodies having jurisdiction and to the currently effective "General Rules and Regulations for Electric Service" on file with the Florida Public Service Commission. In case of conflict between any provision of this schedule and said "General Rules and Regulations for Electric Service" the provision of this schedule shall apply.

#### Miscellaneous Tariff Changes

1. The company's "Transformer Ownership Discount" shall be renamed the "Delivery Voltage Credit" and the credits provided shall reflect full avoided distribution costs.
2. The appropriate service charges shall apply:

|   |           |
|---|-----------|
| Normal Reconnect Subsequent Subscriber        | \$ 28.00  |
| Same Day Reconnect                            | \$ 75.00  |
| Reconnect after Disconnect at Meter for Cause | \$ 55.00  |
| Reconnect after Disconnect at Pole for Cause  | \$ 165.00 |
| Field Visit                                   | \$ 25.00  |
| Tampering Charge without Investigation        | \$ 55.00  |
| Temporary Service Charge                      | \$ 260.00 |

3. The application of the field visit charge should be expanded to situations involving customer failure to keep customer-scheduled appointments and customer failure to have the premises in a state of readiness when the company arrives to do work requested by the customer.
4. The appropriate contributions-in-aid for time-of-use rate customers opting to make a lump sum payment for a time-of-use meter in lieu of a higher time-of-use customer charge are \$94.00 for the GST rate schedule and \$0 for the GSDT rate schedule.
5. The changes in allocation and rate design reflected in this Settlement Agreement shall be made to Tampa Electric's rates and recovery factors established in Docket Nos. 130001-EI, 130002-EG, and 130007-EI and related clause dockets thereafter during the term of this Settlement Agreement.

FINAL ORDER APPROVING 2017 AMENDED AND RESTATED  
STIPULATION AND SETTLEMENT AGREEMENT

BY THE COMMISSION:

BACKGROUND

On September 27, 2017, Tampa Electric Company (TECO) filed a petition for limited proceeding to approve its 2017 amended and restated stipulation and settlement agreement (Petition). In its Petition, TECO requested that the Florida Public Service Commission (Commission) hold a limited proceeding pursuant to Sections 366.076, 120.57(2) and 366.06(3), Florida Statutes (F.S.), and Rule 28-106.301, Florida Administrative Code (F.A.C.), to allow the Commission to review and approve the 2017 Amended and Restated Stipulation and Settlement Agreement (2017 Agreement) attached as an exhibit to the Petition.

The 2017 Agreement has been signed by TECO and the following: the Office of Public Counsel (OPC); Florida Industrial Power User's Group (FIPUG); Florida Retail Federation (FRF); Federal Executive Agencies (FEA); and West Central Florida Hospital Utility Alliance (HUA). TECO alleges that the 2017 Agreement amends and extends the term of its 2013 Stipulation and Settlement Agreement (2013 Agreement), which resolved all outstanding issues in its last base rate case proceeding, approved by Order No. PSC-2013-0443-FOF-EI, issued September 30, 2013, in Docket No. 20130040-EI. The 2017 Agreement also includes the asset optimization mechanism originally requested in Docket No. 20160160-EI<sup>1</sup>, and constitutes a full resolution of all issues raised in that docket. TECO and all other parties to the 2017 Agreement agree that there are no disputed issues of material fact that must be resolved for us to grant its Petition and approve the 2017 Settlement Agreement.

Based on these representations, we issued Order No. PSC-2017-0384-PCO-EI, on October 4, 2017, setting the Petition for a final hearing, which was held on November 6, 2017. FEA and HUA were excused from attending the final hearing. At the final hearing, TECO presented the testimony of four witnesses: Carlos Aldazabal, Mark Ward, James Rocha, and Bill Ashburn. A Comprehensive Exhibit List was admitted into the record as well as the exhibits

<sup>1</sup> Docket No. 20160160, In re: Petition by Tampa Electric Company for approval of Energy Transaction Optimization Mechanism.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 3

identified thereon. The parties, supporting the 2017 Agreement, waived the right to file post-hearing briefs, and a bench vote was taken at the conclusion of the hearing.

Settlement Agreement

The major elements of the 2017 Agreement are as follows:

- The 2017 Agreement term (Term) is approximately four years in duration, from the Effective Date (date of vote) through 2021, and is, by and large, a four year extension of the 2013 Agreement.
- The 2017 Agreement retains the existing return on equity (ROE) of 10.25%, with a range of 9.25% to 11.25%, and features an equity ratio of 54% for the Solar Base Rate Adjustment (SoBRA) revenue requirement calculations and TECO's actual equity ratio for surveillance reporting and setting clause rates.
- Base rates to remain at current levels initially, with solar generation cost recovery (SoBRA) included in tranches during the Term at the following dates and maximum cumulative amounts:

| Year  | Earliest Rate Change and In-Service Date | Maximum Cumulative SoBRA MW | Maximum Annualized SoBRA Revenue Requirement (millions) | Cumulative Revenue | Maximum Cumulative Impact on 1,000 KWH Residential Bill |
|---|--|-----------------------------|---|--------------------|---|
| 2018  | September 1                              | 150                         | \$30.6 (\$10.2 collected over 4 months)                 |                    | \$1.95  |
| 2019  | January 1                                | 400                         | \$81.5  |                    | \$3.33  |
| 2020  | January 1                                | 550                         | \$112.1   |                    | \$4.47  |
| 2021  | January 1                                | 600                         | \$122.3*  |                    | \$4.87  |
| * Cost recovery contingent on 2018-2019 tranches constructed at a maximum average capital cost of \$1475/kW <sub>ac</sub> . |  |                             |   |                    |   |

- SoBRA total installed costs for purposes of cost recovery cannot exceed \$1,500 per KW<sub>ac</sub> (cap). Projects must be smaller than 75 MW and thus are not subject to the Power Plant Siting Act. Each tranche requires that a new petition for cost recovery be filed in a separate docket.
- SoBRA savings, where actual costs are below the \$1,500 per KW<sub>ac</sub> cap, are shared between customers and company on a 75%/25% basis. The full benefit of Renewable Energy Credits (RECs) will be flowed through to retail customers through the Environmental Cost Recovery Clause (ECRC).

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 4

- SoBRA costs are allocated equally among all rate classes with the exception of the lighting class. The lighting class is responsible for 40% of its SoBRA revenue requirement, with the remaining 60% of its revenue requirement allocated to the other customer classes.
- If federal or state tax reform is enacted before TECO's next rate case, TECO will flow back to retail customers within 120 days any impacts to revenue requirements through a one-time adjustment to base rates, uniformly applied across customer classes and charges.
- Standby Generator Credits increase from \$4.75/kW/month to \$5.35/kW/month. Contracted Credit Value, or CCV Credit, is increased marginally for secondary, primary, and sub-transmission voltage customers.
- If TECO's coal-fired generating assets and Automatic Meter Reading (AMR) meters are retired during the Term, the related assets will be depreciated using TECO's then-existing depreciation rates.
- The parties consent to TECO's petition to implement its proposed asset optimization/incentive plan set forth in Docket No. 20160160-EI during the Term, but at modified percentage thresholds of achieved gains to be divided between customers and shareholders.
- TECO will enter into no new natural gas financial hedging contracts through December 31, 2022 and will file a request to close Docket No. 20170057-EI upon approval of the 2017 Agreement or as soon thereafter as practical.
- TECO will not seek recovery of any costs from its customers related to investments in oil and/or natural gas exploration, reserves, acreage and or production for a period of five years after the Effective Date.
- Carryover Provisions applicable from the 2013 Agreement include: named storm damage recovery; the Economic Development Rider; and deferral of depreciation and dismantlement studies until the year before TECO's next rate case.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 5

DECISION

The standard for approval of a settlement agreement is whether it is in the public interest.<sup>2</sup> A determination of public interest requires a case-specific analysis based on consideration of the proposed settlement taken as a whole.<sup>3</sup> The signatories to the 2017 Agreement represent a broad segment of FPL's customer base including both residential and commercial classes. Many of the terms found in the 2017 Agreement were proposed by the signatories and are consistent with terms found in Florida Power & Light Company's, Gulf Power Company's, and Duke Energy Florida, LLC's most recent rate case settlements,<sup>4</sup> e.g., cessation of natural gas hedging, construction of cost-effective solar generation, implementation of an asset optimization program, implementation of a storm damage recovery mechanism, an economic development rider, and the deferral of depreciation studies until the utility's next rate case. The 2017 Agreement essentially maintains the current base rates for another four years adjusted for additions to solar generating capacity spread over the same period. Thus, the 2017 Agreement increases TECO's fuel diversity in a cost effective manner while providing rate predictability. Further, the 2017 Agreement allows ratepayers to receive the benefit of any revisions to the federal income tax code within 4 months of those benefits becoming available. Having carefully reviewed the 2017 Agreement, the exhibits entered into the record, and the testimony provided by TECO's witnesses, we find that taken as a whole it provides a reasonable resolution of all the issues addressed. We find, therefore, that the 2017 Agreement, Attachment A hereto, establishes rates that are fair, just, and reasonable and is in the public interest, and hereby approve it.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that Tampa Electric Company's Petition for Limited Proceeding to approve 2017 Amended and Restated Stipulation and Settlement Agreement is hereby granted. It is further

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Office of Commission Clerk, and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida

**2017 AMENDED AND RESTATED  
STIPULATION AND SETTLEMENT AGREEMENT**

THIS AGREEMENT is dated this 27th day of September, 2017 and is by and between Tampa Electric Company ("Tampa Electric" or the "company"), the Office of Public Counsel ("OPC" or "Citizens"), the Florida Industrial Power Users Group ("FIPUG"), the Florida Retail Federation ("FRF"), the Federal Executive Agencies ("FEA"), and the WCF Hospital Utility Alliance ("HUA"). Collectively, Tampa Electric, OPC, FIPUG, FRF, FEA, and HUA shall be referred to herein as the "Parties" and the term "Party" shall be the singular form of the term "Parties." OPC, FIPUG, FRF, FEA, and HUA will be referred to herein as the "Consumer Parties." This document shall be referred to as the "2017 Agreement."

**Background**

On September 8, 2013, Tampa Electric and the Consumer Parties filed a Stipulation and Settlement Agreement ("2013 Stipulation") that resolved all the issues in Tampa Electric's 2013 base rate case (Docket No. 20130040-EI). Therein, among other things, Tampa Electric agreed that the general base rates provided for in the 2013 Stipulation would remain in effect through December 31, 2017, and thereafter, until the company's next general base rate case. The 2013

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 9

ATTACHMENT A  
Page 2 of 43

Stipulation also specified that Tampa Electric would forego seeking future general base rate increases with an effective date prior to January 1, 2018, except in limited circumstances. The Florida Public Service Commission ("FPSC" or "Commission") approved the 2013 Stipulation and memorialized its decision in Order No. PSC-2013-0443-FOF-EI, issued September 30, 2013 ("2013 Stipulation Order").

In late 2016, recognizing that the period in which Tampa Electric agreed to refrain from seeking general base rate increases would expire at the end of 2017, Tampa Electric and the Consumer Parties began discussing whether the company would be willing and able to (a) refrain from seeking a general base rate increase beyond December 31, 2017 and (b) extend the terms of the 2013 Stipulation for an additional period of time. The Parties also discussed the company's desire to build 600 MW of solar photovoltaic generation with cost recovery via a solar base rate adjustment mechanism ("SoBRA").

The Parties have entered into this 2017 Agreement in compromise of positions taken in accord with their rights and interests under Chapters 350, 366 and 120, Florida Statutes, as applicable, and as part of a negotiated exchange of consideration among the Parties to this 2017 Agreement, each Party has agreed to concessions to the others with the expectation, intent, and understanding such that all provisions of the 2017 Agreement, upon approval by the Commission, will be enforced by the Commission as to all matters addressed herein with respect to all Parties.

NOW, THEREFORE, in light of the mutual covenants of the Parties and the benefits accruing to all Parties through this 2017 Agreement, and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 10

ATTACHMENT A  
Page 3 of 43

1. Term.

This 2017 Agreement will become effective upon the date of the Commission's vote approving it (the "Effective Date") and continue through and including December 31, 2021, such that, except as specified in this 2017 Agreement, no base rates, charges, or credits (including the credits that are specifically the subject of this 2017 Agreement) or rate design methodologies will be changed before January 1, 2022. The period from the Effective Date through December 31, 2021 (subject to Paragraph 7(c)) shall be referred to herein as the "Term". The Parties reserve all rights, unless such rights are expressly waived or released, under the terms of this 2017 Agreement.

2. Return on Equity and Equity Ratio.

(a) Subject to the adjustment Trigger provisions in Subparagraph 2(b), Tampa Electric's authorized return on common equity ("ROE") shall be within a range of 9.25% to 11.25%, with a mid-point of 10.25%, except under the conditions specifically provided in this 2017 Agreement in Paragraphs 2(b) and 7. Tampa Electric's authorized ROE range and mid-point shall be used for all regulatory purposes during the Term, together with an equity ratio as follows: (a) a 54% equity ratio for the SoBRA revenue requirement calculations, (b) the company's actual equity ratio for earnings surveillance reporting, and (c) the actual equity ratio up to a cap of 54% for purposes of setting cost recovery clause rates, triggering an exit from this 2017 Agreement pursuant to paragraph 7, or calculating interim rates.

