Per Docket No.20250011 -EI

I citizens along with many others do not agree with the price hikes that Florida power and lights is trying to justify

Due to this company, being a monopoly and citizens only having one choice per company to use is greatly unfair and is causing the quality of life for many people to decline

We do not accept the price increase for this billion dollar company. There should be Florida statues that caps the amount they can increase per every few years.

I have spent over \$200,000 in upgrades on my home to be more energy efficient. When I moved in five years ago when Gulf Power was in charge, my light bills was \$285-\$300 a month. Since Florida Power & Light has taken over, my light bill has skyrocketed to \$1100 a month!!!! Which is absolutely insane

I keep every light off during the day AC on 76 installing new windows, AC roof, insulation, etc., and the amount in the end accurate readings of the meters that Florida power and lights charge is in more unethical and a monopoly
