Thank you for your message. I actually have additional comments for the record re: the prospect of increased utility rates by FPL. Florida is the Sunshine State. Sunshine. Lots of Sunshine. Yet, for decades, FPL fought against utilizing the free sunshine as an energy source. Year after year, regardless of innovation and improvements in this emerging sector, FPL made the stupidest decision to fight solar energy. Florida should have led the nation in the development of solar energy. But, no, FPL would rather do what they always did and DENY Floridians access to this energy source. Free energy source. And guess who is now the big proponent of solar? That's right — FPL. They advertise as if they are the ones w the big innovations and sudden love of solar energy. Kids playing in a field. Everybody happy happy. THIS so-called need to increase rates is a problem you caused, FPL. Did they have a Damascus Road experience about solar? I think not. Just think if FPL had used some of its resources to get ahead of the curve on this resource. Maybe our electric power rates would not need to increase so frequently. And maybe you don't need to increase rates.

Good Afternoon

We will be placing your comments below in consumer correspondence in Docket No. 20250011, and forwarding them to the Office of Consumer Assistance.

Thank you,

Nick Holmes

Commission Deputy Clerk II

Office of Commission Clerk

Florida Public Service Commission

Dear Florida Public Service Commissioners,

As a Florida Power & Light (FPL) customer, I strongly oppose the largest rate increase in U.S. History. This excessive hike would place an unfair burden on customers, especially low-income customers or older adults on fixed incomes who simply cannot afford to pay more.

With costs for housing, healthcare, and everyday essentials already high, the last thing I need is a higher electric utility bill. FPL is already a highly profitable company—asking customers to pay more just to boost corporate profits is completely unacceptable.

I urge you to reject FPL's request for a higher return on equity and increase to the monthly base rate. The PSC must prioritize customers over corporate greed and ensure utility rates remain fair and affordable.

Please stand up for Floridians and say NO to this massive rate hike.

Thank you for your time and consideration.

Sincerely,

Sharman Thompson