(b) ROE Trigger Mechanism. The purpose of the provisions in this Subparagraph 2(b) is to provide Tampa Electric with rate relief in the event that market capital costs, as indicated by the interest rate on U.S. Treasury bonds, rise above the level specified herein; these

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 11

ATTACHMENT A  
Page 4 of 43

provisions are generically referred to as the "Trigger" mechanism or the "Trigger provisions," or simply as the "Trigger." If at any time during the Term, the average 30-year United States Treasury Bond yield rate for any period of six (6) consecutive months is at least 4.6039% (the "Trigger Point")<sup>1</sup>, Tampa Electric's authorized ROE shall be increased by 25 basis points to be within a range of 9.50% to 11.50%, with a mid-point of 10.50% ("Revised Authorized ROE") from the Trigger Effective Date defined below for and through the remainder of the Term, and thereafter until the Commission resets the Company's rates and its authorized ROE. The Trigger Criterion Value ("Trigger Value") shall be calculated by summing the reported 30-year U.S. Treasury Bond rates for each day over a consecutive six-month period for which rates are reported, and dividing the resulting sum by the number of reporting days in such period. The effective date of the Revised Authorized ROE ("Trigger Effective Date") shall be the first day of the month following the day in which the Trigger Value reaches the Trigger Point. If the Trigger Point is reached and the Revised Authorized ROE becomes effective, Tampa Electric's Revised Authorized ROE range and mid-point shall be used for the remainder of the Term for all regulatory purposes, and thereafter until changed by a final non-appealable order ("Final Order") of the Commission.

(c) The ROE in effect at the expiration of the Term of this 2017 Agreement shall continue in effect until the company's ROE is next reset by a Final Order of the Commission whether by operation of Paragraph 7 or otherwise.

<sup>1</sup> This value was derived as provided for in the 2013 Stipulation and reflected in Late Filed Hearing Exhibit 246, in Docket No. 130040-EI as follows: "The Trigger shall be calculated by summing the reported 30-year U.S. Treasury Bond rates for each day over any six-month period, e.g. January 1, 2014 through July 1, 2014, or March 17, 2014 through September 17, 2014, for which rates are reported, and dividing the resulting sum by the number of reporting days in such period."

3. Customer Rates.

(a) Except as specified in this 2017 Agreement, the company's general base rates, charges, credits, and rate design methodologies, for retail electric service in effect on December 31, 2017, shall remain in effect for service rendered and charges imposed through and including December 31, 2021, and thereafter until revised by a future unanimous agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as the result of a future general base rate proceeding.

(b) Except as specified in this 2017 Agreement, the company may not petition to change any of its general base rates, charges, credits, or rate design methodologies for retail electric service with an effective date for the new rates, charges, credits, or rate design methodologies earlier than January 1, 2022.

(c) Notwithstanding Subparagraphs 3(a) and 3(b), the company shall be authorized to change its base rates as set forth in Paragraphs 6 and 9, below, in accordance with procedures identified for the SoBRA mechanism and to reduce rates in accordance with Federal Income Tax Reform that may occur during the Term of this 2017 Agreement.

(d) The current lock period for the Contracted Credit Value ("CCV") shall remain 72 months (6 years).

(e) The company's standby generator credit shall be increased from \$4.75/kW/month to \$5.35/kW/month, concurrent with meter reads for the first billing cycle of January 2018. The CCV credit shall be increased from \$9.98/kW/month to \$10.23/kW/month for secondary, \$9.88/kW/month to \$10.13/kW/month for primary, and \$9.78/kW/month to \$10.03/kW/month for sub-transmission voltage customers, concurrently with meter readings for the first billing cycle of January 2018. To the extent that implementation of these revised credits results in an

DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 13

ATTACHMENT A  
Page 6 of 43

under-recovery or over-recovery of revenues that are subject to the Energy Conservation Cost Recovery ("ECCR") clause, the company shall be authorized to make an adjustment to remedy any such under-recovery or over-recovery in its ECCR charges for 2019 and thereafter. The level of these credits will not change during the Term and will remain in effect after the expiration of the Term until changed, if at all, by a future unanimous agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as a result of a future general base rate proceeding. The credit modifications addressed in this Subparagraph 3(e) are reflected in the revised tariff sheets set forth in Exhibit A to this 2017 Agreement, the approval of which shall constitute approval of the revised tariff sheets.

(f) The company's Economic Development Rider, which is set forth in Rate Schedule ECONOMIC DEVELOPMENT RATE – EDR of the company's retail tariff, shall remain in effect during the Term and thereafter until modified or terminated by order of the Commission. The Parties intend that the Commission's approval of this 2017 Agreement shall constitute continuing approval of the Economic Development Rider and that such approval shall satisfy the requirements of Rule 25-6.0426(3) - (6), F.A.C., and accordingly, the reductions afforded in Rate Schedule EDR shall be included as a cost in the company's cost of service for all ratemaking purposes and surveillance reporting. The rates in the Economic Development Rider shall be open for new customers and for new applications by existing customers through December 31, 2021, unless the maximum amount of economic development expenditures as specified in Rule 25-6.0426, F.A.C., is met, at which time the Economic Development Rider will be closed to new customers and to new applications by existing customers until the amount again falls below the maximum allowed.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 14

ATTACHMENT A  
Page 7 of 43

(g) The provisions of this Paragraph 3 shall remain in effect during the Term except as otherwise permitted or provided for in this 2017 Agreement and shall continue in effect until changed by unanimous agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as a result of a future general base rate proceeding.

4. Other Cost Recovery. Nothing in this 2017 Agreement shall preclude the company from requesting the Commission to approve the recovery of costs that are: (a) of a type which traditionally or historically would be, have been, or are presently recovered through cost recovery clauses or surcharges, or (b) incremental costs not currently recovered in base rates which the Legislature expressly requires shall be clause recoverable subsequent to the approval of this 2017 Agreement. It is the intent of the Parties that, in conjunction with the provisions of Subparagraph 3(a), the company shall not seek to recover, nor shall the company be allowed to recover, through any cost recovery clause or charge, or through the functional equivalent of such cost recovery clauses and charges, costs of any type or category that have historically or traditionally been recovered in base rates, unless such costs are: (i) the direct and unavoidable result of new governmental impositions or requirements; or (ii) new or atypical costs that were unforeseeable and could not have been contemplated by the Parties resulting from significantly changed industry-wide circumstances directly affecting the company's operations. As a part of the base rate freeze agreed to herein, the company will not seek Commission approval to defer for later recovery in rates, any costs incurred or reasonably expected to be incurred from the Effective Date through and including December 31, 2021, which are of the type which historically or traditionally have been or would be recovered in base rates, unless such deferral and subsequent recovery is expressly authorized herein or otherwise agreed to by each of the Parties. The Parties are not precluded from participating in any proceedings pursuant to this

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 15

ATTACHMENT A  
Page 8 of 43

Paragraph 4, nor is any Party precluded from raising any issues pertinent to any such proceedings.

5. Storm Damage.

(a) Nothing in this 2017 Agreement shall preclude Tampa Electric from petitioning the Commission to seek recovery of costs associated with any tropical systems named by the National Hurricane Center or its successor without the application of any form of earnings test or measure and irrespective of previous or current base rate earnings. Consistent with the rate design methods approved in this 2017 Agreement, the Parties agree that recovery of storm costs from customers will begin, on an interim basis (subject to refund following a hearing or a full opportunity for a formal proceeding), sixty days following the filing of a cost recovery petition and tariff with the Commission and will be based on a 12-month recovery period if the storm costs do not exceed \$4.00/1,000 kWh on monthly residential customer bills. In the event the company's reasonable and prudent storm costs exceed that level, any additional costs in excess of \$4.00/1,000 kWh shall be recovered in a subsequent year or years as determined by the Commission, after hearing or after the opportunity for a formal proceeding has been afforded to all substantially affected persons or parties. All storm related costs shall be calculated and disposed of pursuant to Rule 25-6.0143, F.A.C., and shall be limited to (i) costs resulting from a tropical system named by the National Hurricane Center or its successor, (ii) the estimate of incremental storm restoration costs above the level of storm reserve prior to the storm, and (iii) the replenishment of the storm reserve to \$55,860,642. The Parties to this 2017 Agreement are not precluded from participating in any such proceedings and opposing the amount of Tampa Electric's claimed costs (for example, and without limitation, on grounds that such claimed costs

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 16

ATTACHMENT A  
Page 9 of 43

were not reasonable or were not prudently incurred) or whether the proposed recovery is consistent with this Paragraph 5, but not the mechanism agreed to herein.

(b) The Parties agree that the \$4.00/1,000 kWh cap in this Paragraph 5 shall apply in aggregate for a calendar year; provided, however, that Tampa Electric may petition the Commission to allow Tampa Electric to increase the initial 12 month recovery at rates greater than \$4.00/1,000 kWh or for a period longer than 12 months if Tampa Electric incurs in excess of \$100 million of storm recovery costs that qualify for recovery in a given calendar year, inclusive of the amount needed to replenish the storm reserve to \$55,860,642. All Consumer Parties reserve their right to oppose such a petition.

(c) The Parties expressly agree that any proceeding to recover costs associated with any storm shall not be a vehicle for a "rate case" type inquiry concerning the expenses, investment, or financial results of operations of Tampa Electric and shall not apply any form of earnings test or measure or consider previous or current base rate earnings. Such issues may be fully addressed in any subsequent Tampa Electric base rate case.

(d) The provisions of this Paragraph 5 shall remain in effect during the Term except as otherwise permitted or provided for in this 2017 Agreement and shall continue in effect until the company's base rates are next reset by the Commission. For clarity, this means that if this 2017 Agreement is terminated pursuant to Paragraph 7 hereof, the company's rights regarding storm cost recovery under this 2017 Agreement are terminated at the same time, except that any Commission-approved surcharge then in effect shall remain in effect until the costs subject to that surcharge are fully recovered. A storm surcharge in effect without approval of the Commission shall be terminated at the time this 2017 Agreement is terminated pursuant to Paragraph 7 hereof.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 17

ATTACHMENT A  
Page 10 of 43

6. Solar Base Rate Adjustment Mechanism ("SoBRA").

(a) Notwithstanding the general base rate freeze specified in Paragraph 2, the company shall be allowed to recover the cost of its investment in, and operation of, certain new solar generation facilities and to make solar base rate adjustments consistent with this Paragraph 6. If the applicable federal or state income tax rate for the Company changes before any of the increases provided for in in this Paragraph 6, the Company will adjust the amount of the base rate increase to reflect the new tax rate before the implementation of such increase, pursuant to the applicable methodology in Exhibit C.

(b) Subject to the conditions in Subparagraph 6(c), the planned capacity amounts, earliest in-service and rate adjustment dates, and associated maximum annual revenue requirements (calculated at the Installed Cost Cap specified herein) are as follows:

| Year | Earliest Rate Change And In-Service Date | Maximum Incremental SoBRA MW | Maximum Incremental Annualized SoBRA Revenue Requirements (millions) | Maximum Cumulative SoBRA MW | Maximum Cumulative Annualized SoBRA Revenue Requirements (millions) |
|------|--|------------------------------|--|-----------------------------|---|
| 2018 | September 1                              | 150                          | \$30.6 <sup>2</sup>  | 150                         | \$30.6  |
| 2019 | January 1                                | 250                          | \$50.9   | 400                         | \$81.5  |
| 2020 | January 1                                | 150                          | \$30.6   | 550                         | \$112.1   |
| 2021 | January 1                                | 50                           | \$10.2   | 600                         | \$122.3 <sup>3</sup>  |

(c) The company will seek approval of and cost recovery for specific solar generation projects in SoBRA Tranches up to the amounts as specified in this Paragraph 6. Nothing in this 2017 Agreement requires Tampa Electric to build the full amount of solar generating capacity

<sup>2</sup> The annual revenue requirement is approximately \$30.6 million, however, since the first 150 MW Tranche is scheduled to come online September 1, 2018, the revenue requirements collected would be four months of the annual revenue requirements, or \$10.2 million.

