I am opposed to the proposed FPL rate hike of \$8.9 billion over 4 years.  
It is the largest rate hike in history. It will have a significant burden on all of its customers.  
FPL is making huge profits. They received a high increase in 2021, do they automatically get an increase every 4-5 years?  
We are all facing increased prices and utility bills are as basic and necessary as food and health.  
Please review this request thoroughly.
