Dear Governor DeSantis,

As one of your constituents and a voter who supported you, I am pleading with you to oppose the proposed FPL rate hikes. Since 2022, FPL has more than doubled its net income, earning \$4.55 billion in 2023. Despite these record profits, FPL is pushing for residential bills to climb sharply — in some areas up to three times higher — while certain large commercial accounts are spared through lawsuit settlements and reduced rates.

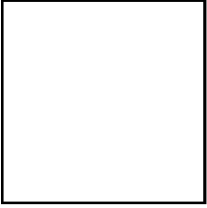

Governor, this feels deeply unfair. Families like mine are already struggling with Florida's sky-high property taxes, soaring insurance premiums, and rising housing costs. Adding another crushing expense for electricity — especially while FPL is thriving financially — will push many residents over the edge.

I voted for you because I believe in your promise to protect Florida families. I am asking you to use your leadership to stand with us against FPL's greed and ensure affordability remains a top priority for our state. Please don't let working families carry this burden while corporations benefit.

Sincerely,

Sorty Mejia

Thank you,