<sup>3</sup> The 2021 Tranche can be included in and its costs recovered under the SoBRA mechanism only if the projects constituting the 2018 and 2019 Tranches in this table are in-service and operating per design specifications as of December 31, 2019, and were constructed at an average capital cost of no more than \$1475 per kW<sub>ac</sub>.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 18

ATTACHMENT A  
Page 11 of 43

allowed by this 2017 Agreement for any year or in total over the Term of this 2017 Agreement. Commission action may occur before or after expiration of the Term, but to qualify for cost recovery pursuant to these SoBRA provisions, any Tranche must be fully operational and providing service no later than December 31, 2022. A SoBRA Tranche may consist of a single project or may include multiple individual solar projects, which may be located throughout the company's retail service territory. Tampa Electric will construct and bring into full commercial operation, the full Maximum Incremental SoBRA MW for each year's Tranche by the dates shown in the table above. The Rate Change and In-Service Dates specified in the chart in Subparagraph 6(b) are "no sooner than" dates, and the SoBRA rate changes for each Tranche will be implemented effective on the earliest In-Service Date for that Tranche identified in such chart and subsequently trued up to reflect and correct for (1) any delay in the actual In-Service Dates of any of the projects in a particular Tranche beyond the applicable In-Service date for that Tranche and (2) the extent to which the actual installed costs of any project or projects vary from the projected costs used to set the SoBRA rate change but may not exceed the Maximum Incremental Annualized SoBRA Revenue Requirements or Maximum Cumulative Annualized SoBRA Revenue Requirements set forth in Subparagraph 6(b) or the Installed Cost Cap set forth in Subparagraph 6(d). Each SoBRA revenue increase shall be calculated based on the projected In-Service date, operating capacity, and estimated cost of the solar projects to which it corresponds, subject to being trued up as described in this Subparagraph 6(c). The 2021 SoBRA will only be available to the company if (i) for all projects in the 2018 and 2019 Tranches (totaling 400MW subject to the two percent (2%) variance allowance described in the following sentence), the actual average installed cost necessary to make such projects fully operational is less than or equal to \$1,475 per kW<sub>ac</sub> and (ii) the 2018 and 2019 Tranches in the amount of 400

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 19

ATTACHMENT A  
Page 12 of 43

MW (subject to the 2% variance) are installed and operating at design specifications as of December 31, 2019. The SoBRA Tranches of solar generation capacity and the associated revenue requirements shown in Subparagraph 6(b) are "up to" or maximum amounts; however, the amount of revenues and MW in the 2019 SoBRA Tranche or Tranches may vary by up to 2 percent of the 2019 total (5 MW variance, either greater than or less than the specified maximum for 2019) to accommodate efficient planning and construction of the associated individual solar projects, and the 2019 Tranche or Tranches remain subject to the cost cap contained herein. Tampa Electric shall make a filing with the Commission by February 28, 2020, reflecting whether it has met the requirements to qualify for the 2021 SoBRA Tranche.

(d) For the solar projects that are approved by the Commission for cost recovery pursuant to this Paragraph 6, Tampa Electric's base rates will be increased by the incremental annualized base revenue requirement in steps, one step for each SoBRA Tranche. Each such base rate adjustment will be referred to as a SoBRA, and shall be authorized for solar projects for which Tampa Electric files for Commission approval pursuant to this Paragraph 6. Each project qualifying for SoBRA treatment must consist of either single axis tracking or other solar electric generating equipment or tracking technology that yields greater efficiency or higher capacity value, or both, for the benefit of customers all within the cost caps stated in this Paragraph 6. The types of costs of solar projects that traditionally have been allowed in rate base (including Engineering, Procurement and Construction ("EPC") costs; development costs including third party development fees, if any; permitting fees and costs; actual land costs and land acquisition costs; taxes; utility costs to support or complete development; transmission interconnection costs; installation labor and equipment costs; costs associated with electrical balance of system, structural balance of system, inverters, and modules; AFUDC at the weighted average cost of

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 20

ATTACHMENT A  
Page 13 of 43

capital from Exhibit B of this 2017 Agreement; and other traditionally allowed rate base costs) shall be eligible for SoBRA cost recovery. The total installed capital cost of a project eligible for cost recovery through a SoBRA shall not exceed \$1,500 per kW<sub>ac</sub> (the "Installed Cost Cap"). This Installed Cost Cap shall apply on a per project basis, and includes all costs required to make each of the projects in a Tranche fully operational. Each SoBRA will be based on a 10.25% ROE, except under the conditions specifically provided in this 2017 Agreement in Subparagraph 2(b), a 54% equity ratio (based on investor sources of capital), and the incremental capital structure components of long-term debt, short-term debt (if any), common equity, and tax credits, adjusted to reflect the inclusion of investment tax credits on a normalized basis. The debt rate utilized to calculate the revenue requirements associated with the SoBRA projects will be updated to reflect the incremental costs of prospective long-term debt issuances during the first 12 months of operation of each project. The SoBRA Installed Cost Cap is an amount agreed to by and between the Parties that reflects their negotiations regarding all relevant factors affecting or determining the installed cost of each project, including but not limited to capital costs, costs of capital, capital structure, and the other costs and expenses associated with the project.

(e) The Installed Cost Cap is not a "safe harbor" or a "build to" number for the company. The company will use reasonable efforts to design and build solar projects at installed costs below the cap. The Installed Cost Cap will limit the cost recovery of projects under a SoBRA, so if a project costs more than \$1,500 per kW<sub>ac</sub>, the company can recover through a SoBRA only the installed cost up to the Installed Cost Cap, but may use the actual installed cost for purposes of preparing its periodic earnings surveillance reports; however, during the

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 21

ATTACHMENT A  
Page 14 of 43

company's next general base rate proceeding, the depreciated net book value of any SoBRA project included in rate base for the test year may not exceed the Installed Cost Cap.

(f) The individual solar generation projects contemplated in this 2017 Agreement are not subject to the Florida Electrical Power Plant Siting Act, because each project will be smaller than 75 MW, and accordingly, the projects contemplated herein will be subject to the process and FPSC approval as specified herein. For each SoBRA and associated SoBRA Tranche, Tampa Electric will file a petition for approval of each SoBRA, provided that the SoBRA rate change for each Tranche shall not take effect before the dates specified in the aforementioned chart. Each petition for approval of a SoBRA or SoBRAs shall be filed in a separate stand-alone docket. The petition for approval of the first SoBRA (September 1, 2018) shall be made as soon as reasonably possible after the Commission vote to approve this 2017 Agreement. The petition for approval of each of the remaining SoBRAs shall be made in a separate stand-alone docket; the company may file the petitions for each Tranche for the following year at the time of the company's projection filings in the 2018, 2019 and 2020 Fuel and Purchased Power Cost Recovery Clause dockets ("Fuel Docket(s)") for the 2019, 2020 and 2021 factors, respectively, or the company may file each SoBRA petition at a convenient time throughout each year. The Parties contemplate that there will be a final true-up for the 2021 SoBRA, if needed. The Parties agree to request that, to the extent practicable, the deadlines and schedules in the Fuel Dockets apply to the petitions for approval of SoBRAs, so that the amount of solar generation approved for recovery through a SoBRA and related fuel cost savings can be synchronized with the Fuel Dockets.

(g) The issues for determination in each proceeding for approval of a SoBRA shall be limited to: (1) the cost effectiveness of the solar projects in the Tranche, (2) whether the installed

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 22

ATTACHMENT A  
Page 15 of 43

cost of each project in the Tranche is projected to be under the Installed Cost Cap, (3) the amount of revenue requirements and appropriate increase in base rates needed to collect the estimated annual revenue requirement for the projects in a Tranche, (4) a true-up of previously approved SoBRAs for the actual cost of the previously approved projects, subject to the sharing provisions in Subparagraph 6(m), and (5) a true-up through the Capacity Cost Recovery Clause ("CCR") of previously approved SoBRAs to reflect the actual in service dates and actual installed cost for each of the previously-approved projects. The cost effectiveness for the projects in a Tranche shall be evaluated in total by considering only whether the projects in the Tranche will lower the company's projected system cumulative present value revenue requirement ("CPVRR") as compared to such CPVRR without the solar projects.

(h) The Parties expect and intend that the first SoBRA will be effective as of September 1, 2018, based on the Parties' expectation and the company's intent that all projects in the 2018 Tranche will be fully operational and providing service as of September 1, 2018. To accommodate efficient planning and construction by the company, the Consumer Parties agree that Tampa Electric may request the Commission to consider approval of the 2018 Tranche as soon as practicable following approval of this 2017 Agreement. The Parties further intend that Commission action on the remaining SoBRAs will be resolved, to the extent practicable, on a schedule that is contemporaneous with the annual, regularly scheduled Fuel and Purchased Power Cost Recovery Docket hearings, provided, however, that the Commission on its own initiative or upon good cause shown by any Party to this 2017 Agreement or any other entity satisfying the standing requirements of Florida law may set Tampa Electric's request for approval of any SoBRA or SoBRA Tranche for a separate hearing to be held at any convenient time to

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 23

ATTACHMENT A  
Page 16 of 43

permit timely resolution before the company's projected In-Service date for the SoBRA Tranche that is the subject of such petition and hearing.

(i) The SoBRA increases approved pursuant to this 2017 Agreement shall be calculated based upon Tampa Electric's billing determinants used in the company's then-most-current ECCR Clause filings with the Commission for the twelve months following the effective date of any respective SoBRA. To the extent necessary, this will include projections of such billing determinants into a subsequent calendar year so as to cover the same 12 months as the first 12 months of each Tranche of solar projects' operations. The exception to this will be the first Tranche of SoBRA, which is to go into effect on September 1, 2018. In the case of this Tranche, the billing determinants used will be from the 2017 ECCR Clause filing for the 12 months of 2018 and the base rate adjustment derived on an annual basis but only applied to bills for the four months from September 2018 through December 2018 and then for the 12 months of 2019. The revenue requirement for each SoBRA Tranche shall be allocated to the rate classes using the 12 CP and 1/13<sup>th</sup> method of allocating production plant and shall be applied to existing base rates, charges and credits using the following principles:

(i) 40% of the revenue requirements that would otherwise be allocated to the lighting class under the 12 CP and 1/13<sup>th</sup> methodology shall be allocated to the lighting class for recovery through an increase in the lighting base energy rate and the remaining 60% shall be allocated ratably to the other customer classes.

(ii) The revenue requirement associated with a SoBRA will be recovered through increases to demand charges where demand charges are part of a rate schedule, and through energy charges where no demand charge is used in a rate schedule.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 24

ATTACHMENT A  
Page 17 of 43

(iii) Within the GSD and IS rate classes, recovery of SoBRA revenue requirements allocated to those rate classes will be borne by non-standby demand charges only within a rate class, which methodology will not impact RS and GS rate classes.

(j) The solar capacity amounts specified in Subparagraphs 6(b) and 6(c) shall limit the maximum amount of solar capacity for which the company may recover costs through a SoBRA during each year of the Term, which may include recovery during 2022 for any SoBRA that satisfies the capacity and cost caps provided herein; provided, however, if Tampa Electric receives approval for SoBRA recovery for capacity amounts below the capacity amounts specified in Subparagraphs 6(b) and 6(c) in any year, the company can seek recovery of the unused capacity in a future petition for approval up to the Maximum Cumulative SoBRA for the applicable year as set forth in Subparagraph 6(b), provided such request is filed with the Commission during the Term of this 2017 Agreement. A SoBRA may become effective at any time during the Term or within one year after expiration of the Term, as limited by Subparagraph 6(d) and subject to the termination of the company's rights to seek SoBRA recovery if this 2017 Agreement is terminated pursuant to Paragraph 7 hereof.

(k) For each of the SoBRAs specified in Subparagraphs 6(b) and 6(c), the increased base rates shall be reflected on Tampa Electric's customer bills as specified herein. Tampa Electric will begin applying the increased base rate charges for each SoBRA concurrently with meter readings for the first billing cycle of September 2018 for the first SoBRA, subject to true-up as provided in Subparagraph 6(c). Tampa Electric will begin applying each subsequent SoBRA concurrently with meter readings for the first billing cycle of the month the Tranche is projected to go in service, subject to true-up as provided in Subparagraph 6(c). The Parties contemplate and intend that the final true-up for the 2021

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 25

ATTACHMENT A  
Page 18 of 43

SoBRA, if any, would be made to the CCR as soon as practicable following implementation of the 2021 SoBRA, if any.

(l) Subject to the revenue requirement limits in Subparagraph 6(b), the SoBRA for a Tranche will be calculated using the company's projected installed cost per kW<sub>ac</sub> for each project (subject to the Installed Cost Cap); reasonable estimates for depreciation expense (based on an initial average service life of 30 years for depreciable plant), property taxes and fixed O&M expenses; an incremental capital structure reflecting the then current midpoint ROE and a 54% equity ratio adjusted to reflect the inclusion of investment tax credits on a normalized basis.

(m) If Tampa Electric's actual installed cost for a project is less than the Installed Cost Cap, the company's customers and the company will share in the beneficial difference with 75% of the difference inuring to the benefit of customers and 25% serving as an incentive to the company to seek such cost savings over the life of this 2017 Agreement. By way of illustration, if the actual installed cost of a solar project is \$1,400 per kW<sub>ac</sub>, the final cost to be used for purposes of computing cost recovery under this 2017 Agreement and the true-up of the initial SoBRA shall be \$1,425 per kW<sub>ac</sub> [0.25 times (\$1,500 - \$1,400) + \$1,400].

(n) In order to determine the amount of each annual cost true-up, a revised SoBRA will be computed using the same data and methodology incorporated in the initial SoBRA, with the exception that the actual capital expenditures after sharing and the actual in-service date will be used in lieu of the capital expenditures on which the annualized revenue requirement was based. The difference between the cumulative base revenues since the implementation of the initial SoBRA factor and the cumulative base revenues that would have

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 26

ATTACHMENT A  
Page 19 of 43

resulted if the revised SoBRA factor (for cost and In-Service date true-ups) had been in place during the same time period will be trued up with interest at the AFUDC rate shown in Exhibit B used for the projects, and will be made through a one-time, twelve-month adjustment through the CCR clause. On a going forward basis, the base rates will be adjusted to reflect the revised SoBRA factors.

(o) Tampa Electric agrees to file monthly reports that will provide the same information as that filed with the Commission in Docket No. 20170007-EI by another utility for its solar projects, in order to reflect the performance of the solar projects after they have been placed in service.

