Subject: Water utilities

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I contact you in order to get the commission to reject the recommendation made by Staff to place any burden of the treating plant upgrades on the current residents of Grenelefe and instead allow the utility owner, Scott House, to recoup the \$20 million in upgrades from the new developers and new construction in Grenelefe through new connection fees.

Grenelefe and the water utilities were left in dispair by the Westgate Corporation and the current residents have suffered enough.

Residents sat through numerous Polk County Commission meetings where it was agreed these upgrades would be placed on new homes construction and we'd ask to honor those agreements.

Thanks and regards
