**COMPLAINT INFORMATION**

**Complaint:** Other Complaints against Tampa Electric Company  
**Details:**

This is a complaint on the FPSC and TECO. The FPSC needs to stop allowing electric companies from charging storm response surcharges following storms. In what other situation is a private company, who has a monopoly on the service they give, allowed to pass on expenses they have to pay to their customers. Just because they cannot find insurance to cover their costs is not customers' problem. Customers should also not be charged fees to pay for storm preparedness either. If TECO cannot afford to pay these costs, another utility company can take over..That is called capitalism. FPSC should be standing up for the interest of customers not utility companies.