(p) Tampa Electric's base rate and credit levels applied to customer bills, including the effects of the SoBRAs implemented pursuant to this 2017 Agreement, shall continue in effect until next reset by future unanimous agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as a result of a future general base rate proceeding. Any incentive attributed to the company during the term of this 2017 Agreement under Subparagraph 6(m) above will not be included in rate base in the company's next general base rate proceeding, meaning that when a solar asset plant balance is moved to base rates in the company's next general base rate case, only the actual cost -- not any incentive -- will be included.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 27

ATTACHMENT A  
Page 20 of 43

(q) For all new solar generation assets that Tampa Electric places in service during the Term, the lowest total installed cost per-kW solar energy resources up to the capacity amounts associated with the SoBRA mechanism will be attributed to the SoBRA mechanism in the event the company constructs more solar generation capacity than is subject to the SoBRA mechanism.

(r) Nothing in this 2017 Agreement shall preclude any Party to this 2017 Agreement or any other lawful party from participating, consistent with the full rights of an intervenor, in any proceeding that addresses any matter or issue concerning the SoBRA provisions of this 2017 Agreement.

7. Earnings.

(a) Notwithstanding Paragraph 2 and subject to the Trigger provisions in Subparagraph 2(b) above, if Tampa Electric's earned return on common equity falls below 9.25% during the Term on a monthly earnings surveillance report stated on an actual Commission thirteen-month average adjusted basis, Tampa Electric may petition the Commission to amend its base rates either through a general rate proceeding under Sections 366.06 and 366.07, Florida Statutes, or through a limited proceeding under Section 366.076, Florida Statutes. Nothing in this 2017 Agreement shall be construed as an agreement by the Consumer Parties that a limited proceeding would be appropriate, and Tampa Electric acknowledges and agrees that the Parties reserve and retain all rights to challenge the propriety of any limited proceeding or to assert that any request for base rate changes should properly be addressed through a general base rate case, as well as to challenge any substantive proposals to change the company's rates in any such future proceeding. This floor of 9.25% shall be subject to adjustment in accordance with the Trigger provision in Subparagraph 2(b). For purposes of this 2017 Agreement, "Commission

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 28

ATTACHMENT A  
Page 21 of 43

actual adjusted basis" and "actual adjusted earned return" shall mean results reflecting all adjustments to Tampa Electric's books required by the Commission by rule or order, but excluding pro forma adjustments. No Consumer Parties shall be precluded from participating in any proceeding initiated by Tampa Electric to increase base rates pursuant to this Paragraph 7, and no Consumer Party is precluded from opposing Tampa Electric's request.

(b) Notwithstanding Paragraph 2 and subject to the Trigger in Subparagraph 2(b) above, if Tampa Electric's earned return on common equity exceeds 11.25% during the Term on a monthly earnings surveillance report stated on an actual Commission thirteen-month average adjusted basis, no Consumer Party shall be precluded from petitioning the Commission for a review of Tampa Electric's base rates. In any case initiated by Tampa Electric or any other Party pursuant to Paragraph 7, all Parties will retain full rights conferred by law. The ceiling of 11.25% set forth in this Subparagraph shall be subject to adjustment in accordance with the Trigger provision in Subparagraph 2(b).

(c) Notwithstanding Paragraph 2 and subject to the Trigger provisions in Subparagraph 2(b) above, this 2017 Agreement shall terminate upon the effective date of any Final Order of the Commission issued in any proceeding pursuant to Paragraph 7 that changes Tampa Electric's base rates prior to the last billing cycle of December 2021.

(d) This Paragraph 7 shall not: (i) be construed to bar Tampa Electric from requesting any recovery of costs otherwise contemplated by this 2017 Agreement; (ii) apply to any request to change Tampa Electric's base rates that would become effective after the expiration of the Term of this 2017 Agreement; (iii) limit any Party's rights in proceedings concerning changes to base rates that would become effective subsequent to the Term of this 2017 Agreement to argue

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 29

ATTACHMENT A  
Page 22 of 43

that Tampa Electric's authorized ROE range should be different than as set forth in this 2017 Agreement; or (iv) affect the provisions of Subparagraphs 3(d) and 3(e) of this 2017 Agreement.

(e) Notwithstanding any other provision of this 2017 Agreement, the Parties fully and completely reserve all rights available to them under the law to challenge the level or rate structure (or the cost of service methodologies underlying them) of Tampa Electric's base rates, charges, credits, and rate design methodologies effective as of January 1, 2022 or thereafter. It is specifically understood and agreed that this 2017 Agreement does not preclude any Consumer Party from filing before January 1, 2022, an action to challenge the level or rate structure (or the cost of service methodologies underlying them) of Tampa Electric's base rates, charges and credits effective as of January 1, 2022 or thereafter.

8. Depreciation.

(a) The Parties agree and intend that, notwithstanding any requirements of Rules 25-6.0436 and 25-6.04364, F.A.C., the company shall not be required during the Term of this 2017 Agreement to file any depreciation study or dismantlement study. The depreciation and amortization accrual rates approved by the FPSC and currently in effect as of the Effective Date of this 2017 Agreement shall remain in effect during the Term or the company's next depreciation study, whichever is later. The Parties further agree that the provisions of Rules 25-6.0436 and 25-6.04364, F.A.C., which otherwise require depreciation and dismantlement studies to be filed at least every four years, will not apply to the company during the Term, and that the Commission's approval of this 2017 Agreement shall excuse the company from compliance with the filing requirement of these rules during the Term.

(b) Notwithstanding the non-deferral language in Paragraph 4, unless the company proposes a special capital recovery schedule and the Commission approves it, if coal-fired

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 30

ATTACHMENT A  
Page 23 of 43

generating assets or other assets are retired or planned for retirement of a magnitude that would ordinarily or otherwise require a special capital recovery schedule, such assets will continue to be depreciated using their then existing depreciation rates and special capital recovery issues will be addressed in conjunction with the company's next depreciation study. If the company installs Automated Meter Infrastructure ("AMI") meters and retires Automated Meter Reading ("AMR") meters during the Term, such assets will continue to be depreciated using their then existing depreciation rates and special capital recovery issues will be addressed in conjunction with the company's next depreciation study.

(c) Notwithstanding the provisions of Subparagraph 8(a) above, the company shall file a depreciation and dismantlement study or studies no more than one year nor less than 90 days before the filing of its next general rate proceeding under Sections 366.06 and 366.07, Florida Statutes, such that there is a reasonable opportunity for the Consumer Parties to review, analyze and potentially rebut depreciation rates or other aspects of such depreciation and dismantlement studies contemporaneously with the company's next general rate proceeding. The depreciation and dismantlement study period shall match the test year in the company's MFRs, with all supporting data in electronic format with links, cells and formulae intact and functional, and shall be served upon all Consumer Parties and all intervenors in such subsequent rate case.

9. Federal Income Tax Reform.

(a) Changes in the rate of taxation of corporate income by federal or state taxing authorities ("Tax Reform") could impact the effective tax rate recognized by the company in FPSC adjusted reported net operating income and the measurement of existing and prospective deferred federal income tax assets and liabilities reflected in the FPSC adjusted capital structure.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 31

ATTACHMENT A  
Page 24 of 43

When Congress last reduced the maximum federal corporate income tax rate in the Tax Reform Act of 1986, it included a transition rule that, as an eligibility requirement for using accelerated depreciation with respect to public utility property, provided guidance regarding returning to customers the portion of the resulting excess deferred income taxes attributable to the use of accelerated depreciation. To the extent Tax Reform includes a transition rule applicable to excess deferred federal income tax assets and liabilities ("Excess Deferred Taxes"), defined as those that arise from the re-measurement of those deferred federal income tax assets and liabilities at the new applicable corporate tax rate(s), those Excess Deferred Taxes will be governed by the Tax Reform transition rule, as applied to most promptly and effectively reduce Tampa Electric's rates consistent with the Tax Reform rules and normalization rules.

(b) If Tax Reform is enacted before the company's next general base rate proceeding, the company will quantify the impact of Tax Reform on its Florida retail jurisdictional net operating income thereby neutralizing the FPSC adjusted net operating income of the Tax Reform to a net zero. The company's forecasted earnings surveillance report for the calendar year that includes the period in which Tax Reform is effective will be the basis for determination of the impact of Tax Reform. The company will also adjust any SoBRAs that have not yet gone into effect to specifically account for Tax Reform. The impacts of Tax Reform on base revenue requirements will be flowed back to retail customers within 120 days of when the Tax Reform becomes law, through a one-time adjustment to base rates upon a thorough review of the effects of the Tax Reform on base revenue requirements consistent with Subparagraph 9(a). This adjustment shall be accomplished through a uniform percentage decrease to customer, demand and energy base rate charges for all retail customer classes. Any effects of Tax Reform on retail revenue requirements from the Effective Date through the date of the one-time base rate

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 32

ATTACHMENT A  
Page 25 of 43

adjustment shall be flowed back to customers through the ECCR Clause on the same basis as used in any base rate adjustment. An illustration is included as Exhibit C. If Tax Reform results in an increase in base revenue requirements, the company will utilize deferral accounting as permitted by the Commission, thereby neutralizing the FPSC adjusted net operating income impact of the Tax Reform to a net zero, through the Term. In this situation, the company shall defer the revenue requirement impacts to a regulatory asset to be considered for prospective recovery in a change to base rates to be addressed in the company's next base rate proceeding or in a limited scope proceeding before the Commission no sooner than the end of the Term.

(c) All Excess Deferred Taxes shall be deferred to a regulatory asset or liability which shall be included in FPSC adjusted capital structure and flowed back to customers over a term consistent with law. If the same Average Rate Assumption Method used in the Tax Reform Act of 1986 is prescribed, then the regulatory asset or liability will be flowed back to customers over the remaining life of the assets associated with the Excess Deferred Taxes subject to the provisions related to FPSC adjusted operating income impacts of Tax Reform noted above. If the Tax Reform law or act is silent on the flow-back period, and there are no other statutes or rules that govern the flow-back period, then there shall be a rebuttable presumption that the following flow-back period(s) will apply: (1) if the cumulative net regulatory liability is less than \$100 million, the flow-back period will be five years; or (2) if the cumulative net regulatory liability is greater than \$100 million, the flow-back period will be ten years. The company reserves the right to demonstrate by clear and convincing evidence that such five or ten-year maximum period (as applicable) is not in the best interest of the company's customers and should be increased to no greater than 50 percent of the remaining life of the assets associated with the Excess Deferred Taxes ("50 Percent Period"). The relevant factors to support the

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 33

ATTACHMENT A  
Page 26 of 43

company's demonstration include, but are not limited to, the impact the flow-back period would have on the company's cash flow and credit metrics or the optimal capitalization of the company's jurisdictional operations in Florida. If the company can demonstrate, by clear and convincing evidence, that limiting the flow-back period to the 50 Percent Period, in conjunction with the other Tax Reform provisions related to deferred taxes within this 2017 Agreement, will be the sole basis for causing a full notch credit downgrade by each of the major rating agencies (i.e. Standard & Poor's and Moody's), as expressly reflected in a publicly available report of the agencies, it may file to seek a longer flow-back period.

10. Incentive Plan. The Parties consent to the FPSC's approval of and request that the Commission approve the company's Asset Optimization/Incentive Program as set forth in its Petition in Docket No. 160160-EI, dated June 30, 2016, for a four-year period beginning January 1, 2018, but with the following sharing thresholds: (a) up to \$4.5MM/year, 100% gain to customers; (b) greater than \$4.5MM/year and less than \$8.0MM/year, 60% to shareholders and 40% to customers; and (c) greater than \$8.0MM/year, 50% to shareholders and 50% customers.

11. Other.

(a) Except as specified in this 2017 Agreement, the company will enter into no new natural gas financial hedging contracts for fuel through December 31, 2022.

(b) The company agrees that it will not seek to recover any costs from its customers related to investments in oil and/or natural gas exploration, reserves, acreage and/or production, including but not limited to investments in gas or oil exploration or production projects that utilize "fracking" (hydraulic fracturing) or similar technology, for a period of no less than five years after the Effective Date.

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 34

ATTACHMENT A  
Page 27 of 43

(c) The company may not make separated/stratified sales from energy generated by solar assets being recovered through a SoBRA during the Term.

(d) For any non-separated or non-stratified wholesale energy sales during the Term, the company will credit its fuel clause for an amount equal to the company's incremental cost of generating or purchasing the amount of energy sold during the hours that any such sale was made.

(e) The full benefits of solar renewable energy credits ("RECs") (including any and all rights attaching to environmental attributes) associated with the solar projects subject to this 2017 Agreement, if any, will be retained for, and flowed through to, retail customers through the Environmental Cost Recovery Clause.

(f) All dollar values, asset determinations, rate impact values and revenue requirements in this 2017 Agreement are intended by the Parties to be retail jurisdictional in amount or formulation basis, unless otherwise specified.

12. New Tariffs. Nothing in this 2017 Agreement shall preclude Tampa Electric from filing and the Commission from approving any new or revised tariff provisions or rate schedules requested by Tampa Electric, provided that any such tariff request does not increase any existing base rate component of a tariff or rate schedule, or any other charge imposed on customers during the Term unless the application of such new or revised tariff, rate schedule, or charge is optional to Tampa Electric's customers.

