Dear Florida Public Service Commissioners,

As an FPL customer, I'm strongly against the proposed rate hike—the largest in U.S. history. This increase would hit especially hard for those on fixed incomes or struggling to make ends meet, and it's simply not fair.

With housing, healthcare, and basic living costs already sky-high, the last thing any of us need is a bigger electric bill. FPL is already highly profitable, so asking customers to pay more just to pad their bottom line is outrageous.

I'm asking you to reject FPL's request for a higher return on equity and base rate increase. The PSC should prioritize Floridians, not corporate greed, and work to keep utility rates reasonable.

Please stand with us and say NO to this massive rate hike.

Thank you for considering this.

Sincerely,

Cathleen Greene
