Nick: Afternoon. Appreciate you putting it on the docket. You can also add, that I dont feel good about getting letters from FPL for surge protection, when FPL is the cause of my power being turned on & off as soon as a rain drop falls (many times it's not even raining). I've called them (long time ago) about there are more "power outages" now, than when I grew up in North Dade County during the 60's & 70's. Not to mention FPL funding (hoping they didnt get caught) candidates that support their rate raising activities. They also want to reduce the number of people using/getting solar panels. Want them to pay for the power grid-cause without their payments FPL says they dont have money to update equipment?

They're a monopoly. Tell them to find ways to save money—especially for the users.

Thanks Vince

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Vince Gonzalez