13. Application of 2017 Agreement. No Party to this 2017 Agreement will request, support, or seek to impose a change to any term or provision of this 2017 Agreement. Except as provided in Paragraph 7, no Party to this 2017 Agreement will either seek or support any reduction in Tampa Electric's base rates, charges, or credits, including limited, limited-scope,

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 35

ATTACHMENT A  
Page 28 of 43

interim, or any other rate decreases, or changes to rate design methodologies, that would take effect prior to the first billing cycle for January 2022, except for any such reduction in base rates or charges (but not credits) requested by Tampa Electric or as otherwise provided for in this 2017 Agreement. Tampa Electric shall not seek interim, limited, or general base rate relief during the Term except as provided for in Paragraphs 6 or 7 of this 2017 Agreement. Tampa Electric is not precluded from seeking interim, limited or general base rate relief that would be effective during or after the first billing cycle in January 2022, nor are the Consumer Parties precluded from opposing such relief. Such interim relief may be based on time periods before January 1, 2022, consistent with Section 366.071, Florida Statutes, and calculated without regard to the provisions of this 2017 Agreement. Tampa Electric will not seek to adjust either the standby generator credit or the CCV credit either during the Term of this 2017 Agreement or thereafter, except by unanimous Agreement of the Parties approved by a Final Order of the Commission or a Final Order of the Commission issued as a result of a future general base rate proceeding.

14. Commission Approval.

(a) The provisions of this 2017 Agreement are contingent on approval of this 2017 Agreement in its entirety by the Commission without modification. The Parties further agree that this 2017 Agreement is in the public interest, that they will support this 2017 Agreement and that they will not request or support any order, relief, outcome, or result in conflict with the terms of this 2017 Agreement in any administrative or judicial proceeding relating to, reviewing, or challenging the establishment, approval, adoption, or implementation of this 2017 Agreement or the subject matter hereof.

(b) No Party will assert in any proceeding before the Commission that this 2017 Agreement or any of the terms in the 2017 Agreement shall have any precedential value. The

ORDER NO. PSC-2017-0456-S-EI  
DOCKET NOS. 20170210-EI, 20160160-EI  
PAGE 36

ATTACHMENT A  
Page 29 of 43

Parties' agreement to the terms in the 2017 Agreement shall be without prejudice to any Party's ability to advocate a different position in future proceedings not involving this 2017 Agreement. The Parties further expressly agree that no individual provision, by itself, necessarily represents a position of any Party in any future proceeding, and the Parties further agree that no Party shall assert or represent in any future proceeding in any forum that another Party endorses any specific provision of this 2017 Agreement by virtue of that Party's signature on, or participation in, this 2017 Agreement. It is the intent of the Parties to this 2017 Agreement that the Commission's approval of all the terms and provisions of this 2017 Agreement is an express recognition that no individual term or provision, by itself, necessarily represents a position, in isolation, of any Party or that a Party to this 2017 Agreement endorses a specific provision, in isolation, of this 2017 Agreement by virtue of that Party's signature on, or participation in, this 2017 Agreement.

(c) The Parties intend, and agree to request that the Commission's order state that approval of this 2017 Agreement in its entirety will resolve all matters in Docket No. 20160160-EI pursuant to and in accordance with Section 120.57(4), Florida Statutes, and that Docket No. 20160160-EI will be closed effective on the date the Commission's order approving this 2017 Agreement becomes final. The Parties further agree to request that Docket No. 20170057-EI be closed upon approval of this 2017 Agreement or as soon thereafter as is reasonably practical.

(d) No Party shall seek appellate review of any Commission order approving this 2017 Agreement.

15. Disputes. To the extent a dispute arises among the Parties about the provisions, interpretation, or application of this 2017 Agreement, the Parties agree to meet and confer in an effort to resolve the dispute. To the extent that the Parties cannot resolve any dispute, the matter may be submitted to the Commission for resolution.

~~NINTH-TENTH~~ REVISED SHEET NO. 3.200  
CANCELS ~~EIGHTH-NINTH~~ REVISED SHEET NO. 3.200

**STANDBY GENERATOR RIDER**

**SCHEDULE:** GSSG-1

**AVAILABLE:** At the option of the customer, available to commercial and industrial customers on rate schedule GSD, GSDT, SBF, and SBFT who sign a Tariff Agreement for the Provision of Standby Generator Transfer Service.

**CHARACTER OF SERVICE:** Upon notification by Tampa Electric Company, electric service to all or a portion of the customer's firm load will be transferred by the customer to a standby generator(s) for service.

**MONTHLY CREDITS:** Credits will be applied each billing period to the regular bill submitted under the GSD, GSDT, SBF, or SBFT rate schedule, for credits generated in the previous billing period.

**Credit:**

\$4,755.35/KW/Month payment for Average Transferable Demand of a customer's load to a standby generator(s).

**INITIAL TRANSFERABLE DEMAND:** To begin participation under this tariff, Initial Transferable Demand will be determined by Tampa Electric in the field at the customer's site by transferring the customer's normal load to the standby generator(s).

**AVERAGE TRANSFERABLE DEMAND:** For a control month, Transferable Demand is calculated by totaling the KWH produced by the standby generator(s) during all the control(s) in the month divided by the total control hours in the month (less the 30 minute customer response time to transfer load per control). This demand is then averaged with the calculated Transferable Demands from the previous service months (for a maximum of eleven) to determine the Average Transferable Demand. For non-control months, the Average Transferable Demand is the average of the calculated Transferable Demands of the previous twelve months.

**NOTIFICATION SCHEDULE:** All time periods stated in clock time. (Meters are programmed to automatically adjust for changes from standard to daylight savings time and vice versa.)

Normally the Company will notify customers to transfer load to standby generator(s) during the prime hours. These periods are:

SHEET NO. 6.021

Continued from Sheet No. 6.020

**CONTRACT CREDIT VALUE (CCV):** This incentive is applicable to any commercial or industrial customer with interruptible loads of 500 kW or greater who qualify to participate in the company's GSLM 2 & 3 load management programs. The credit is updated annually. The ~~2017-2018~~ and prior six years of historical CCVs per kW reduction at secondary voltage are:

| Year                 | Secondary            | Primary              | Subtransmission      |
|----------------------|----------------------|----------------------|----------------------|
| <del>2017-2018</del> | <del>0.9810.23</del> | <del>0.8810.13</del> | <del>0.7810.03</del> |
| <del>2016-2017</del> | <del>0.849.88</del>  | <del>0.729.88</del>  | <del>0.639.78</del>  |
| <del>2015-2016</del> | <del>0.448.81</del>  | <del>0.068.72</del>  | <del>7.988.63</del>  |
| <del>2014-2015</del> | <del>7.728.14</del>  | <del>7.648.06</del>  | <del>7.577.98</del>  |

| <del>2011-2012</del> | <del>0.249.82</del>  | <del>0.429.72</del>  | <del>0.039.62</del>  |

Refer to Tariff sheets 3.210 and 3.230 for additional contract details.

**FUEL CHARGE:** Fuel charges are adjusted annually by the Florida Public Service Commission, normally in January.

**ENERGY CONSERVATION COST RECOVERY CLAUSE:** Energy conservation cost recovery factors recover the conservation related expenditures of the Company. The procedure for the review, approval, recovery and recording of such costs and revenues is set forth in Commission Rule 25-17.015, F.A.C. For rate schedules, RS, RSVP, GS, GST, and GSD Optional, cost recovery factors shall be applied to each kilowatt-hour delivered. For rate schedules, GSD, GSDT, IS, IST, SBF, SBFT, and SBI, cost recovery factors shall be applied on a kilowatt basis to the billing demand or supplemental billing demand and to the greater of the standby demand times 12% or the actual standby demand times 4.76%.

**CAPACITY COST RECOVERY CLAUSE:** In accordance with Commission Order No. 25773, Docket No. 910794-EQ, issued February 24, 1992, the capacity cost recovery factors shall be applied to each kilowatt-hour delivered for rate schedules, RS, RSVP, GS, GST, and GSD Optional. For rate schedules, GSD, GSDT, IS, IST, SBF, SBFT, and SBI the cost recovery factors shall be applied to each kilowatt of billing demand and supplemental billing demand and to the greater of the standby demand times 12% or the actual standby demand times 4.76%.

**ENVIRONMENTAL COST RECOVERY CLAUSE:** In accordance with Commission Order No. PSC-96-1048-FOF-EI, Docket No. 960688-EI, issued August 14, 1996, the environmental cost recovery factors shall be applied to each kilowatt-hour delivered.

FINAL ORDER APPROVING SETTLEMENT AGREEMENT

BY THE COMMISSION:

Background

On May 4, 2020, Tampa Electric Company (TECO) filed a Motion to Approve 2020 Agreement, attaching the 2020 Settlement Agreement (2020 Agreement). The 2020 Agreement, attached hereto, is signed and executed by TECO, the Office of Public Counsel (OPC), the

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 3

Florida Industrial Power Users Group (FIPUG), the Florida Retail Federation (FRF), the Federal Executive Agencies (FEA), and the West Central Florida Hospital Utility Alliance (HUA) (collectively, the Signatories). The 2020 Agreement was filed in Docket Nos. 20200064-EI,<sup>1</sup> 20200065-EI,<sup>2</sup> 20200067-EI,<sup>3</sup> and 20200092-EI<sup>4</sup> because it impacts, in part, all of these dockets. Docket No. 20200145-EI was opened to have one central docket in which to address the 2020 Agreement. The Signatories are deemed parties for purposes of our consideration of the 2020 Agreement.

TECO contends that if the 2020 Agreement is approved, it will establish, as to TECO, a series of stipulations that will reduce the issues to be litigated in Docket Nos. 20200067-EI and 20200092-EI, thereby allowing the Signatories and us to focus on the merits of TECO's Storm Protection Plan and the recovery of the costs associated with that Plan in 2020 and 2021 in Docket No. 20200092-EI. TECO states that if the 2020 Agreement is approved, it will resolve all issues currently pending in Docket No. 20200065-EI, and reduce the issues to be litigated in Docket No. 20200064-EI.

The 2020 Agreement also presents a base rate revenue reduction amount and reflects a determination of certain expenses for which TECO plans to seek cost recovery through the Storm Protection Plan Cost Recovery Clause, Docket No. 20200092-EI. TECO contends that approval of the 2020 Agreement promotes regulatory economy and administrative efficiency, and avoids the time and expense associated with litigating the settled issues in the various existing and continuing Commission dockets.

TECO, with the support of the Signatories, requested an administrative hearing for us to consider the 2020 Agreement. TECO stated that the Signatories to the 2020 Agreement believe that approval of the 2020 Agreement is in the best interests of the customers the Signatories represent, and that the 2020 Agreement in its totality is in the public interest. TECO stated that the Signatories agree that if the 2020 Agreement is approved, then the approval of the 2020 Agreement will resolve specified matters in Docket Nos. 20200064-EI, 20200065-EI, 20200067-EI, and 20200092-EI.

We held an administrative hearing on June 9, 2020. In addition to oral argument by the Signatories, we heard testimony from two TECO witnesses and admitted documentary exhibits into the record, all in support that approval of the 2020 Agreement is in the public interest. As part of this hearing, we provided notice that there was an opportunity for members of the public who wished to testify on this matter to do so either telephonically or by submitting written comments. No requests for public testimony were made, and no written comments were filed. At the conclusion of the evidentiary portion of the hearing, the parties indicated that they were

willing to waive the filing of post-hearing briefs, and we approved the 2020 Agreement, as set forth herein, by bench vote.

The 2020 Settlement Agreement

The 2020 Agreement reduces the scope of potentially litigated issues in three dockets and fully resolves all matters in one docket.

Docket No. 20200064-EI: Petition for a Limited Proceeding to Approve Fourth SoBRA

*Section I, paragraphs 1-4*

In Docket No. 20200064-EI, a potential issue concerns whether TECO's solar projects qualify for treatment under the Solar Base Rate Adjustment (SoBRA) provisions of its 2017 Amended and Restated Stipulation and Settlement Agreement (2017 Agreement).<sup>5</sup> A requirement for eligibility of a 2021 SoBRA is that the calculation of the actual average installed cost value for the First and Second Solar Base Rate Adjustments (SoBRAs) is below a set threshold of \$1,475 per KWac. The provisions of Section I of the 2020 Agreement will resolve how this calculation should occur, and the values to be input will be based on the outcome of pending Docket No. 20200144-EI, Petition to True-up First and Second SoBRAs. TECO's petition and prefiled testimony in Docket No. 20200144-EI purportedly will show that its average cost of the SoBRA projects are at or below the threshold value. In this way, the Signatories assert that approval of the 2020 Agreement potentially simplifies the issues that will be litigated in Docket 2020064-EI.

Docket No. 20200065-EI: Petition to Eliminate Accumulated Amortization Reserve Surplus for Intangible Software Assets

*Section II, paragraphs 5-9*

TECO is required to record a credit of approximately \$16.0 million to amortization expense over 12 months beginning retroactively in January 2020. This is the relief TECO has requested in its revised petition filed in Docket No. 20200065-EI. Furthermore, the Signatories agree that granting TECO's revised petition will not violate the 2017 Agreement or require amendments to the 2017 Agreement. Approval of the 2020 Agreement would therefore grant the relief TECO is now requesting and Docket No. 20200065-EI can be closed.

---

<sup>5</sup> Order No. PSC-2017-0456-S-EI, issued on November 27, 2017, in Docket Nos. 20170210-EI, *In re: Petition for limited proceeding to approve 2017 amended and restated stipulation and settlement agreement, by Tampa Electric Company*, and 20160160-EI, *In re: Petition for approval of energy transaction optimization mechanism, by Tampa Electric Company*, approving the 2017 Amended and Restated Stipulation and Settlement Agreement (2017 Agreement).

DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 5

Docket No. 20200067-EI: Review of TECO's 2020-2029 Storm Protection Plan pursuant to Rule 25-6.030, F.A.C.

Section III of the 2020 Agreement discusses the Signatories' agreements pertaining to TECO's Storm Protection Plan (SPP) filings in Docket No. 20200067-EI and TECO's anticipated filings in the Storm Protection Plan Cost Recovery Clause (SPPCRC) Docket No. 20200092-EI.

*Section III, paragraph 10*

The Signatories agree that TECO will provide project-level details in the SPP docket for years 2020 and 2021. Furthermore, the Vegetation Management Program, Infrastructure Inspection Program, and Legacy Storm Hardening Plan Initiatives Program<sup>6</sup> do not have project components. Similarly, the Signatories agree that TECO's Extreme Weather Hardening Study does not have project components during 2020 and 2021.

*Section III, paragraph 15(a)*

The Signatories agree that nothing in the 2020 Agreement shall be construed to prevent any party from challenging the reasonableness and/or prudence of all or part of any SPP program or project in any future proceeding, nor limit the amount of allowed discovery as specified in the Order Establishing Procedure for Docket Nos. 20200067-EI or 20200092-EI.

*Section III, paragraph 15(c)*

The Signatories will meet beginning October 1, 2020, and for a period of up to 60 days, to identify a method to modify the analytical framework TECO used in developing its SPP in Docket No. 20200067-EI. The good faith objective is to establish a unanimous and mutually agreed-upon method consistent with applicable statutes and rules that TECO will use thereafter unless the resulting framework is changed by agreement of the Signatories.

Docket No. 20200092-EI: Storm Protection Plan Cost Recovery Clause

Section III of the 2020 Agreement sets forth matters pertaining to TECO in Docket No. 20200092-EI and discusses a one-time reduction in base rates of approximately \$15 million.

*Section III, paragraph 10*

Pursuant to the 2020 Agreement, TECO is required to provide project level details for projects it is planning for 2020 and 2021 when it files its petition for cost recovery.

---

<sup>6</sup> The term "Legacy Storm Hardening Plan Initiatives" refers to seven initiatives contained in TECO's approved storm hardening plan pursuant to Order No. PSC-2019-0302-PAA-EI, issued July 29, 2019, in Docket No. 20180145-EI. The seven initiatives are now grouped as one program with that name.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 6

*Section III, paragraph 11*

This section and its subparts describe the Signatories' agreement to regulatory methods that allow TECO to recover through the SPPCRC its SPP operations and maintenance (O&M) expenses incurred during 2020 and 2021 that are incremental to its base rates. The O&M expenses are for six activities identified in TECO's SPP: Planned Distribution Vegetation Management, Planned Transmission Vegetation Management, Transmission Vegetation Management-ROW Maintenance, Infrastructure Inspections, Distribution and Transmission Wood Pole Inspections, and Transmission Asset Upgrades.

TECO may seek recovery of its 2020 O&M expenses for the period May through December in excess of the total expenses of approximately \$10.3 million shown on Exhibit 3 of the 2020 Agreement. Recovery of all of TECO's 2021 SPP O&M expenses through the SPPCRC is contingent on a one-time base rate reduction of approximately \$15 million shown on Exhibit 2 of the 2020 Agreement. The one-time base rate reduction is to be effective contemporaneous with the beginning of cost recovery via the SPPCRC.<sup>7</sup>

*Section III, paragraph 12*

Concerning capital projects, the Signatories agree that cost recovery shall remain in base rates for projects initiated prior to April 10, 2020. The Signatories define the term "initiated" to mean when, in the normal and ordinary course of business, the first dollar is posted to the project work order as reflected in TECO's accounting system in accordance with its standard procedures.

Project records and fixed asset records for SPP capital projects will be maintained in a manner that clearly distinguishes capital and assets recovered in retail rate base from capital and assets recovered through the SPPCRC. The return on investment and depreciation expense associated with capital projects initiated on or after April 10, 2020, shall be eligible for cost recovery through the SPPCRC, subject to a prudence review in the SPPCRC docket.

For assets being retired and replaced with new assets as part of an SPP program, TECO will not seek to recover the cost of removal net of salvage associated with the related assets to be retired through the SPPCRC. Rather, such net cost of removal will be debited to TECO's accumulated depreciation reserve according to normal regulatory plant accounting procedures. Additionally, any depreciation expense from SPP asset additions will be reduced by the depreciation expense savings that results from the retirement of assets removed from service during the SPP project. Only the net of the two depreciation amounts will be recoverable through the SPPCRC.

---

<sup>7</sup> Section III, paragraph 15(b) notes that to the extent the base rate adjustment is inconsistent with paragraph 4 of the 2017 Agreement, the Signatories agree that the 2017 Agreement is hereby amended, as necessary to accomplish the base rate adjustment.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 7

TECO retains the option to seek to move prospective cost recovery from the SPPCRC to base rates for costs that have been determined prudently incurred through a final true-up in the SPPCRC. This request would be through a petition pursuant to Sections 366.06 and/or 366.07, Florida Statutes.

*Section III, paragraph 13*

The Signatories acknowledge that TECO's Distribution Pole Replacement program is a legacy storm hardening activity that is included in TECO's SPP. However, cost recovery for the plant additions and retirements associated with all distribution pole replacements will remain through base rates. This includes O&M expenses from asset transfers related to distribution pole replacements.

*Section III, paragraph 14*

The Signatories agree that TECO will not aggregate certain SPP capital projects as a means of demonstrating that it has met the threshold for accruing Allowance for Funds Used During Construction in Rule 25-6.0141, Florida Administrative Code. The 2020 Agreement includes guidance on this matter addressing factors such as geographic vicinity, same SPP program, contractor, or project manager.

Decision

The standard for approval of a settlement agreement is whether it is in the public interest.<sup>8</sup> A determination of public interest requires a case-specific analysis based on consideration of the proposed settlement taken as a whole.<sup>9</sup> By approving the 2020 Agreement, the 2020 Agreement promotes regulatory economy and administrative efficiency, and avoids the time and expense associated with litigating the settled issues in the various existing and continuing Commission dockets.

Based upon TECO's motion, our review of the 2020 Agreement, and evidence and testimony on the record, we find that the 2020 Agreement is in the public interest and it is hereby

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request: 1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Office of Commission Clerk, and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.

**2020 SETTLEMENT AGREEMENT**

THIS AGREEMENT is dated this 27th day of April 2020 and is by and between Tampa Electric Company ("Tampa Electric" or the "company") and the Office of Public Counsel ("OPC" or "Citizens"), the Florida Industrial Power Users Group ("FIPUG"), the Florida Retail Federation ("FRF"), the Federal Executive Agencies ("FEA") and the West Central Florida Hospital Utility Alliance ("HUA"). Collectively, Tampa Electric, OPC, FIPUG, FRF, FEA and HUA shall be referred to herein as the "Parties" and the term "Party" shall be the singular form of the term "Parties." OPC, FIPUG, FRF, FEA and HUA will be referred to herein as the "Consumer Parties." This document shall be referred to as the "2020 Agreement."

**Recitals**

**2017 Agreement**

A. Tampa Electric is operating under its 2017 Amended and Restated Stipulation and Settlement Agreement ("2017 Agreement") approved by the Florida Public Service Commission

**ATTACHMENT A**

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 11

Attachment A

("FPSC" or "Commission").<sup>1</sup> Among other things, paragraph 6 of the company's 2017 Agreement contains a provision that authorizes the company to recover the costs of certain qualifying solar generating projects through a solar base rate adjustment mechanism ("SoBRA") based on projected costs and estimated in-service dates, with true-ups for both. It also contains provisions addressing depreciation [paragraph 8], customer rates [paragraph 3(a)], other cost recovery [paragraph 4], storm damage [paragraph 5] and changes in federal and state income tax rates [paragraph 9].

B. The Commission has approved three SoBRAs for Tampa Electric totaling 550 MW of solar capacity. The First SoBRA was approved by Order No. PSC-2018-0288-FOF-EI, issued June 5, 2018, in Docket No. 20170260-EI. The Second SoBRA was approved by Order No. PSC-2018-0571-FOF-EI, issued December 7, 2018, in Docket No. 20180133-EI. The Third SoBRA was approved by Order No. PSC-2019-0477-FOF-EI, issued November 12, 2019, in Docket No. 20190136-EI. The Commission has also approved two base rate reductions for Tampa Electric to reflect changes to federal and state corporate income tax rates (Docket Nos. 20180045-EI and 20190203-EI) and approved cost recovery for four named storms by Tampa Electric without a base rate increase or storm surcharge appearing on customers' bills (Docket No. 20170271-EI) — all pursuant to the 2017 Agreement. The 2017 Agreement has promoted regulatory certainty and efficiency and has proven to be in the public interest.

Fourth SoBRA  
and First and Second SoBRA True-Up

C. On February 27, 2020, Tampa Electric filed a notice with the Commission advising the Commission and Consumer Parties to the 2017 Agreement that it has met the requirements to

---

<sup>1</sup> The Commission approved the 2017 Agreement by Order No. PSC-2017-0456-S-EI, issued on November 27, 2017 in Docket Nos. 20170210-EI and 20160160-EI.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 12

Attachment A

qualify to petition for approval of its Fourth SoBRA totaling 45.7 MW with an effective date of January 1, 2021. The Commission opened Docket No. 20200064-EI for use when the company files its final SoBRA petition.

D. Tampa Electric will soon be filing a petition to true-up its First and Second SoBRAs. The company will request approval of tariff changes that reflect the actual annual revenue requirements for the seven projects in the First and Second SoBRAs and permission to implement those changes effective with the first billing cycle for January 1, 2021, or another date to be decided by the Commission. The company will also request that the FPSC approve the company's proposed revenue true-up — a credit to customers — and to allow the company to apply the credit amount to customers through the Capacity Cost Recovery Clause for 2021. The Office of Public Counsel plans to intervene in that proceeding.

Software Amortization Petition

E. On February 28, 2020, Tampa Electric filed a petition (Docket No. 20200065-EI) seeking FPSC permission to eliminate an approximately \$16 million accumulated amortization reserve surplus for intangible software assets through a credit to amortization expense in 2020. OPC filed a notice of intervention in that docket on March 24, 2020. The Commission acknowledged OPC's intervention by Order No. PSC-2020-0091-PCO-EI, issued on March 27, 2020.

Storm Protection Plan and Cost Recovery Clause

F. In 2019, the Florida Legislature enacted section 366.96, Florida Statutes, entitled "Storm protection plan cost recovery." Section 366.96(3) requires Tampa Electric and the other public electric utilities to file a transmission and distribution storm protection plan ("SPP") at least every three years that covers the immediate 10-year planning period, and explain the systematic

ORDER NO. PSC-2020-0224-AS-EI

20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 13

Attachment A

approach they will follow to achieve the objectives of reducing restoration costs and outage times associated with extreme weather events and enhancing reliability. The Commission must determine whether it is in the public interest to approve, approve with modification, or deny each utility's transmission and distribution storm protection plan no later than 180 days after the utility files a plan that contains all of the elements required by Commission Rule. The new statute also creates a storm protection plan cost recovery clause ("SPPCRC") to promote the timely recovery of costs incurred by a utility pursuant to its Storm Protection Plan. Rules 25-6.030 and 25-6.031, Florida Administrative Code, were adopted by the Commission to implement section 366.96.

G. Rule 25-6.030 requires each utility to file a SPP at least every three years with the Commission, and specifies the required elements of the utility's SPP. Subsection 25-6.030(3)(h) requires a Plan to include "an estimate of rate impacts for each of the first three years of the Storm Protection Plan for the utility's typical residential, commercial, and industrial customers." Pursuant to the Order Establishing Procedure for the SPP Dockets, each public electric utility, including Tampa Electric, must file a SPP by April 10, 2020.

H. Rule 25-6.031 governs the new SPPCRC created by section 366.93, Florida Statutes. Subsection 6(b) of that rule states: "Storm Protection Plan costs recoverable through the clause shall not include costs recovered through the utility's base rates or any other cost recovery mechanism."

I. The FPSC established Docket No. 20200067-EI for the filing and approval of Tampa Electric's SPP. It also opened Docket No. 20200092-EI for the consideration of issues related to SPP costs through the SPPCRC. Tampa Electric anticipates filing its petition for storm protection plan cost recovery in Docket No. 20200092-EI (SPPCRC), as required by the Docket Schedule, in late July 2020.

PAGE 14

Attachment A

Overall Regulatory Activity

J. The cumulative total of the regulatory activity described above, together with the other annual clause proceedings and other dockets pending at the FPSC, is greater than normal and led Tampa Electric, OPC, and the other Consumer Parties to discuss ways to resolve some or all of the potentially time-consuming issues in the dockets listed above by agreement or stipulation in a manner that promotes regulatory economy and administrative efficiency and that serves the public interest. This 2020 Agreement is the product of those discussions and is being filed for approval in the above-styled four Dockets to resolve some or all of the issues in those dockets as discussed further below.

