**Subject:** RE: Docket #20240032-SU

Good morning,

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz  
Commission Deputy Clerk II  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399  
850.413.6770

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your e-mail message may be subject to public disclosure.

Sent from my iPhone Hello,

- > My name is Michelle Presnell. My husband Ken and I are owners of two units in the Don Pedro Colony on Palm Island.
- > I am writing to you to formally request that the EU application for wastewater be denied. After damage from hurricanes Helene and Milton, We have just had our septic system completely refurbished and repaired and are very happy with our system as is.
- > There are several concerns shared by my husband and I as well as many others on the Island.
- > The main concerns for us are the following:
  - > •The fact that there hasn't been any soil testing done to prove the need for sewer on the Island plus the potential of sewer spill into the intercostal.
  - > • The cost of the mandatory hook up along with added monthly costs from the waste water which doesn't included added costs from electric and upgrades needed for said systems.

> We should not be forced to take on the expense that this system will inflict upon us when it is absolutely not needed or wanted by owners!

> Please take these concerns into consideration and deny the Application for the Original Certificate of Authorization for this proposed sewer system.

>

> Thank you for your time and consideration , Michelle Presnell
