To The Public Service Commission,

As a 43 year resident of Florida and FPL customer, I know how important reliable power is—especially during hurricane season and the intense summer heat. I've seen firsthand how quickly FPL responds during outages, and I want to see that level of service continue. While I don't want to see rates increase, I support whatever is necessary to continue the great service FPL has provided to keep the lights on and respond with quick action when I need them most.

Thank you,

**Kim Lunn