K. The Parties have entered into this 2020 Agreement in compromise of positions taken in accord with their rights and interests under chapters 350, 366 and 120, Florida Statutes, as applicable, and as part of a negotiated exchange of consideration among the Parties to this 2020 Agreement, each Party has agreed to concessions to the others with the expectation, intent, and understanding such that all provisions of the 2020 Agreement, upon approval by the Commission, will be enforced by the Commission as to all matters addressed herein with respect to all Parties. The Parties agree that this 2020 Agreement is in the public interest and should be approved.

NOW, THEREFORE, in light of the mutual covenants of the Parties and the benefits accruing to all Parties through this 2020 Agreement, and for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 15

Attachment A

Terms

**I. Docket No. 20200064-EI: Petition to Approve Fourth SoBRA**

The Parties agree and stipulate as follows:

1. OPC has taken the position that, for the company to meet the cost cap trigger for the 2021 Tranche specified in paragraph 6 of the 2017 Agreement ("Fourth SoBRA"), a two-part test applies, namely: the average cost of the projects in the First SoBRA must be less than or equal to \$1,475 per kWac and, in addition, the average cost of the projects in the Second SoBRA must be less than or equal to \$1,475 per kWac.

2. The company believes that for the company to meet the cost cap trigger for the Fourth SoBRA, a one-step test applies, namely: the average cost of the projects in the First and Second SoBRAs, taken together, must be at or below \$1,475 per kWac.

3. To the extent the costs of the actual First and Second SoBRA projects as determined in the company's First and Second SoBRA True-Up docket make this difference an issue in Docket No. 20200064-EI, the Parties stipulate that the one-step test as described in paragraph 2 above shall be used to assess eligibility of the Fourth SoBRA for recovery under the SoBRA mechanism.

4. Nothing in this agreement shall limit any party to Docket No. 20200064-EI from taking any position, offering any evidence or advocating as it desires in Docket No. 20200064-EI, except as specified in paragraph 3.

**II. Docket No. 20200065-EI: Intangible Software Amortization Surplus.**

The Parties agree and stipulate as follows:

5. The surplus in the company's accumulated amortization reserve for Intangible Software in Account 303.15 as of December 31, 2019, was \$15,971,292.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 16

Attachment A

6. Granting the relief requested by Tampa Electric in Docket No. 20200065-EI (“Software Amortization Petition”) will not violate the 2017 Agreement or require the 2017 Amendment to be amended.

7. The relief requested by Tampa Electric in Docket No. 20200065-EI shall be granted.

8. Tampa Electric shall eliminate its approximately \$16.0 million accumulated amortization reserve surplus for intangible software assets through a credit to amortization expense in 2020.

9. Tampa Electric shall record the approximately \$16.0 million credit to amortization expense ratably over 12 months beginning retroactively in January 2020.

**III. Storm Protection Plan, Cost Recovery Clause and Base Rate True-Up**

The Parties agree and stipulate as follows:

10. Project-level Detail. Except for the four Programs specified below, Tampa Electric has included project-level detail for all Projects for 2020 in its initial Storm Protection Plan filed on April 10, 2020, for approval by the FPSC. It will provide project-level detail for all Projects it is planning for 2021 to the Consumer Parties on or before April 23, 2020. It will also include project-level detail for Projects it is planning for 2020 and 2021 when it files its petition for cost recovery through the SPPCRC. The Parties agree that the following three Programs do not have project components: (1) Vegetation Management, (2) Infrastructure Inspections and (3) Legacy Storm Hardening Plan Initiatives,<sup>2</sup> so project level detail is not needed or required for these three

<sup>2</sup> The term “Legacy Storm Hardening Plan Initiatives” refers to seven initiatives contained in the company’s last approved storm hardening plan that it has included in its SPP as one program with that name. The seven programs are Geographic Information System, Post-Storm Data Collection, Outage Data – Overhead and Underground Systems, Increase Coordination with Local Governments, Collaborative Research, Disaster Preparedness and Recovery Plan and Distribution Pole Replacement, and are described in Section 6.8 of the company’s SPP.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 17

Attachment A

Programs for 2020 and 2021. The Parties further agree that the company's Extreme Weather Hardening Study<sup>3</sup> does not have project components for at least 2020 and 2021; therefore, project level detail is not needed or required for this program in 2020 and 2021.

11. Operations and Maintenance Expenses. Tampa Electric will seek recovery of incremental Operations and Maintenance (O&M) expenses related to its proposed SPP programs in the following manner:

(a) Rather than recovering incremental SPP O&M expenses (i.e., SPP O&M costs that are over and above the O&M costs already recovered through base rates) through the SPPCRC, the company will seek to recover all of the O&M expenses associated with activities in its SPP through the SPPCRC (except as otherwise provided herein) and will reduce its base rates on a one-time basis by an agreed-upon amount. The agreed-upon, one-time base rate reduction amount is specified in paragraph 11(c), below, and reflects a good faith determination of the annual O&M expenses associated with six activities ("Six Activities")<sup>4</sup> that were being incurred prior to the filing of the company's SPP<sup>5</sup>, are currently being recovered through the company's base rates,

<sup>3</sup> As explained in section 6.4 of its SPP, the company's Substation Extreme Weather Hardening Program is designed to harden existing substations to minimize outages, reduce restoration times and enhance emergency response during extreme weather events. Hardening Projects within this Program could involve the installation of extreme weather protection barriers; installation of flood or storm surge prevention barriers; additions, modifications or relocation of substation equipment; modification to the designs of the company's substations; or other approaches identified to protect against extreme weather damage in or around the company's substations.

<sup>4</sup> The six activities are Planned Distribution Vegetation Management, Planned Transmission Vegetation Management, Transmission Vegetation Management – ROW Maintenance, Infrastructure Inspections, Distribution and Transmission Wood Pole Inspections and Transmission Asset Upgrades. The first three are now included the company's proposed Vegetation Management SPP program. The next two have been included the company's proposed SPP Infrastructure Inspection program. Transmission Asset Upgrades is included in the company's proposed SPP in a program by that name.

<sup>5</sup> There are two additional activities (Targeted Critical Facilities/Flood Damage Mitigation and Targeted Distribution Overhead Feeder Hardening) that are included in the company's SPP and shown on Exhibit One; however, the company did not incur O&M expenses for these activities in 2017, 2018 and 2019 and the agreed-to base rate reduction in paragraph 11(c) does not include O&M expenses for these activities. The costs associated with a third category of activity included in the SPP — Joint Use Pole Attachments Audits — are borne by the entities that attach to the company's poles, so the net expense to Tampa Electric for that activity is zero and did not factor into the calculation of the agreed-to base rate reduction.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,

Attachment A

have been included in the company's proposed SPP and for which the company will seek cost recovery through the SPPCRC. The purpose of the one-time, agreed-upon base reduction is to streamline cost recovery for the expenses associated with the Six Activities, so that all O&M expenses associated with the activities reflected in the SPP will be recoverable (subject to prudence review) via the SPPCRC, except as otherwise provided herein. The intent of this base rate true-up is to promote transparency and to ensure that the O&M expenses the company will recover through the SPPCRC do not include O&M expenses recovered through the utility's existing base rates or any other cost recovery mechanism as required by Rule 25-6.031(6)(b), Florida Administrative Code, in accord with section 366.96(8).

(b) The specified amount of base revenue reduction described above will be accomplished through one-time reductions to base rates using the cost allocation and rate design principles reflected in paragraph 3 of the 2013 Stipulation among the Parties as modified by paragraph 3 of the 2017 Agreement, and those same cost allocation and rate design principles shall be used to develop the cost recovery factors/rates that will be used for SPP cost recovery in the SPPCRC beginning in 2020 and annually thereafter as provided in paragraph 3(g) of the 2017 Agreement. The one-time base rate reductions will become effective contemporaneous with the beginning of cost recovery via the SPPCRC and remain in effect until the next Commission-approved change in the company's general base rates (i.e., in the company's next general base rate case). The company will file the revised tariffs necessary to implement the one-time base rate reduction specified herein for Commission approval in Docket No. 20200092-EI within a reasonable time following approval of this 2020 Agreement and on a schedule such that the necessary customer notices can be given and the proposed base rate reduction can become effective contemporaneous with the effective date of cost recovery by the company under the SPPCRC.

ORDER NO. PSC-2020-0224-AS-EI  
DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 19

Attachment A

(c) For each category of O&M expense for which cost recovery will be moved from base rates to SPPCRC (i.e., the Six Activities), the specified amount of base revenue reduction should be calculated as the company's average actual O&M expense for the most recent two years and grossed up for the regulatory assessment fee which is not reflected as a separate line-item on customers' bills. Based on the company's current plan to seek cost recovery under the SPPCRC in 2020, the company has calculated, and the Parties agree, that Tampa Electric's 2-year average actual annual O&M expense amounts for the Six Activities for 2018 and 2019 totals \$15.0 million per year as shown on Exhibit One and the grossed-up amount of the annual base revenue reduction is \$15,010,800. The manner in which this \$15.0 million O&M expense amount has been grossed up to reflect the \$15,010,800 annual base revenue reduction to be made is set out in Exhibit Two to this agreement.

(d) For purposes of this paragraph 11, the Parties intend that the \$15,010,800 agreed-upon base revenue reduction be final and not subject to further true-up, unless any of the Six Activities as a category used to calculate the \$15.0 million annual O&M expense amount are not allowed for cost recovery through the SPPCRC, in which case, the \$15.0 million amount and related base revenue reduction shall be reduced by the associated amounts shown in Exhibit One multiplied by the Regulatory Assessment Fee Multiplier shown on Exhibit Two. Notwithstanding the foregoing, the Parties agree that nothing in this Agreement shall preclude any Consumer Party from challenging the recovery of any specific cost or level of cost proposed for recovery by the company through the SPPCRC.

(e) In its 2020 SPPCRC filing, Tampa Electric may seek to recover 2020 SPP O&M expense for the Six Activities in the period May to December 2020 only to the extent that the May 2020 to December 2020 total expense for those activities exceeds the average of the total expense

Attachment A

incurred by the company for those activities in May through December 2018 and May through December 2019 as shown on Exhibit Three (i.e., \$10.4 million).

(f) Most of the Vegetation Management Program activities in the company's SPP are planned, meaning that the company develops a scheduled Vegetation Management plan that it intends to follow, i.e., trim specific circuits, etc. The company engages in two other general types of vegetation management activities, namely: (1) Vegetation Management associated with named storms, the costs of which are subject to recovery under paragraph 5 of the 2017 Agreement and the FPSC's storm cost recovery rules and (2) unscheduled or unplanned vegetation management activities necessitated by minor storm damage, identification of danger trees, automobile accidents, routine repair work and the like ("Unplanned Vegetation Management"). Even though the company's SPP includes Unplanned Vegetation Management as part of its overall Vegetation Management program, the company will continue to recover costs associated with Unplanned Vegetation Management activities through base rates and will not seek recovery of costs associated with those activities through the SPPCRC.

12. Rate Base Items. Tampa Electric will seek recovery of return on capital expenditures and assets related to the SPP programs, as well as the incremental depreciation expense for the SPP assets, in the following manner:

(a) Cost recovery for capital projects initiated prior to April 10, 2020, shall remain recovered through base rates. This means that both the return on investment associated with a capital project initiated before April 10, 2020 and the related depreciation expense shall continue to be recovered through base rates and will not be recoverable through the SPPCRC. For purposes of this section, a project shall be considered "initiated" when, in the normal and ordinary course of business, the first dollar is posted to the project work order as reflected in the company's

Attachment A

accounting system in accordance with the company's standard accounting procedures. This means that any capital project with an open work order in which costs have been posted before April 10, 2020 shall not be eligible for cost recovery through the SPPCRC.

(b) The return on investment and depreciation expense associated with capital projects initiated on or after April 10, 2020, shall be eligible for cost recovery through the SPPCRC, subject to a prudency review in the SPPCRC docket. For purposes of this section, a project shall be considered "initiated" when, in the normal and ordinary course of business, the first dollar is posted to the project work order as reflected in the company's accounting system in accordance with the company's standard accounting procedures. This means that any capital project with an open work order that did not have any costs charged to it before April 10, 2020, or opened on or after April 10, 2020, may be eligible for cost recovery through the SPPCRC, subject to a prudency review in the SPPCRC docket.

(c) To ensure that there is no double recovery between base revenue and SPPCRC revenue, the company will employ the following protocols for capital items:

(i) For assets being retired and replaced with new assets as part of a program in the company's SPP, the company will not seek to recover the cost of removal net of salvage associated with the related assets to be retired through the SPPCRC. Rather, such net cost of removal will be debited to the company's accumulated depreciation reserve according to normal regulatory plant accounting procedures.

(ii) For SPP capital projects, any depreciation expense from SPP asset additions will be reduced by the depreciation expense savings that results from the retirement of assets removed from service during the SPP project. Only the net of the two depreciation amounts will be recoverable through the SPPCRC.

DOCKET NOS. 20200145-EI, 20200064-EI,  
20200065-EI, 20200067-EI, and 20200092-EI  
PAGE 22

Attachment A

(iii) Project records and fixed asset records for SPP capital projects will be maintained in a manner that clearly distinguishes capital and assets in retail rate base from capital and assets being recovered through the SPPCRC.

(iv) Whenever the company petitions for a change to its base rates and charges pursuant to sections 366.06 and/or 366.07, Florida Statutes, the assets being recovered that have been determined prudent through a final true-up in the SPPCRC by the Commission as of the end of the historic year presented in the company's minimum filing requirement schedules may, at the Company's option, be simultaneously removed from SPPCRC recovery and included in retail rate base for the applicable test year by appropriate proforma adjustments. Thereafter, new SPP capital and assets related to SPP programs that were not included in the test year used to set base rates may be submitted for recovery through the SPPCRC petition process.

