Florida's Public Service Commission,

138 people have signed a petition on Action Network telling you to Say NO to Rate Hikes!.

Here is the petition they signed:

We, the undersigned, strongly oppose this largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

We urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

You can view each petition signer and the comments they left you below.

Thank you,

ReThink Energy Florida

Why don't YOU cut back instead of the people depending on your services and paying your salaries, having to choose electricity to keep their loved ones cool in one of the hottest Springs and likely to be a miserable if not record-breaking summer?! WTF is wrong with corporations like you??!!

You are pricing electricity out of the reach of many people. Our seniors may have to choose between medications or electricity. I don't think that Florida Power needs more money.

Barbara Backus

**83. Emily Jaffee** (*ZIP code: 33143*)

Please do not give FPI a another raise. They hold a monopoly on power here. No need gouch us.

**84. Stephany Mason** (*ZIP code: 33486*)

**85. Christine Ternenyi** (*ZIP code: 33458*)

Please do not agree to pass rate hikes for FPL. Their executives and employees make enough in bonuses yearly.

**86. Rich Siegel** (*ZIP code: 33334*)

Enough is enough, time to fire the PSC or rename them to the Corporate Service Commision.

**87. Matthew Kopka** (*ZIP code: 32301*)

Our family is struggling to pay our bills. No to more rate hikes!

**88. Cristina Garcia** (*ZIP code: 33145*)

**89. DeeVon Quirolo** (ZIP code: 34601)

A profit of 11.9% on a PUBLIC utility is just wrong and will hurt people who can't afford high electric bills during the hot summer months.

**90. Mary Braunagel** (ZIP code: 32308)

Devote more money to renewable energy and stop relying on working families to absorb price hikes. Getting power from solar wind and nuclear will keep prices down in the long run!

**91. Martin Osborne** (ZIP code: 33066)

**92. Linda Conner** (ZIP code: 33176)

Unrelenting rate hikes are unacceptable when there is no alternative for the consumer.

**93. Osmarie Fortich** (ZIP code: 33014)

**94. Kingsley Esezobor** (ZIP code: 32304)

**95. Marney Richards** (ZIP code: 32301)

Many can't afford higher utility rates. The company makes a good profit and executives are highly paid. These increases are not justified.

**96. Martina Brawer** (ZIP code: 32312)

Please do not increase our rates. It's hotter earlier and it was colder this winter. Groceries are more expensive and we're faced with increased prices due to tariffs. We're not buying new thing and cutting corners where we can, so please do your part.

**97. Owen McMeekin** (ZIP code: 32640)

**98. Sharon Fairbanks** (ZIP code: 32309)

With the costs of everything increasing in price, this is a hardship on many citizens right now. Please do not increase your profits right now.

Stop wating money in advertising

**107. Mark Fodor** (ZIP code: 32817)

**108. Carole Stephan** (ZIP code: 33060)

Those like myself, whose only income is SS, can barely pay the FPL bills now! A raise in rates would be devastating to many!

**109. Liz Erpelding-Garratt** (ZIP code: 32086)

**110. Holly Rothkopf** (ZIP code: 33437)

We just got our bill. It's the highest it's ever been. My mom's Social Security can't keep up with inflation and these price hikes. They should slash their advertising budget first! Why does a monopoly need to advertise so heavily.

Executive salaries should be cut before rates are increased. No public company CEO's or Chairman's should be earning over \$10,000,000/yr. They didn't invent electricity!!

**111. Kimberly Malajati** (ZIP code: 32209)

No more riches for corporations. Pay the people!

**112. beth finkelstein** (ZIP code: 33437)
