Subject: Grenelefe water treatment plant

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This email is to urge the commission to reject the staff recommendations to place any burden of the treatment plant upgrades on the current residents of Grenelefe and instead allow the utility owner, Scott House, to recoup the \$20 million in upgrades from the new developers and new construction in Grenelefe through new connections fees. Grenelefe and the water utility were left in disrepair by Westgate Corporation and the current resident have suffered enough.

Thank you for your attention to this request.