13. Distribution Pole Replacements. Distribution Pole Replacement is a legacy storm hardening activity that is included in the company's SPP in section 6.8.7. Due to the large number of annual pole replacements and the challenges associated with accounting for the associated mass asset additions and retirements, and as a matter of accounting and administrative efficiency, the company will include distribution pole replacements within its SPP; however, cost recovery for the plant additions and retirements associated with all distribution pole replacements (for the avoidance of doubt, this includes like kind replacements, replacements of existing poles with higher class wood poles, and/or concrete or steel for wood distribution poles identified through the company's Infrastructure Inspection Program) will remain through base rates, not through the SPPCRC. The company will also not seek recovery of the O&M expenses from asset transfers related to distribution pole replacements<sup>6</sup> through the SPPCRC.

<sup>6</sup> During a capital project that involves changing out a distribution pole, the costs associated with moving supporting fixtures and conductors and transferring them to new distribution poles, which sometimes involves rearranging and

14. No Bundling. The company will not, as a means of demonstrating that it has met the threshold for accruing Allowance for Funds Used During Construction ("AFUDC") in Rule 25-6.0141, Florida Administrative Code, aggregate SPP capital projects (a) that are not in the same geographic vicinity or (b) that would otherwise only be aggregated solely because the projects or activities: (i) are part of the same SPP program; (ii) will be performed by the same contractor; (iii) are part of the same SPP program budget or (iv) are being managed by the same company project manager.

15. Other SPP items.

(a) Nothing in this Agreement shall be construed to prevent any Party from challenging the reasonableness and/or prudence of all or part of any SPP program or project in any future proceeding, nor limit the amount of allowed discovery as specified in the Order Establishing Procedure for Docket Nos. 20200067-EI or 2020092-EI.

(b) To the extent the base rate adjustment described in paragraph 11 is inconsistent with paragraph 4 of the 2017 Agreement, the Parties agree that the 2017 Agreement is hereby amended, as necessary to accomplish the base rate adjustment.

(c) Beginning October 1, 2020 and for a period of up to 60 days thereafter, Tampa Electric shall meet with the Parties and will work in good faith with them to identify a method acceptable to all of the Parties to modify the analytical framework used in the development of the company's SPP in Docket No. 20200067-EI that: (1) complies with applicable statutes and rules and (2) reasonably recognizes the importance of protecting transmission and distribution facilities serving public safety customers and critical public infrastructure (e.g., hospitals, fire stations,

police stations, military installations, ports, airports, etc.). The company shall use any such unanimously and mutually agreed-upon method consistent with applicable statutes and rules when it prepares and files its next SPP for FPSC approval and thereafter unless the resulting modified framework is changed by agreement of the Parties.

**IV. Other Provisions**

**16. Commission Approval.**

(a) The provisions of this 2020 Agreement are contingent on approval of this 2020 Agreement in its entirety by the Commission without modification, regardless of the sequence of the individual above styled Docket decisions; further, any decision by the Commission not to approve any provision of this Agreement shall, per se and as a matter of law, render the Agreement null and void and of no force or effect. The Parties further agree that this 2020 Agreement is in the public interest, that they will support this 2020 Agreement and that they will not request or support any order, relief, outcome, or result in conflict with the terms of this 2020 Agreement in any administrative or judicial proceeding relating to, reviewing, or challenging the establishment, approval, adoption, or implementation of this 2020 Agreement or the subject matter hereof.

(b) No Party will assert in any proceeding before the Commission that this 2020 Agreement or any of the terms in the 2020 Agreement shall have any precedential value. The Parties' agreement to the terms in the 2020 Agreement shall be without prejudice to any Party's ability to advocate a different position in future proceedings not involving this 2020 Agreement. The Parties further expressly agree that no individual provision, by itself, necessarily represents a position of any Party in any future proceeding, and the Parties further agree that no Party shall assert or represent in any future proceeding in any forum that another Party endorses any specific provision of this 2020 Agreement by virtue of that Party's signature on, or participation in, this

2020 Agreement. It is the intent of the Parties to this 2020 Agreement that the Commission's approval of all the terms and provisions of this 2020 Agreement is an express recognition that no individual term or provision, by itself, necessarily represents a position, in isolation, of any Party or that a Party to this 2020 Agreement endorses a specific provision, in isolation, of this 2020 Agreement by virtue of that Party's signature on, or participation in, this 2020 Agreement.

(c) The Parties intend, and agree to request, that the Commission's order state that approval of this 2020 Agreement in its entirety will resolve the matters as specified herein in Docket Nos. 20200064-EI, 20200065-EI, 20200067-EI, and 20200092-EI and in accordance with section 120.57(4), Florida Statutes.

(d) No Party shall seek appellate review of any Commission order approving this 2020 Agreement in its entirety.

17. Disputes. To the extent a dispute arises among the Parties about the provisions, interpretation, or application of this 2020 Agreement, the Parties agree to meet and confer in an effort to resolve the dispute. To the extent that the Parties cannot resolve any dispute, the matter may be submitted to the Commission for resolution.

18. Execution. This 2020 Agreement is dated as of April 27, 2020. It may be executed in counterpart originals and a facsimile of an original signature shall be deemed an original.

IN WITNESS WHEREOF, the Parties evidence their acceptance and agreement with the provisions of this 2020 Agreement by their signature(s):

For the purpose of determining the maximum amount of Accumulated Deferred Income Taxes to be excluded from the rate base, or to be included as no-cost capital, Treasury Regulation 1.167(l)-1 requires the ADIT balance at the beginning of the future test period be adjusted by the pro rata portion of any projected monthly increase or decrease charged to this reserve. Per certain Private Letter Rulings, the pro ration begins in the month of the test year that the new rates are expected to take effect. The rulings also set forth a model for calculation of the adjustment. Failure to follow the normalization requirements under IRC section 167(l) for public utility property may result in the forfeiture of accelerated depreciation tax deductions.

**Tax Reform Proposal**

A. Introduction

Federal and state corporate income tax reform ("Tax Reform") can take many forms, including changes to income tax rates, deductibility of costs, and the timing of deductibility of certain costs. It can also affect the availability of tax credits. Changes in income tax rates by federal or state taxing authorities can impact the effective tax rate used by a utility to (1) calculate and report FPSC adjusted net operating income and (2) measure existing and prospective deferred income tax assets and liabilities in the FPSC adjusted capital structure.

Tax rate decreases will decrease the statutory tax rate used to calculate net operating income and generate excess accumulated deferred income tax ("ADIT") deficiencies. Tax rate increases will increase the statutory tax rate used to calculate net operating income and create ADIT deficiencies.

This document reflects Tampa Electric's proposal for addressing tax reform should it occur and become effective as described in the prepared direct testimony of Jeffrey S. Chronister.

B. Accumulated Deferred Income Taxes and Normalization

The Internal Revenue Code ("IRC") requires public utilities who use accelerated depreciation on utility property for tax purposes (like Tampa Electric) to follow a set of rules called "normalization requirements." These rules specify that a public utility can only use accelerated depreciation for income tax purposes if its regulator permits recovery of deferred income taxes on the differences resulting from using accelerated depreciation for income tax purposes and straight-line depreciation for book purposes.

Depreciation-related method and life differences are currently considered "protected" under the IRC; other book-tax temporary differences are considered "unprotected." The normalization requirements also apply to investment tax credits and certain contributions in aid of construction. Losing the ability to claim accelerated depreciation for federal income tax purposes is the penalty for failure to follow the normalization requirements. FPSC Rule 25-14.013, Florida Administrative Code ("FPSC Tax Rule"), acknowledges the protected/unprotected distinction in the IRC.

Consistent with the FPSC Tax Rule, the company records accumulated deferred income taxes in its accounting records when they arise based on the income tax rate expected to be in effect when the difference reverses, which ordinarily is the tax rate in

effect at the time an item of utility plant is placed in service. If the tax rate later declines, applicable accounting standards and the FPSC Tax Rule rule require the company to remeasure its ADIT balances at the lower rate, and a portion of the ADIT balance becomes "excess." If the tax rate later increases, the company must remeasure its ADIT balances at the higher rate, which can result in an ADIT "deficiency."

The FPSC Tax Rule addresses the impact of tax rate decreases *and increases* on ADIT, and states: "Each utility shall then recalculate all deferred income tax balances to reflect the enacted income tax rates in the period the timing differences are expected to reverse. The difference between the deferred income tax balances per books and the recalculated balances shall be recorded in regulatory asset and liability accounts as prescribed by the applicable Uniform System of Accounts at the time of recalculation."

When the federal corporate income tax rate was reduced in 1986 (Tax Reform Act of 1986) and 2017 (Tax Cuts and Jobs Act of 2017 or "TCJA"), Congress included a transition rule governing the remeasurement of protected ADIT at the new, lower rates called the average rate assumption method ("ARAM"), and Tampa Electric followed it. The ARAM required that protected ADIT be reduced (remeasured at the new, lower tax rate) over the remaining lives of the property that gave rise to the ADIT as the temporary

differences reverse. Failure to follow the ARAM for protected ADIT would have violated the normalization requirements in the IRC.

The TCJA did not specify a remeasurement rule for excess unprotected ADIT, but the Tax Reform provision in the company's 2017 Agreement (paragraph 9) required the company to amortize excess unprotected ADIT as a reduction to income tax expense ratably over a five- or ten-year period depending on the amount of unprotected excess ADIT.

C. Proposal

If Tax Reform is enacted after this proceeding is over and becomes effective in calendar years 2022 or 2023, or if tax reform is enacted too late in this proceeding to be considered, Tampa Electric proposes the following:

1. The company will calculate the impact of Tax Reform on its Florida retail jurisdictional net operating income thereby neutralizing the FPSC adjusted net operating income of the Tax Reform up or down to a net zero. The company will use its forecasted earnings surveillance report for the calendar year that includes the period in which Tax Reform is effective to calculate the impact of Tax Reform.

2. The impacts of Tax Reform on base revenue requirements as calculated in paragraph 1 - up or down - will be reflected in the company's general base rates and charges through a prospective adjustment to those rates and charges to be effective within the

later of: (a) 180 days from the date when Tax Reform becomes law or (b) the effective date of Tax Reform. This prospective adjustment to base rates and charges shall be accomplished through a uniform percentage change - up or down - to customer, demand and energy base rate charges for all retail customer classes.

3. Any effects of Tax Reform on retail revenue requirements from the effective date through the date of the base rate adjustment shall be flowed back to or collected from customers through the Energy Conservation Cost Recovery Clause on the same basis as used in any base rate adjustment.

4. The Company will adjust any GBRA that has not gone in effect up or down to reflect the new income tax rate on the revenue requirement for the GBRA. The effect of tax Reform on a GBRA that has gone into effect will be addressed as part of the calculation in paragraph 1, above.

5. ADIT Generally. Any excess ADIT or ADIT deficiencies arising from Tax Reform shall be deferred to a regulatory asset or liability which shall be included in FPSC adjusted capital structure and flowed back to or collected from customers over a term consistent with law and the terms of this proposal.

6. Protected Deferred Taxes. If the Tax Reform law contains requirements governing the remeasurement of protected ADIT at the new tax rate - up or down - such as the ARAM, the company will follow those requirements. If the Tax Reform law does not contain

requirements for "protected" ADIT, the company shall remeasure the ADIT arising from depreciation-related method and life differences - up or down - and adjust them up or down ratably over the total average remaining book life of the assets associated with the depreciation-related method and life differences.

7. Unprotected Deferred Taxes - Tax Rate Increase. If the Tax Reform law does not contain requirements governing the remeasurement of the kinds of ADIT that are currently considered "unprotected" and the tax rate goes up, the company shall net the amount of unamortized excess ADIT remaining on its books (from TCJA) as of the effective date of Tax Reform against the total unprotected ADIT deficiency arising from Tax Reform and shall amortize the resulting net ADIT excess or deficiency ratably over five years or ten years as follows: (a) over five years if the net excess or deficiency amount is \$100 million or less or (b) over ten years if the amount is over \$100 million.

8. Unprotected Deferred Taxes - Tax Rate Decrease. If the Tax Reform law does not contain requirements governing the remeasurement of the kinds of ADIT that are currently considered "unprotected" and the tax rate goes down, the company shall add the amount of unamortized excess deferred taxes remaining on its books (from TCJA) as of the effective date of Tax Reform to the total unprotected ADIT excess arising from Tax Reform and shall amortize the resulting total ADIT excess ratably over five years

or ten years as follows: (a) over five years if the total excess is \$100 million or less or (b) over ten years if the amount is over \$100 million.

9. The annual effect of the remeasurement of ADIT specified in paragraphs 6,7, and/or 8 shall be included as an increase or decrease to annual tax expense calculated at the new tax rate as specified in paragraph 1.

10. As subsequent information becomes available, such as the tax return being filed, any true ups or adjustments will be evaluated and implemented within 120 days of that information being available.

11. This proposal shall be accomplished in a limited proceeding initiated by the company and, except as required to perform the calculation in paragraph 1, without regard to the actual or projected earnings levels of the company and without a "rate case" type inquiry into the operations, investments, and finances of the company.
